Subject: A30 Chiverton to Carland Cross Upgrade (PINS Ref TR010026) - SPR comments on documents submitted by the Applicant at Deadline 4
Date: 01 May 2019 17:03:26

Dear Sian

Please find below comments on behalf of ScottishPower Renewables (SPR) in relation to documents submitted by the Applicant at Deadline 4 in respect of the A30 Chiverton Cross to Carland Cross DCO.

1. SPR welcomes the updates made to Sheet 8 of the Works Plans (Document reference 2.4(C)) to reflect design changes agreed with SPR. SPR notes that the updated Sheet 8 corrects the tie-in error with the wind farm access road and now shows the roundabout over-run and the lay-by facility with two new labels added for Work No 5(a) and Work No. 5(p).
2. SPR also welcomes the update in Schedule 1 of the DCO (Document reference 3.1(D)) to the description of Work No. 5(a) and the addition of Work No. 5(p).
3. SPR would however request that the labelling on Sheet 8 of the Works Plans for Work No. 5(a) or alternatively the description of Work No. 5(a) itself within the DCO makes it clear that the layby from the existing A30 to the new roundabout forms part of Work No. 5(a).
4. SPR notes that Sheet 3 of the updated Works Plans does not show the over-run area across the northern roundabout of the new Chybuca junction as agreed between the Applicant and SPR and SPR would request that this is shown on Sheet 3 of the Works Plans.

Please do not hesitate to contact me should you require any further information.

Kind regards

Gerry
