1 Introduction

1.1 Executive Summary

- 1.1.1 This Statement of Reasons (“the Statement”) relates to the A122 Lower Thames Crossing (the Project) and has been submitted by National Highways (the Applicant) to the Planning Inspectorate acting on behalf of the Secretary of State for Transport. It relates to an application for a development consent order (DCO) to permit and enable implementation of the Project made under section 37 of the Planning Act 2008 (as amended) (the 2008 Act).
- 1.1.2 This Statement has been prepared in accordance with the requirements of section 37(3)(d) of the 2008 Act and regulation 5(2)(h) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 and the Department for Levelling Up, Housing & Communities guidance, Planning Act 2008: Guidance related to procedures for compulsory acquisition (the Guidance). The Application seeks development consent for the Project including the making of the proposed A122 (Lower Thames Crossing) Development Consent Order, which would confer the powers sought.
- 1.1.3 This Statement is part of a suite of application documents, which are listed in the Introduction to the Application (Application Document 1.3). These documents inform this Statement and should be read alongside it. This Statement has been submitted because the draft DCO (Application Document 3.1) includes powers to:
- a. compulsorily acquire land;
 - b. create new rights over land; and
 - c. extinguish or override existing rights over land,
 - d. for the purposes of the Project.
- 1.1.4 The DCO application is being made to secure the requisite powers to construct, operate, protect and maintain the Project; a nationally significant infrastructure project for which there is a pressing national need. Those powers are set out in the draft DCO (Application Document 3.1) s42 of the 2008 Act, the APFP regulations and Environmental Impact Assessment (EIA) regulations.
- 1.1.5 As well as operational land already within its ownership, the Applicant has acquired land at the A13 junction and 16 out of the 30 residential properties within the Order Limits. The Applicant is progressing voluntary agreement discussions with landowners within the Order Limits and remains willing to progress voluntary discussions with any party with an interest in land within the Order Limits. As recognised by the Guidance, given the scale of this long linear scheme, it would not be possible within a reasonable timescale to secure by agreement all the interests in land required for the Project and to remove any rights over the land required. The compulsory acquisition powers sought in the draft DCO (Application Document 3.1) are therefore needed to secure the interests which are required for the project within the Order Limits and to ensure that any third-party rights affecting it are extinguished or overridden pursuant to

the draft DCO (Application Document 3.1), ensuring that the Project can be constructed, protected, maintained and operated.

- 1.1.6 The Applicant considers that there is a compelling case in the public interest for the making of the draft DCO (Application Document 3.1) and the inclusion of powers of compulsory acquisition to secure the land and property interests required to enable the Project to be carried out. The purpose of this Statement is to explain why that is so.
- 1.1.7 In accordance with the requirements of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 and the Guidance, the Applicant has provided the following documents relating to the compulsory acquisition powers sought as part of the DCO application:
- a. this Statement of Reasons and annexes
 - b. the Funding Statement (Application Document 4.3) to explain how the proposals contained in the draft DCO (Application Document 3.1) for compulsory acquisition would be funded
 - c. the Land Plans (Application Document 2.2) which show the land which would be acquired, subject to temporary possession or subject to temporary possession with the permanent acquisition of rights; the Crown Land Plans (Application Document 2.3) and the Special Category Land Plans (Application Document 2.4) which set out proposed replacement land; and
 - d. the Book of Reference (Application Document 4.2)

1.2 The Project

- 1.2.1 The Project is a Nationally Significant Infrastructure Project (NSIP) within sections 14(1)(h) and 22(1)(a) of the Planning Act 2008.
- 1.2.2 The Project comprises of the construction of a new highway which will be built wholly in England and will be operated and managed by the Applicant. The Project also involves a number of utility works and diversions, including the installation of electric lines under section 16 of the 2008 Act and the construction of gas transporter pipe-lines under section 20 of that Act. A more detailed description of the Scheme can be found in Chapter 2: The Scheme of the Environmental Statement (ES) (Application Document: 6.1).

1.3 Compulsory acquisition

- 1.3.1 In its DCO application for the Project, the Applicant seeks compulsory acquisition and temporary possession powers in respect of certain land interests. A detailed description of the extent and nature of the powers sought is set out by reference to the DCO application documents in Chapter 3 of this Statement.

1.4 Land interests

- 1.4.1 The extent of the land interests affected by the compulsory acquisition and temporary possession powers sought by the Applicant is described in Chapter 4 of this Statement.
- 1.4.2 The Applicant has carried out diligent inquiry, as set out in the APFP Regulations and the Compulsory Acquisition (CA) Guidance, to identify all the persons with an interest in the Land (the land shown on the Land Plans (Application Document 2.2) and the persons with a potential claim for compensation as a result of the Scheme. These persons have been consulted pursuant to section 42 of the 2008 Act. The categories of persons identified and the methods used to identify them are described in Chapter 4 of this Statement by reference to the categories in the Book of Reference (Application Document 4.2).
- 1.4.3 The Applicant has entered into negotiations to acquire other parties' interests voluntarily where expressions of interest have been received. In cases where there are no active negotiations, the Applicant has written to those with relevant interests outlining its intention to secure voluntary agreements where practicable.
- 1.4.4 At the time of writing, it has not been possible to secure all of the land and rights required by agreement. The Guidance acknowledges that where proposals would entail the compulsory acquisition of many separate plots of land (such as for long, linear Projects) it may not always be practicable to acquire by agreement each plot of land. Where this is the case it is reasonable to include provision authorising compulsory acquisition covering all the land required at the outset. The current position on these negotiations is set out in Annex B of this Statement. The Applicant is satisfied that the acquisition of all land interests identified for permanent acquisition is necessary to enable the Project to proceed.

- 1.4.5 There are 4,204 plots of land required for the Project, these are illustrated on the Land Plans (Application Document 2.2). Of these:
- a. 723 plots are owned by or on behalf of the Applicant
 - b. 1,218 plots are owned by landowners with whom the Applicant is in regular contact either directly or via their agent
 - c. 1,817 plots are owned by councils with whom the Project engages on a regular basis
- 1.4.6 In total these 3,758 plots represent 90% of the land (by area) within the Order Limits.
- 1.4.7 The Applicant is in active discussions with various parties to agree Statements of Common Ground (SoCG).
- 1.4.8 The Applicant owns plots which are subject to the rights of others which are incompatible with the construction and operation of the Project. To ensure that any such rights could be removed (and the persons benefitting from them are compensated for such removal) compulsory powers are also sought over almost all land already owned by the Applicant.

1.5 The case for compulsory acquisition

- 1.5.1 This Statement sets out the reasons for the inclusion of compulsory acquisition powers within the draft DCO (Application Document: 3.1). It explains it is necessary to include compulsory acquisition powers within the DCO so that the Applicant can acquire the land interests required for the construction, operation, protection and maintenance of the Project. It also explains why powers of compulsory acquisition are necessary to enable the Applicant to use land temporarily and acquire, suspend, interfere with or extinguish rights over land. This is in order to construct and maintain the Project in a way that is both proportionate and in the public interest by reducing environmental impacts, minimising the cost to the Applicant (and hence the public purse) and mitigating the impact on affected land interests. This compelling case is evidenced further in the wider documentation that accompanies the application.
- 1.5.2 The powers of compulsory acquisition and temporary possession sought in the application are necessary, proportionate and justified. The powers sought are in accordance with all relevant statutory and policy guidance.

There is a compelling case in the public interest for the compulsory acquisition and temporary possession powers sought as set out in Chapter 5 of this Statement. The conclusion of this Statement is that the grant of the compulsory powers requested would be lawful under all applicable legal regimes.

1.6 Human rights

- 1.6.1 In preparing the draft DCO (Application Document 3.1), the Applicant has had regard to the European Convention on Human Rights, and the Human Rights Act 1998. Chapter 6 of this Statement considers how the Project complies with this legislation notwithstanding any infringement of private rights of those whose interests in the land may be affected by the exercise of powers of compulsory acquisition and temporary possession.

1.7 Special considerations

- 1.7.1 In Chapter 7 of this Statement, the Applicant has identified all special category land which is affected by the compulsory acquisition powers sought in the draft DCO (Application Document 3.1). The Applicant has engaged with the persons responsible for the relevant special category land and with a view to avoiding the need for special parliamentary procedures in accordance with the relevant sections of the Planning Act 2008 (sections 130 to 132).
- 1.7.2 The Applicant has also engaged with the relevant Crown bodies who hold land or have rights in land in line with the provisions of sections 135(1) and (2) of the 2008 Act.
- 1.7.3 The Applicant has further considered what other consents are required to enable the Project to proceed and has set out how these will be secured. These are detailed in Consents and Agreements Position Statement (Application Document 3.3 Appendix A).

1.8 Compliance with statutory requirements and policy guidance

- 1.8.1 This document has been prepared in accordance with the requirements of Regulation 5(2)(h) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) (the APFP Regulations), and the 'Planning Act 2008: Guidance related to procedures for the compulsory acquisition of land' (DCLG, September 2013) (the Compulsory Acquisition guidance).
- 1.8.2 This Statement should be read alongside the other DCO application documents that relate to the compulsory acquisition powers sought by the Applicant including, but not limited to, the following:
- a. Draft DCO (Application Document 3.1)
 - b. Explanatory Memorandum (Application Document 3.2)
 - c. Book of Reference (Application Document 4.2)
 - d. Land Plans (Application Document 2.2)
 - e. Works Plans (Application Document 2.6)
 - f. Special Category Land Plans (Application Document 2.4)
 - g. Crown Land Plans (Application Document 2.3)
 - h. Funding Statement (Application Document 4.3)
 - i. Need for the Project (Application Document 7.1)
 - j. Introduction to the Application (Application Document 1.3)
 - k. Consents and Agreements Position Statement (Application Document 3.3)
 - l. National Policy Statement for National Network (NPSNN) Accordance Table (forming part of the Planning Statement) (Application Document 7.2)

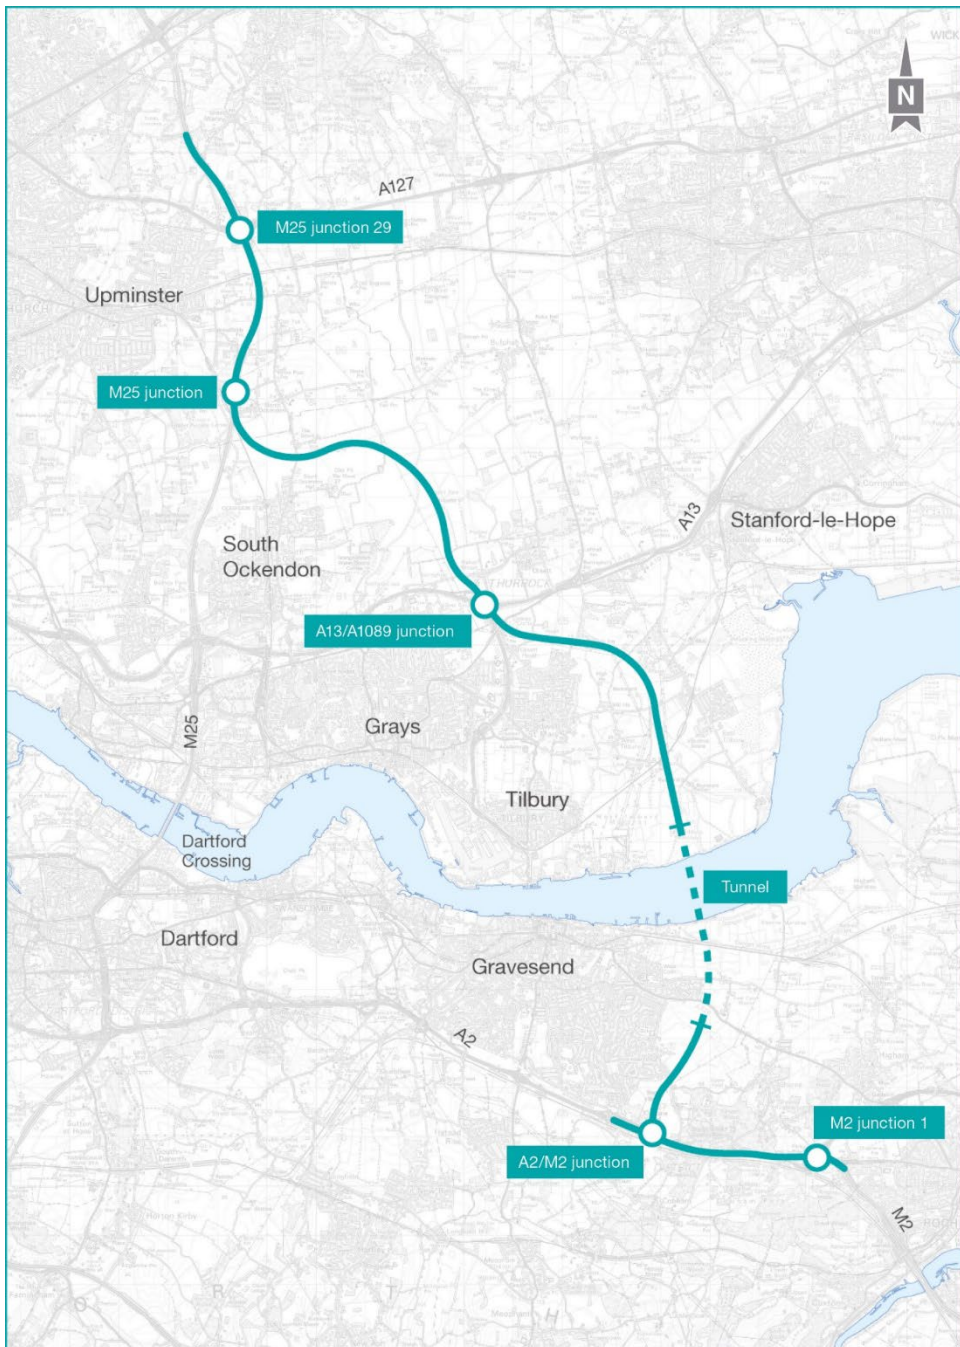

2 The Project

2.1 Description of the Project

- 2.1.1 The A122 Lower Thames Crossing (the Project) would provide a connection between the A2 and M2 in Kent and the M25 south of junction 29, crossing under the River Thames through a tunnel. The Project route is presented in Plate 2.1.
- 2.1.2 The A122 would be approximately 23km long, 4.25km of which would be in tunnel. On the south side of the River Thames, the Project route would link the tunnel to the A2 and M2. On the north side, it would link to the A13, M25 junction 29 and the M25 south of junction 29. The tunnel portals would be located to the east of the village of Chalk on the south of the River Thames and to the west of East Tilbury on the north side.
- 2.1.3 Junctions are proposed at the following locations:
- a. New junction with the A2 to the south-east of Gravesend
 - b. Modified junction with the A13/A1089 in Thurrock
 - c. New junction with the M25 between junctions 29 and 30
- 2.1.4 The Project route would be three lanes in both directions, except for:
- a. link roads
 - b. stretches of the carriageway through junctions
 - c. the southbound carriageway from the M25 to the junction with the A13/A1089, which would be two lanes
- 2.1.5 In common with most A-roads, the A122 would operate with no hard shoulder but would feature a 1m hard strip on either side of the carriageway. It would also feature technology including stopped vehicle and incident detection, lane control, variable speed limits and electronic signage and signalling. The A122 design outside the tunnel would include emergency areas. The tunnel would include a range of enhanced systems and response measures instead of emergency areas.
- 2.1.6 The A122 would be classified as an ‘all-purpose trunk road’ with green signs. For safety reasons, walkers, cyclists, horse riders and slow-moving vehicles would be prohibited from using it.
- 2.1.7 The Project would include adjustment to a number of local roads. There would also be changes to a number of Public Rights of Way, used by walkers, cyclists and horse riders. Construction of the Project would also require the installation and diversion of a number of utilities, including gas pipelines, overhead electricity powerlines and underground electricity cables, as well as water supplies and telecommunications assets and associated infrastructure.
- 2.1.8 The Project has been developed to avoid or minimise significant effects on the environment. The measures adopted include landscaping, noise mitigation, green bridges, floodplain compensation, new areas of ecological habitat and two new parks.

2.1.9 A more detailed description of the Scheme can be found in Chapter 2: The Scheme of the ES (Application Document 6.1).

Plate 2.1 Lower Thames Crossing route

2.2 Case for the Project

- 2.2.1 The Dartford Crossing is the only road crossing of the River Thames east of London. The high level of traffic demand wanting to use this crossing significantly outstrips the road space supply. The road space is also challenged by outdated design and piecemeal improvement works which led to vehicle restrictions and sub-optimal configurations to exacerbate matters. Despite the challenged road space, the road users have no choice but to continue to use the Dartford Crossing because of the lack of alternative routes.
- 2.2.2 Congestion, delays and poor journey time reliability at the Dartford Crossing and on surrounding roads are major impediments to economic growth in the South East of England. The River Thames acts as a barrier between Kent, Thurrock and Essex and affects the ability to build strong connections between these communities.
- 2.2.3 As a result of these ongoing issues, slow-moving and queuing traffic on both the local highway network and SRN approaches to the Dartford Crossing also impact the environment and surrounding communities through high levels of noise and air pollution.
- 2.2.4 Further details of the existing issues that give rise to the case for change are set out in the Need for the Project (Application Document 7.1). The issues form the basis for the identification of the Project Objectives.
- 2.2.5 Table 2.1 provides a summary of how the key benefits of the Project support the Scheme Objectives. Further details of the key benefits are set out in the Need for the Project (Application Document 7.1).

Table 2.1 Summary of how the key benefits of the Project support the Scheme Objectives

What the Project would achieve	
Transport	The Project would provide additional road capacity and river crossing east of London, significantly improving road space supply to serve the traffic demand.
	The additional road space would not be challenged by design limitations (e.g. no sub-optimal junction layout, no need for escorting, no wind related concerns, etc.).
	An additional crossing would provide an alternative crossing option across the river east of London and a more resilient road network in the Lower Thames area.
	The Project would significantly reduce traffic congestion at the Dartford Crossing.
	Many journeys on both sides of the river, as well as those that cross the river, would be quicker.
	The Project would follow the latest safety standards and would decrease the accident rate.
	Cross-river journey time reliability would be improved, with less frequent delays and uncertainty.
	The Project would be significantly beneficial to the business transport users wishing to cross the River Thames east of London.

What the Project would achieve	
Communities and environment	Improved cross-river local trips to community by way of an additional crossing and less congested Dartford Crossing.
	Enhanced connectivity and facilities for walkers, cyclists and horse riders
	Reduced congestion in Dartford area would decrease noise and air pollution.
	The Project would leave a positive legacy of green infrastructure and improved biodiversity.
	Improved access to local jobs and upskilling opportunities for local communities.
Economic	Faster and more reliable journeys and improved accessibility would boost the productivity of businesses in the Lower Thames area and wider region.
	Enhanced connectivity and cross-river economic opportunities would further stimulate competition, boosting employment and increasing inward investment locally and regionally.
	Benefits would be greatest for high value businesses, but also significant for the local area's lower value transport and construction sectors.
	Quicker, more reliable access to key markets, resources and labour for the region's ports.
	The Project would provide value for money.

2.3 The authorised works

2.3.1 In order to deliver the Project, it will be necessary to carry out the following works comprising:

Junction modifications

2.3.2 Alterations would be required to both the M25 at the northern limits of the route and on the A2 at the southern end. The existing A13/A1089 junction would also require modifications to connect to the Project route.

Vertical alignment

2.3.3 The new A122 would be at varying heights along the route, with approximately 80% in a cutting, false cutting or tunnel. The A2 would remain at its current level, with the junction between the A2 and the A122 requiring some link roads at or below ground level, on embankments and structures such as bridges. As it approaches the southern tunnel portal, the A122 would be at ground level before descending into a deep cutting. To the north of the River Thames, the A122 would be lowered as much as practicable to reduce its impact on the landscape. Where the road crosses the Tilbury floodplain, railway lines, and the Mardyke floodplain, it would be elevated.

Local roads

2.3.4 The Project would include adjustment to a number of local roads. Most existing local roads affected by the Project route would be reconnected or designed to provide alternative provision. In most locations, the affected local roads would cross over the Project route.

Tunnel

- 2.3.5 It is currently proposed that two tunnel boring machines (TBMs) would be used to construct the tunnel, one for each bore.
- 2.3.6 Emergency access and vehicle turn-around facilities would be provided at the tunnel portals. Cross-passages providing a connection between the two tunnels would be provided for emergency incident response and tunnel user evacuation. Tunnel portal structures would accommodate service buildings for control operations, mechanical and electrical equipment, drainage and maintenance operations.

Highway structures

- 2.3.7 Approximately 50 new highway crossings would be required, comprising road bridges, underpasses, green bridges and footbridges. In addition, widening and other modification of existing highways crossings would be required.

Highway drainage

- 2.3.8 South of the River Thames, the highway drainage system would discharge into vegetated drainage comprising infiltration basins with lined sediment forebays, ditches and swales. The intention is that these would outfall from the drainage systems to ground.
- 2.3.9 North of the River Thames, the highway drainage system would discharge into vegetated drainage comprising wetland-type retention ponds with sediment forebays, ditches and swales within an infiltration basin at the A13 junction. Existing dry retention ponds located along the M25 would be upgraded to wetland-type retention ponds with sediment forebays. The outfall from these ponds would discharge into watercourses and ditches.

Safety and security

- 2.3.10 The Project route would include the following:
- a. Modern safety measures and construction standards with technology to manage traffic and provide better information to drivers
 - b. Variable Message Signs to display variable speed limits, travel information, hazard warnings and both advisory and mandatory signage to drivers
 - c. CCTV cameras and detection equipment to monitor and manage network usage, for alerting and investigating incidents (e.g. stopped vehicles); for maintenance and asset protection; and for detection of crime
 - d. Above-ground traffic detection to control automatic traffic management systems (e.g. variable speed limits) and to collect data on traffic flows
 - e. Free-flow road user charging infrastructure
 - f. Equipment within the tunnel to monitor and control the tunnel environment during normal and emergency operations

Road User charging

- 2.3.11 In December 2014, the Government stated in the National Policy Statement for National Networks (NPSNN) (Department for Transport, 2014) that the *‘Government will consider tolling as a means of funding new road capacity on the SRN. River and estuarial crossings will normally be funded by tolls or road user charges’*.
- 2.3.12 To align with NPSNN policy and to help the Project meet the Scheme Objectives, it is proposed that road user charges would be levied in line with the Dartford Crossing. Vehicles would be charged for using the new tunnel.

Walkers, cyclists and horse riders

- 2.3.13 Where the Project affects existing Public Rights of Way, these would be reinstated with provision of under- or overbridges, or a suitable alternative provision would be made. The Project proposes a number of new, diverted, upgraded and reinstated routes for walkers, cyclists and horse riders.

Environmental design

- 2.3.14 The Project has been developed to avoid or minimise significant effects on the environment, and during the design process further measures have been incorporated to mitigate adverse impacts that would arise and that cannot be avoided. Some of the measures adopted include landscaping, noise mitigation measures, and the provision of green infrastructure along the Project route, including a number of green bridges. The Project would create a number of new areas of ecological habitat, providing mitigation or compensation for the impacts on existing areas. Two new parks would be created including Tilbury Fields to the west of the northern tunnel portal, and Chalk Park, to the south of the River Thames.

Construction compounds and utility logistics hubs

- 2.3.15 While the Project is being built, construction compounds would be located along the Project route. Larger compounds would be required at the northern and southern tunnel portals to allow for tunnelling operations and materials management. Utility logistic hubs would be needed for specific utility works.

Haulage routes and construction traffic management

- 2.3.16 Where there is no direct access from the strategic road network, suitable local roads would initially be used to access the construction worksites and compounds. Following this, temporary haul routes would be constructed off the strategic road network early in the programme where possible to access the construction worksites and compounds and further reduce usage of the local road network. In some instances, the temporary haul roads may need to connect to the existing local road network. Traffic management measures would be used to control the impacts of construction on the local and strategic road network.

Services and utility installations and diversions

- 2.3.17 To accommodate the construction and operation of the Project, it would be necessary to install and divert multiple utilities including overhead electricity powerlines, high-pressure gas pipelines and other utility networks and their associated infrastructure including cabinets, substations and maintenance compounds. New utility connections would be installed to the compounds and to the tunnels.

Land required

- 2.3.18 The Project would require land on a permanent basis for the road and tunnel, along with other operational infrastructure, and environmental mitigation and compensation.
- 2.3.19 On a temporary basis, land would be required for construction compounds, logistics areas and other construction activities. The utility installations and diversions, some environmental works and flood compensation requirements would require land to be taken on a temporary basis, and for permanent rights to be acquired for the operation and maintenance of any utility infrastructure, and to secure environmental works and flood compensation.
- 2.3.20 The full land requirement for the Project is shown on the Land Plans (Application Document 2.2) and set out in Annex B of this statement.
- 2.3.21 The Project would also require both permanent acquisition and temporary use of areas of special category land, which includes common land and public open space. Replacement land would be provided for some of this special category land. In other cases, in accordance with the Planning Act 2008, replacement land has not been included, for example, because it is only proposed to install and divert utilities through the land and the land would not be permanently impacted. This means that its previous use can continue once the works are finished.
- 2.3.22 Consultation with relevant landowners, occupiers and agents remains an ongoing focus through the development of the Project. Compensation for affected parties follows the statutory Compensation Code.

Operations and maintenance

- 2.3.23 Following completion, the A122 would be part of the strategic road network.
- To carry out inspection, certain specified maintenance activities in the tunnel and periodic emergency exercises, a periodic full closure of the relevant tunnel(s) would be required. These would be planned to minimise disruption, and where feasible lane closures would be used instead.
- A full description of the works and associated development, referred to in the draft DCO as the 'authorised works' is set out in Schedule 1 of the draft DCO (Application Document: 3.1).

2.4 Alternatives and flexibility

- 2.4.1 A methodical approach was undertaken in developing options for the Project, these alternatives and modifications were consulted on and the preferred route, associated infrastructure, utility diversions and environmental compensation proposals have been chosen based on a thorough consideration of all of the relevant issues including input from affected landowners. This process is described in more detail in Chapter 5.5 Consideration of alternatives of this document, the Environmental Statement (Application Document 6.1) and Planning Statement (Application Document 7.1).
- 2.4.2 Due to the scale of the Project, the nature of the design process and the timing of the consenting process, the Applicant requires a degree of flexibility as to where certain elements of the Project will eventually be positioned within certain defined limits. These are provided for in the draft DCO (Application Document 3.1) and this flexibility has been assessed in the Environmental Statement (Application Document 6.1).
- 2.4.3 Article 6 to the draft DCO (Application Document 3.1) includes limits of deviation. The limits of deviation are designed to ensure that the development consent, if granted, includes a proportionate amount of flexibility, allowing a degree of 'deviation' from certain aspects of the consented Project as shown in certain plans and drawings – in this case the Works Plans (Application Document 2.6), Tunnel Limits of Deviation Plans (Application Document 2.15) and the Engineering Section Drawings (Application Document 2.5). These are the documents which set the constraints by reference to which the limits of deviation are subsequently defined.
- 2.4.4 Limits of deviation are necessary because development consent is being applied for whilst the Project is still at the preliminary design stage. In accordance with standard industry practice, a contractor would not be appointed to carry out the detailed design until after the DCO application has been submitted. It is therefore imperative that the consent has sufficient flexibility built in to ensure that the Project can be implemented and delivered in due course without the risk of a breach of the terms of the draft DCO (Application Document 3.1). For further information, refer to Chapter 12 of the Introduction to the Application (Application Document 1.3).
- 2.4.5 At this stage, all the Land in the Order Limits is considered to be necessary to deliver the Scheme. However, should it transpire that any part of the Land within the Order Limits is not required, for instance, as a result of the detailed design process, the Applicant would only seek to acquire that part of the Land required, and in all events, will seek to minimise the effects on land interests. Where temporary use is required the Project will only take this land for the period it is required and hand this back to the landowner at the earliest opportunity.

