Subject: Submission by the Hampton in Arden Parish Council to DCO application

Dear Sirs

I write with reference to Deadline 5 of the DCO hearing into the application by Highways England for M42 Junction 6 Improvements.

The Parish Council has not previously made a submission being content to support the submissions made by Solihull MBC and Catherine-de Barnes Residents Association. Please note that David Cuthbert as Chair of the Residents Association is also a Parish Councillor representing the Catherine-de-Barnes Ward and he has the authority to represent the views of the Council in this matter.

However, and in the light of recent submissions, the Council now wishes to make the following comments:

1. The Parish Council, in principle, supports the free flow solution as being the most effective way of moving traffic freely from the M42 to the Clock Interchange and relieving Junction 6.
2. The proposed solution could be further modified in the south bound direction with the introduction of a small roundabout feature on the south side of the M42, which would reduce speeds. The consequences of this would be to minimise land take and cost and maximise the weaving distance between junction 5a and 5.

The Parish Council apologises for this submission being rather late in the process but hopes that it will be accepted.

Regards.

Julie Barnes
