Dear Sir

**RE: M25 Junction 10 / A3 Wisley Interchange Improvement Plan**

***Comments on Proposed Changes 7 to 9***

**HE's submission for Deadline 6 - Rep 6 - 002 Proposed amendments (change 7 to 9)**

We are pleased to see that the Planning Inspectors have accepted these proposed changes. We would like them to recommend to the Secretary of State that this is the route that is accepted as this would resolve safeguarding concerns that would arise by splitting the campsite in two. This would also allow us to continue to make full use of our site for the health and welfare benefits of all our young people.

We would like, if possible, to see the original route (7/1) withdrawn from the DCO and the alternative route as accepted in change 7 inserted.

***Notification of participation at a virtual CAH***

Three members of Girlguiding Greater London West would like to attend a virtual CAH. Forms are attached for Christine Donovan, Christine Wicks and David Hill

***Comment on further OFH***

We do not currently have any further need for an OFH. However, should one be held, then we would like to attend and hear what others say.

Yours sincerely

Christine Donovan  
County Commissioner Greater London West