3 Compulsory acquisition

3.1 Scope of compulsory acquisition powers sought with reference to the draft DCO

- 3.1.1 The purpose of the compulsory acquisition powers in the DCO is to enable the Applicant to construct, operate and maintain the Project. The specific compulsory acquisition powers sought by the Applicant are set out in full in Part 5 to the draft DCO (Application Document 3.1).
- 3.1.2 Section 122 of the 2008 Act provides that an order granting development consent may include provision authorising compulsory acquisition of land. To the extent that this is sought, the decision maker (the Secretary of State) in respect of the application must be satisfied that the land is:
- required for the development
 - required to facilitate or is incidental to the development or
 - the land is replacement land which is to be given in exchange for the order
 - under Section 131 or Section 132.
- 3.1.3 In addition, section 122(3) of the Act requires the decision maker to be satisfied that there is a compelling case in the public interest for the inclusion of powers of compulsory acquisition in a DCO. The way in which the Project meets these conditions is considered in Chapter 5 of this Statement.
- 3.1.4 In addition to the powers of compulsory acquisition, section 120 of the 2008 Act provides that the DCO may make provision relating to, or to matters ancillary to the development in respect of which a DCO is sought. The matters in respect of which provision may be made includes (but is not expressly limited to) matters listed in Schedule 5 of the 2008 Act, including:
- the acquisition of land, compulsorily, or by agreement (paragraph 1);
 - the creation, suspension or extinguishment of, or interference with, interests in rights over land, compulsorily, or by agreement (paragraph 2);
 - the abrogation or modification of agreements relating to land (paragraph 3); and
 - the payment of compensation (paragraph 36).
- 3.1.5 The Applicant notes that the Guidance recognises that, for long linear schemes, the acquisition of many separate plots of land may not always be practicable by agreement. The construction period of the Project is approximately 6 years, this includes establishing 18 site compounds, 15 Utility Logistics Hubs, building new structures and making changes to existing ones (including 2 tunnels, bridges, buildings, tunnel entrances and viaducts) and the diverting of 3 gas high pressure pipelines and an overhead power line diversions that qualify as NSIPs in their own right. The complexity of these works necessitates the 8 year limit for the acquisition of land proposed in the draft DCO

(Application Document 3.1) and would also ensure the Applicant is able to identify areas of opportunity to reduce the amount of permanent acquisition land required. It would also allow General Vesting Declarations to be served based upon the actual land required once this is known, as various elements of the Project are completed, enabling a reduction in permanent land take, rather than acquiring land early. This would also ensure that public money is being spent in the most effective way possible, achieving value for money. Details are also set out in the Explanatory Memorandum (Application Document 3.2).

3.2 Main compulsory acquisition powers

- 3.2.1 The main powers authorising the compulsory acquisition of land, or interests in, or rights over land, are contained in Articles 25 (compulsory acquisition of land) and 28 (compulsory acquisition of rights and imposition of restrictive covenants) of the draft DCO (Application Document 3.1).
- 3.2.2 Article 28 allows rights over land to be acquired and restrictive covenants imposed instead of outright acquisition. This allows flexibility in approach by allowing the Applicant to avoid outright acquisition of the land where possible.
- 3.2.3 Table 1 of Annex A of this Statement provides a description of the land which is subject to permanent acquisition.
- 3.2.4 Table 2 of Annex A of this Statement provides a description of the land which is subject to the acquisition of rights (including the imposition of restrictive covenants) and temporary possession of land. These rights are necessary to enable the Applicant to complete works.
- 3.2.5 Table 3 of Annex A of this Statement provides a description of the land which is subject to acquisition of subsoil and restrictive covenants by plot number.
- 3.2.6 Table 4 of Annex A of this Statement provides a description of the land which is subject to acquisition of subsoil and restrictive covenants and temporary possession of land at the surface by plot number.
- 3.2.7 Table 5 of Annex A of this Statement provides the description of the land of which temporary possession would be taken and the purpose for which it is required.
- 3.2.8 Other compulsory acquisition powers are sought in the draft DCO (Application Document 3.1) (identified in paragraph 3.3 below) and these similarly relate to land and will, or may, interfere with property, rights and interests.
- 3.2.9 In addition, powers are sought in the to enable the temporary possession and use of land.
- 3.2.10 In each case, the owner of the land, or the interest or right in the land, may be entitled to compensation.

3.3 Other compulsory acquisition powers

- 3.3.1 The other compulsory acquisition powers sought by the Applicant in the draft DCO (Application Document 3.1) include the following.

Article 29: private rights over land

- 3.3.2 Article 29 provides for the extinguishment of all existing private rights over land from the earlier of the date of acquisition of the land or the date on which the Applicant enters the land.
- 3.3.3 The article further provides that, where new rights are being compulsorily acquired or restrictive covenants are being imposed on land then any existing private rights or restrictive covenants which that land is subject to shall be extinguished to the extent that continuing those private rights or restrictive covenants would be inconsistent with the new right acquired or restrictive covenant imposed.
- 3.3.4 With regard to land that the Applicant may take temporary possession of under the draft DCO, Article 29 provides that all private rights over that land will be suspended and unenforceable for as long as the Applicant is in lawful possession of the land.

Article 33: Acquisition of subsoil or airspace only

- 3.3.5 Article 33 provides that where the Applicant has, in respect of any land, powers of compulsory acquisition under Article 25 above then it may, for the same purposes for which it is authorised to acquire the whole of the land, choose instead to acquire only the subsoil underneath or the airspace over the land. Article 33 provides that where the Applicant has powers of compulsory acquisition under Article 25 then it may, for the same purposes for which it is authorised to acquire the whole of the land, choose instead to acquire only rights in, the subsoil of or the airspace over the land.

Article 34: Rights under or over streets

- 3.3.6 Article 34 would authorise the Applicant to:
- a. enter on and appropriate so much of the subsoil underneath or airspace over any street within the limits of the draft DCO (Application Document 3.1) as may be required to provide the Project; and
 - b. use that subsoil or airspace for the purposes of carrying out the Project or any purpose ancillary to it.
- 3.3.7 Save in the case of subways or underground buildings, or to cellars or similar structures forming part of a building fronting the street, the Applicant may exercise its powers under this Article without having to acquire any part of the street or any easement or right in the street.

3.4 Temporary possession powers

- 3.4.1 The Applicant further seeks, in the draft DCO (Application Document 3.1), powers to take temporary possession of land to carry out and thereafter maintain the Project during the maintenance period as follows:

Article 35: Temporary use of land for carrying out the authorised development

- 3.4.2 Article 35 would authorise the Applicant to take temporary possession of:
- a. the land specified in column 1 of Schedule 11 to the draft DCO (Application Document 3.1)
 - b. any other land within the limits of the draft DCO (Application Document 3.1), so long as the Applicant has not served a notice of entry or executed a General Vesting Declaration (GVD) in respect of the land
- 3.4.3 In addition to taking possession of the land Article 35 would authorise the Applicant to:
- a. remove buildings and vegetation from the land
 - b. construct temporary works (including accesses) and buildings on the land
 - c. construct any works on the land as specified in Schedule 1 to the draft DCO (Application Document 3.1).
- 3.4.4 The power to take temporary possession would be subject to time limits under this Article. The Applicant cannot remain in possession unless the owner of the land agrees:
- a. as regards to any land specified in columns 1 of Schedule 11 to the draft DCO (Application Document 3.1), for more than one year after completing that part of the Project specified in relation to that land in column 3 of Schedule 11
 - b. as regards to any other land included in the draft DCO (Application Document 3.1), for more than a year after completing the work for which temporary possession was taken (unless before the end of that period the Applicant has made a vesting declaration or served notice of entry in relation to that land)
- 3.4.5 Article 35 provides that before giving up temporary possession of any land the Applicant must remove all temporary works and restore the land to the reasonable satisfaction of the owner unless otherwise specified in Article 35 (5) of the draft DCO (Application Document 3.1).

Article 36: Temporary use of land for maintaining the authorised development

- 3.4.6 This Article would allow the Applicant to construct temporary works and buildings on the land, so far as reasonably necessary for the purpose of maintaining the Project during the maintenance period. The Applicant would not be able to take temporary possession of a house, or a garden belonging to a house, or any other occupied building under this Article.

- 3.4.7 The Applicant would only be able to remain in possession of land under this Article for so long as may be reasonably necessary to carry out the maintenance of the part of the Project for which possession was taken. Before giving up possession of the land, the Applicant would be required to remove all temporary works and restore the land to the owner's reasonable satisfaction.
- 3.4.8 In this article “the maintenance period” in relation to any part of the authorised development means the period of 5 years beginning with the date on which that part of the Project is first opened for use. In relation to landscaping “the maintenance period” means such period as may be approved in a landscaping and ecology management plan pursuant to paragraph 5 of Schedule 2 to the draft DCO (Application Document 3.1).

3.5 Other rights and powers

- 3.5.1 If made, the draft DCO (Application Document 3.1) would also confer on the Applicant other rights and powers that may interfere with property rights and private interests, where relevant, parties having an interest in the land may be entitled to compensation on exercise of these powers. These additional powers are explained in more detail in the Explanatory Memorandum (Application Document 3.2) and include:
- a. Article 12: Temporary closure, alteration, diversion and restriction of use of streets
 - b. Article 14: Permanent stopping up of streets and private means of access
 - c. Article 19: Discharge of water
 - d. Article 20: Protective works to land and buildings
 - e. Article 21: Authority to survey and investigate the land
 - f. Article 23: Felling or lopping of trees and removal of hedgerows
 - g. Article 37: Statutory undertakers
 - h. Article 38: Apparatus and rights of statutory undertakers in stopped up streets
 - i. Article 66: Power to override easements and other rights

3.6 Conclusion

- 3.6.1 The Applicant considers that the powers sought in the draft DCO (Application Document 3.1) as set out in this chapter are reasonable, proportionate and necessary to deliver and thereafter maintain the Project.

4 Land Interests

4.1 The extent of the land subject to powers

- 4.1.1 The full extent of land within the Order Limits subject to powers of compulsory acquisition and required in order to enable the Applicant to construct the Project as described in Chapter 2 of this Statement is shown on the Land Plans (Application Document 2.2), Works Plans (Application Document 2.6), Crown Land Plans (Application Document 2.3) and the Special Category Land Plans (Application Document 2.4). It is further described in the Book of Reference (Application document 4.2) and in Chapter 7 Landscape and Visual of the Environmental Statement (Application Document 6.1). the Environmental Statement (Application Document 6.1). the Environmental Statement (Application Document 6.1).
- 4.1.2 The Order Limits total approximately 2,394 hectares. The approximate land use areas are as follows:
- a. Permanent acquisition of land: 1,487 hectares
 - b. Temporary possession of land and permanent acquisition of rights: 440 hectares
 - c. Temporary possession of land: 420 hectares
 - d. Permanent acquisition of subsoil and rights (including restrictive covenants): 36 hectares
 - e. Permanent acquisition of subsoil and rights (including restrictive covenants) and temporary possession of land at surface: 11 hectares
- 4.1.3 The purpose for which each plot of land is required is described in Annex A of this Statement.

4.2 Location

- 4.2.1 The Project is approximately 23km in length and located in the counties of Essex and Kent between the A2/M2 east of Gravesend, within Gravesham Borough Council and the M25 in the London Borough of Havering.
- 4.2.2 The Project location is provided on the Location Plan (Application Document 2.1).

The Order Limits are within the administrative areas of Kent County Council, Tonbridge and Malling Borough Council, Maidstone Borough Council, Gravesham Borough Council, Essex County Council, Thurrock Council, Brentwood Borough Council, Greater London Authority and London Borough of Havering.

4.3 Existing land use and character

4.3.1 Given the length of the Project and the varied landscape through which it travels, a more detailed description of the land within the Order Limits and the surrounding area has been provided by dividing the Project into eight character areas running from south to north (i.e. from the A2 to M25) as below. Further detail is provided in the Planning Statement (Application Document 7.2).

Shorne Woodlands

4.3.2 The A2, between its junction with Henhurst Road and Valley Drive through to Junction 1 of the M2, has four lanes and a hard shoulder in each direction. The High Speed 1 (HS1) railway line runs along the south of the A2 in a cutting.

4.3.3 The land between the villages of Thong and Shorne and to the south of the A2 forms part of the Kent Downs AONB while a Site of Special Scientific Interest (SSSI) covers much of the woodland east of Thong Village. The land north and south of the A2 is characterised by areas of native woodland. Claylane Wood, north of the A2 adjacent to the edge of Gravesend, and Shorne Woodlands, north of the A2 within Shorne Woods County Park, are both areas of ancient woodland, with smaller areas of SSSI/ancient woodland and an area of woodland planting further east.

4.3.4 The suburban area of Gravesend lies along the north side of the A2, west of Claylane Wood. The edge of the Gravesend urban area sits on the rural/urban divide, with the land to the east more rural in nature. South of the A2 lies Cobham Hall Registered Park and Garden.

Chalk Sloping Farmland

4.3.5 The Chalk Sloping Farmland area north of the A2 is characterised largely by open farmland. The Kent Downs AONB continues north of the A2 to the east of Thong village, while Gravesham urban area is located to the west. Southern Valley Golf Course sits between Thong village and the A226, adjoining Gravesend to the west.

4.3.6 In addition, a number of smaller settlements are found in the surrounding area. Thong village, a designated Conservation Area, is separated by a narrow gap from the edge of Gravesend to the west which helps maintain its rural character despite its proximity to Gravesend. Shorne village, another designated Conservation Area, lies to the north of the Kent Downs AONB. Chalk, situated north of Thong village, adjoins Gravesend to the west. A church, the St Mary the Virgin (Grade II* listed), lies beyond the village settlement to the east.

4.3.7 A number of registered footpaths cross this area, linking the Kent Downs AONB and surrounding settlements, including Gravesend, Chalk and Shorne. Two of these registered footpaths, NG 8 and NG 7, run through or adjacent to the Southern Valley Golf Course.

Shorne Marshes and River Thames

- 4.3.8 Situated north of the A226, this area is characterised by flat, grazing marsh with few trees. On the south bank of the River Thames to the east of Gravesend and Chalk, lie the Thames Estuary and Marshes Ramsar site and South Thames Estuary and Marshes SSSI. These designations cover much of the marsh area and extend downstream to the east, the majority of which is also designated as a Special Protection Area (SPA).
- 4.3.9 The North Kent Railway line between Gravesend and Rochester runs through this area, immediately south of the disused Thames and Medway Canal. National Cycle Network (NCN) Route 1 runs parallel to the railway on the north side of the Thames and Medway Canal. A registered bridleway links the railway line with the southern bank of the River Thames to the west of the character area, over the Shorne Marshes. The River is approximately 1km wide in this area, bounded by marshes on both riverbanks, giving it an open character with extensive views.
- 4.3.10 Other heritage features of note on the southern bank of the River Thames are scheduled monuments including New Tavern Fort and Cliffe Fort.

Tilbury Marshes

- 4.3.11 The northern bank of the River Thames is characterised by a low-lying, flat landscape of drained marshland with much of the Tilbury Marshes area lying within Flood Zones 2 and 3. The area is open with expansive views and a mix of arable and grazing land.
- 4.3.12 To the east of this area, are a small number of scattered residential properties along Station Road and ribbon development along Princess Margaret Road. The Tilbury Loop railway line runs through Linford, south of West Tilbury, and into Tilbury.
- 4.3.13 The Thames Estuary and Marshes SPA and Ramsar site are located to the east of Tilbury Marshes. A registered footpath and National Cycle Network Route 13 run along the northern bank of the River Thames. A registered footpath also links Coalhouse Fort through to Station Road, and a registered Bridleway links East Tilbury with Chadwell St Mary.
- 4.3.14 There are four scheduled monuments in the Tilbury Marshes character area.
- Tilbury Fort lies to the south-west of the character area
 - Coalhouse Fort lies to the south-east
- 4.3.15 Both Forts are located on the north shore of the River Thames.
- East Tilbury Battery and
 - Second World War Anti-aircraft Battery at Bowaters Farm
- 4.3.16 These are located to the north and north-west of Coalhouse Fort scheduled monument respectively.

Thurrock Urban Fringe

- 4.3.17 The Thurrock Urban Fringe is characterised by gently rolling farmland, divided by hedgerows, with occasional woodland blocks. The exposed urban edges of Grays, Chadwell St Mary and Linford also influence the landscape of this area.
- 4.3.18 The existing A13 dual carriageway runs south-west to north-east along a low ridge across the area. Existing planting associated with and close to the A13 gives it the appearance of a wooded ridge, as seen from the north and south.
- 4.3.19 The area north of the A13 has a more rural character, with open views north towards Orsett Fen. Orsett village lies to the north of the A13. National Cycle Network Route 137 runs along Stifford Clays Road, through Baker Street and Orsett. A registered footpath links Chadwell St Mary with Orsett and Orsett to the A13, crossing the B188. Registered bridleways run alongside the A13 from Mill Lane to Baker Street, and along Green Lane, to Stifford Clays Road.
- 4.3.20 West Tilbury, East Tilbury and Orsett villages are designated Conservation Areas. Hoford Road, which runs north-east from Muckingford Road between Linford and Orsett Golf Club, is designated as a protected lane due to its particular historic and landscape value and is also an important bat commuting and foraging corridor.
- 4.3.21 North of the A13 junction at Baker Street there are several listed buildings. A cropmark complex at Orsett, located adjacent to the A13, and a Springfield style enclosure and Iron Age enclosures south of Hill House, Baker Street are both scheduled monuments.

Orsett Fen

- 4.3.22 North of the A13 the landscape is flat and open, characterised by low-lying fen farmland. Trees line watercourses in the area and there are some shelterbelts and hedgerows.
- 4.3.23 There are no settlements or roads within the immediate Orsett Fen area. Beyond this area, Orsett lies to the south-east, South Ockendon to the south-west and Bulphan to the north-east.
- 4.3.24 The Mardyke is the principal watercourse running through the area and a prominent feature in the landscape. The Mardyke flows south-west between Orsett and South Ockendon, joining the River Thames at Purfleet. The area surrounding it lies in Flood Zones 2 and 3. A registered bridleway follows the alignment of the Mardyke while registered footpaths also link Baker Street to Bulphan in the east. To the west of the Character Area, a registered footpath links North Stifford to South Ockendon and on to Bulphan.
- 4.3.25 The Thames Chase Community Forest, a varied wooded landscape located across London and Essex, extends into this area and areas of landfill to the west.

Ockendon Farmland

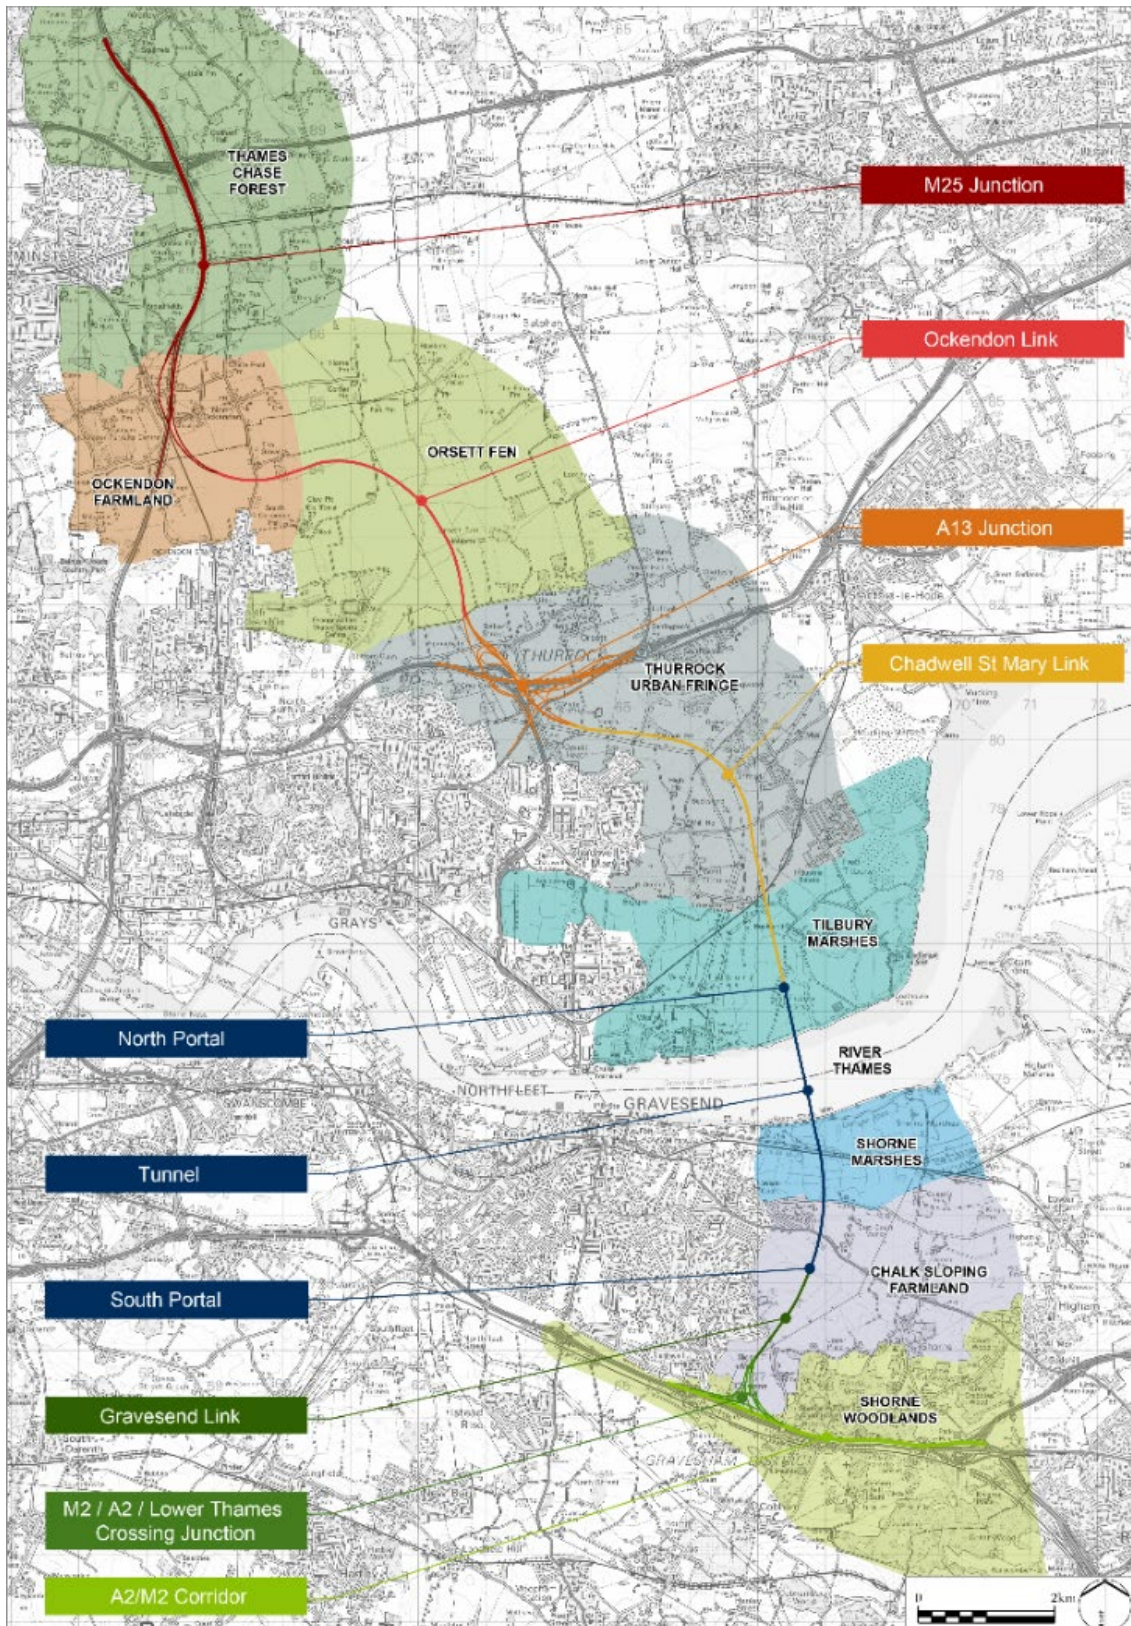

- 4.3.26 The Ockendon Farmland area is characterised by a gently rolling landscape between the settlements of North and South Ockendon. There are a number of lakes and water bodies associated with former sand and gravel quarries in the area, alongside areas of landfill.

- 4.3.27 There is a designated Conservation Area at North Ockendon and a registered footpath connecting it to North Road. The Upminster and Grays Branch railway passes through the area, under the M25. The Wilderness, an area of woodland, lies east of the B186.
- 4.3.28 The M25, and its associated embankments, cuttings and apparatus, is a dominant feature within the area, with a strong north to south orientation. It has four running lanes in each direction. The land use surrounding the M25 is a mix of agriculture and woodland (including the Thames Chase Community Forest Centre) along with the settlements of North and South Ockendon.

Thames Chase Forest

- 4.3.29 The area has a varied landscape, gently undulating in the south to steeper slopes in the north. This varied topography is unified by the woodland cover across the Character Area.
- 4.3.30 The Thames Chase Community Forest is a dominant feature in this landscape, with many pockets of woodland in an area of 38 square miles of countryside. It straddles the M25 to the north of North Ockendon. The Thames Chase Forest Centre is situated between North Ockendon and Cranham.
- 4.3.31 The Upminster and Grays Branch railway runs underneath the M25 south of junction 29, through Thames Chase Community Forest, and a registered bridleway connects the railway to Codham Hall Lane, east of the M25, crossing the A127. Registered footpaths link the east of the M25 with Warley Street and also Codham Hall.
- 4.3.32 To the north of the A127, more mature woodland is present, including the Codham Hall Wood ancient woodland which spans the M25 immediately north of junction 29 and Hobbs Hole ancient woodland immediately to the south-east of junction 29.
- Franks Farm, a Grade II listed building, is located west of the M25, just south of the Shoeburyness railway line. Cranham Conservation Area, to the west of the Character Area, south of the A127, surrounds the listed Cranham Hall and All Saints Church.

