# 1. Introduction

- 1.1.1 Highways England made an application under section 37 of the Planning Act 2008 for an order granting development consent (DCO) for the proposed M25 junction 28 improvement scheme ("the Scheme"). That application ("the Application") was submitted to the Examining Authority on 27 May 2020 and was accepted for examination on 24 June 2020. The Application is being considered by an examining authority (ExA) appointed by the Secretary of State.
- 1.1.2 This document is an extract of the Book of Reference which was submitted with the application for a Development Consent Order in May 2020 and the revised Book of Reference and addenda submitted and accepted by the Examining Authority during the DCO examination (Book of Reference REP3A-005, REP3A-013, REP3A-023, REP3A-032, REP4-019, REP5-050, REP5-053 and REP6-024).
- 1.1.3 It should be read in conjunction with the Schedule of Changes to the Book of Reference for Change 8 (TR010029/EXAM/10.21) also submitted as part of this change request.
- 1.1.4 Since submission of the Application, Highways England has continued to engage with stakeholders and to undertake further design work to develop plans for the implementation and construction of the Scheme. As a result of this work and following consideration of the representations which have been made by interested parties, Highways England identified one change to the Scheme (the Proposed Change 8).
- 1.1.5 This document is an extract showing only those plots that are altered as a result of the Proposed Change 8. These changes are identified as red tracked changes in this document.
- 1.1.6 The reasons for making these proposed changes to the DCO application are as follows:
- Change 8 – Grove Farm egress – revisions to Work No.15
- 1.1.7 These notes should be read in conjunction with the notes contained in the full Book of Reference (REP3A-005), the Report on Change 8 (TR010030/EXAM/10.17) and the land plans submitted to accompany the application in the Report on Change 8 drawings (TR010030/EXAM/10.18).
