Dear Sirs,

Re: 9.162 Applicant's Response to Secretary of State's Letter - 26 July 2021

It is not clear how the applicant allows for the increase in carbon dioxide levels due to the significant loss of natural green spaces and woodland.

The removal of the CO₂ absorption capacity from these lost green spaces should be a permanent non-zero contribution. I cannot see this reflected in the carbon budget tables.

Yours faithfully

Regena Coult