Plate 4.1 Lower Thames Crossing Character Areas

4.4 Identifying persons with an interest in the land

- 4.4.1 In preparing the DCO application, the Applicant has carried out diligent inquiries to identify all persons with an interest in land within the Order Limits as defined in section 44 of the Planning Act 2008. Such persons are listed in the Book of Reference (Application document 4.2) and have been consulted about the DCO application in accordance with section 42 of the Planning Act 2008.
- 4.4.2 Diligent inquiries to identify affected landowners, those with interests in land, and those with a potential claim were undertaken by the Applicant's land referencing supplier. The categories of persons identified and the methods used to identify them are described below. Land referencing will continue to be undertaken throughout the making of the DCO to ensure that any changes in ownership are identified and to ensure that any new owners would be consulted and engaged with.

4.5 Category 1 and 2 persons

- 4.5.1 Identification of Category 1 and 2 persons, as defined in section 44 of the Planning Act 2008, was undertaken at the early stages of development of the Project in order to inform the design of the Project and the preparation of the application.
- 4.5.2 Category 1 persons comprise the owners, lessees, tenants (whatever the tenancy period) or occupiers of land required for the development.
- 4.5.3 Category 2 persons comprise any person with an interest in the land, or that has the power to sell and convey the land, or to release the land.
- 4.5.4 A Shapefile of the search area, being the proposed land requirements, was submitted to the Land Registry in 2017 so that a search could be completed of the required land parcels. Ongoing Land Registry searches have been used to ensure that any changes in title were identified. The official copies of the Registered Titles and Plans were examined to identify all land interests.
- 4.5.5 On completion of the initial desk-based exercise, the extent of unregistered land interests became known. To establish ownership of unregistered land within the Order Limits public sources of information were used including the Planning Portal, Rural Payments Agency website, DEFRA, Natural England, Companies House website, the relevant Highways Authorities, records held by Statutory Undertakers, Electoral Registers and online resources. In addition site visits were undertaken and notices erected inviting potential owners to make themselves known to the Applicant.

4.6 Category 3 persons who may fall under section 10 of the Compulsory Purchase Act 1965 (CPA 1965) and/or section 152(3) of the Planning Act 2008

- 4.6.1 Category 3 includes parties who would or might, if the draft DCO (Application Document 3.1) were made and fully implemented, be entitled to make a relevant claim for compensation under section 10 of the Compulsory Purchase Act 1965 and/or Part 1 of the Land Compensation Act 1973 and/or section 152(3) of the Planning Act 2008. They mainly relate to those whose land may be injuriously affected (i.e. its value would be diminished) as result of the Project, although the land in question is not subject to compulsory acquisition.

- 4.6.2 Identification of Category 3 persons, as defined in section 44 of the Planning Act 2008, was undertaken at the early stages of development of the Project to inform the design of the Project and prepare the DCO application.
- 4.6.3 To identify potential Category 3 persons who may have a claim pursuant to section 10 of the CPA 1965, a desk-based assessment was undertaken to identify parties with a potential claim. In addition, site visits were made to assess properties that the Applicant may not have been aware of from a desk-based assessment.
- 4.6.4 Furthermore, proposed new residential developments, identifiable from the Local Plan or from local authority information on developments with the benefit of planning permission were taken into account.

4.7 Assessment of Category 3 persons which fall under Part I of the Land Compensation Act 1973 (LCA 1973)

- 4.7.1 In assessing potential claimants under Part I of the LCA 1973, physical factors and the impacts of the Project were considered, including:
- a. properties closest to the highway and within the Order Limits
 - b. properties identified as a receptor as a consequence of the property being located outside of the Order Limits but close to the Highway
- 4.7.2 The Applicant's land referencing supplier was provided with guidance from the Valuation Office Agency (VOA) and environmental specialists involved in the compilation of the Environmental Statement (Application Document 6.1). This guidance was based on the topography of the land and the likely significant effects arising from the Project. For example, the noise assessments had regard to information available at the time regarding:
- a. background noise levels
 - b. distance to receptors
- 4.7.3 Based on this information, professional judgement was used to ascertain whether a person may have a relevant claim for compensation under section 57(4) of the Planning Act 2008, based on a worst-case assessment. Further details about the noise assessments and other environmental assessments undertaken can be found in the Environmental Statement (Application Document 6.1).

4.8 Non-contact referencing

- 4.8.1 Non-contact referencing activities were undertaken by the Applicant's land referencing supplier, namely:
- a. Acquiring data from Land Registry (spreadsheet data, polygons, title registers)
 - b. Company research (Companies House data)
 - c. Purchase of electoral roll data (the Open Register)

- d. Identification of Crown interests (Crown Estates asset map, National Archives)
- e. Identification of special category land
- f. General internet research

4.8.2 More details on the non-contact referencing undertaken by the Applicant can be found in the Land Referencing Methodology, Annex C of this Statement of Reasons.

4.9 Contact referencing

4.9.1 Following the initial non-contact methods above, owners, lessees, tenants and mortgagees of land within the Order Limits were issued with a letter and questionnaire requesting return of information about their interests in the Land and details of others who may have an interest in the Land. More details on the contact referencing undertaken by the Applicant can be found in the Land Referencing Methodology, Annex C of this Statement of Reasons.

4.10 Negotiation to acquire by agreement

- 4.10.1 As well as consulting all persons with an interest in the land within the Order Limits about the Project proposals in accordance with section 42 of the Planning Act 2008, the Applicant is aware of the requirement (paragraph 25 of the Compulsory Acquisition guidance) to seek to acquire land by negotiation wherever practicable.
- 4.10.2 At the same time, the Applicant notes that the Compulsory Acquisition guidance also recognises that where proposals would entail the compulsory acquisition of many separate plots of land, it may not always be practicable to acquire each plot of land by negotiated agreement. As the Compulsory Acquisition guidance states, "Where this is the case, it is reasonable to include provision authorising compulsory acquisition covering all the land required at the outset."
- 4.10.3 The Applicant has engaged with all known landowners and occupiers with a view to acquiring their land interest by agreement by writing to them to inform them of the Applicant's willingness to negotiate to acquire the Land by agreement, and to invite dialogue. As a result, the Applicant is in the process of engaging with a significant proportion of landowners regarding the Project. Where landowners express interest in selling their land by agreement the Applicant has and will continue to engage constructively with a view to acquiring the land throughout the DCO process. The status of such negotiations is set out in Annex B to this Statement.
- 4.10.4 Whilst negotiations are ongoing, the Applicant is mindful that it is under a duty to acquire land at best value and that it is required to deliver the Project within a specified timescale. It has concluded that it would not be possible to acquire by agreement all land interests necessary to deliver the Project within this timescale. There are further parcels of land in unknown ownership which cannot be acquired by agreement. These are set out in Table 4.1 below. The Applicant considers that the Project cannot be delivered without compulsory acquisition powers.

Table 4.1 Unknown Ownership within the Order Limits relevant to Permanent Acquisition

Land plans plot ref.	Description of land	Owners or reputed owners
03-26	All interests and rights in approximately 2,012 square metres of woodland (north west of Park Pale Bridge) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
03-29	All interests and rights in approximately 3,158 square metres of public road, footway and verge (Park Pale Bridge) carrying national cycle route (177), public footpath (NS161) and grassland	Unknown (in respect of the subsoil)
03-32	All interests and rights in approximately 4,633 square metres of grassland (adjacent to Park Pale and Park Pale Bridge) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
04-09	All interests and rights in approximately 18,181 square metres of woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
04-30	All interests and rights in approximately 309 square metres of private access track (unnamed), shrubland and woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
04-32	All interests and rights in approximately 244 square metres of private access track (unnamed), shrubland and woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
04-43	All interests and rights in approximately 64 square metres of woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
04-53	All interests and rights in approximately 8 square metres of public highway and footway (Darnley Lodge Lane) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
06-171	All interests and rights in approximately 1,946 square metres of agricultural paddock (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
06-199	All interests and rights in approximately 815 square metres of footway, shrubland and woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
06-206	All interests and rights in approximately 9,778 square metres of grassland and woodland (south of Watling Street, A2) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
16-38	All interests and rights in approximately 1,012 square metres of shrubland (north of the River Thames)	Unknown (in respect of the subsoil)

Land plans plot ref.	Description of land	Owners or reputed owners
20-45	All interests and rights in approximately 114,966 square metres of private access track (unnamed), agricultural arable land, drainage ditch, earthworks and shrubland (south west of Tilbury Green)	Unknown (in respect of the subsoil)
20-53	All interests and rights in approximately 735 square metres of private access road and track (unnamed), drainage ditch and shrubland (south west of Tilbury Green)	Unknown (in respect of the subsoil)
20-62	All interests and rights in approximately 13,468 square metres of drainage ditch and shrubland (south of Tilbury Green)	Unknown (in respect of the subsoil)
20-69	All interests and rights in approximately 1,296 square metres of agricultural arable land (south west of Tilbury Green)	Unknown (in respect of the subsoil)
22-26	All interests and rights in approximately 1,218 square metres of agricultural arable land and shrubland (north west of Station Road)	Unknown (in respect of the subsoil)
22-28	All interests and rights in approximately 2,345 square metres of agricultural arable land and shrubland (south east of Station Road)	Unknown (in respect of the subsoil)
22-72	All interests and rights in approximately 72 square metres of private access track (unnamed) and shrubland (south west of Station Road)	Unknown (in respect of the subsoil)
23-78	All interests and rights in approximately 6,580 square metres of shrubland and woodland (south east of the London, Tilbury and Southend Railway, Tilbury Loop)	Unknown (in respect of the subsoil)
23-92	All interests and rights in approximately 86 square metres of shrubland (north of Station Road) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
23-94	All interests and rights in approximately 1,836 square metres of shrubland, woodland and overhead electricity powerlines (north of Station Road) (excluding all interests of the Crown)	Unknown (in respect of the subsoil)
27-64	All interests and rights in approximately 16,097 square metres of shrubland (west of Buckingham Hill Road)	Unknown (in respect of the subsoil)
28-102	All interests and rights in approximately 22,149 square metres of private access road (unnamed), agricultural arable land, hedgerow, overhead electricity powerlines and shrubland (east of Brentwood Road)	Unknown (in respect of the subsoil)
28-117	All interests and rights in approximately 351 square metres of woodland (east of Brentwood Road)	Unknown
29-246	All interests and rights in approximately 8 square metres of hardstanding and shrubland (east of Heath Road)	Unknown

Land plans plot ref.	Description of land	Owners or reputed owners
31-04	All interests and rights in approximately 152 square metres of earthworks (north of Stanford-le-Hope By-Pass, A13)	Unknown (in respect of the subsoil)
31-23	All interests and rights in approximately 2,262 square metres of public highway and verge (Stanford-le-Hope By-Pass, A13) and earthworks	Unknown (in respect of the subsoil)
31-33	All interests and rights in approximately 1,187 square metres of public highway and verge (Stanford-le-Hope By-Pass, A13) and public footpath (FP81)	Unknown (in respect of the subsoil)
31-34	All interests and rights in approximately 186,046 square metres of public footpath (FP42) and shrubland (west of Buckingham Hill Road)	Unknown (in respect of the subsoil)
31-35	All interests and rights in approximately 1,582 square metres of agricultural arable land and shrubland (north of Stanford-le-Hope By-Pass, A13)	Unknown (in respect of the subsoil)
32-185	All interests and rights in approximately 260 square metres of earthworks (north of Stanford-le-Hope By-Pass, A13)	Unknown (in respect of the subsoil)
33-29	All interests and rights in approximately 96,840 square metres of agricultural arable land, overhead electricity powerlines, shrubland, woodland (adjacent to Dock Approach Road, A1089 and Stifford Clays Road)	Unknown (in respect of the subsoil)
38-08	All interests and rights in approximately 80,723 square metres of private access road and verge (Hall Lane), private access track (unnamed), public footpath (FP136), agricultural arable land, drainage ditch, shrubland and woodland	Unknown (in respect of the subsoil)
38-11	All interests and rights in approximately 1,248 square metres of agricultural arable land, shrubland and woodland (west of Hall Lane)	Unknown (in respect of the subsoil)
38-12	All interests and rights in approximately 38,508 square metres of agricultural arable land, shrubland and woodland (west of Hall Lane)	Unknown (in respect of the subsoil)
38-17	All interests and rights in approximately 2,407 square metres of pit, drainage ditch and shrubland (west of Hall Lane)	Unknown (in respect of the subsoil)
44-36	All interests and rights in approximately 818 square metres of bridge carrying public highway, central reservation and verge (M25) over shrubland	Unknown (in respect of the subsoil)

4.10.5 Land already owned by, or on behalf of, the Applicant is included in the draft DCO (Application Document 3.1) in order to ensure that no known or unknown third party rights, which might impede delivery of the Project, remain over the land.

4.11 Utility Works

- 4.11.1 Multiple existing utility services are located in the surrounding area that would be affected by the Project. The relevant major utility works are summarised below and have been defined as specific works within the authorised development, listed in Schedule 1 of the draft DCO (Application Document 3.1). These works are also shown on the Works Plans (Application Document 2.3).
- 4.11.2 The Project includes four works which are National Significant Infrastructure Project (NSIP)s in their own right, namely:
- a. Diversion of electricity transmission overhead lines:
 - i. Work No.OH7: Approximately 3.87km diversion of the 275kV circuit (ZB route) in two sections; approximately 3.18km between pylons ZB018–ZB027, of which approximately 2.47km is realigned, and approximately 0.69km between pylons ZB033-ZB035, which is installed around the A13/1089/A122 junction, up to and over the proposed Ockendon Link. This includes temporary pylons and restringing of approximately 8.36km of the overhead powerlines.
 - b. Diversion of gas transmission high pressure (HP) pipelines, including:
 - i. Work No.G2 & Work No.G4: Diversion of 750mm HP pipeline (Feeder 5) which is split into two sections of work, each individually identified as an NSIP. Section 1 (Works G2) works are approximately 0.12km of gas pipeline diversion located through the south-east corner of Claylane Woods. Section 2 (Works G4) works are approximately 2.68km of gas pipeline diversion, running in a roughly south-west direction from Gravesend Road south of St Mary’s Church, finishing west of Thong village and north of Claylane Woods.
 - ii. Work No.G3: Diversion of 750mm HP pipeline (Feeder 18) for approximately 1.61km running from north of Thong village, crossing Thong Lane before diverting south/south-west and finishing in Claylane Woods.
- 4.11.3 An explanation of why these works are NSIPs is set out in the Explanatory Memorandum (Application Document 3.2) and Appendix 1.3: Assessment of proposed gas pipeline works for the purposes of section 20 of the Planning Act 2008 of the Environmental Statement (Application Document 6.3) and in Annex 2 to the Explanatory Memorandum (Application Document 3.2) – Assessment of proposed above ground electricity line works for the purposes of section 16 of the Planning Act 2008.
- 4.11.4 Other significant utility works are summarised below;
- a. Diversion of National Grid electricity transmission overhead lines:

- i. Work No.OH1: Approximately 1.78km diversion of the 400kV circuit (4YN route) between pylons 4YN045–4YN050, of which approximately 0.5km is realigned, which crosses the A2 and Thong Lane. This Includes temporary pylons and restringing of approximately 3.02km of the overhead powerlines.
 - ii. Work No.OH4: Approximately 1.98km diversion of the 400kV circuit (ZJ route) between pylons ZJ010–ZJ015, of which approximately 0.89km is realigned, which is installed over the Tilbury Loop railway Line and Muckingford Road. This Includes temporary pylons and restringing of approximately 4.17km of the overhead powerlines.
 - iii. Work No.OH6: Approximately 1.71km diversion of the 400kV circuit (YYJ route) between pylons YYJ116–YYJ120, of which approximately 1.18km is realigned, which is installed around the A13/A1089/A122 junction. This Includes temporary pylons and restringing of approximately 4.75km of the overhead powerlines.
- b. Diversion of Cadent high pressure (HP) pipelines;
- i. Work No.G5 & Work No.MU40: approximately 0.27km diversion of the existing 200mm HP pipeline (Work No.G5) and an associated 0.69km diversion of 450mm medium pressure pipeline (part of Work No.MU40) that runs east of Brentwood Road
 - ii. Work No.G6 & Work No.G6a & Work No.G6b: approximately 5.23km diversion of the existing 600mm pipeline that runs around the A13 junction and construction of a new gas compound along Stanford Road (Work No.G6a) and modifications to the existing pipelines (Work No.G6b)
 - iii. Work No.G7: Approximately 0.34km diversion of the existing 600mm pipeline that runs north of the new proposed Green Lane bridge
 - iv. Work No.G10: Approximately 0.63km diversion of the existing 450mm pipeline that crosses beneath the M25 at Folkes Lane
- c. Diversion of Thurrock Flexible Generation Plant high pressure (HP) Pipeline:
- i. Work No.TFGP1: Approximately 0.3km diversion of the proposed 200mm pipeline to run perpendicular to the A122 between the Tilbury Viaduct abutment and the subsequent viaduct pier (Pier 1)
- d. Diversion of Southern Gas Networks (SGN) Isle of Grain to St Mary's Cray medium pressure (MP) pipeline:

- i. Work No.G1a & Work No.G1b: Approximately 5.4km (Work No G1a length of approximately 2.4km and Work No G1b length of approximately 3km) diversion of SGN's MP gas pipeline and associated assets north of the A2 from Hever Court Roundabout east to the Harlex Haulage site. Diversion includes installation of connections and gas governors at Valley Drive, Inn On The Lake and Park Pale.
- e. Works associated with the ex-Barking Power Station high pressure (HP) gas pipeline:
 - i. Work No G8: Stopping up, capping and removal of up to approximately 1.58km of the 600mm pipeline east of North Road.
 - ii. Work No G9: Stopping up, capping and removal of up to approximately 1.15km of the 600mm pipeline west of North Road.
- f. Diversion of 132kV UK Power Networks electricity distribution overhead lines including:
 - i. Work No.OH3 and Work No.MU28: Undergrounding of approximately 2.2km of 132kV circuit (PEA route) between pylons PEA07 and PEA16 via the installation of approximately 2.37km underground cable underneath the Tilbury Loop railway and Muckingford Road. Pylon PEA16 is to be reconstructed as a terminal pylon (PEA16R). Other existing pylons including foundations are to be demolished.
 - ii. Work No.OH5: Approximately 1.45km diversion of the 132kV circuit (PAB route) between pylons PAB12-PAB17, of which approximately 1.45km is realigned, which is installed over Muckingford Road and the A122 road. This includes restringing of approximately 1.65km of overhead powerlines.
 - iii. Works No.OH8: Approximately 1.0km diversion of the 132kV circuit (PB route) between pylons PB3-PB6, of which approximately 1km is realigned, over the M25. This includes restringing of approximately 1.30km of overhead powerlines.
- g. Construction of a new primary substation and switchgear equipment to provide power to the A122 southern portal building and the tunnels, south of the A226 (Work No MU21).
- h. Relocation of distribution electricity substations and associated electricity networks at Park Pale, Thong Lane, Henhurst Road, Muckingford Road, Brentwood Road, Hornsby Lane, Stanford Road, Rectory Road, Baker Street and Heath Road (Work No.SS1-SS15).

- i. Work No OH2: Removal of up to approximately 2.8km of existing 33kV overhead powerline and associated poles
- i. Diversion of Southern Water assets including:
 - i. Sewer diversion of approximately 2.54km from Inn on The Lake to Halfpence Lane via Thong Lane green bridge and the Brewers Road Roundabout (Work No.MU8 & part of Work No.MU9, MU10 & MU12).
 - ii. Approximately 4.50km of 560mm water main along a service corridor south of the A2 and north of HS1, from Marling Cross to Park Pale (Work No.MU4 & part of Work No.MU9).
- j. Diversion of Essex and Suffolk Water assets including:
 - i. Work No.MU72: Approximately 3.12km of 900mm steel water main, diverted under the M25 and under the Upminster and Grays branch railway, from St Marys Lane to south of Ockendon Road.
 - ii. Diversion of approximately 0.43km of 800mm trunk main and 350mm distribution main at North Road (part of Work No.MU69).
 - iii. Diversion of approximately 0.36km of 700mm trunk main and 450mm distribution main at St Marys Lane (part of Work No.MU79).
 - iv. Work No.MU37: Diversion of approximately 0.6km of 560mm distribution main at Hoford Road
- k. Diversion of Anglian Water assets including:
 - i. Diversion of approximately 1.85km of 315mm pumped rising main around the A13 junction (part of Work Nos.MU56 to 58).
- l. Site wide diversion of multiple cable routes operated by telecommunication companies including Openreach, CenturyLink, Virgin Media, Vodafone and Zayo.

4.11.5 Works are also required to divert and protect various existing utilities such as intermediate, medium and low pressure gas pipelines, high voltage and low voltage electricity networks, gravity and pumped sewers, water mains and telecommunication networks, to ensure network continuity and customer supply throughout construction and operation of the Project (Work No.MU1-MU92 or parts of).

4.11.6 Provision of utility connections to Project Infrastructure such as roadside technology and the tunnel control building including the construction of substations for 10.3MVA connections at the North and South Portal building's;

- a. The south portal works include a cable route of approximately 8.63km in length from Northfleet Grid site (Work Nos.MU15, MU16, MU17 & MU19) to a new Primary Substation at the A226 (Work No.MU21).

- b. The north portal requires approximately 6.56km of cable to be installed from the Tilbury power station site to the north portal building via the local access roads (part of Work No.MU27).
- 4.11.7 Provision of temporary diversions and supplies for the connection from source to compound termination points for the use of construction throughout the Project (Work No.MUT1-MUT32) including the construction of a substation for 60MVA connections at the North Portal (Work No.MUT4 & Work No.MUT5).
- 4.11.8 Works are also required for the modification and reconfiguration of farm irrigation systems.

5 The Case for Compulsory Acquisition

5.1 Introduction

5.1.1 In seeking compulsory acquisition and temporary possession powers in the draft DCO (Application Document 3.1), the Applicant has had regard to the conditions in section 122 of the Planning Act 2008 and to the tests set out in the Compulsory Acquisition guidance.

5.2 The statutory conditions and Compulsory Acquisition guidance

5.2.1 Section 122 of the 2008 Act states that:

‘An order granting development consent may include provision authorising the compulsory acquisition of land only if the Secretary of State is satisfied that the conditions in subsections (2) and (3) are met’.

5.2.2 The conditions are:

- a. In subsection (2), that the land is:
 - i. required for the development to which the development consent relates;
 - ii. required to facilitate or is incidental to that development; or
 - iii. replacement land which is to be given in exchange for the Order land under sections 131 and 132’ of the Planning Act 2008

5.2.3 In s122(3) that there is a compelling case in the public interest for the land to be acquired compulsorily

5.2.4 The Compulsory Acquisition guidance (paragraph 11) sets out the considerations which the Secretary of State will take into account in deciding whether the condition in subsection (2) has been met. It states:

- a. In respect of whether land is required for the development, the applicant should be able to demonstrate to the satisfaction of the Secretary of State that the land in question is needed for the development. The Secretary of State will need to be satisfied that the land to be acquired is no more than is reasonably required for the purposes of the development
- b. In respect of whether the land is required to facilitate or is incidental to the proposed development, the Secretary of State will need to be satisfied that the development could only be carried out to a satisfactory standard if the land in question were to be compulsorily acquired and that the land to be taken is no more that is reasonably necessary for that purpose and that it is proportionate
- c. In respect of whether the land is replacement land, the Secretary of State will need to be satisfied that the compulsory acquisition is needed for replacement land, that no more land is being taken than is reasonably necessary for that purpose and that it is proportionate

- 5.2.5 In respect of the condition in subsection (3), the Compulsory Acquisition guidance states at paragraphs 12 and 13 that the Secretary of State will need to be persuaded that there is compelling evidence that the public benefits that would be derived from the compulsory acquisition will outweigh the private loss that would be suffered by those whose land is to be acquired.
- 5.2.6 Paragraphs 8 to 10 of the Compulsory Acquisition guidance are also relevant, setting out a number of general considerations to be taken into account by the applicant in seeking compulsory acquisition powers:
- a. That all reasonable alternatives to compulsory acquisition (including modifications to the Project) have been explored
 - b. That the proposed interference with the rights of those with an interest in the land is for a legitimate purpose, and that it is necessary and proportionate
 - c. That the applicant has a clear idea of how they intend to use the land which is to be acquired
 - d. That there is a reasonable prospect of the necessary funds for the acquisition becoming available
 - e. That the purposes for which compulsory acquisition powers are included in the application are legitimate and sufficiently justify interfering with the human rights of those with an interest in the affected land
- 5.2.7 Finally, paragraph 25 of the Compulsory Acquisition guidance states that applicants should seek to acquire land by negotiation wherever practicable.

5.3 Need for the land and the purposes for which compulsory acquisition powers are sought

- 5.3.1 The Applicant is satisfied that the condition in section 122(2) of the Planning Act 2008 is met. It considers that the Land subject to compulsory acquisition powers is either needed for the development, or is needed to facilitate the development, or is incidental to the development.
- 5.3.2 At Annex A of this Statement, the Applicant sets out why compulsory powers are necessary in relation to each individual plot of land within the Order Limits, with reference to the relevant DCO works numbers, and the nature of the works as set out in Schedule 1 to the draft DCO (Application Document 3.1). The proposed use of the Land is set out in Chapter 2 and Annex A to this Statement.
- 5.3.3 The need for and justification of the compulsory acquisition of replacement land under sections 131 and 132 of the Planning Act 2008 is considered in Chapter 7 of this Statement.

- 5.3.4 The Applicant would require acquisition, permanent rights and temporary possession of land outside existing National Highways ownership to enable the construction and operation of the Project. This land is within the Order Limits and is split into categories as detailed in Table 3.1 of the Book of Reference (Application Document 4.2) and shaded the relevant colour in the Land Plans (Application Document 2.2), this is summarised below:
- 5.3.5 Permanent acquisition land (shaded pink) would be retained in the ownership of National Highways after the works are complete. Approximately 1,487 hectares of land will be permanently acquired to operate the Project. The power to extinguish existing rights over land ensures that such rights that would interfere with the construction and operation of the Project can be extinguished.
- 5.3.6 Temporary possession land (shaded green) would be used to construct the Project and would be returned to its original owners after construction is complete. Approximately 420 hectares of land will be used temporarily. This figure does not include any other land within the limits of the draft DCO (Application Document 3.1) which the Applicant is permitted to take temporary possession powers over in addition to other powers, in accordance with article 35, so long as the Applicant has not served a notice of entry or executed a General Vesting Declaration (GVD) in respect of the land. The power to use land temporarily for carrying out the authorised development ensures appropriate work sites, working space and means of access would be available for use during the construction period and would provide space to establish mitigation areas and any other permanent works. Before giving up possession of temporary use land, the Applicant would be required to remove all temporary works and restore the land to the owner's reasonable satisfaction.
- 5.3.7 Temporary possession and permanent acquisition of rights land (shaded blue) would be used to build the Project and returned to its original owners after construction is complete but would be subject to permanent rights (including where necessary restrictive covenants). This is to ensure that the Applicant, a Statutory Undertaker or any necessary third party would be provided appropriate rights to access and maintain a diverted asset. Approximately 440 hectares of Land will fall into this category.
- 5.3.8 Permanent acquisition of subsoil and rights and temporary possession of land at surface (shaded orange) is required by the Applicant for construction, operation and protection of the tunnels and temporary construction working areas above. This includes the proposed ground protection tunnel and shafts. Land at surface required for temporary possession above the tunnels would have necessary restrictions on future use and development imposed prior to being returned to its previous owner. Approximately 11 hectares of Land will fall into this category.
- 5.3.9 Permanent acquisition of subsoil and rights (including restrictive covenants) is shaded yellow and would be used to construct, operate and protect the tunnels. Approximately 36 hectares of Land will fall into this category.
- 5.3.10 Further details on the extent of powers sought over the subsoil are explained in the 'Tunnel zone of protection and exclusion zone' further down in this chapter and detailed in Article 47 (No apparatus in the tunnel area without consent) and Article 48 (Protection of the tunnels, etc.) of the draft DCO (Application Document 3.1) and in the River Restrictions Plans (Application Document 2.14).

