Representation From Painshill Resident's Association for Deadline 2 (D2)**

Dear Sirs,

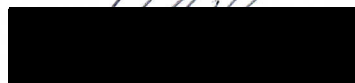

We would reiterate the comments made by the individual residents of Painshill and the Painshill Group (ref # 20023022) for the Deadline 1 submission on the 26th November, insofar as these are now amalgamated into a formal submission made on behalf of Painshill Residents Association, being their position.

In general we submit, that the proposed scheme before the Planning Inspectorate does not consider the points raised in the individual residents submissions made for Deadline 1.
Regarding :

- a) Overall costs and consideration of alternative schemes.
- b) Traffic back up to Painshill roundabout.
- c) Increased noise level and pollution to Painshill resident's.
- d) Security of Painshill resident's.
- d) Environmental consideration.
- e) Painshill resident's Rights.

We are in agreement in part with the comments made in the representations made by the Guides Association, Close Court Farm Resident's and Painshill Park Trust Ltd. and request a joint meeting with the parties affected by the new access road, in the presence of a representatives of Highways England and if necessary the Planning Inspectorate, to establish an equitable solution, regarding a revision to the proposed access to their properties, preferably after the site inspection and prior to the next Open Floor meeting at which we wish to speak.

Yours faithfully,

Eur Ing Robert J. Brown Bsc(Eng) F.I.C.E, M.Inst.H.E, M.A.S.C.E
For and on behalf of Painshill Resident's Association.
