**Planning Inspectorate Ref : TR010030 – M25/A3 Wisley Interchange at Painshill**

**Further representation on behalf of the Gardens Trust and their member organisation the Surrey Gardens Trust**

We would like to refer back to our representation of August 24<sup>th</sup> 2019 (identification number 20022906) and reiterate that we strongly support the Painshill Park Trust in their requirement for a replacement access at the western end of their ownership for both emergency and land management purposes.

This additional submission equally strongly supports the Painshill Park Trust Chairman's statement at the Open Floor Hearing on 12 November for all the reasons given therein. Mr Reay-Smith's expressed hope that Highways England and the Trust can work together to resolve the matter is also supported. Closure of the vital western access route would have a disastrous impact upon the nationally important Heritage Asset, directly conflicting with its conservation and placing a barrier upon further conservation of the Grade I landscape, its two Grade II\* and seven Grade II listed garden buildings.

We note that Additional Submissions published on 7 November from the County Commissioner and local representatives of the Guiding Association indicate a number of outstanding concerns for the access road, indicative of the need to seek a wider resolution.

Yours sincerely,

Margie Hoffnung  
Conservation Officer
