With reference to comments on the above, I have the following issues.

- 1) Will there be a method of compensation for devaluation of houses within this area, bringing heavy traffic nearer to properties in Maylands Way?
- 2) Will there be compensation in the way of Council Tax reduction for the devastation (NOISE, MESS AND UPHEAVAL) it will cause to people living in the construction zone, throughout the works?
- 3) Will you ensure that no vehicles or work equipment will NEVER be parked in the roads in the construction zone, during the works?
- 4) How long will this take, beginning to end?
- 5) I have to use the route via the Brook Street roundabout daily-school run, how much longer will this take, during the works?

Yours sincerely

Sharon King
