I have tried to register as an interested party at "infrastructure.planninginspectorate.gov.uk" but the page will not open.

I attended a local meeting last night, and suggested that the main compound, should be sited to the West of the Birmingham dogs home, this would cause far less disruption to local residents, and business, and still give direct access to the new road, for heavy equipment, using what would become a slip road from one of the new traffic islands.

I would also like to take this opportunity, to state that this project, is going to cause disruption, not only for the four years of construction, but ongoing thereafter. I for one will be looking for compensation.

Regards,

Mr. Stephen E Thompson
