Dear Sir/Madam,

TfL wishes to raise two points of clarification at Deadline 10 of the M25 Junction 28 improvements examination.

Statement of Common Ground between the Applicant and TfL

TfL has raised concerns with the Applicant about some of the content in the Statement of Common Ground (examination reference REP9-051) submitted by the Applicant at Deadline 9, specifically two issues which were incorrectly stated as being agreed. The Applicant will submit a revised version of this document at Deadline 10 which has been agreed with TfL.

Clarification of TfL's Deadline 9 submission

In TfL's Deadline 9 submission (REP9-082), TfL referred to paragraphs 2.4 to 2.6 of its Deadline 6 submission (REP6-044) to justify why it considered protective provisions for a local highway authority should be included in the Order. TfL wishes to make clear that this reference to its Deadline 6 submission is only relevant in so far as it concerns the issues of a commuted sum and TfL costs, and not the inclusion of protective provisions more generally, as agreement on other issues has been reached between TfL and the Applicant.

There are no other matters that TfL wishes to raise at Deadline 10. If you require any further information then please get in touch.

Kind regards,

Matthew