- 5.3.11 The Applicant considers that the land included in the draft DCO (Application Document 3.1) is the minimum amount of land required to construct, operate, maintain, protect and mitigate the Project necessary to achieve the objectives of the Project.
- 5.3.12 The Order Limits have been drawn as tightly as possible so as to minimise the amount of land required to construct and operate the Project. There may be a reduction in the amount of land required in a particular area following the detailed design stage.
- 5.3.13 As the Project design evolved, a number of multi-disciplinary workshops were held to assess the impacts of the engineering proposals at a local level. These workshops worked through the whole design and route proposed and took account of the following considerations: engineering, planning, environment, community and impact on farmland and property, to ensure impact was minimised where possible and that the land requirements identified are absolutely necessary to deliver the Project.
- 5.3.14 Alongside this there has been extensive landowner engagement, both during consultations and in periods of design development in between consultations. The Applicant has held design development meetings with multiple landowners and, in addition to considering consultation feedback, has wherever possible identified ways to avoid or mitigate the impacts on an individual's land ownership or business. As a result of this engagement the Applicant has refined the design of the Project in many areas, such as keeping elements within certain field boundaries or ownership titles or adjusting the design of the road or mitigation proposals to reduce impacts.
- 5.3.15 As a result of this detailed engagement with landowners and multi-disciplinary land requirement workshops, the draft Order Limits decreased in size by 41.25 hectares from the area proposed at Local Refinement Consultation in May 2022 (2,435.15 hectares) to the draft DCO Order Limits (2,393.90 hectares). The Applicant is accordingly satisfied that the land required is reasonable and proportionate.
- 5.3.16 The Applicant notes that the Guidance recognises that, for long linear schemes, the acquisition of many separate plots of land may not always be practicable by agreement. The construction period of the Project is approximately 6 years this includes establishing 18 site compounds, 15 utility logistics hubs, building new structures and changes to existing ones (including 2 tunnels bridges, buildings, tunnel entrances and viaducts), 3 gas high pressure pipeline diversions and an overhead line diversion.
- 5.3.17 The complexity of these works necessitates the 8-year limit for the acquisition of land proposed in the draft DCO (Application Document 3.1) and the fact that the Project includes a number of long term assets which will need to be completed after the main construction period. These include landscaping and the establishment of planting and environmental mitigation areas.
- 5.3.18 The 8-year time limit would ensure the Applicant is able to identify areas of opportunity to reduce the amount of permanent acquisition land required. It would allow General Vesting Declarations to be served based upon the actual land required once this is known, as various elements of the Project are completed, enabling a reduction in the amount of permanent land required,

rather than acquiring land early. This would also ensure that public money is being spent in the most effective way possible, achieving value for money. Details are also set out in the Explanatory Memorandum (Application Document 3.2).

- 5.3.19 The Applicant's proposed 8-year time limit reflects the scale of the Project and is precedent for other significantly large schemes. For example, the Thames Tideway Tunnel Order 2014 authorised a 10-year period and the Hinkley Point C Connection authorised an 8-year compulsory acquisition period.
- 5.3.20 The Applicant considers the 8-year time limit to be necessary and proportionate taking into account the length of the construction programme, scheme complexity, and extent of works required post main construction period. The compulsory acquisition powers are also required to override any existing rights and interests in the land as well as grant the right to take temporary possession of land for construction and during the maintenance period. Without these rights over land, the Project cannot be delivered.

5.4 Tunnel zone of protection and exclusion zone

- 5.4.1 The main crossing of the River Thames consists of twin bored tunnels running between the North and South Portal structures, along with the tunnel cross passages. Construction of the tunnels will require the compulsory acquisition of subsoil underneath the River Thames and also under land to the north and south of the river. Like any piece of infrastructure, procedures must be in place to ensure the asset is protected during its working life. In the case of the bored tunnels, protection from future development above the alignment or underground works in the vicinity of the structure is imperative.
- 5.4.2 All future temporary and permanent works in the vicinity of the tunnels must be designed to prevent unacceptable stresses being placed on the tunnels. Any works at surface may impact the safe operation of the tunnels, these include, but are not limited to, surface foundations, piles, ground treatments, excavations, dredging and dewatering. On the grant of the DCO the tunnels will be safeguarded by the provisions in Article 48 (Protection of the tunnels, etc.) within the draft DCO (Application Document 3.1) and the River Restrictions Plans (Application Document 2.14).
- 5.4.3 For main the bored tunnels, the Applicant also seeks powers to compulsorily acquire subsoil, acquire rights and impose restrictive covenants to the extent necessary to construct, operate, protect and maintain the tunnels.
- 1.1.2 The Applicant is including provisions in the draft DCO (Application Document 3.1) for the construction of a ground protection tunnel. The contractor would determine whether the ground protection tunnel is required to improve ground conditions along a section of the main tunnel route on the south side of the River Thames. If the tunnel is required, the Applicant would use temporary possession powers to construct the shafts and tunnel which would be backfilled once the works are complete and remain in situ. The top 2m of the shafts would be removed and the ground reinstated to the reasonable satisfaction of the landowner.

- 5.4.4 The Applicant therefore requires the subsoil within which the tunnels would lie, together with a layer of additional subsoil around the tunnels. The layer would form a protective barrier around the tunnels as, shown in Plate 5.1 below as the exclusion zone, which would extend around the tunnels for a distance of 0.7 times the tunnel diameter.

Plate 5.1 Illustrative cross-section showing the zone of protection and exclusion zone

- 1.1.3 The Applicant would seek to acquire rights and impose restrictive covenants in the area identified as the zone of protection, shaded blue in Plate 5.1 above, to secure protection of the tunnels from potentially conflicting future development and works that might jeopardise the structural integrity of the tunnels. The restrictive covenants, which would be imposed upon implementation of the powers of compulsory acquisition (should such powers be granted in the DCO), would require third parties to consult with the Applicant in respect of any proposals for development or for works at or below surface level within the zone of protection as shown on Plate 5.1.
- 1.1.4 In Plate 5.1 above, yellow shading signifies permanent acquisition of subsoil and blue signifies the area within which restrictive covenants would be imposed for the protection of the tunnels. The Applicant would note that the acquisition of subsoil, together with rights and restrictive covenants, in connection with the tunnels, the exclusion zone and the zone of protection is preceded for tunnels projects (for example the Silvertown Tunnel).

5.5 Compounds

- 5.5.1 In total, 18 compound locations and 15 utility logistic hubs are required to facilitate the construction of the authorised development. Two of the four compounds required for the tunnelling operations are by necessity more extensive than for a surface highway project. This is due to the need for additional infrastructure to support the tunnelling operations, such as bulk excavation, precast concrete and slurry treatment plants.

5.6 Stockpiling excavated material

- 5.6.1 The Applicant requires a substantial programme of earthworks to deliver the Project. Temporary possession of land is required to provide suitable locations for stockpiling excavated ground materials, prior to their movement and reuse within the Order Limits or transportation offsite. Routine stockpiles of excavated materials associated with the earthworks would be located throughout the Order Limits. Land is also required to temporarily store topsoil and ground materials that will be used for ecological mitigation and the reinstatement of agricultural land.
- 5.6.2 It would be necessary to include provision for stockpiling of excavated materials during construction works, to aid the phasing of construction and the reuse of material across the Project. Where practicable, the phasing of the earthwork activities would promote minimising double handling (handling and placement of excavated material more times than necessary) and movement of material to its permanent destination. Further details are set out in the Outline Material Handling Plan in the Code of Construction Practice Appendix B (Application Document 6.3).
- 5.6.3 The contractor will identify stockpile areas based on the requirements of their mass haul plan. Stockpiles will be managed relative to the site-specific activities.
- 5.6.4 The stockpiling areas will consider sensitive receptors in the layout, along with managing the impact of lighting, access and egress, loading/unloading areas (including hours of operation), dust, noise, visual impact, rainwater runoff and archaeological features.
- 5.6.5 Suitable locations for the long-term stockpiles near the North and South Portals have been identified where they:
- are within land that is already in the Order Limits e.g. due to utility diversion or surface water drainage basin construction
 - are in proximity to the source of the material and internal haul roads (to reduce the transportation of these materials within the Order Limits)

5.7 Utility works

- 5.7.1 Provision has been made in the draft DCO (Application Document 3.1) for the creation and acquisition of new rights for statutory undertakers and third parties, and the imposition of restrictive covenants on third parties, to accommodate the diversion of apparatus on, under or over plots identified in Schedule 8 and Schedule 10 to the draft DCO (Application Document 3.1).
- 5.7.2 The Applicant has worked with relevant statutory undertakers and third parties to identify areas where utilities will or may need to be diverted and the alignments of those connections for the operation of the Project. Given the level of certainty around the location of existing utilities, and the likelihood of unknown utilities being found in the area, a sufficient amount of land has been included within the Order Limits around certain assets. This should ensure that there is enough land to divert utilities within the Order Limits. The Applicant is applying for temporary possession and the permanent acquisition of rights over the whole of the relevant plots identified for the diversion of utilities. Permanent acquisition is proposed for certain elements of statutory undertakers'

infrastructure where land would not be returned to a landowner following works. For example, operational compounds would need to stay within the ownership of the relevant statutory undertaker. The draft DCO (Application Document 3.1) contains protective provisions for the protection of electricity, gas, water and sewerage undertakers. The provisions ensure that no apparatus belonging to such undertakers can be acquired without agreement.

- 5.7.3 The power to acquire the appropriate permanent rights, including easement widths, required by statutory undertakers or other third parties would only be exercised when the final location of the asset (within the limits of deviation) and the associated access areas required for maintenance and operation are known. It would not always be exercised over the entirety of the relevant plots as at this stage, as explained above, it is not practicable to determine the exact locations of the required corridors and hence powers are sought on the basis explained above.

5.8 Environmental mitigation

- 5.8.1 Environmental mitigation and compensation are proposed to be provided by the establishment of various areas of habitat creation and/or other environmental measures. A series of green bridges for protected species would provide connectivity for existing and reinstated habitats and species impacted by the construction activities. Plans include re-provision of planting for hedgerows and other habitats that are permanently lost as well as compensatory woodland planting for loss of ancient woodland. Land is also required for the creation of suitable receptor sites for habitat and protected species translocation. Further details of the environmental mitigation proposed is set out in the Environmental Statement (Application Document 6.1).
- 5.8.2 Noise bunds and fencing have been designed in accordance with noise assessments that have been undertaken to inform the Environmental Statement (Application Document 6.1). The heights of the bunds and fencing have been optimised to be less visually and physically intrusive, while still providing effective noise mitigation. In addition, false cuttings are proposed to be provided at several locations to provide screening of the road and to reduce the visual impact of the Project.
- 5.8.3 The construction works will have some adverse effects on biodiversity, so land has been identified to enhance existing habitats or create new habitats to provide suitable receptor sites for displaced species to become established. Further details of the habitat creation proposed is set out in the Environmental Statement (Application Document 6.1).

5.9 Nitrogen deposition compensation

- 5.9.1 Throughout the design and development of the Lower Thames Crossing, assessments have been carried out to understand its impact on the environment. Changes to traffic flows as a result of building and operating the Lower Thames Crossing will mean changes to emissions from vehicles. Those changes may then have an impact on the environment, The Environmental Statement (Application Document 6.3, Appendix 5.6 Project Air Quality Action Plan (PAQAP)) contains the detail including, mitigation measures considered, need for compensation, site selection methodology and why each site has been selected.

- 5.9.2 Following the analysis, 245.7 hectares of compensatory habitat has been proposed across four compensation areas:
- a. **M2 corridor and Blue Bell Hill** – Split between two areas, the first is Blue Bell Hill located south-east of the Project, between Kit's Coty and Westfield Sole (Work number E1). This area of Nitrogen deposition compensation planting is located remotely from the Project road, approximately 9km south-east of Section 1, and comprises 72.2 hectares of habitat creation, primarily of woodland. The second area is located south-east of the Project, to the east of Burham (Work number E2). This area of Nitrogen deposition compensation planting is located remotely from the Project road, approximately 6km south-east of Section 1, and comprises 9.7 hectares of habitat creation.
 - b. **Gravesham and Shorne Woods** – Split between three areas the first is Henhurst Hill located directly west of Henhurst Road (Work number E8). This area of mitigation is located in the vicinity of Project Section 2 and comprises 9.1 hectares of habitat creation. The second area is Fenn Wood which is located south of Shorne, west of Woodlands Lane (Work number E12). This area of mitigation is located in the vicinity of Project Section 1 and comprises 5.8 hectares of habitat creation. The third area is Court Wood located south-east of Shorne and Swiller's Lane (Work number E13). This area of mitigation is located in the vicinity of Project Section 1 and comprises 27.7 hectares of habitat creation.
 - c. **Southfields, Thurrock** – Split between two areas the first is located north of the new A122, west of Hoford Road (Work number E25). This area of mitigation is located in the vicinity of Project Section 6 and comprises 21.6 hectares of habitat creation. The second is located directly west of Buckingham Hill Road (Work number E26). This area of mitigation is located in the vicinity of Project Section 6 and comprises 24.4 hectares of habitat creation.
 - d. **Hole Farm, Brentwood** - located east of the M25 (Work number E52). This area of mitigation is located in the vicinity of Project Section 9, approximately 750m north of M25 junction 28 and comprises 75.2 hectares of habitat creation, primarily of woodland. It is anticipated that the habitat creation as part of the Hole Farm proposals will start in winter 2022/2023 and will have begun to become established prior to the commencement of construction of the Project.

5.10 Walkers, cyclists and horse riders

- 5.10.1 A strategy for walkers, cyclists and horse riders (WCH) was developed through extensive consultation to help mitigate severance caused by the Project to the existing public rights of way (PRoW) network. Diversions of PRoW and grade separated crossings are proposed to ensure connectivity is maintained. Where possible these cross the Project near to their existing location unless a better-quality route can be provided in the vicinity to help improve connectivity to the exiting PRoW network and link communities.
- 5.10.2 The existing PRoW network has also been enhanced through upgrades to existing routes, forming new links and addressing historic severance caused by the M25, A127 and to a lesser extent the A13. These improvements will help to increase access for local residents to both recreational green spaces and areas of employment and services. Further details are set out in the Project Design Report (Part E - Design for Walkers, Cyclists and Horse-riders) and Rights of Way and Access Plans (Application Document 2.7). Permanent changes to the PRoW network are set out in the Transport Assessment (Application Document 7.9).

5.11 Recreational sites

- 5.11.1 In addition to replacement land for areas of special category land that the Applicant proposes to compulsorily acquire two areas of new public recreational space are to be provided.

Tilbury Fields (north of the River Thames)

- 5.11.2 New sculptural landscape earthworks on Goshems Farm to be designed with elevated areas to create vistas across the Thames Estuary and guide views to features such as Tilbury Fort and Coalhouse Fort, which reflect the military history of the Thames. Designed for maximum biodiversity benefit to link existing habitat areas along the Thames Estuary, to proposed habitat creation further north of the Tilbury Loop railway line, extending to the new Open Mosaic habitat creation at Linford.
- 5.11.3 The new public recreational site would be publicly accessible, via the Two Forts Way in the south and from FP200 in the north. It will incorporate accessible permissive routes through the landforms and allow users to reach the elevated areas. Placemaking features will be located at the top of the earthworks, to create a focal point and landmark.

Chalk Park (south of the river Thames)

- 5.11.4 The Project seeks to generate a positive legacy of Green Infrastructure, and the design proposals include provision of a recreational landscape for east Gravesend and Chalk, currently an area of limited public open space provision. The new recreational landscape (named as Chalk Park) would both provide open space and create a desirable separation between the South Portal and the edge of Gravesend. Recreational routes are proposed that build upon the routes of existing paths and respond to the proposed topography. A wooded hilltop shall be provided in a manner characteristic of the setting of nearby settlements at Thong and Shorne to soften the exposed urban edge of Gravesend, as defined in the Environmental Masterplan (Application Document 6.2, Figure 2.4).
- 5.11.5 Chalk Park would be greater in size than the entire area of the Southern Valley Golf Club proposed to be acquired and would be publicly accessible.

5.12 Compelling case in the public interest

- 5.12.1 The Applicant is satisfied that the condition in section 122(3) of the Planning Act 2008 is met and that there is a compelling case in the public interest for compulsory acquisition.
- 5.12.2 The need for and the benefits of the Project are set out in Chapter 2 of this Statement and in the other application documents, including the Need for the Project (Application document 7.1). Together, they demonstrate that there is a very strong and compelling case in the public interest for the Project to be
- 5.12.3 Section 2 of the NPSNN sets out the need for development of the national networks, the Government's policy and strategic vision and objectives. Specifically, paragraph 2.2 states that *'there is a critical need to improve the national networks to address road congestion and crowding on the railways to support safe, expeditious and resilient networks that better support social and economic activity; and to provide a transport network that is capable of stimulating and supporting economic growth'*, detailed in Need for the Project (Application document 7.1).
- 5.12.4 The way in which the strategic objectives of the Project are aligned with the NPS NN is set out in detail at Chapter 3 of the Need for the Project. General compliance with the NPS NN is set out in the Planning Statement (Application document 7.2). This clearly demonstrates that there would be substantial public benefits arising from the implementation of the Project.
- 5.12.5 The Project sits within a wider package of works for the SRN in the south-east of England. The Government's Road Investment Strategy 2: 2020–2025, also known as RIS 2, (Department for Transport, 2020) acknowledges that the demands on the nation's roads continue to evolve and change and that investment is needed to update the network accordingly. The Lower Thames Crossing is identified as a part of this investment, as a project that will be started or completed in the RIS 2 period and will *'have a national impact, allowing freight traffic to the continent to bypass Dartford, and have an uncongested route to Dover'*.

- 5.12.6 The Government's Levelling Up the United Kingdom White Paper (Department for Levelling Up, Housing and Communities, 2022) recognises transport infrastructure as an important form of physical capital, reducing 'distances' between people and improving market access for people, firms and workers. Transport infrastructure is identified as one of the Government's core missions in levelling up to drive improvements in productivity, pay, jobs and living standards.
- 5.12.7 In the Levelling Up White Paper, the Lower Thames Crossing is identified as a strategic road investment which will boost productivity, pay, jobs and living standards which will ultimately level up different areas of the country. The Project is anticipated to act as a major road improvement certainly for the East and South East of England, and also for London where the Project will increase capacity across the Thames East of London by over 90%.
- 5.12.8 The Government announced to create eight new Freeports in England including the Thames Freeport (HM Treasury, 2021) as well as Investment Zones (HM Treasury, 2022) including potentially London, Kent and Essex. These are areas where businesses will benefit from more generous tax reliefs, simplified regulatory procedures and wider government support, bringing investment, trade and jobs which will regenerate regions across the country that need it most. The Project would play an important role in supporting the emerging Investment Zones and the Thames Freeport, as highlighted by the Department for Levelling Up, Housing and Communities in its letter dated 12 October 2021 which sought a mutually beneficial redesign of the Project to best support the land take needed to realise the full ambitions of the Thames Freeport.
- 5.12.9 The England's Port Connectivity (Department for Transport, 2018b) and the Transport Infrastructure for our Global Future (Department for Transport, 2018c) both recognise the fundamental importance of the Strategic Road Network in supporting the port connectivity and growth in international trade movements, as road freight transport accounts for 76% of all freight movements in the UK. They recognise the congested road network negatively affecting the ports in the London and South East region, and note that the Lower Thames Crossing is a key road project to alleviate this congestion particularly relieving the Dartford Crossing and providing the Port of Tilbury (among other ports) with improved accessibility to the Strategic Road Network.
- 5.12.10 The Project sits within a wider package of works for the SRN in the south-east of England. The Government's Road Investment Strategy 2: 2020–2025, also known as RIS 2, (Department for Transport, 2020) acknowledges that the demands on the nation's roads continue to evolve and change and that investment is needed to update the network accordingly. The Lower Thames Crossing is identified as a part of this investment, as a project that will be started or completed in the RIS 2 period and will *'have a national impact, allowing freight traffic to the continent to bypass Dartford, and have an uncongested route to Dover'*.
- 5.12.11 The South East Local Enterprise Partnership (SELEP) is one of 38 Local Enterprise Partnerships (LEPs) established by the Government in 2011 to identify and support local strategic growth priorities, encourage business investment and promote economic development. A key role of LEPs is to decide the priorities for investment in roads, buildings and facilities in the area as part of an integrated approach to growth and infrastructure development.

- 5.12.12 The SELEP – Smarter Faster Together: Towards a Local Industrial Strategy (2018) refers to the major, long-term infrastructure priorities to be delivered within the SELEP area, including Lower Thames Crossing, stating that:
- ‘Looking forward to the next five years, key areas for action include ...delivery of the LTC, all its stated scheme objectives and the consequential improvements that must be delivered on the wider road network.’*
- 5.12.13 Both the London Plan (Greater London Authority, 2021) and the Mayor of London’s Transport Strategy (Greater London Authority, 2018) include the Lower Thames Crossing in their list of ‘Strategic Infrastructure priorities’ while the Mayor’s Transport Strategy also sets out the following:
- ‘On the M25 orbital motorway, there is already enormous pressure on the Dartford Crossing, an important artery for people and businesses in outer London. The new Lower Thames Crossing being proposed by the Government could help reduce pressure on this important link’.*
- 5.12.14 The way in which the strategic objectives of the Project are aligned with the NPSNN are set out in detail in the Need for the Project (Application Document 7.1). General compliance with the NPSNN is set out in the NPSNN Accordance Table (Application Document 7.2).

5.13 Consideration of alternatives

- 5.13.1 In designing the Project and determining the land to be subject to compulsory acquisition and temporary possession powers, the Applicant has considered alternatives and modifications to the Project to minimise the amount of land required. These alternatives and modifications were consulted on and the preferred route, associated infrastructure, utility diversions and environmental compensation proposals have been chosen based on a thorough consideration of all of the relevant issues including input from affected landowners. This process is described in detail in the Environmental Statement (Application Document 6.1) and Planning Statement (Application Document 7.1).

Alternatives considered up to Preferred Route Announcement

2009 Dartford River Crossing study

- 5.13.2 In 2009, the DfT commissioned a study (DfT, 2009) to investigate how to address capacity constraints at the Dartford Crossing. The study included consideration of the following:
- What could be done to improve traffic flow at the existing Dartford Crossing in the short- to medium-term.
 - What role other modes (for example, light/heavy rail, bus) might play in any plans for new capacity, leading to agreed options for evaluation.

Identification and review of six potential route corridors that could serve as future new routes for improvements in cross-river capacity.

- 5.13.3 The study identified options for providing additional capacity at the Dartford Crossing through use of new technology and amended layouts at the toll booths. These options were considered to provide only short-term enhancements rather than long-term solutions, as the capacity generated was likely to be relatively small and would not address the future capacity and congestion issues at the crossing
- 5.13.4 The 2009 DfT study also assessed modal options, considering a rail crossing of the River Thames. It concluded that there was no reasonable business case for the inclusion of rail passenger services as part of any future Lower Thames crossing facility. It further concluded that the provision of rail freight facilities as part of a new crossing in the Lower Thames area would be unlikely to assist in addressing any shortage of freight paths on key rail routes. As a result of this study, provision of rail capacity crossing the Lower Thames was not considered further.

Location options

- 5.13.5 The 2009 study considered potential corridors for a new Lower Thames crossing. Six potential crossing locations were identified and assessed against DfT's goals, as defined in Delivering a Sustainable Transport System (DfT, November 2009). The six potential crossing locations are shown in Plate 5.2 and consisted of:
- a. Additional capacity at the existing Dartford Crossing
 - b. Swanscombe Peninsula Link to the A1089
 - c. East of Gravesend and Link to the M20
 - d. M2 Link to A130 via Cliffe/ Pitsea
 - e. M2 to A130 via Canvey Island
 - f. Isle of Grain Link to East of Southend

Plate 5.2 The six potential route corridors investigated in the 2009 DfT study

- 5.13.6 The crossing locations included a link between the M2 and M20 at Blue Bell Hill, which was considered as a variation of location C with the potential to enhance benefits from the Project. This was therefore referred to as C variant but is shown as part of route C on Plate 5.2 above.
- 5.13.7 The 2009 study concluded that three crossing locations (A, B and C) offered the greatest benefits in terms of relieving congestion at the existing crossing and should be assessed further. Crossing locations D and E were discounted for the reasons described below, including environmental reasons.
- 5.13.8 The study identified that Location D (options D1 and D2) would not meet the traffic objective of relieving congestion at the existing Dartford Crossing and providing free-flowing north-south capacity. Both options would have poor to low value for money, limited safety benefits, require substantial areas of flood storage compensation, and have significant environmental impacts on the following designated sites:

- a. Mucking Flats and Marshes Special Scientific Interest (SSSI) for option D1.
- b. Holehaven Creek SSSI for option D2.
- c. South Thames Estuary and Marshes SSSI for both options.
- d. Thames Estuary and Marshes Special Protection Area (SPA) and Ramsar site for both options.

5.13.9 The study identified that Location E would provide very limited relief to the Dartford Crossing and would have poor to low value for money. Environmental constraints were an important consideration, as potential direct and indirect effects were identified on the following designated sites:

- a. Medway Estuary and Marshes Ramsar site and SSSI
- b. Swale Ramsar site and SSSI
- c. Foulness (Mid-Essex Coast Phase 5) Ramsar site and SPA and the Foulness SSSI
- d. Essex Estuary Special Area of Conservation (SAC)

5.13.10 Further work was carried out by DfT in 2013 to consider the three remaining crossing locations in more detail (A, B and C, including the C variant). The options were assessed using DfT processes relevant at that time. This included the framework provided by DfT's five case model and the technical guidance in the Transport Appraisal Guidance (TAG).

