---

Dear Heidi Cruikshank's Team.

Please find the attached explanations of my wishes regarding Nancarrow land under proposed Compulsory Acquisition. We brought these up at the C. A. Inspectors meeting and asked to put them in writing. I hope its all clear and comprehensible.

This is a personal submission from me. My partner family will be submitting their concerns too which may cover some of the same ground and issues aswell as others.

Please acknowledge receipt as before.

Thankyou.

Yours sincerely

Peter Mewton.

*My working days are Tuesday, Wednesday (or Saturday) & Friday.*

Objections to areas of Nancarrow that are subject to Compulsory Acquisition and the request that these areas be altered where necessary and returned to Nancarrow as workable agricultural fields.

Area on Works Map/Plan:

1. Field know as 'Three Corners', West of St Freda, through which a new section of road for local traffic is planned. On Highways England works plan, this area contains Pond 11; work number 30, 31, 28; Work number 1q, 2c, 2e and 8b; work number 66 and 32.
  - Pond 11 seems to have been sited on a considerable incline. Would it be better to site this further down into the unused part of the field (to the east) which is lower (more suited to drainage) and which would leave a larger area above as a useful field for Nancarrow agriculture. Alternatively, Nancarrow could retain the whole area around and below the pond wherever it is sited.
  - To the North of the new minor road, there are two triangular areas, one not under a Compulsory Acquisition and the other, is proposed for landscape planting. We object to having the second area taken unnecessarily out of our holding. If it was kept by us it would be, when added to the other retained land, usefully productive land for Nancarrow. Gate and hedge/fencing accommodation would be understood as provided by Highways England to all fields.
2. South side slip road
  - The return of the slip road and wooded area to Nancarrow and kept as amenity woodland with some agricultural use, fenced and gated as a single area.
3. Further West, behind Nancarrow Farm buildings
  - This area is where the planned and consented retirement home is to be destroyed and where a bat roost replacement building is to be erected. The whole area should be retained, without rights to Highways England, by Nancarrow for farming use.
