## 1. Introduction

- 1.1.1 This document is a Schedule of Change which outlines updates to the submitted Book of Reference.
- 1.1.2 This incorporates green text/modifications which refer to the changes identified since Deadline 8.
- 1.1.3 The v2 column displays the current value as at Deadline 8, and the v3 column depicts what the new change will look like in the revised Book of Reference.
- 1.1.4 It should be noted that the Book of Reference is a document that will need to be updated throughout the Development Consent Order process to reflect changes in ownership or other interests in the land, further responses to diligent enquires, or clarifications to what is shown in the previous Book of Reference.

This document is a Schedule of Change which outlines updates to the submitted Book of Reference (BoR) for Deadline 11.

This incorporates changes which have been differentiated with green text identifying the changes since Deadline 8 as a result of further diligent enquiries or changes to the DCO.

Ongoing diligent inquiry has revealed a number of interests or potential interests that have resulted in revised and additional entries in this version of the Book of Reference. Please note that in a number of cases single newly identified interests have generated multiple additional entries due to the compact nature and limited size of the affected plots.

The v2 column displays the current value as at Deadline 8 Submission, and the v3 column depicts what the new change will look like in the revised BoR.

It should be noted that the BoR is a document that will need to be updated throughout the Development Consent Order process to reflect changes in ownership or other interests in the land, further responses to diligent enquires, or clarifications to what is shown in the previous BoR.