5.13.11 The proposed options were assessed against the 'Without Project' scenario, i.e. the future conditions at the Dartford Crossing without any further improvements. This indicated that the existing crossing would operate with increased congestion and likelihood of incidents which would lead to greater unreliability.

5.13.12 These location options were presented at a public consultation held by DfT in 2013.

5.13.13 Three engineering solutions were considered: a bridge, an immersed tunnel and a bored tunnel. An immersed tunnel is a shallow depth tunnel submerged in a trench in the riverbed, while a bored tunnel requires the construction of a circular tunnel at depth without removing the ground above.

Route options

5.13.14 The 2014 Summary of key benefits, as shown in Table 2.1 of Chapter 2: Project Description, were developed by National Highways and endorsed by DfT after the Government commissioned National Highways to identify and assess options for a new road crossing in the Lower Thames area.

5.13.15 Subsequently, National Highways undertook a further, more detailed appraisal of options at crossing locations A and C. The study identified a longlist of nine options at Location A, six options at Location C and four options for the C variant:

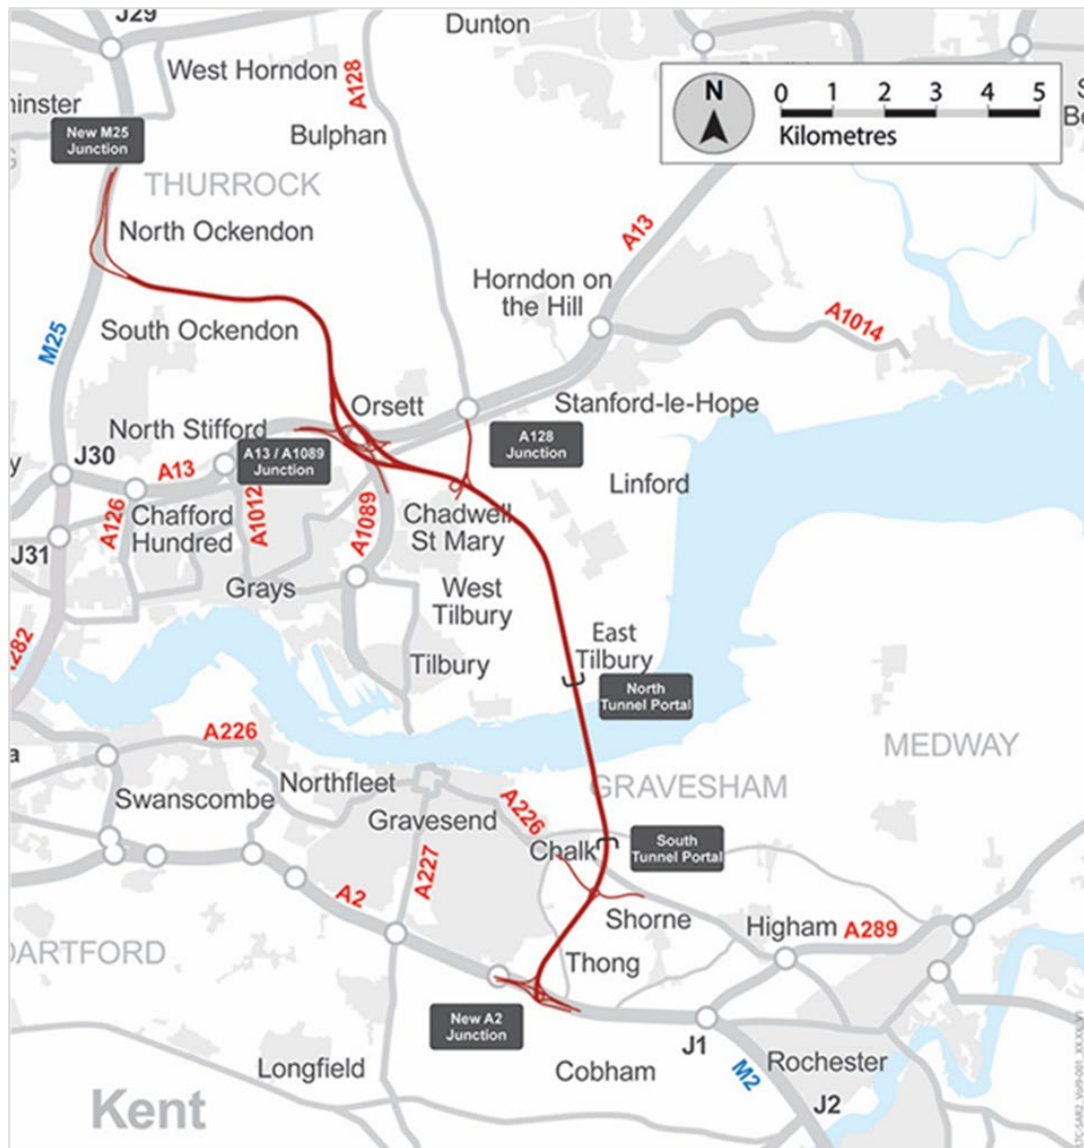

- a. The Location A options assessed a variety of bridge, immersed tube and bored tunnel solutions against a variety of factors, including environmental impacts. Details of the process for considering the options are provided within the Planning Statement (Application Document 7.2). As explained in the Need for the Project (Application Document 7.1), Location A options could not be developed into a solution that met the Scheme Objectives. It failed to relieve the congestion on the approaches to the Dartford Crossing as it did not provide a suitable alternative route for traffic travelling along the A2 and A13.
- b. Alternatives considered at Location C included a bridge, a bored tunnel, and an immersed tube tunnel. The assessment determined that there would be a risk of significant effects to European Designated Sites including the Thames Estuary and Marshes SPA and Ramsar site with both bridge and immersed tube tunnel solutions. The bored tunnel was the least environmentally damaging alternative. The bored tunnel solution was considered unlikely to have direct impacts on the SPA and Ramsar site. It was therefore concluded that, of the crossing options at Location C, a bored tunnel would have the least environmental impact on designated sites.
- c. Assessment of the C variant options determined that they did not meet the Scheme Objective of providing additional relief to the existing Dartford Crossing, beyond the relief that would be provided by the new route at Location C, and would have substantial impacts on the Kent Downs AONB. As a result, the C variant options were not considered further.

5.13.16 The outcomes of the route options appraisal work, considering the performance against the Scheme Objectives and the environmental impacts, were presented at the 2016 non-statutory consultation. This included the shortlist of options concluded upon in the appraisal which were defined as one option at Location A (identified as route 1) and three options at Location C. The options at Location C were identified as routes 2, 3 and 4 to the north of the River Thames, and the Western Southern Link (WSL) and Eastern Southern Link (ESL) to the south of the River Thames.

Plate 5.3 Shortlisted routes presented at the 2016 non-statutory consultation

The preferred route

- 5.13.17 The Preferred Route Announcement (PRA) was made in April 2017 by the Secretary of State for Transport. This took into account the feedback received during the 2016 non-statutory consultation, and further appraisal work undertaken to supplement and update the pre-consultation appraisals.
- 5.13.18 The Preferred Route location of the crossing was announced as Location C and comprising route 3 to the north of the River Thames, with a bored tunnel crossing under the River Thames east of Gravesend and Tilbury, and the WSL to the south of the River Thames which would join the A2 east of Gravesend.
- The appraisal had shown that C variant would not provide additional relief to the congested Dartford Crossing beyond that offered by a scheme in Location C but that it would be considered as part of National Highways' wider route strategies.

Plate 5.4 The preferred route announced in April 2017

5.14 Location and route options reappraisals

- 5.14.1 As the project has developed since the 2009 study, new information has become available including:
- New local plans, both published for consultation and adopted
 - A new traffic model – the Lower Thames Area Model (LTAM) – based on updated traffic data gathered in 2016
- 5.14.2 In addition, as the design has developed, changes to the proposals have led to changes in the impacts.
- 5.14.3 At key points in the project development the Applicant has reviewed whether the decisions made during the route selection process remained valid in light of new information available to the project.

2018 reappraisal undertaken to support Statutory Consultation

- 5.14.4 In 2018, National Highways undertook a reappraisal of all the options previously presented, from the original six crossing locations presented by the DfT in 2009 up to the PRA in 2017, to ensure that as more information was becoming available, as well as design development, the decision making throughout the options appraisal process remained valid.
- 5.14.5 This reappraisal reviewed the decisions considering newly adopted and consulted local plans since the original 2009 study, the traffic model, and changes to the design that had taken place between the PRA and the preparation of the proposals set out at Statutory Consultation.
- 5.14.6 The conclusion of the options reappraisal was that the option identification and selection process remained valid and this was presented in the Design Construction and Operations report (Highways England, 2018a) at Statutory Consultation in 2018. It remained the conclusion that route options at crossing locations A, B, D and E would not meet the Scheme Objectives and were not considered viable. For the route options at Location C, route 3 and the WSL, connected by a bored tunnel, remained the best solution.

Further reappraisal

- 5.14.7 The appraisal has been revisited and is set out in the Planning Statement (Application Document 7.2). This further reappraisal considered changes to the proposals between Statutory Consultation and the proposals set out across this application, updated traffic forecasts accounting for the latest government growth estimates, and further local plans consulted or adopted since the 2018 reappraisal.
- 5.14.8 The conclusion of this further reappraisal was that the option identification and selection process remained valid. It remained the conclusion that route options at crossing locations A, B, D and E would not meet the Scheme Objectives and were not considered viable. For the route options at Location C, route 3 and the WSL, connected by a bored tunnel, remained the best solution.

5.15 Reasonable prospect of funding

- 5.15.1 Compulsory acquisition powers require that the compensation paid to the owners of the interests in the Land represents a fair, open market value. The rules governing compulsory acquisition require that compensation for acquisition of land or an interest in land must represent the market value as unaffected by the proposed development, together with further amounts such as occupier's loss payments in some cases. As a result, the Applicant would be required to pay a fair, open market price for the Land and rights it acquires, without taking advantages of any reduction caused by the existence of the Project.
- 5.15.2 In the event of compensation not being agreed, a judicial process applies. Compensation disputes would be decided by the Upper Tribunal (Lands Chamber), with a right of appeal to the Court of Appeal. The same applies to compensation for loss or damage, payable in respect of the additional compulsory acquisition powers described in Chapter 3 of the Statement.

- 5.15.3 The compulsory acquisition procedure accordingly provides certainty of outcome (the land or rights required for the Project to be delivered will be acquired), certainty of liability to compensation or price to be received, and fairness of outcome via the recourse to the judicial process in the absence of agreement. This benefits all parties.
- 5.15.4 As detailed in the Funding Statement (Application Document 4.2) provided under Regulation 5(2)(h) of the Regulations, the Project will be funded entirely by the Department of Transport.
- 5.15.5 Accordingly, the Applicant considers that the secure funding for the Project and that the requisite funds for payment of any compensation will be available at the appropriate time. Public money must be spent on a prudent basis, achieving value or money. This will only be possible if the acquisition of the land interests required for the Project is backed by compulsory acquisition powers.

5.16 Acquisition by agreement

- 5.16.1 The Applicant has entered into negotiations to acquire other parties' interests voluntarily where expressions of interest have been received. In cases where there are no active negotiations, the Applicant has written to those with relevant interests outlining its intention to secure voluntary agreements where practicable.
- 5.16.2 The Applicant has written to all affected landowners within the Order Limits to seek to acquire land and/or rights by voluntary agreement. Landowners who have expressed an interest in reaching a voluntary agreement have been engaged with to progress discussions. Voluntary agreements would be entered into if mutually fair and agreeable terms can be agreed between parties in accordance with the Compensation Code. However, the Applicant notes that the Guidance recognises that for long linear schemes, it may not always be practicable to acquire each plot of land by agreement. Where this is the case, the Guidance confirms that it is reasonable to include provision authorising compulsory acquisition covering all the land required at the outset. It also recognises that in some cases it may be preferable, or necessary, to acquire land compulsorily rather than by agreement.
- 5.16.3 The Applicant sets out in Chapter 4 and Annex B of this Statement the discussions it has had with land interest holders to acquire the land by agreement. It is satisfied that compulsory acquisition and temporary possession powers are required to ensure that the Project can be delivered in a reasonable timescale and in the event that it does not prove possible to acquire all of the land by agreement.

5.17 Conclusions

- 5.17.1 This Statement and associated annexes detail the reasons why each plot of land is required by the Project and therefore why the Applicant seeks Compulsory Acquisition powers to ensure delivery. It sets out the following:
- a. The land that is required for the development
 - b. The land that is required to facilitate or is incidental to that development
 - c. The provision of replacement land which is to be given in exchange for the Order land (Sections 131 and 132 of the 2008 Act)

- 5.17.2 The Applicant is satisfied that the conditions in section 122 of the Planning Act 2008 are met and that the tests in the Compulsory Acquisition guidance are satisfied.
- 5.17.3 All of the land subject to compulsory acquisition and temporary possession powers is necessary to construct, operate, maintain and mitigate the Project necessary to achieve the objectives of the Project. The extent of land within the Order Limits is reasonable and proportionate.
- 5.17.4 Furthermore, there is a compelling case in the public interest to include the compulsory acquisition powers sought by the Applicant in the draft DCO (Application Document 3.1). The exercise of the compulsory acquisition powers that are sought is shown throughout this Statement to be necessary and proportionate to the extent that interference with private land and rights is required. In the absence of compulsory powers, the Applicant considers that it would not be possible to proceed with the Project, therefore the public benefits of the Project would not be realised.

6 Human Rights

6.1 The protected rights

- 6.1.1 The Human Rights Act 1998 incorporated into domestic law the provision of the European Convention on Human Rights (ECHR). The ECHR includes provisions in the form of Articles, which aim to protect the rights of the individual. The relevant articles of the ECHR are summarised below:
- a. Article 1 of The First Protocol – protects the rights to peaceful enjoyment of possessions. No one can be deprived of their possessions except in the public interest.
 - b. Article 6 – entitles those affected by compulsory acquisition powers to a fair and public hearing.
 - c. Article 8 – protects the right of the individual to respect for his private and family life, his home and his correspondence. Interference with this right can be justified if it is in accordance with law and is necessary in the interests of, among other things, national security, public safety or the economic wellbeing of the country.
- 6.1.2 Section 6 of the Human Rights Act 1998 prohibits the public authorities from acting in a way which is incompatible with a Convention right. Paragraph 10 of the Compulsory Acquisition guidance provides that:
- 6.1.3 Paragraph 10 of the Compulsory Acquisition guidance provides that:
- ‘The Secretary of State must ultimately be persuaded that the purposes for which an order authorises the compulsory acquisition of land are legitimate and are sufficient to justify interfering with the human rights of those with an interest in the land affected. In particular, regard must be given to the provisions of Article 1 of the First Protocol to the European Convention on Human Rights and, in the case of acquisition of a dwelling, Article 8 of the Convention.’*
- 6.1.4 The exercise of compulsory acquisition and temporary possession powers would engage the human rights of persons with an interest in land. Article 1 of the First Protocol and Article 8 are qualified rights. This means that interference with those rights can be justified in certain circumstances. Article 1 of the First Protocol precludes the deprivation of a person’s possessions *‘except in the public interest and subject to the conditions provided by law...’*. Interference with Article 8 rights will be lawful provided that it is *‘in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country...’*. The Applicant considers that the purposes for which it seeks powers of compulsory acquisition and temporary possession are legitimate and sufficient to justify interfering with the human rights of those with an interest in the affected land. It considers that:
- a. There is a compelling case in the public interest for the compulsory acquisition powers included within the draft DCO (Application Document 3.1).

- b. All affected persons will have the right to be heard by the Examining Authority.
- c. Any decision to authorise the use of compulsory purchase and temporary possession powers will be in accordance with the law.
- d. The interference with human rights is proportionate and justified.

- 6.1.5 The Applicant recognises that the Project may have an impact on individuals but considers that the significant public benefits that will arise from the Project, as set out in this Statement, outweigh any harm to those individuals. The draft DCO (Application Document 3.1) strikes a fair balance between the public interest in seeing the Project proceed (which is unlikely to happen in the absence of the DCO) and the interference of private rights which may be affected by the compulsory acquisition.
- 6.1.6 In relation to both Article 1 and 8, the compelling case in the public interest for the compulsory acquisition powers included within the draft DCO (Application Document 3.1) has been demonstrated in Chapter 5 and in the Planning Statement (Application document 7.1). The land over which compulsory acquisition powers are sought as set out in the draft DCO (Application Document 3.1) is the minimum necessary to ensure the delivery of the Project. The Project has been designed to minimise harm whilst achieving its publicly stated objectives. In this respect the interference with human rights is both proportionate and justified.
- 6.1.7 In relation to Article 6, the Applicant is content that the proper procedures have been followed for both the consultation on the Project and in determining the compulsory acquisition powers included within the draft DCO (Application Document 3.1). Throughout the development of the Project, the Applicant has given persons with an interest in the land a full opportunity to comment on the proposals, both in a statutory and non-statutory capacity, and the Applicant has endeavoured to engage with landowners. The Applicant has had regard to landowner feedback in both the initial design of the Project and in iterative design changes throughout the life of the Project. Examples of design changes are provided within the Consultation Report (Application document 5.1).
- 6.1.8 Furthermore, any individuals affected by the draft DCO (Application Document 3.1) may submit representations by way of an objection to the application in response to any notice given under section 56 of the 2008 Act, the examination of the application by the Examining Authority, any written representations procedures which the Examining Authority decides to hold and in particular, any compulsory acquisition hearing held under section 92 of the 2008 Act, at which each affected person is entitled to make oral representations about the compulsory acquisition request.
- 6.1.9 If the DCO is made, a person aggrieved may challenge the DCO by judicial review in the High Court if they consider that the grounds for doing so are made out pursuant to section 118 of the Planning Act 2008.

6.2 Consideration of duties under the Equality Act 2010

6.2.1 The Applicant has complied with its duties under Section 149 of the Equality Act 2010 and has had due regard to the need to:

- a. eliminate unlawful discrimination, harassment, victimisation and other conduct prohibited by or under the Equality Act 2010
- b. advance equality of opportunity between persons who share a protected characteristic and persons who do not share it
- c. foster good relations between persons who share a relevant protected characteristic and persons who do not share it

6.2.2 The Applicant has conducted a Health and Equalities Impact Assessment (Application Document 7.10) which explains how it has had regard to its public sector equality duty in the context of the application for development consent for the Project.

6.3 Residential properties

6.3.1 There are 71 residential properties within the Order Limits, 30 would require demolition. Of the 30 properties to be demolished 16 have already been acquired by the Applicant through the blight process or by voluntary purchase. Of the remaining 14 properties to be demolished the Applicant has committed, through the acceptance of a blight notice or following voluntary negotiations with the owner, to purchase a further nine. The Applicant continues to be willing to acquire the remaining properties that require demolition should the owners wish to serve a blight notice or commence voluntary acquisition discussions.

6.3.2 The remaining 41 residential properties in the Order Limits which would not be demolished would be otherwise affected by the construction of the Project, such as by the diversion of utilities. Of these the Applicant has already acquired 19 properties and has committed to purchase a further three.

Table 6.1 Requirement for demolition of residential properties

Properties affected	Properties requiring acquisition for demolition	Requirement for demolition	Properties acquired by the Applicant	Plot numbers
1 & 2 Longview, White House Henhurst Road and Marling Cross Lodge, Watling Street	4	Construction of the M2/A2/A122 junction and to undertake modifications to Gravesend East junction, Henhurst Road roundabout and construct a local link road.	3	06-89, 06-95, 06-103 and 06-128

Properties affected	Properties requiring acquisition for demolition	Requirement for demolition	Properties acquired by the Applicant	Plot numbers
Gammon Staples Farmhouse; Thatched Cottage; 1 & 2 Grays Corner Cottage and Alde Cottage, Baker Street	5	To enable the construction of the A122 /A1089 junction.	2	29-56, 29-60, 29-137, 29-155 and 29-160
5 & 6 Woolings Row, Baker Street 7, 8, 9 & 10 Woolings Close, Baker Street	6	To enable the construction of the A122 road connection to the A13 eastbound and Orsett Cock junction and for the realignment of the access to the remaining properties on Woolings Close and a landowner's retained field. The access would also form part of a diverted bridleway.	4	29-74, 29-81, 29-84, 29-100, 29-112 and 29-115
The Thatches, Murrells Cottage and the former Welcome Service Station (residential), Stanford Road	3	To realign a section of Stanford Road A1013 and construct a new bridge for Rectory Road.	3	32-79, 32-83 and 32-87
1 & 2 Whitfield Cottages, Stifford Clays Road	2	To enable the construction of the A122 road	0	33-50
1-4 Bridge Cottages, Ockendon Road; 1 & 2 Cherry Orchard Cottages, Yellow Stock Mews, Estate House, Larwood Cottage & The Rosery, Ockendon Road	10	To enable the following activities: <ul style="list-style-type: none"> Excavation of a cutting for the A122 northbound Mass haul of excavated material and landscaping Construction of new Ockendon Road bridge over A122 northbound Diversion of utilities Establishment of construction compound 	4	42-40, 42-43, 42-46, 42-49, 42-52, 42-54, 42-59, 42-62, 42-63 and 42-73
Total	30		16	

- 6.3.3 The Applicant has worked extensively to ensure that the number of residential properties impacted by the Project has been kept to a minimum. This has been achieved through several multidisciplinary workshops to ensure that the impacts on residential properties have been challenged and that including them within the Order Limits is justified.
- 6.3.4 Engagement with those with an interest in land has been documented in the Schedule of Negotiations - Annex B of this Statement.
- 6.3.5 Residential property owners within the Order Limits may find that their property has been affected by the project such that they can no longer sell the property at market value. Provided they meet certain criteria, residential property owners are able to serve a statutory blight notice to request that the Applicant purchase the property at an unaffected market value. Details can be found within the National Highways policy booklet ‘Your property and Blight’¹.
- 6.3.6 Residential property owners within the Order Limits, and previous versions of the Project’s Order Limits, have been able to serve a blight notice since the announcement of the preferred route in April 2017. To date the Applicant has purchased 32 properties within the Order Limits.
- 6.3.7 Further details of engagement with owners of residential properties requiring acquisition can be found in Annex B of this document.

6.4 Travellers

- 6.4.1 Under the Equality Act 2010 and the Human Rights Act 1998 (the 1998 Act), Travellers are a protected group.
- 6.4.2 Gammon Fields Way Travellers’ site has 21 residential accommodation units with adjoining hardstanding for mobile homes and caravans. The site is owned by Thurrock Council and will require demolition for the construction of the A1089 to A122 two-lane slip road. It is proposed that the units be re-provided in an alternative location to the west of the existing site. Engagement and consultation with the Council as owners and the community on site has been undertaken to design the new site and pitch layout. A draft of the indicative layout can be found appended to the Project Design Principles (Application Document 7.5, Appendix C)
- 6.4.3 Engagement has also been undertaken with the occupiers of the site known as Railway Sidings. The site itself is not affected however the access to the site and land to the west is required for Water diversion works but access would be maintained at all times. Further details of the engagement can be found within Annex B of this document.

¹ “Your Property and Blight”, National Highways: [REDACTED]

6.5 Fair compensation

- 6.5.1 Any person affected by the exercise of compulsory acquisition powers or by the exercise of temporary possession, may be entitled to compensation. This entitlement to compensation is provided for by the existing compensation code and Article(s) 29 (private rights over land), 35 (Temporary use of land for carrying out the authorised development), 36 (Temporary use of land for maintaining the authorised development); and Schedule 9 to the draft DCO (Application Document 3.1). The Applicant has the resources to pay such compensation and has demonstrated in the Funding Statement (Application Document 4.3) that these resources are available.
- 6.5.2 Any dispute in respect of the compensation payable may be referred to the Upper Tribunal (Lands Chamber), an independent tribunal, for determination.

6.6 Conclusions

- 6.6.1 For the reasons set out above, the Applicant considers that any infringement of the (ECHR) rights of those whose interests in the land might be affected by the exercise of powers of compulsory acquisition would be proportionate and legitimate, would be in the public interest and would be in accordance with national and European law. The Applicant therefore considers that it would be appropriate and proportionate for the Secretary of State to make the draft DCO (Application Document 3.1) including the grant of compulsory acquisition powers.

7 Special considerations

7.1 Crown Land

7.1.1 As shown in Part 4 of the Book of Reference (Application Document 4.2) and Crown Land Plans (Application Document 2.3), the draft DCO (Application Document 3.1) Article 43, includes provision for the acquisition of Crown Land/Land for the time being held otherwise by or on behalf of the Crown.

7.1.2 Section 135 of Planning Act 2008 provides for the following:

7.1.3 135(1) National Highways can compulsorily acquire crown land if ‘it is an interest which is for the time being held otherwise than by or on behalf of the Crown’ and the Crown consent.

7.1.4 135(2) National Highways can include any other provision in the Order relating to Crown land if the Crown consents.

7.1.5 For the avoidance of doubt any land owned outright by the Crown is subject to voluntary agreement because compulsory acquisition powers cannot be used.

7.1.6 The Application covers land and interests owned by the following Crown land bodies: The Secretary of State for Transport, The Secretary of State for Environment, The Secretary of State for Health and Social Care, The Crown Estate and The Duchy of Lancaster.

The Secretary of State for Transport is currently recorded as holding a number of Category 1 and Category 2 interests within the Order limits. The majority of these are interests that relate to their freehold ownership of the land leased to HS1 Ltd. The Applicant has been in discussions with both Department of Transport and HS1 regarding the impact of the proposed works and all parties are working towards an agreement relating to property matters. It is anticipated that this agreement will be finalised prior to the end of the Examination. The other interests relate to legacy interests in and around the M25 of which the Applicant is now the Highway Authority, and it is believed likely that these will already have passed to the Applicant. A cautionary approach has been taken to include The Secretary of State and confirmation as to the transfer of these rights and interests will be sought before the making of the DCO.

7.1.7 The Secretary of State for Environment holds a number of interests within the Order limits relating to Forestry Commission land at Folkes Lane Woodland, Jeskyns Community Woodland and Thames Chase Community Forest and Environment Agency land at Shorne Marshes and Goshems Farm. A number of the Forestry Commission interests are classified by the Project as ‘Open Space’ and consequently, there has been significant dialogue with SoS representatives at the Commission regarding the impact of the Project and, in some cases, the provision of replacement land with agreement expected by the close of examination. Further details on these sites can be found in section 7 of this document - Special category land.

7.1.8 The Secretary of State for Health and Social Care is recorded as holding Category 2 interests in land in and around J29 of the M25. The Secretary of State has been included on a cautionary basis in relation to potential rights granted by a deed dated 1941 (previous to the construction of the M25), and the Applicant expects to reach an agreement before the making of the DCO.

- 7.1.9 It should be noted, that all of the interests held by the Crown Estate and Duchy of Lancaster are in relation to Bona Vacantia interests (dissolved companies). Approaches have been made to the Crown Estate (via their solicitors) with regard to these interests that cover the 17 listed plots which are split over three companies. Of the 17 plots confirmation has been received that 2 have been disclaimed and that they have no vested interest in the 9 Plots. The Duchy of Lancaster have been approached with regard to one interest. The Applicant is working towards resolution by the end of the Examination.

