---

Dear Sir or Madam

I have read the [report of the Advisory Mission](#) and agree with its principal finding, i.e. that the scheme would have an adverse impact on the OUV of the WHS and that a southern bypass should be further explored.

– The Mission admitted that at the very least the western limit of the tunnel should be extended to the WHS boundary.

– National Highways has simply reiterated many of the arguments it has raised previously to justify a scheme which is clearly unacceptable to so many key organisations concerned with the future of Stonehenge such as:

- Government’s independent specialist examiners,
  - UNESCO’s World Heritage Committee, and
  - the former Transport Secretary himself who agreed with the examining panel that the scheme would be “significantly adverse” overall.
- 
- I would be most grateful if you can urgently reconsider the application that will have such a devastating effect on the whole Stonehenge landscape

Kind Regards

Judy Hosegood
