Appendix I List of all respondents to Statutory Consultation

I.1 Respondents to statutory consultation

- I.1.1 Appendix I provides lists of respondents to the Statutory Consultation according to consultee strand. The names of individuals have been replaced with anonymous identification numbers. The names of organisations are listed as they were stated in the responses submitted to the consultation. Some organisations may fall into more than one consultee strand, for example, a local authority may fall within both s42(1)(b) and s42(1)(d), as a person with an interest in land. Where this is the case, each consultee is listed only once in Appendix I, under their primary consultee strand (for example s42(1)(b) for a local authority that falls within s42(1)(d)).
- I.1.2 There are instances in the tables in Appendix I of multiple entries from within the same organisation, for example, from a school or community group.

| 103278 | Folkestone and Hythe District Council* |

**Please note, the local authorities listed in Table 1.2 with an asterisk do not strictly fall within the definition of s42(1)(b) consultees. However, they were consulted, at the Applicant's discretion, on the draft Statement of Community Consultation (SoCC) in 2018 and the Applicant then elected to treat their responses as if they were s42(1)(b) respondents. They have therefore been included in this table for ease of reference. These local authorities have not been included in Appendix H which comprises only those consultees who fall within one of the categories described in s42.*

***Please note Ashford Borough Council did not strictly fall within the definition of s42(1)(b) consultees in 2018 but was consulted, at the Applicant's discretion, on the draft SoCC in 2018 and the Applicant then elected to treat its responses as if it was an s42(1)(b) respondent. However, Ashford Borough Council as of 11 May 2022 does fall within s42(1)(b) and so is included in Appendix H.*

1.1.3 In Table I.3, individual s42(1)(d) respondents are assigned a user identification number only. Organisations are named, along with their user identification number. The same approach has been replicated for the purposes of Table I.4 and Table I.5.

I.2 Respondents to Supplementary Consultation

I.2.1 The following tables provide lists of respondents to the Supplementary Consultation according to consultee strand. The names of individuals have been replaced with anonymous identification numbers. Some organisations may fall into more than one consultee strand, for example a local authority may fall within both s42(1)(b) and s42(1)(d), as a person with an interest in land. Where this is the case, each consultee is listed only once in Appendix I, under their primary consultee strand (for example s42(1)(b) for a local authority that falls within s42(1)(d)).

I.3 Respondents to Design Refinement Consultation

I.3.1 The following tables provide lists of respondents to the Design Refinement Consultation according to consultee strand. The names of individuals have been replaced with anonymous identification numbers. Some organisations may fall into more than one consultee strand, for example a local authority may fall within both s42(1)(b) and s42(1)(d), as a person with an interest in land. Where this is the case, each consultee is listed only once in Appendix I, under their primary consultee strand (for example s42(1)(b) for a local authority that falls within s42(1)(d)).

I.4 Respondents to Community Impacts Consultation

- I.4.1 The following tables provide lists of respondents to the Community Impacts Consultation according to consultee strand. The names of individuals have been replaced with anonymous identification numbers. Some organisations may fall into more than one consultee strand, for example a local authority may fall within both s42(1)(b) and s42(1)(d), as a person with an interest in land. Where this is the case, each consultee is listed only once in Appendix I, under their primary consultee strand (for example s42(1)(b) for a local authority that falls within s42(1)(d)).

I.5 Respondents to Local Refinement Consultation

I.5.1 The following tables provide lists of respondents to the Local Refinement Consultation according to consultee strand. The names of individuals have been replaced with anonymous identification numbers. Some organisations may fall into more than one consultee strand, for example a local authority may fall within both s42(1)(b) and s42(1)(d), as a person with an interest in land. Where this is the case, each consultee is listed only once in Appendix I, under their primary consultee strand (for example s42(1)(b) for a local authority that falls within s42(1)(d)).