Table 7.1 Number of Crown land plots resulting from Category 1 and Category 2 interests

Crown land body	No. of plots in which a Category 1 interest is held	No. of plots in which a Category 2 interest is held
The Secretary of State for Transport	106	118
The Secretary of State for Environment	52	22
The Secretary of State for Health and Social Care	0	28
The Crown Estate	0	17
The Duchy of Lancaster	0	5

7.2 Special category land forming part of a common, open space, fuel or field garden allotment

- 7.2.1 Section 131 of Planning Act 2008 applies to the compulsory acquisition of any land forming part of a common, open space or fuel or field garden allotment. Section 132 of Planning Act 2008 applies to the compulsory acquisition of any rights over land forming part of a common, open space or fuel or field garden allotment. They make provision for Special Parliamentary Procedure (SPP) to apply where a DCO authorises the compulsory acquisition of or rights over such land. These sections make provision for Special Parliamentary Procedure (SPP) to apply where a DCO authorises the compulsory acquisition of land or of rights over such land unless the exemptions in those sections apply. These exemptions and the special category land to which they apply can be found in Table 7.2 and Table 7.6 of this document.
- 7.2.2 For the purposes of sections 131 and 132 of the Planning Act 2008, open space, common land and fuel or field garden allotment are defined as having the same meaning as in section 19 of the Land Acquisition Act 1981.
- 7.2.3 The Acquisition of Land Act 1981 in turn defines these terms as follows:
- 'common' includes any land subject to be enclosed under the Inclosure Acts 1845 to 1882, and any town or village green
 - 'fuel or field garden allotment' means any allotment set out as a fuel allotment, or a field garden allotment, under an Inclosure Act
 - 'open space' means any land laid out as a public garden, or used for the purposes of public recreation, or land being a disused burial ground.

- 7.2.4 Replacement land is defined for the purposes of section 131 as follows:
“replacement land” means land which is not less in area than the Order land and which is no less advantageous to the persons, if any, entitled to rights of common or other rights, and to the public.’
- 7.2.5 Section 132 relates to the acquisition of rights over open space, common land, fuel or field garden allotment and broadly follows the same approach as Section 131. Subsection (4) equally applies to the Project in that replacement land is to be offered in exchange and this replacement land will be vested with the same rights, trust and incidents as applies to the Order land. In addition, for some sites, exemptions to replacement land apply under the Sections 131 and 132.
- 7.2.6 Replacement land is defined for the purposes of section 132 as follows:
“replacement land” means land which will be adequate to compensate the following persons for the disadvantages which result from the compulsory acquisition of the order right
- a. the persons in whom the Order land is vested,
 - b. the persons, if any, entitled to rights of common or other rights over the Order land, and
 - c. the public.’
- 7.2.7 This section of this Statement sets out the application of sections 131 and 132 of the 2008 Act in relation to the proposed compulsory acquisition powers relating to special category land. It should be read alongside ES Chapter 13: Population and Human Health (Application Document 6.1) and Appendix D of the Planning Statement (Application Document 7.2). It is noted that paragraph 5.181 of the NPSNN (DfT, 2014) sets out that ‘where Sections 131 and 132 of the Planning Act 2008 apply, any replacement land provided under those sections will need to conform to the requirements of those sections’. Appendix D to the Planning Statement, in particular, sets out conformity with paragraph 5.181 and so the information contained therein is directly relevant.
- 7.2.8 The sections below should also be read alongside article 40 of the draft DCO (Application Document 3.1). Article 40 provides that where replacement land is provided under section 131 or 132 of the 2008 Act, that replacement land will be subject to the same rights, trusts and incidents in accordance with the requirements of those sections. Further explanation of this article is provided in the Explanatory Memorandum (Application Document 3.2).

Overall position

- 7.2.9 As shown in Part 5 of the Book of Reference (Application Document 4.2) and the Special Category Land Plans (Application Document 2.4), the Application seeks powers of compulsory acquisition over land to which sections 131 and 132 of the 2008 Act apply.
- 7.2.10 The open space land that is impacted by the Project comprises:
- a. 21.63 hectares of land to be permanently acquired
 - b. 35.58 hectares of land required for temporary possession and the permanent acquisition of rights

- 7.2.11 The common land that is impacted by the Project comprises:
- 53.56 hectares of land to be permanently acquired
 - 1.53 hectares of land required for temporary possession and the permanent acquisition of rights

7.2.12 The open space and common land required for the Project is shown on Special Category Land Plans (Application Document 2.4). The sections below provide further details on the application of sections 131 and 132. It should be noted that in some cases sites are subject to both permanent acquisition and subject to the acquisition of rights. Accordingly, in some cases, the replacement land is provided in respect of both sections 131 and 132 of the 2008 Act.

Application of section 131 of the 2008 Act

- 7.2.13 Table 7.2 below sets out the special category land plots within the Order Limits and which of the subparagraphs (e.g., sections 131(4) to (5)) under section 131 apply. The application should not be subject to SPP as at least one or more of the subparagraphs, as set out above, applies in respect of the land which is proposed to be permanently acquired and falls within the definition of land caught by section 131.
- 7.2.14 A description of the current uses of each site listed in Table 7.2 is contained within Appendix D of the Planning Statement (Application Document 7.2). This information has not been repeated here to avoid duplication of information.

Table 7.2 Overview of applicability of sections 131(4), (4A), (4B) and (5)

Application of sections 131	Site name and plot number(s)
Replacement land will be given in exchange for the land to be compulsorily acquired with the same rights, trusts and incidents (section 131(4))	<ul style="list-style-type: none"> • Claylane Wood (plots 06-133, 06-143, 06-157, 06-159 and 06-163) • Folkes Lane Woodland (plot 46-18) • Orsett Fen (plots 35-14, 35-39, 37-01 and 38-58) • Ron Evans Memorial Field (plots 29-02, 29-09 and 33-18) • Shorne Woods Country Park (plots 04-88, 04-144, 04-250, 04-264 and 04-265) • Thames Chase Forest Centre (plots 43-08, 43-22, 43-23, 43-24, 43-25, 43-31, 43-33, 43-39, 44-12 and 44-51) • Tilbury Green (plots 20-63 and 23-106)
For open space land only, replacement land in exchange is not available or would only be available at a prohibitive cost (section 131(4A))	None
For open space land only, the land is only being compulsorily acquired for a temporary (although possibly long-lived) purpose (section 131(4B))	None

Application of sections 131	Site name and plot number(s)
Land to be acquired does not exceed 200 metres or is required for the widening or drainage of an existing highway and the giving of land in exchange is unnecessary (section 131(5))	<ul style="list-style-type: none"> Roman Road Open Space (plot 06-15)

7.2.15 Table 7.3 below sets out the further information about the open space and common land sites that must be considered under section 131 of the 2008 Act. In particular, the table sets out whether the site is designated as open space by a local (or, where relevant, national) authority or whether the land is registered as common land, total area of the existing site, the relevant plot references, the area proposed to be subject to permanent acquisition, and the relevant work(s) proposed on the site.

Table 7.3 Further information on sites caught by section 131 of the 2008 Act

Site name	Designated as open space or registered as common land	Total area	Plots in Land Plans	Area of land in Order Limits proposed to be permanently acquired	Works planned
Claylane Wood	No – not designated as open space by Gravesham Borough Council	12.95 hectares	06-133, 06-143, 06-157, 06-159 and 06-163	2.70 hectares	Work No. 2B, 2H, 2I, 2Q and 2S
Folkes Lane Woodland	Yes – designated as open space by London Borough of Havering	45.47 hectares	46-18	0.30 hectares	Work Nos. 9E
Orsett Fen	Yes – registered as common land (Reference: CL33)	95.08 hectares	35-14, 35-39, 37-01 and 38-58	52.31 hectares	Work Nos. 8A, 8B, 8G, 8J, 8K, 8T, E35, E36, FCA2 and FCA3
Roman Road Open Space	No – not designated as open space by Gravesham Borough Council.	20.37 hectares	06-15	0.52 hectares	Work No. 2M
Ron Evans Memorial Field	Yes – designated as open space by Thurrock Council	22.14 hectares	29-02, 29-09 and 33-18	7.52 hectares	Work Nos. 7E, 7F, 7Z, E30,

Site name	Designated as open space or registered as common land	Total area	Plots in Land Plans	Area of land in Order Limits proposed to be permanently acquired	Works planned
Shorne Woods Country Park	Yes – designated as open space by Gravesham Borough Council.	119.80 hectares	04-88, 04-144, 04-250, 04-264 and 04-265	0.44 hectares	Work Nos. 1C, 1M, 1H,
Thames Chase Forest Centre	Yes – designated as open space by London borough of Havering	55.74 hectares	43-08, 43-22, 43-23, 43-24, 43-25, 43-31, 43-33, 43-39, 44-12 and 44-51	10.14 hectares	Work Nos. 9A, 9C, 9D, 9E, 9O, 9R,
Tilbury Green	Yes – registered as common land (Reference: CL411)	1.59 hectares	20-63 and 23-106	1.25 hectares	Work Nos. 5B, 5E, 5F, 5I, 5U, E14, CA5 and TFGP1

7.2.16 Table 7.4 below sets out the proposed replacement land for open space and common land sites listed above pursuant to section 131(4) of the 2008 Act. The Applicant considers these replacement areas satisfy the definition of 'replacement land' under section 131 of the 2008 Act. For ease of reference, replacement land under section 131 must be no less in area than the Order land (i.e., the land proposed to be acquired), and must be 'no less advantageous' to persons, if any entitled to rights of common, or other rights, and to the public.

**Table 7.4 Application of section 131(4) of the 2008 Act
(Provision of replacement land)**

Site name	Plots of replacement land	'No less in area'?	Reasons replacement land is no less advantageous than existing site ('the Order land') as per section 131(4) & (12)
Claylane Wood (plots 06-133, 06-143, 06-157, 06-159 and 06-163)	06-167, 11-08, 11-09, 11-11 and 11-12	The replacement land is not less in area because the proposed replacement land is 8.00 hectares (which is in excess of the 2.70 hectares proposed to be permanently acquired as per section 131 and the 4.78 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132)	The replacement land is being included in the draft DCO (Application Document 3.1) on a precautionary basis, for further details see the Planning Statement (Application Document 7.2). The replacement land would be larger in quantity and equally or more accessible, useful and attractive, and its overall quality would be comparable. Additional replacement land would be provided to compensate for the time gap between the existing Claylane Wood being impacted by the Project and the replacement land being laid out for use. See the Appendix D of the Planning Statement (Application Document 7.2) for further details. Accordingly, the replacement land is no less advantageous to the public. There are no persons entitled to rights of common or other rights.
Folkes Lane Woodland (plot 46-18)	46-19, 47-29, 47-32 and 47-33	The replacement land is not less in area because the proposed replacement land is 2.92 hectares (which is in excess of the 0.3 hectares proposed to be permanently acquired as per section 131 and the 1.48 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132)	The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, its time gap is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details. Accordingly, the replacement land is no less advantageous to the public. There are no persons entitled to rights of common or other rights.

Site name	Plots of replacement land	'No less in area'?	Reasons replacement land is no less advantageous than existing site ('the Order land') as per section 131(4) & (12)
Orsett Fen (plots 35-14, 35-39, 37-01 and 38-58)	33-04, 34-14, 34-16, 34-18, 35-04, 37-04 and 38-62	The replacement land is not less in area because the proposed replacement land is 61.97 hectares (which is in excess of the 52.31 hectares proposed to be permanently acquired as per section 131)	<p>The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, its time gap is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p> <p>Accordingly, the replacement land is no less advantageous to the public and the Orsett Fen Rights Holders.</p> <p>There are no other persons entitled to rights of common or other rights.</p>
Ron Evans Memorial Field (plots 29-02, 29-09 and 33-18)	29-01, 29-12, 29-16, 29-18, 29-19 and 33-13	The replacement land is not less in area because the proposed replacement land is 9.21 hectares (which is in excess of the 7.52 hectares proposed to be permanently acquired as per section 131 and the 0.75 hectares over which rights are proposed to be permanently acquired and replaced land provided as per section 132)	<p>The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be better, the time gap between impacting the existing land and the provision of replacement land is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p> <p>Accordingly, the replacement land is no less advantageous to the public.</p> <p>There are no persons entitled to rights of common or other rights.</p>
Shorne Woods Country Park (plots 04-88, 04-144, 04-250, 04-264 and 04-265)	03-43, 03-54 and 03-85	The replacement land is not less in area because the proposed replacement land is 1.91 hectares (which is in excess of the 0.44 hectares proposed to be permanently acquired as per section 131 and the 1.06 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132)	<p>The replacement land would be larger in quantity and equally or more accessible, useful and attractive, and its overall quality would be comparable, the time gap between impacting the existing land and the provision of replacement land is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p> <p>Accordingly, the replacement land is no less advantageous to the public.</p> <p>There are no persons entitled to rights of common or other rights.</p>

Site name	Plots of replacement land	'No less in area'?	Reasons replacement land is no less advantageous than existing site ('the Order land') as per section 131(4) & (12)
Thames Chase Forest Centre (plots 43-08, 43-22, 43-23, 43-24, 43-25, 43-31, 43-33, 43-39, 44-12 and 44-51)	42-19, 42-26, 42-33, 43-04 and 44-19	The replacement land is not less in area because the proposed replacement land is 15.61 hectares (which is in excess of the 10.14 hectares proposed to be permanently acquired as per section 131 and the 3.02 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132)	The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, the time gap between impacting the existing land and the provision of replacement land is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details. Accordingly, the replacement land is no less advantageous to the public There are no persons entitled to rights of common or other rights.
Tilbury Green (plots 20-63 and 23-106)	20-70, 20-78, 20-79 and 23-117	The replacement land is not less in area because the proposed replacement land is 1.28 hectares (which is in excess of the 1.25 hectares proposed to be permanently acquired as per section 131)	The replacement land would be larger in quantity and equally or more accessible, useful and attractive, and its overall quality would be comparable, the time gap between impacting the existing land and the provision of replacement land is offset by the larger area of replacement land being provided. See the Appendix D of the Planning Statement (Application Document 7.2) for further details. Accordingly, the replacement land is no less advantageous to the public There are no persons entitled to rights of common or other rights.

7.2.17 Table 7.5 below sets out open space sites where permanent acquisition is proposed in accordance with section 131(5)

Table 7.5 Application of section 131(5) of the 2008 Act (No replacement land)

Site name	Land to be acquired does not exceed 200 square metres or is required for the widening or drainage of an existing highway and the giving of land in exchange is unnecessary
Roman Road Open Space (plot 06-15)	Permanent acquisition of land is required for the widening or drainage of an existing highway, or partly for the widening and partly for the drainage of such a highway. Replacement land is therefore not required and the overall function of the Roman Road open space would remain unaffected, and the Project would provide a whole new recreational site nearby, i.e. Chalk Park. As such, the Project complies with the Section 131(5).

Application of section 132 of the Planning Act 2008

Table 7.6 Overview of applicability of sections 132(3), (4), (4A), (4B) and (5)

Application of sections 132	Site name and plot number(s)
Land over which rights are to be acquired will be no less advantageous than it was before (section 132(3))	<ul style="list-style-type: none"> • Cyclopark (plots 07-02, 07-04, 07-05, 08-13, 08-14 and 08-15) • Folkes Lane Woodland (plots 46-04, 46-26 and 47-26) • Jeskyns Community Woodland (plot 06-56) • Orsett Fen (plots 35-13 and 38-55) • Roman Road Open Space (plots 06-03, 07-01, 07-15, 07-17, 07-20, 07-22, 07-23, 07-27, 07-28, 07-41, 08-07 and 08-12) • Ron Evans Memorial Field (plots 29-03 and 29-04) • Shorne Woods Country Park (plot 04-145) • Thames Chase Forest Centre (plots 43-18, 43-19, 43-35, 43-104, 43-105, 43-107, 43-108, 43-111 and 44-08) • Tilbury Green (plots 20-75, 20-76 and 23-120) • Walton Common and Parsonage Common (plots 21-25 and 23-170)
Replacement land will be given in exchange for the land over which rights are to be acquired and subject to the same rights, trusts and incidents (section 132(4))	<ul style="list-style-type: none"> • Claylane Wood (plots 06-144, 06-151, 06-152 and 06-158) • Folkes Lane Woodland (plots 46-06, 46-08, 46-09, 46-11, 46-12, 46-13 and 46-55) • Ron Evans Memorial Field (plots 29-282, 29-283 and 33-35) • Shorne Woods Country Park (plots 03-14 and 04-274) • Thames Chase Forest Centre (plots 43-07, 43-09, 43-106, 43-109 and 43-110)
For open space land only, replacement land in exchange is not available or would only be available at a prohibitive cost (section 132(4A))	None
For open space land only, the Order rights are to be acquired for a temporary (although possibly long-lived) purpose (section 132(4B))	None
Land over which rights are to be acquired does not exceed 200 metres or is required for the widening or drainage of an existing highway and the giving of land in exchange is unnecessary (section 132(5))	None

- 7.2.18 Table 7.7 below sets out the areas of open space and common land that must be considered under section 132 of the 2008 Act which are subject to the permanent acquisition of rights over that land. The table sets out information on the designation (or registration) of the site, the total area of the site, the relevant plots within the Order Limits, and the area of the land proposed to be subject to permanent acquisition of rights.
- 7.2.19 A description of the existing uses of the sites mentioned in Table 7.7 is contained in Appendix D of the Planning Statement (Application Document 7.2). This information is not repeated here to avoid duplication.
- 7.2.20 It should be noted that the tables below refer to the Walton Common. This site is registered as common land under the reference CL228 (the registration covers an area much larger than the area in the Order Limits and is formally designated by Thurrock Council as ‘The Green, Hall Hill, Fort Road, Parsonage, Walton and Tilbury Fort Commons’). An application made under section 16 of the Commons Act 2006 to deregister land at Walton Common (as well as Tilbury Fort Common) and provide exchange land registered as common land north of the Tilbury Loop railway line was approved by the Planning Inspectorate on behalf of the Secretary of State for Environment, Food and Rural Affairs on 12 May 2022. Following this approval the Applicant can confirm that only the registered common is treated as such in the draft DCO (Application Document 3.1) and the de-registered part is no longer relevant to special category land tests.

Table 7.7 Further information on sites caught by section 132 of the 2008 Act

Site name	Designated	Total area of site	Plots in Land Plans	Area in Order Limits proposed to be subject to acquisition of permanent rights	Works planned
Claylane Wood	No – not designated as open space by Gravesham Borough Council	12.95 hectares	06-144, 06-151, 06-152 and 06-158	4.78 hectares (4.78 hectares to be replaced)	Work Nos. G1b, G2, G3, MU17, OH1, and OHT1
Cyclopark	Yes - designated as open space by Gravesham Borough Council	16.24 hectares	07-02, 07-04, 07-05, 08-13, 08-14 and 08-15	0.15 hectares (0.00 hectares to be replaced)	Work No. MU15

Site name	Designated	Total area of site	Plots in Land Plans	Area in Order Limits proposed to be subject to acquisition of permanent rights	Works planned
Folkes Lane Woodland	Yes - designated as open space by London Borough of Havering	45.47 hectares	46-04, 46-06, 46-08, 46-09, 46-11, 46-12, 46-13, 46-26, 46-55 and 47-26	3.99 hectares (1.49 hectares to be replaced)	Work Nos. E51, G10, MU92 and ULH2
Jeskyns Community Woodland	Yes - designated as open space by Gravesham Borough Council	147.49 hectares	06-56	4.69 hectares (0.00 hectares to be replaced)	Work Nos. 1L, E5 and OH1
Orsett Fen	Yes - registered as common land (Reference CL33)	95.08 hectares	35-13 and 38-55	1.06 hectares (0.00 hectares to be replaced)	Work Nos. E36, FCA3 and OH7
Roman Road Open Space	No – Not designated as open space by Gravesham Borough Council.	20.36 hectares	06-03, 07-01, 07-15, 07-17, 07-20, 07-22, 07-23, 07-27, 07-28, 07-41, 08-07 and 08-12	4.87 hectares (0.00 hectares to be replaced)	Work No. MU15 and MU16
Ron Evans Memorial Field	Yes - designated as open space by Thurrock Council.	22.14 hectares	29-03, 29-04, 29-282, 29-283 and 33-35	7.70 hectares (0.75 hectares to be replaced)	Work Nos. E30, MU54, MU55, MU56, MU57, MUT20, OH6, OH7, OHT6 and CA8A
Shorne Woods Country Park	Yes - designated as open space by Gravesham Borough Council	119.8 hectares	03-14, 04-145 and 04-274	2.33 hectares (1.06 hectares to be replaced)	Work Nos. G1a, MU1 and E4

Site name	Designated	Total area of site	Plots in Land Plans	Area in Order Limits proposed to be subject to acquisition of permanent rights	Works planned
Thames Chase Forest Centre	Yes - designated as open space by London Borough of Havering	55.74 hectares	43-07, 43-09, 43-18, 43-19, 43-35, 43-104, 43-105, 43-106, 43-107, 43-108, 43-109, 43-110, 43-111 and 44-08	7.07 hectares (3.03 hectares to be replaced)	Work Nos. 90, E46, MU72, MU78 and OH8
Tilbury Green	Yes – registered as common land (Reference: CL411)	1.59 hectares	20-75, 20-76 and 23-120	0.34 hectares (0.00 hectares to be replaced)	Work Nos. 5U, MU27 and CA5
Walton Common	Yes - registered as common land (Reference CL228)	40.14 hectares	21-25 and 23-170	0.13 hectares (0.00 hectares to be replaced)	Work Nos. MU27 and MU29

7.2.21 Table 7.8 sets out the sites in respect of which the Applicant considers that the land, when burdened with the Order right, will be no less advantageous under section 132(3) of the 2008 Act.

Table 7.8 Application of section 132(3) of the 2008 Act

Site name Plots in Land Plans	Right to be imposed	Application of the section 132(3)
Cyclopark (plots 07-02, 07-04, 07-05, 08-13, 08-14 and 08-15)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the underground multi-utilities around the peripheral edges of Cyclopark without encroaching into the main site operational area would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights. A small number of car parking bays may potentially be closed temporarily whilst the works take place once complete the public would be able to freely roam over the underground utilities and continue to use the land as part of Cyclopark (e.g. for car parking purposes). The planting restrictions would be imposed on areas where there is an existing hardstanding (i.e. car park) or grassland, and as such the planting restrictions would not result in the land being less advantageous. As such, the Applicant complies with the Section 132(3) in relation to the underground multi-utilities works at Cyclopark</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
Folkes Lane Woodland (plots 43-07, 43-09, 43-18, 43-19, 43-35, 43-104, 43-105, 43-106, 43-107, 43-108, 43-109, 43-110, 43-111 and 44-08)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for underground multi-utilities at the southern end of the woodland would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights. These are works that seek to make use of the existing area of land that is already subject to easements and planting restrictions. UK Power Networks have already cleared this area to maintain their existing asset and the Project would simply make use of the same area. Moreover, this is not an area where the public uses for recreational purposes. As such, the Applicant complies with the Section 132(3) in relation to the underground multi-utilities work.</p> <p>The Applicant's temporary possession of land with permanent acquisition of rights for translocation of protected species would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights. This is because the land would be merely subject to long term environmental mitigation management rights for translocation of protected species without the need for any major works or disruptions as the site is already suitable for receiving the protected species. As such, the Applicant complies with the Section 132(3) in relation to the translocation of protected species.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Site name Plots in Land Plans	Right to be imposed	Application of the section 132(3)
Jeskyns Community Woodland (plot 06-56)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the translocation of protected species and the restringing of the existing overhead power lines and pylons at the northern end of the site would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights. The translocation of protected species would not disrupt the open space use and would only require the installation of minor items such as dormouse boxes and hibernacula created from log/wood/rubble piles for reptiles. The restringing of the existing overhead power lines and pylons would not introduce any new areas of easements or planting restrictions. As such, the Applicant complies with the Section 132(3) in relation to the translocation of protected species and the restringing of the existing overhead power lines and pylons at the northern end of the site.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
Orsett Fen (plots 35-13 and 38-55)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights along the Mardyke (for mink control purposes) would allow the order land, when burdened with the order right, to remain no less advantageous to the public as the traps would be placed so as not to conflict with the existing public use and the visits by the Essex Wildlife Trust would not require any closure of the area to the public. Similarly, the order land, when burdened with the order right, would remain no less advantageous to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights because this land already has an existing Public Right of Way (Bridleway 219) which allows public access along the Mardyke. The rights being sought for long term access and maintenance of the mink control devices along the Mardyke would not change the existing situation along the Mardyke which already allows public access. As such, the Applicant complies with the Section 132(3).</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Site name Plots in Land Plans	Right to be imposed	Application of the section 132(3)
Roman Road Open Space (plots 06-03, 07-01, 07-15, 07-17, 07-20, 07-22, 07-23, 07-27, 07-28, 07-41, 08-07 and 08-12)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the underground multi-utilities works underneath the existing hardstanding of the walking and cycling route (i.e. Roman Road) would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights. Once complete, the public would be able to freely roam over the underground utilities and continue to use the Roman Road as a walking and cycling route. The planting restrictions would be imposed on areas where there is an existing hardstanding (i.e. the existing path) or grassland, and as such the planting restrictions would not result in the land being less advantageous. As such, the Applicant complies with the Section 132(3) in relation to the underground multi-utilities works at the Roman Road open space.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
Ron Evans Memorial Field (plots 29-03 and 29-04)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for overhead power lines works would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights, as these are works to the existing overhead power lines. The rights being sought for long term access and maintenance of the overhead power lines would not change the existing situation. As such, the Applicant complies with the Section 132(3) and does not need to provide replacement land in relation to the permanent acquisition of rights for overhead power lines.</p> <p>The Applicant's temporary possession of land with permanent acquisition of rights for underground multi-utilities would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights. These are works that are underground using the same land parcels already subject to planting restrictions and easements by the overhead power lines, and the public would still be able to freely roam over the underground utilities. As such, the Applicant complies with the Section 132(3) in relation the underground multi-utilities work.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Site name Plots in Land Plans	Right to be imposed	Application of the section 132(3)
Shorne Woods Country Park (plot 04-145)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the translocation of protected species at the southern end of the site would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights. The translocation of protected species would not disrupt the open space use and would only require the installation of minor items such as boxes and hibernacula. As such, the Applicant complies with the Section 132(3) in relation to the translocation of protected at the southern end of the site.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
Thames Chase Forest Centre (plots 43-18, 43-19, 43-35, 43-104, 43-105, 43-107, 43-108, 43-111 and 44- 08)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for overhead power lines works would mean the order land, when burdened with the order right, would be no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights, as the easements and planting restrictions imposed on the areas of existing grassland where the planting arrangement would be no less advantageous. As such, the Applicant complies with the Section 132(3) in relation to the areas of existing grassland with new easements and planting restrictions where planting arrangements would be no less advantageous.</p> <p>The Applicant's temporary possession of land with permanent acquisition of rights for underground multi-utilities would allow the order land, when burdened with the order right, to remain no less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights. These are works that are underground and there would be a new path laid out over the asset, and the public would be able to freely roam over the underground utilities and use the new path that is in keeping with the other paths in Thames Chase Forest Centre. As such, the Applicant complies with the Section 132(3) in relation to the underground multi-utilities work.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Site name Plots in Land Plans	Right to be imposed	Application of the section 132(3)
Tilbury Green (plots 20-75, 20-76 and 23- 120)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights along the northernmost section of Tilbury Green for managing the reinstated habitats to ensure they establish successfully to meet the Low Street Pit Local Wildlife Sites criteria for designation would allow the order land, when burdened with the order right, to remain no less advantageous to the public. Public access would not be restricted following the completion of works. Moreover, the order land, when burdened with the order right, would remain no less advantageous to the persons in whom it is vested and other persons, if any, entitled to rights of common or other rights because Public Footpath (FP200) already overlaps the common land in this location, allowing public access along this stretch of the existing Tilbury Green. The rights being sought for access to, and management of the reinstated habitats would not therefore change the existing situation at Tilbury Green in this location. As such, the Applicant complies with the Section 132(3).</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
Walton Common and Parsonage Common (plots 21-25 and 23- 170)	Permanent acquisition of rights	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the installation of utilities and easements imposed over them for the operation and maintenance of the asset would allow the order land, when burdened with the order right, to remain no less advantageous to the persons, if any, entitled to rights of common or other rights, and to the public. The proposed works are temporary in nature and the permanent rights to be acquired are compatible with the existing use of the common land. The proposed design has sought to reduce any potential for disturbance to the common as a result of the operation and maintenance requirements for the asset by incorporating underground ducts that the cables can be pulled through without ground disturbance. As such, the Applicant complies with the Section 132(3).</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

7.2.22 Table 7.9 below sets out the proposed replacement land for open space and common land pursuant to section 132(4) of the 2008 Act. The Applicant considers that these replacements satisfy the requirements under the Act such that the Secretary of State is able to certify accordingly that the replacement land is no less advantageous (under section 132(2)(b)).

