1. Introduction

1.1.1 This document is a Schedule of Change which outlines updates to the submitted Book of Reference (BoR).

1.1.2 This incorporates three sets of changes which have been differentiated using three colour references. Please refer to the amended BoR that displays a tracked changes document utilising the following colouration:

- Blue text/modifications will refer to the changes made between the submission Book of Reference up until Deadline 2 amendments.
- Red text/modifications will refer to the amendments to the Order limits which have caused changes to the red line and types of acquisition in key areas. The reasons and areas included in the red changes are as follows; extension of the proposed green element on Cockcrow Bridge (Sheet 4), incorporation of two toad underpasses at Old Lane and other mitigation measures (Sheet 24 and 25), removal of part of the proposed improvements to the A245 eastbound between the Seven Hills Road and Painshill junctions (Sheet 8 & 9) and adjustments to the Order limits in the draft Development Consent Order to accommodate the diversion of a gas main (Sheet 12).
- Green text/modifications will refer to the changes identified since Deadline 2 as a result of further diligent enquiries.

1.1.3 Ongoing diligent inquiry has revealed a number of interests or potential interests that have resulted in revised and additional entries in this version of the Book of Reference. Please note that in a number of cases single newly identified interests have generated multiple additional entries due to the compact nature and limited size of the affected plots.

Note 1: A number of entries relate to corn rents referred to in title documents that affect a number of the plots however the beneficiary of these rents is unknown.

Note 2: Various additional entries relate to interests where a potential entitlement to claim for compensation (i.e. people within Category 3) has been identified. It is symptomatic of the nature of this category that a subjective assessment needs to be made of such entitlement in order to evaluate who falls within it. To align with best practice, as part of their ongoing diligent inquiry, Highways England has refined its approach in this regard to include a number of new Category 3 persons in this version of the Book of Reference for completeness. In most cases the persons affected already appear in the Book of Reference. We further note that any such entitlement to compensation remains unaffected irrespective of whether or not listed in the Book of Reference.

- 1.1.4 The remainder are people whose interests have been identified pursuant to ongoing diligent inquiry in order to make the Book of Reference as accurate as it can reasonably be at this stage.
- 1.1.5 The v0 column displays the current value as at submission, and the v1 column depicts what the new change will look like in the revised Book of Reference.
- 1.1.6 It should be noted that the Book of Reference is a document that will need to be updated throughout the Development Consent Order process to reflect changes in ownership or other interests in the land, further responses to diligent enquires, or clarifications to what is shown in the previous BoR.