**Table 7.9 Application of section 132(4) of the 2008 Act
(provision of replacement land)**

Site name	Plots of replacement land	No less in area?	Application of sections 132(4) & (12)
Claylane Wood (plots 06-144, 06-151, 06-152 and 06-158)	06-167, 11-08, 11-09, 11-11 and 11-12	The replacement land is not less in area because the proposed replacement land is 8.00 hectares (which is in excess of the 4.78 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132 and the 2.70 hectares proposed to be permanently acquired as per section 131)	<p>The Applicant's temporary possession of land with permanent acquisition of rights for the diversion and modification of utility works (overhead power lines, gas pipelines and multi-utilities) would result in the order land, when burdened with the order right, being less advantageous to the public as well as those in whom it is vested and other persons, if any, entitled to other rights. Vegetation clearance would be required for the works. The quality and nature of the site would change for a period until the vegetation has regrown. Moreover, most of land over which permanent rights are sought would have easements imposed for the operation and maintenance of utilities. Although there are already easements at Claylane Wood for utilities, the Project would result in additional easements of a greater size. Planting restrictions would apply, and statutory undertakers would need access to the site for works associated with the new and diverted utilities. For these reasons, land over which permanent rights are to be acquired would be replaced. The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable. Additional replacement land is provided to compensate for the time gap between the existing Claylane Wood being impacted by the Project and the replacement land being laid out for use. Therefore, it would be no less advantageous. As such, the Applicant complies with the Section 132(4).</p> <p>This replacement land is being included in the draft DCO (Application Document 3.1) on a precautionary basis, for further details see the Appendix D of the Planning Statement (Application Document 7.2).</p>

Site name	Plots of replacement land	No less in area?	Application of sections 132(4) & (12)
Folkes Lane Woodland (plots 46-06, 46-08, 46-09, 46-11, 46-12, 46-13 and 46-55)	46-19, 47-29, 47-32 and 47-33	The replacement land is not less in area because the proposed replacement land is 2.92 hectares (which is in excess of the 1.49 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132 and the 0.30 hectares proposed to be permanently acquired as per section 131)	<p>The Applicant's temporary possession of land with permanent acquisition of rights for diversion and modification of the underground gas utilities in the middle of the woodland would mean the order land, when burdened with the order right, would be less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights, as there would be new easements and planting restrictions imposed on the new (diverted) location. Any works carried out in the future under the acquired rights would also likely to cause disruptions to the public due to its location being right in the middle of the woodland. As such, replacement land is duly provided to compensate the area with new easements and planting restrictions. The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, its time gap is offset by the larger area of replacement land being provided, and therefore it would be no less advantageous. As such, the Applicant complies with the Section 132(4) in relation to the provision of replacement land to compensate the area with new easements and planting restrictions.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Site name	Plots of replacement land	No less in area?	Application of sections 132(4) & (12)
Ron Evans Memorial Field (plots 29-282, 29-283 and 33-35)	29-01, 29-12, 29-16, 29-18, 29-19 and 33-13	The replacement land is not less in area because the proposed replacement land is 9.21 hectares (which is in excess of the 0.75 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132 and the 7.52 hectares proposed to be permanently acquired as per section 131)	The Applicant's temporary possession of land with permanent acquisition of rights for underground multi-utilities would take place at the north-western corner of Ron Evans Memorial Field where there would be ground level access infrastructure associated with the underground multi-utilities to facilitate long term access and maintenance. The presence of these ground level access infrastructure would mean that this section of the land would be less advantageous and replacement land is duly provided. The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be better, its time gap between the impact on the land and the establishment of the replacement open space is offset by the larger area of replacement land being provided, and therefore it would be no less advantageous. As such, the Applicant complies with the Section 132(4) in relation to the underground multi-utilities work. See the Appendix D of the Planning Statement (Application Document 7.2) for further details.
Shorne Woods Country Park (plots 03-14 and 04-274)	03-43, 03-54 and 03-85	The replacement land is not less in area because the proposed replacement land is 1.91 hectares (which is in excess of the 1.06 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132 and the 0.44 hectares proposed to be permanently acquired as per section 131)	The Applicant's temporary possession of land with permanent acquisition of rights for the diversion of a medium pressure gas pipeline and the installation and diversion of underground utilities (UK Power Networks and Openreach) would result in the order land, when burdened with the order right, being less advantageous to the public as well as those in whom it is vested and other persons, if any, entitled to other rights. Some vegetation clearance would be required to deliver the works. A 12-meter-wide easement would be imposed over the diverted gas pipeline to enable access for the operation and maintenance of the asset. The easement would be subject to planting restrictions in accordance with SGN's guidance (Dig safely – Measures to avoid injury and damage to gas pipes) which stipulates no dense tree planting within the easement. Given the land affected is woodland, this would result in the order land, when

Site name	Plots of replacement land	No less in area?	Application of sections 132(4) & (12)
			<p>burdened with the order right, being less advantageous to the public as well as those in whom it is vested and other persons, if any, entitled to other rights. As such, the Project would provide replacement land. The replacement land would be larger in quantity and equally or more accessible, useful and attractive, and its overall quality would be comparable. Additional replacement land would be provided to compensate for the time gap between the existing Shorne Wood Country Park being impacted by the Project and the replacement land being laid out for use. Therefore, the replacement land would be no less advantageous. The Applicant complies with the Section 132(4) in relation to the underground multi-utilities work. See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>
<p>Thames Chase Forest Centre (plots 43-07, 43-09, 43-106, 43-109 and 43-110)</p>	<p>42-19, 42-26, 42-33, 43-04 and 44-19</p>	<p>The replacement land is not less in area because the proposed replacement land is 15.61 hectares (which is in excess of the 3.03 hectares over which rights are proposed to be permanently acquired and replacement land provided as per section 132 and the 10.14 hectares proposed to be permanently acquired as per section 131)</p>	<p>The Applicant's temporary possession of land with permanent acquisition of rights for overhead power lines works would mean the order land, when burdened with the order right, would be less advantageous to the public and to the persons in whom it is vested and other persons, if any, entitled to other rights, as there would be new easements and planting restrictions imposed on the new (diverted) location. As such, replacement land is duly provided to compensate the area with new easements and planting restrictions. The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, its time gap between the impact on the land and the establishment of the replacement open space is offset by the larger area of replacement land being provided, and therefore it would be no less advantageous. As such, the Applicant complies with the Section 132(4) in relation to the provision of replacement land to compensate the area with new easements and planting restrictions.</p> <p>The Applicant's temporary possession of land with permanent acquisition of rights</p>

Site name	Plots of replacement land	No less in area?	Application of sections 132(4) & (12)
			<p>for the underground multi-utilities would impose new easements and planting restrictions, which would mean that the land would be less advantageous and replacement land is duly provided. The replacement land would be larger in quantity, equally or more accessible, useful and attractive, and its overall quality would be comparable, its time gap between the impact on the land and the establishment of the replacement open space is offset by the larger area of replacement land being provided, and therefore it would be no less advantageous. As such, the Applicant complies with the Section 132(4) in relation to the underground multi-utilities work.</p> <p>See the Appendix D of the Planning Statement (Application Document 7.2) for further details.</p>

Linford Allotment

- 7.2.23 The Applicant has identified one area of land where allotments are located, known as Linford Allotment (plot 21-108). It comprises 2.16 hectares of land within the Order Limits and is required for temporary possession and the permanent acquisition of rights in relation to an existing overhead electricity cable. The Applicant does not consider this site falls within the definition of a ‘fuel or field garden allotment’ under section 132 of the Planning Act 2008. This is because, having undertaken a proportionate search of Inclosure Acts, it has not been established that the site was set out as an allotment under any Inclosure Act. Sections 131 and 132 of the 2008 Act are therefore not engaged as the land does not form part of a common, open space or allotment

7.3 National Trust ‘inalienable’ land

- 7.3.1 None of the land to be acquired for the Project is National Trust ‘inalienable’ land for the purposes of section 130 of the Planning Act 2008

7.4 Statutory undertaker land

- 7.4.1 The draft DCO (Application Document 3.1) will authorise the permanent compulsory acquisition of land and rights of statutory undertakers and asset owners comprising multiple plots as described in the Book of Reference (Application Document 4.2) and shown on the Land Plans (Application Document 2.2). This land is held by various statutory undertakers for the purposes of carrying out their statutory undertakings.
- 7.4.2 A list of these statutory undertakers and the relevant land plots can be found in Appendix 1 of this Statement of Reasons.

- 7.4.3 Section 127(3) of Planning Act 2008 provides that a DCO may only authorise the compulsory acquisition of statutory undertaker land where a representation has been made by the statutory undertaker objecting to the acquisition if the Secretary of State is satisfied that:
- a. The land can be purchased and not replaced without serious detriment to the carrying on of the undertaking; or
 - b. If purchased, the land can be replaced by other land belonging to, or available for acquisition by, the undertaker without serious detriment to the carrying on of the undertaking.
- 7.4.4 Section 127(5) of the Planning Act 2008 provides that a DCO may only authorise the compulsory acquisition of rights over statutory undertaker land where a representation has been made by the statutory undertaker objecting to the acquisition if the Secretary of State is satisfied that:
- a. The rights can be acquired without any serious detriment to the carrying on of the undertaking
 - b. Any consequential detriment to the carrying on of the undertaking can be made good by the undertaker by the use of the land belonging to or available for acquisition by the undertaker.
- 7.4.5 Adequate protection for statutory undertakers' assets will be included within the protective provisions in Schedule 14 to the draft DCO (Application Document 3.1) and/or in asset protection agreements between the parties. Accordingly, the Applicant considers that the statutory undertakers will not suffer serious detriment to the carrying on of their undertaking as a result of the compulsory acquisition of the land or as a result of the acquisition of rights over land. The tests set out in sections 127(3) and 127(6) of the Planning Act 2008 are therefore satisfied.
- 7.4.6 Various statutory undertakers and owners of apparatus have a right to keep equipment (in connection with their undertaking) on, in or over the land. Statutory undertakers and other apparatus owners that are known to have equipment on, in or over the land are included in the Book of Reference.
- 7.4.7 Section 138 of the Planning Act 2008 applies if a draft DCO (Application Document 3.1) authorises the acquisition of land (compulsorily or by agreement) and there subsists over the land a 'relevant right', or there is 'relevant apparatus' on, under or over the land.
- 7.4.8 For the purposes of section 138:
- a. 'relevant right' means a right of way, or a right of laying down, erecting, continuing or maintaining apparatus on, under or over the land which is vested in or belongs to statutory undertakers for the purpose of carrying on their undertaking, or which is conferred on a telecommunications code operator.
 - b. 'relevant apparatus' means apparatus vested in or belonging to statutory undertakers for the purpose of the carrying on of their undertaking, or electronic communications apparatus kept installed for the purposes of an electronic communications code network.

- 7.4.9 A DCO may only include provision for the extinguishment of the relevant right, or the removal of the relevant apparatus, if the Secretary of State is satisfied that the extinguishment or removal is necessary for the purpose of carrying out the development to which the draft DCO (Application Document 3.1) relates (subsection 138(4)).
- 7.4.10 The draft DCO (Application Document 3.1) includes provision to authorise the extinguishment of a relevant right, or the removal of relevant apparatus belonging to statutory undertakers, in connection with the delivery of the Project. The exercise of such powers will be carried out in accordance with the protective provisions contained in Schedule 8 and Schedule 14 to the draft DCO (Application Document 3.1). The protective provisions will be agreed with the relevant statutory undertakers and electronic communications apparatus owners, and will accordingly set out constraints on the exercise of the powers in the draft DCO (Application Document 3.1), with a view to safeguarding the statutory undertakers' and electronic communications apparatus owners' interests, whilst enabling the Project (i.e. the development authorised by the DCO) to proceed. The Applicant therefore considers that the test set out in section 138 of the Planning Act 2008 is satisfied.
- 7.4.11 A number of existing utility services are located within the Order Limits and would be affected by the Project. In this case it is proposed to either protect or divert statutory undertakers' apparatus to accommodate the Project. Provision for the carrying out of such diversions has been included within the Works comprising the authorised development (as set out in Schedule 1 to the draft DCO (Application Document 3.1) – authorised development (ancillary works)). It is not proposed to remove any statutory undertakers' apparatus or extinguish any statutory undertakers' rights without a diversion being provided.
- 7.4.12 The project also has a number of interfaces with land owned by Port of Tilbury London Ltd (PoTLL).
- 7.4.13 The Applicant has engaged with the PoTLL throughout the lifetime of the Project to support the identification of those interfaces and means of resolving them in a joined-up way where practicable. The Interrelationship with other Nationally Significant Infrastructure Projects and other Major Development Schemes (Application Document 7.2) sets out in more detail the interfaces and what the Applicant has done to manage these.

Negotiations with all statutory undertakers are ongoing (as set out in Annex B of this Statement) to ensure as far as possible that the works proposed do not cause serious detriment to their undertaking. The Applicant will continue these discussions and it is hoped that private agreements can be achieved. The Applicant will update the examination at the earliest opportunity to aid the Examining Authority's consideration of this issue.

7.5 Other consents

- 7.5.1 The Consents and Agreements Position Statement (Application Document 3.3) sets out the additional consents outside to the draft DCO (Application Document 3.1) and the current position as to the status of securing those consents.

- 7.5.2 A number of consents outside the draft DCO (Application Document 3.1) that may be required in connection with the Project are listed below, please note that The Consents and Agreements Position Statement will continue to be updated as necessary during examination:
- a. Environmental Permits for a number of construction activities (e.g., storage and treatment activities such as materials crushing, concrete / bitumen plants, remediation plant, transfer stations, short-term (less than three years) material storage) under Regulation 12 of the Environmental Permitting (England and Wales) Regulations 2016 (as amended).
 - b. Water abstraction and impoundment licences for construction activities (e.g., water abstraction for concrete processing; impoundment requiring changes to existing assets and de-watering)- (Water Abstraction Licence under sections 24 and 25 of the Water Resources Act 1991)
 - c. Environmental Permits for water discharge and/or groundwater activity (e.g., water abstraction for concrete processing; impoundment requiring changes to existing assets and de-watering) under Regulation 12 of the Environmental Permitting (England and Wales) Regulations 2016 (as amended).
 - d. Environmental Permit for using, treating, storing, and disposing of waste (Permits will be required where treatment or storage of waste is proposed during construction or operation where it exceeds the provisions / requirements of an appropriate waste exemption) under Regulation 12 of the Environmental Permitting (England and Wales) Regulations 2016 (as amended).
 - e. European Protected Species Licencing for translocation of species (The Conservation of Habitats and Species Regulations 2017).
 - f. Water Voles licence for the relocation of species under Schedule 5 of the Wildlife and Countryside Act 1981 (as amended).
 - g. Badger Licence (The Protection of Badgers Act 1992 (Section 10(1)(d))).
 - h. Noise, vibration, and environmental impact of construction works (For construction works and operations to approve further controls for potential disruption and impacts) (Section 61 consent under the Control of Pollution Act 1974).
 - i. Self-Service Marine Licence under the Marine and Coastal Access Act 2009 for works that may be undertaken in the river Thames, or on the foreshore, which are not addressed through provisions made in the Deemed Marine Licence.

- j. Permits for road works and street works (Schemes made under the Traffic Management Act 2004) to enable the co-ordination of works, book road space and put in place temporary traffic management on local roads.
- k. Hyperbaric Working (The Work in Compressed Air Regulations 1996-Regulation 21).
- l. Material Assets and Waste under The Control of Asbestos Regulations 2012 (required for any work with asbestos).
- m. Discharging waste (The Trade Effluent Consent under the Water Industry Act 1991) for the purposes of discharging trade effluent from welfare facilities.

7.5.3 The Applicant is satisfied that all necessary consents to enable the Project to proceed have been identified and that there is no reason why such consents should not be secured or granted pursuant to the draft DCO (Application Document 3.1).

8 Conclusions

8.1 Overview

- 8.1.1 This Statement sets out why compulsory acquisition powers have been sought in the draft DCO application and explains why the Applicant considers such powers are necessary, proportionate, and justified.
- 8.1.2 In determining the extent of the compulsory acquisition and temporary possession powers proposed in the draft DCO (Application Document 3.1), the Applicant has had regard to the legislative tests set out in the Planning Act 2008 and to the advice in the Compulsory Acquisition guidance. The Applicant is content that the scope of the powers sought and the extent of the interests within the Order Limits to be acquired by compulsory acquisition are required for the Project and are the minimum necessary that would allow the Applicant to construct, operate and maintain the Project. The requirement and purpose for each plot of land within the Order Limits is set out in Annex A to this Statement.
- 8.1.3 The Applicant has consulted all persons affected by the compulsory acquisition and temporary possession powers and persons who may have a claim for compensation arising from the Project. It has consulted such persons during preparation to the draft DCO application and in the design of the Project to address their concerns and to ensure that any impacts are reduced or removed as far as reasonably practicable. The Applicant has further sought to acquire any interests within the Order Limits by agreement wherever possible. The status of negotiations with affected landowners for the acquisition of their land interest is set out in Annex B to this Statement.
- 8.1.4 The Applicant has considered the human rights of the individuals affected by the compulsory acquisition and temporary possession powers. It is satisfied that there is a compelling public interest case for compulsory acquisition and that the significant public benefits arising from the Project will outweigh the harm to those individuals.
- 8.1.5 Without the grant of compulsory acquisition and temporary possession powers, the Applicant considers that it will not be possible to construct the Project or realise the public benefits arising from it.

Appendix 1 Statutory undertaker land

App 1.1 This appendix contains statutory undertakers as well as telecommunications operators who retain rights under the Electronic Communications Code. Statutory undertakers, as defined in s127(8) Planning Act 2008, benefit from the provisions of s127 and 138 Planning Act 2008. Telecommunications operators only benefit from s138 Planning Act 2008.

App Table 1.1

Statutory undertaker	Plot(s)	Land Requirement
Airwave Solutions Limited (telecoms operator)	04-138	Compulsory acquisition of rights
Anglian Water Services Limited	19-45, 22-45, 22-77, 22-92, 22-93, 23-70, 23-77, 23-78, 23-92, 23-94, 24-40, 24-51, 24-55, 24-65, 24-73, 24-75, 24-76, 24-78, 24-79, 24-104, 24-107, 24-118, 24-132, 24-135, 24-140, 24-141, 24-149, 24-182, 25-94, 25-96, 25-103, 25-105, 25-107, 25-108, 26-01, 26-08, 26-09, 28-108, 28-140, 29-06, 29-08, 29-09, 29-14, 29-15, 29-16, 29-27, 29-42, 29-43, 29-54, 29-123, 29-124, 29-142, 29-161, 29-179, 29-180, 29-181, 29-188, 29-200, 29-207, 29-222, 29-224, 29-225, 29-227, 29-228, 29-229, 29-232, 29-233, 29-235, 33-15, 33-29, 33-31, 33-32, 33-52, 33-57, 33-58, 44-21, 44-41 and 44-97	Compulsory acquisition
Anglian Water Services Limited	20-01, 20-13, 20-14, 21-14, 21-15, 21-16, 21-17, 21-23, 21-25, 21-26, 21-28, 21-29, 23-19, 23-26, 23-27, 23-28, 23-29, 23-30, 23-31, 23-32, 23-41, 23-63, 23-64, 23-65, 23-76, 23-91, 23-95, 23-97, 23-121, 23-125, 23-132, 23-135, 23-139, 24-08, 24-25, 24-30, 24-34, 24-45, 24-53, 24-62, 24-116, 24-130, 24-136, 25-01, 25-02, 25-03, 25-04, 25-05, 25-06, 25-08, 25-10, 25-11, 25-12, 25-13, 25-14, 25-15, 25-16, 25-17, 25-18, 25-20, 25-21, 25-26, 25-27, 25-30, 25-32, 25-34, 25-35, 25-39, 25-40, 25-43, 25-46, 25-48, 25-59, 25-84, 25-93, 25-95, 25-101, 25-102, 25-106, 25-109, 27-01, 27-76, 27-80, 27-83, 27-87, 27-90, 28-50, 28-51, 28-106, 28-139, 28-141, 29-03, 29-10, 29-11, 29-236, 29-237, 29-238, 29-247, 29-249, 29-250, 29-283, 30-10, 30-79, 32-178, 33-36, 33-78, 33-88, 33-89, 33-91, 33-94, 33-99, 33-100, 33-101, 33-104, 33-106, 33-108, 33-109, 33-110, 33-112, 33-113, 33-117, 33-120, 33-121, 33-122, 33-123, 33-124, 33-125, 33-126, 33-127, 33-128, 33-130, 33-131, 33-132, 33-133, 33-135, 33-136, 33-137, 33-138, 33-139, 33-140, 33-141,	Compulsory acquisition of rights

Statutory undertaker	Plot(s)	Land Requirement
Anglian Water Services Limited Cont'd	33-142, 33-143, 33-144, 33-145, 33-147, 33-148, 33-149, 33-150, 33-151, 33-175, 33-194, 33-219, 33-221, 33-222, 33-225, 33-227, 33-228, 33-230, 33-236, 33-238, 33-239, 33-240, 33-270, 42-05, 43-89, 43-91, 43-92, 43-99, 43-100, 44-09, 44-10, 44-17, 44-20, 44-80, 44-81, 44-86, 44-91, 44-94, 44-95, 44-96, 44-98, 44-99 and 44-100	Compulsory acquisition of rights

Zayo Group UK Ltd (telecoms operator) Cont'd	33-253, 33-258, 33-264, 33-267, 33-271, 33-274 and 33-287	Compulsory acquisition of rights

Annex A Schedule of Works - details of the purpose for which compulsory acquisition and temporary possession powers are sought

- A.1.1 The specific purposes for which each plot of Land subject to compulsory acquisition powers is required are set out in the tables in this Annex. The first column of each table identifies the plot number (as shown on the Land Plans) and used in the Book of Reference. Plots can be grouped in each row to the extent that they relate to the same Work. The second column of each table sets out the corresponding Works numbers as shown on the Works Plans and the broad uses for which the plot in question is required.
- A.1.2 The tables in this Annex A should be read in conjunction with and by reference to the:
- a. Land Plans (Application document 2.2)
 - b. Works Plans (Application document 2.6); and
 - c. Draft DCO (Application document 3.1)

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
01-02	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
01-04	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
01-06	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
01-07	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
01-12	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
01-14	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
02-02	E2	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
02-12	E1	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
03-01	1F, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-05	1A, 1F and MU3	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-06	1A, 1C, 1M and G1a	Permanent acquisition required for: Improvement works to the eastbound carriageway of the existing A2 mainline Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new section of single-carriageway local road Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road Installation of a medium-pressure gas pipeline
03-09	1F, MU2, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-10	1C and G1a	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline
03-11	1F, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-12	1A, 1F, MU2 and MU3	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-13	1A, 1C, 1F, MU2 and MU3	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline <p>Construction of the new A2 eastbound link road, including</p> <ul style="list-style-type: none"> - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
03-15	1F, MU2 and MU3	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
03-18	1C and G1a	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Installation of a medium-pressure gas pipeline</p>
03-19	1A	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline
03-20	1C and G1a	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Installation of a medium-pressure gas pipeline</p>
03-21	1C, G1a and MU1	<p>Permanent acquisition required for:</p> <p>Construction of a new section of single-carriageway local road</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-21 Cont'd		Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-22	1F, MU2 and MU3	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-23	E3, G1a, MU1, MU2 and ULH16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor The establishment of a temporary utilities logistic hub for facilitating utility works
03-24	1C, G1a and MU1	Permanent acquisition required for: Construction of a new section of single-carriageway local road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-25	1C, G1a and MU1	Permanent acquisition required for: Construction of a new section of single-carriageway local road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-26	1C, E3, G1a and MU1	Permanent acquisition required for: Construction of a new section of single-carriageway local road Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-27	1C, G1a, MU1, MU2 and MU3	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new section of single-carriageway local road - construction of a new public right of way between Park Pale and Shorne Woods Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-28	1C, G1a and MU2	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new section of single-carriageway local road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-29	1C, G1a, MU1, MU2, MU3 and ULH16	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of single-carriageway local road - construction of a new private means of access to Park Pale business park - construction of a new public right of way between Park Pale and Shorne Woods Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor The establishment of a temporary utilities logistic hub for facilitating utility works
03-30	1C, G1a and MU1	Permanent acquisition required for: Construction of a new section of single-carriageway local road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-31	1C and MU2	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-32	1C and MU2	Permanent acquisition required for: Construction of a new section of single-carriageway local road and a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-34	1K	Permanent acquisition required for: Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond
03-35	1K and MU3	Permanent acquisition required for: Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-37	1K and MU3	Permanent acquisition required for: Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-38	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-39	1O, E3, G1a and ULH16	Permanent acquisition required for: Construction of a new public right of way between Park Pale and the existing footpath NS161 Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Installation of a medium-pressure gas pipeline The establishment of a temporary utilities logistic hub for facilitating utility works

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-40	1C and MU3	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-41	1F and MU3	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-42	1K and MU3	Permanent acquisition required for: Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-43	E3, MU1, MU2, OSC1 and ULH16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new open space at Shorne Woods country park The establishment of a temporary utilities logistic hub for facilitating utility works
03-44	1A, 1F and MU3	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-45	1A, 1C and MU3	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-45 Cont'd		Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-46	1C and MU3	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-47	1C and MU3	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-48	1A, 1B, 1F and MU3	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the westbound carriageway of the existing A2 mainline Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289 Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-49	1A and 1C	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline <p>Construction of the new A2 eastbound link road, including</p> <ul style="list-style-type: none"> - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods
03-50	1C	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including</p> <ul style="list-style-type: none"> - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods
03-51	1C, MU1, MU2 and ULH16	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access to Park Pale business park</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
03-52	1C, MU1, MU2 and ULH16	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access to Park Pale business park</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-53 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new substation Utility works, including the installation or diversion of underground utilities within a multi-utility corridor The establishment of a temporary utilities logistic hub for facilitating utility works
03-54	1I, 1O, E3, G1a, MU1, MU2, OSC1 and ULH16	Permanent acquisition required for: Construction of a new private means of access from Park Pale to the new drainage infiltration basin Construction of a new public right of way between Park Pale and the existing footpath NS161 Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new open space at Shorne Woods country park The establishment of a temporary utilities logistic hub for facilitating utility works
03-55	1K	Permanent acquisition required for: Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond
03-56	1C and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-57	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-58	1F, 1K and MU3	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-58 Cont'd		Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-59	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods
03-60	1J	Permanent acquisition required for: Construction of an improved drainage infiltration basin with associated drainage facilities.
03-61	1F	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline
03-62	1C	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods
03-63	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-64	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods
03-65	1C and MU1	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

03-71	1C	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p>
03-72	1K and MU3	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and a new private means of access to the drainage pond</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-72 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-73	1J	Permanent acquisition required for: Construction of an improved drainage infiltration basin with associated drainage facilities.
03-74	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-75	1C and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-76	1C and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-77	1C and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-78	1C and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-78 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-79	1C and MU1	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-81	1C, 1I and MU1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including - construction of a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 - construction of a new public right of way between Park Pale and Shorne Woods Construction of a new private means of access from Park Pale to the new drainage infiltration basin Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-82	1C and MU1	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-83	1C	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods
03-84	1I, E3 and MU1	Permanent acquisition required for: Construction of a new private means of access from Park Pale to the new drainage infiltration basin Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-85	E3 and OSC1	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure Implementation of new open space at Shorne Woods country park
03-86	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-88	1C and MU1	Permanent acquisition required for: Construction of a new public right of way between Park Pale and Shorne Woods Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-89	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-90	1A	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-91	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-92	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-93	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-94	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-95	1A and 1B	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-97	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-99	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-100	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-101	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-102	E3	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting compensation, including the construction of a new bat barn structure
03-103	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-104	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-105	1A and 1B	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-106	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-107	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-108	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway
03-109	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway
03-110	MU1	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-111	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-113	MU1	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-114	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway
03-115	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway
03-116	1A and 1B	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the northbound carriageway of the improved M2 road and the northbound carriageway of the existing A289
03-117	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway
03-118	1A	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-119	1A	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-120	1A and 1B	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-121	1A	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-122	1A and 1B	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-123	1A and 1B	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-124	1A and 1B	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-125	1A and 1B	Permanent acquisition required for: Improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-126	1B and MU1	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-127	1B and MU1	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-128	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-129	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-130	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-131	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-132	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-133	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-134	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-136	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-138	1B	Permanent acquisition required for: Improvement of the existing single-lane carriageway, between the southbound carriageway of the existing A289 and the southbound carriageway of the improved M2 road
03-145	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-147	1A	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-148	1A	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the three-lane southbound carriageway of the existing M2, with widening to four-lane carriageway - improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-149	1A	Permanent acquisition required for: Improvement works to the three-lane northbound carriageway of the existing M2, with widening to four-lane carriageway
03-150	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289
03-151	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-152	1J	Permanent acquisition required for: Construction of an improved drainage infiltration basin with associated drainage facilities.
04-01	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
04-02	2S	Permanent acquisition required for: Improvement of the eastbound and westbound carriageways of the existing A2
04-04	2O and G1b	Permanent acquisition required for: Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline
04-05	1G and 2A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-06	2S	Permanent acquisition required for: Improvement of the eastbound and westbound carriageways of the existing A2
04-09	1A, 1E, 1F, 1G, 1H, 2A, 2D, 2U, 2V, MU12 and MU9	Permanent acquisition required for: Construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-09 Cont'd		<p>Construction of a new bridge to carry the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Thong Lane over the improved A2 mainline and A122 Lower Thames Crossing link roads - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A2 link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout <p>Construction of a section of the new highway local road, one-lane single carriageway, between the Thong Lane bridge over the A2 and the new Cobham roundabout</p> <p>Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-10	2A, 2B, 2C, 2O, CA2 and G1b	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of the new A122 Lower Thames Crossing Link Road, including a new highway, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the new A2 link road</p> <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Installation of a medium-pressure gas pipeline</p>
04-11	1A, 1G, 1H, 2A, 2S and MU12	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-11 Cont'd		<p>Construction of a new bridge to carry the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Thong Lane over the improved A2 mainline and A122 Lower Thames Crossing link roads - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Improvement of the westbound carriageway of the existing A2</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-13	2A, 2B and 2C	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of the new A122 Lower Thames Crossing Link Road, including a new highway, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the new A2 link road</p>

04-59	1A and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-60	1A and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-62	1A	Permanent acquisition required for: Construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-64	1E, MU9 and MUT1	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-65	1A	Permanent acquisition required for: Construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-66	1A, 1F, 1G, MU9 and MUT1	Permanent acquisition required for: Construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-67	1E, 1F, 1G, 1H, MU9 and MUT1	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-68	1F, 1G and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-69	1A, 1F, 1G, 1H and MU9	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of a new public right of way along the verge of the realigned Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-70	1H, MU10, MU11 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-71	1H, 2O, G1b, MU10 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane - construction of a new private means of access to the new proposed car park <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-71 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-73	1H, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-74	1H, G1b, MU10, MUT1 and MUT2	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-75	1H, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of a new private means of access to access the Inn on the Lake from the new realigned Thong Lane Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-76	1H, MU10, MU11 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-77	1H, MU10, MU11 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-77 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-78	1H, MU10 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-79	1H, G1b, MU10, MU11 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access to access the Inn on the Lake from the new realigned Thong Lane</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-80	1H, MU10, MU11 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-81	1H, MU10, MU11 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the realigned Thong Lane over the improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-82	1C, 1H, 2C, G1a, G1b, MU10, MU11 and MUT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Construction of a new private means of access to access the Inn on the Lake from the new realigned Thong Lane</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-82 Cont'd		Construction of the new A122 Lower Thames Crossing Link Road, including a new highway, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the new A2 link road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-83	1H, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-84	1H, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-85	1C, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-86	1C, G1b and MU10	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-87	1C, G1a, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-87 Cont'd		Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-88	1H, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane - construction of a new public right of way in the access from Thong Lane Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-90	1E, 1F, 1H, MU9 and MUT1	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-91	1E, 1F, 1H, MU9 and MUT1	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-95	1H, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Installation of a medium-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-95 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-97	1H, G1b, MU10 and MUT1	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-102	1F, 1H, MU9 and MUT1	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-104	1F, 1H and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-105	1C, G1a, G1b, MU10, MU7 and MUT1	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-106	1C and G1a	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-107	1E, 1H and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-110	1E, 1H and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-111	1E, 1H and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Construction of a new public right of way along the verge of the realigned Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-112	1E and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-113	1C and G1a	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-114	1A, 1C and G1a	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new section of highway with two-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Installation of a medium-pressure gas pipeline</p>
04-115	1A	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-116	1A, 1F, 1G and MU9	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-117	1E and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-118	1E and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-119	1E and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-120	1E, 1F and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-121	1A, 1F, 1G and MU9	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-124	1E and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-125	1C	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-126	1E and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-127	1E, 1F, 1G, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-129	1C, G1a, MU10 and MU7	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-130	1E and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-131	1A, 1F and 1G	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-132	1E, 1F, 1G, MU3, MU4 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including</p> <ul style="list-style-type: none"> - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-133	1A	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-134	1A	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-135	1A	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing
04-136	1A, 1E, 1F, MU3, MU4 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-136 Cont'd		<p>Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including</p> <ul style="list-style-type: none"> - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-139	1C, G1a and MU7	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-142	1A	<p>Permanent acquisition required for:</p> <p>Improvement works to the westbound carriageway of the existing A2 mainline</p>
04-143	1A, 1C, 1F, G1a, MU3, MU4, MU7 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the existing M2 and the improvement works to the A2, including</p> <ul style="list-style-type: none"> - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline - construction of a new section of highway with two-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-144	1C, G1a and MU7	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Installation of a medium-pressure gas pipeline</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-144 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-146	1A	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline
04-147	1A, 1E, 1F, MU3, MU4 and MU9	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-150	1E, MU3 and MU8	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane - construction of a new permissive path from Halfpence Lane roundabout to road leading to Scalers Hill House Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-155	1E	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane, and a new permissive path from Halfpence Lane roundabout to road leading to Scalers Hill House
04-156	1E, MU4 and MU9	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-157	1E, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-157 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-158	1E and MU9	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-159	1E and MU9	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-160	1E and MU9	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-161	1E, MU3, MU4 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-162	1E	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout
04-163	1E and MU8	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-164	1E	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-165	1E, MU3, MU4 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-166	1E, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-167	1E, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-168	1E and MU8	Permanent acquisition required for: Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-169	1E, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-170	1E, MU3 and MU9	Permanent acquisition required for: Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-171	1D, 1E and MU8	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Construction of a section of a new public right of way from Halfpence Lane roundabout to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-172	1C, G1a and MU7	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-173	1D, 1E, MU3, MU5, MU8 and MU9	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Construction of a section of the new local road between Halfpence Lane roundabout and Thong Lane bridge, including - construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge - construction of a section of a new public right of way from Halfpence Lane roundabout to Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-174	1E, MU3, MU8 and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-175	1E, MU3 and MU9	Permanent acquisition required for: Construction of a new section of highway local road, with one-lane single carriageway, between the existing Halfpence Lane roundabout and Thong lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-176	1F, MU3 and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-177	1F and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-178	1F and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-179	1F and MU3	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-180	1F, MU3, MU8 and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-181	1F, MU3, MU4 and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-182	1A, 1F, MU3, MU4 and MU9	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-183	MU3 and MU9	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-184	1F, MU3 and MU9	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-185	1D and MU9	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-186	1D, MU5 and MU9	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-187	1D, 1K, MU5 and MU6	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Construction of a new public right of way from the improved footpath to the improved Brewers Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-188	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-189	1F, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-190	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-191	1F	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline
04-192	1A, 1D, 1F, MU3, MU4 and MU5	Permanent acquisition required for: Improvement works to the westbound carriageway of the existing A2 mainline Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-193	1A, 1C, 1D, G1a, MU5 and MU7	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-194	1C, 1D, G1a, MU5 and MU7	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-194 Cont'd		Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-195	1D, G1a, MU5 and MU7	Permanent acquisition required for: Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-196	1D, 1F, MU3, MU4 and MU5	Permanent acquisition required for: Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-197	1K	Permanent acquisition required for: Construction of a new public right of way from the improved footpath to the improved Brewers Road
04-198	1D and MU5	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-199	1D and MU5	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-201	1D and MU5	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-202	1D, MU4 and MU5	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-203	1K	Permanent acquisition required for: Construction of a new public right of way from the improved footpath to the improved Brewers Road
04-204	1D, 1F, MU3, MU4 and MU5	Permanent acquisition required for: Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - demolition of the existing Brewers Road bridge over the existing A2 - improvement works to the existing Brewers Road - construction of a public right of way from Brewers Road to Halfpence Lane roundabout Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-205	1D and MU5	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-206	1D, MU5 and MU6	Permanent acquisition required for: Construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-207	1D, 1F, MU3, MU4, MU5 and MU6	<p>Permanent acquisition required for:</p> <p>Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road - construction of a public right of way from Brewers Road to Halfpence Lane roundabout <p>Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
04-208	1K	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from the improved footpath to the improved Brewers Road</p>

04-219	1A, 1C, 1D, 1M and MU5	<p>Permanent acquisition required for:</p> <p>Improvement works to the eastbound carriageway of the existing A2 mainline</p> <p>Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289</p> <p>Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road - construction of a public right of way from Brewers Road to Halfpence Lane roundabout <p>Construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-220	1D, G1a, MU5 and MU7	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-221	1D, G1a, MU5 and MU7	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-222	1C, 1D, 1M and MU5	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new bridge to carry the realigned Brewers Road over the improved section of the A2, including - construction of a new bridge to carry the realigned Brewers Road over both carriageways of the improved section of the A2 mainline, the eastbound carriageway of the new A2 link road and the westbound carriageway of the new A2 link road - improvement works to the existing Brewers Road - construction of a public right of way from Brewers Road to Halfpence Lane roundabout Construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-224	1D and MU5	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-230	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-231	1F and MU3	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-232	1A, 1F, MU3 and MU4	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-234	1N and G1a	Permanent acquisition required for: Construction of a section of the new local road between the new A2 and the realigned Brewers Road Installation of a medium-pressure gas pipeline
04-235	1A, 1C and 1M	Permanent acquisition required for: Improvement works to the eastbound carriageway of the existing A2 mainline Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road
04-236	1N and G1a	Permanent acquisition required for: Construction of a section of the new local road between the new A2 and the realigned Brewers Road Installation of a medium-pressure gas pipeline
04-237	1N and G1a	Permanent acquisition required for: Construction of a section of the new local road between the new A2 and the realigned Brewers Road Installation of a medium-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-238	1N and G1a	Permanent acquisition required for: Construction of a section of the new local road between the new A2 and the realigned Brewers Road Installation of a medium-pressure gas pipeline
04-239	1F, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-240	1C and 1M	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road
04-241	1A, 1C and 1M	Permanent acquisition required for: Improvement works to the eastbound carriageway of the existing A2 mainline Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a section of the new local road between the new A2 and the realigned Brewers Road, including - construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road - construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road
04-242	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the new A2 eastbound link road and the realigned Brewers Road
04-245	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road
04-248	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road
04-250	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-256	1F, MU3 and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-260	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-261	1A, 1C, 1M and G1a	Permanent acquisition required for: Improvement works to the eastbound carriageway of the existing A2 mainline Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road Installation of a medium-pressure gas pipeline
04-262	1A, 1F, MU3 and MU4	Permanent acquisition required for: Construction of an improved section of the existing M2 and the improvement works to the A2, including - improvement works to the eastbound carriageway of the existing A2 mainline - improvement works to the westbound carriageway of the existing A2 mainline Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-263	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road
04-264	1M	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-265	1C, 1M and G1a	Permanent acquisition required for: Construction of the new A2 eastbound link road, including a new section of highway of two-lane link road, between the eastbound carriageway of the existing A2 mainline and the northbound carriageway of the existing A289 Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road Installation of a medium-pressure gas pipeline
04-267	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-269	1M and G1a	Permanent acquisition required for: Construction of a new highway, one-lane single carriageway, between the realigned Brewers Road and the new A2 eastbound link road Installation of a medium-pressure gas pipeline
04-270	1F and MU4	Permanent acquisition required for: Construction of the new A2 westbound link road, including a new section of highway, two-lane single carriageway, between the southbound carriageway of the existing A289 and the westbound carriageway of the existing A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-271	1H, 2C, G1b, MU10, MU12, MUT1 and MUT2	Permanent acquisition required for: Construction of the realigned Thong Lane over the improved section of the A2 mainline, including - construction of a new highway local road over Thong Lane - construction of a new private means of access to access the Inn on the Lake from the new Thong Lane - construction of a new public right of way along the verge of the realigned Thong Lane Construction of the new A122 Lower Thames Crossing Link Road, including a new highway, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the new A2 link road Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-272	1D, MU4 and MU5	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-272 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-273	1D, MU4, MU5 and MU6	Permanent acquisition required for: Improvement works to the existing Brewers Road and construction of a public right of way from Brewers Road to Halfpence Lane roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-01	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
06-02	2P and 2S	Permanent acquisition required for: Improvement works to a section of the existing public right of way from Church Road to existing public right of way footpath NS175 Improvement of the westbound carriageway of the existing A2
06-04	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
06-05	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
06-06	2P, E7 and E8	Permanent acquisition required for: Construction of a new section of the public right of way from Jeskyns Community woodland to Church Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
06-07	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
06-10	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
06-12	2P, 2S and MU14	Permanent acquisition required for: Improvement works to a section of the existing public right of way from Church Road to existing public right of way footpath NS175

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-12 Cont'd		Improvement of the westbound carriageway of the existing A2 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-13	2F, 2M, 2P, 2S, 2Y, MU14, MU16 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new Gravesend East junction, including</p> <ul style="list-style-type: none"> - improvement of the existing road two-lane single carriageway, between Gravesend East junction south and the Gravesend East junction north - modification of the existing bridge (Marling Cross overbridge) to carry the road between Gravesend East junction south and the Gravesend East junction north over the eastbound and westbound carriageways of the improved A2 mainline - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline <p>Improvement works to an existing drainage infiltration basin with associated drainage facilities, and construction of a private means of access from the modified Gravesend East junction north</p> <p>Improvement works to a section of the existing public right of way from Church Road to existing public right of way footpath NS175</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Construction of the new link roads between Gravesend East junction and the improved A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway local road, single carriageway between the Gravesend East junction south and the improved A2 mainline - construction of a new highway local road, single carriageway between the Gravesend East junction north and the improved A2 mainline <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-14	2P	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing public right of way from Church Road to existing public right of way footpath NS175</p>
06-15	2M	<p>Permanent acquisition required for:</p> <p>Improvement works to an existing drainage infiltration basin with associated drainage facilities, and construction of a private means of access from the modified Gravesend East junction north</p>
06-16	2M	<p>Permanent acquisition required for:</p> <p>Improvement works to an existing drainage infiltration basin with associated drainage facilities, and construction of a private means of access from the modified Gravesend East junction north</p>
06-17	2M	<p>Permanent acquisition required for:</p> <p>Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-20	2F, 2I, 2M, 2Z, G1b, MU15 and MU16	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new Gravesend East junction, including</p> <ul style="list-style-type: none"> - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin</p> <p>Improvement of the local roads, including</p> <ul style="list-style-type: none"> - improvement works to the existing Hever Court Road west from Gravesend East junction north - improvement works to the existing road Hever Court Road east, from Gravesend East junction north roundabout to Valley Drive roundabout - improvement works to the existing road Valley Drive from Valley Drive roundabout - construction of a new public right of way from Hever Court Road to Valley Drive <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-21	2Z, MU15 and MU16	<p>Permanent acquisition required for:</p> <p>Improvement works to the existing Hever Court Road west from Gravesend East junction north</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-22	2Z and MU16	<p>Permanent acquisition required for:</p> <p>Improvement works to the existing Hever Court Road west from Gravesend East junction north</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-23	2Z and MU16	<p>Permanent acquisition required for:</p> <p>Improvement works to the existing Hever Court Road west from Gravesend East junction north</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-24	2Q, 2Z, G1b and MU16	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-24 Cont'd		Improvement of the local roads, including - improvement works to the existing Hever Court Road west from Gravesend East junction north - improvement works to the existing road Hever Court Road east, from Gravesend East junction north roundabout to Valley Drive roundabout - construction of a new public right of way from Hever Court Road to Valley Drive Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-25	2M and MU16	Permanent acquisition required for: Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-26	2F, 2Y and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Construction of the new link roads between Gravesend East junction and the improved A2 mainline, including a new highway local road, single carriageway between the Gravesend East junction north and the improved A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-27	2M	Permanent acquisition required for: Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin
06-28	2Z, MU15 and MU16	Permanent acquisition required for: Improvement works to the existing Hever Court Road west from Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-29	2M	Permanent acquisition required for: Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin
06-30	2F, 2M, MU15 and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Construction of a private means of access from the modified Gravesend East junction north to the existing drainage infiltration basin Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-31	2E, 2F, 2X, MU14, MU16 and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Construction of a section of the new Gravesend East junction, including - modification of the existing multi-lane gyratory at Gravesend East junction south of the improved A2 mainline - improvement of the existing road two-lane single carriageway, between Gravesend East junction south and the Gravesend East junction north - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Construction of the new local road, multi-lane single carriageway, between the new Henhurst roundabout and the modified Gravesend East junction south, Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-32	2F and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-33	2F and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-34	2F	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline
06-35	2F, 2Z, G1b, MU15 and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Improvement of the local roads, including - improvement works to the existing Hever Court Road west from Gravesend East junction north - improvement works to the existing road Hever Court Road east, from Gravesend East junction north roundabout to Valley Drive roundabout - construction of a new public right of way from Hever Court Road to Valley Drive Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-36	2F, 2Z, CA1, G1b, MU15 and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-36 Cont'd		Improvement of the local roads, including - improvement works to the existing Hever Court Road west from Gravesend East junction north - improvement works to the existing road Hever Court Road east, from Gravesend East junction north roundabout to Valley Drive roundabout - construction of a new public right of way from Hever Court Road to Valley Drive Temporary construction compound at surface for facilitating main works Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-37	2F and MU16	Permanent acquisition required for: Modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-38	2F, 2Z and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Improvement works to the existing road Hever Court Road east, from Gravesend East junction north roundabout to Valley Drive roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-39	2F and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-40	2F and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-41	2F and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-42	2F and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - improvement of the existing road two-lane single carriageway, between Gravesend East junction south and the Gravesend East junction north - modification of the multi-lane gyratory at Gravesend East junction north of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-43	2F, 2S, MU16 and MU9	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - improvement of the existing road two-lane single carriageway, between Gravesend East junction south and the Gravesend East junction north - modification of the existing bridge (Marling Cross overbridge) to carry the road between Gravesend East junction south and the Gravesend East junction north over the eastbound and westbound carriageways of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Improvement of the eastbound and westbound carriageways of the existing A2 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-44	2F, 2S, MU16 and MU9	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - modification of the existing bridge (Marling Cross overbridge) to carry the road between Gravesend East junction south and the Gravesend East junction north over the eastbound and westbound carriageways of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Improvement of the eastbound and westbound carriageways of the existing A2 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-45	2E, 2F, 2X, MU16 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access</p> <p>Construction of a section of the new Gravesend East junction, including</p> <ul style="list-style-type: none"> - modification of the existing multi-lane gyratory at Gravesend East junction south of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north <p>Construction of the new local road, multi-lane single carriageway, between the new Henhurst roundabout and the modified Gravesend East junction south,</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-47	2E, 2F, 2G, 2L, 2S, 2W, 2X, MU16 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access</p> <p>Construction of a section of the new Gravesend East junction, including</p> <ul style="list-style-type: none"> - modification of the existing multi-lane gyratory at Gravesend East junction south of the improved A2 mainline - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Construction of a new drainage infiltration basin with associated drainage facilities, a private means of access from the new Henhurst Road roundabout</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south</p> <p>Construction of the new local road, multi-lane single carriageway, between the new Henhurst roundabout and the modified Gravesend East junction south,</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-48	2E, MU14 and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-49	2F and MU16	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-50	2F	Permanent acquisition required for: Construction of a section of the new Gravesend East junction, including - construction of a new highway road, two-lane single carriageway between the link road and the existing Valley Drive roundabout - construction of a new public right of way from Gravesend East junction south to Gravesend East junction north
06-51	2P and E7	Permanent acquisition required for: Construction of a new section of the public right of way from Jeskyns Community woodland to Church Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
06-52	CA1, G1b and MU16	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-53	2P and E7	Permanent acquisition required for: Construction of a new section of the public right of way from Jeskyns Community woodland to Church Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
06-57	2P and E7	Permanent acquisition required for: Construction of a new section of the public right of way from Jeskyns Community woodland to Church Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
06-58	2I and G1b	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-59	2B, 2G, 2S and G1b	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Installation of a medium-pressure gas pipeline</p>
06-60	2I, G1b and MU16	<p>Permanent acquisition required for:</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-61	2I, G1b and MU16	<p>Permanent acquisition required for:</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-62	2E	<p>Permanent acquisition required for:</p> <p>Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access</p>
06-63	2I and G1b	<p>Permanent acquisition required for:</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p>
06-65	2E and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-66	2E, 2W, 2X and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south Construction of the new local road, multi-lane single carriageway, between the new Henhurst roundabout and the modified Gravesend East junction south, Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-68	2E, MU14 and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and two new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-69	2E, 2W and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-70	2I, G1b and MU16	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-71	2Z	Permanent acquisition required for: Improvement works to the existing road Valley Drive from Valley Drive roundabout
06-73	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-74	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-76	2E, MU14 and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-77	2I, G1b and MU16	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-79	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-80	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-81	2E, 2V and MU9	Permanent acquisition required for: Construction of a section of the new local roads between Halfpence Lane roundabout and Henhurst Road, including - construction of a section of the new highway local road, one-lane single carriageway, between the new Cobham roundabout and the Henhurst roundabout - construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-82	2E, 2V, MU14 and MU9	Permanent acquisition required for: Construction of a section of the new local roads between Halfpence Lane roundabout and Henhurst Road, including - construction of a section of the new highway local road, one-lane single carriageway, between the new Cobham roundabout and the Henhurst roundabout - construction of a new multi-lane roundabout, Henhurst roundabout, and two new private means of local access Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-83	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-84	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-85	2B, 2I, G1b and MU16	Permanent acquisition required for: Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-86	2I and G1b	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline
06-87	2B, 2G and 2S	Permanent acquisition required for: Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-87 Cont'd		Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline Improvement of the eastbound and westbound carriageways of the existing A2
06-88	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-89	2E and MU9	Permanent acquisition required for: Construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-90	2B, 2G and 2S	Permanent acquisition required for: Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline Improvement of the eastbound and westbound carriageways of the existing A2
06-92	2W and MU9	Permanent acquisition required for: Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-93	2G	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline
06-94	2W	Permanent acquisition required for: Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-95	2W and MU9	<p>Permanent acquisition required for:</p> <p>Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-97	2B, 2G, 2S and G1b	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Installation of a medium-pressure gas pipeline</p>
06-100	2G	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p>
06-101	2G	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p>
06-103	2W	<p>Permanent acquisition required for:</p> <p>Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south</p>
06-105	2B and G1b	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Installation of a medium-pressure gas pipeline</p>
06-106	2B and G1b	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-106 Cont'd		Installation of a medium-pressure gas pipeline
06-108	2G and 2S	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p>
06-118	2E, 2G, 2V, 2W and MU9	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new local roads between Halfpence Lane roundabout and Henhurst Road, including</p> <ul style="list-style-type: none"> - construction of a section of the new highway local road, one-lane single carriageway, between the new Cobham roundabout and the Henhurst roundabout - construction of a new multi-lane roundabout, Henhurst roundabout, and a new private means of local access <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout</p> <p>Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-119	2B	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p>
06-120	2B and 2S	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Improvement of the eastbound carriageway of the existing A2</p>
06-122	2I, G1b and MU16	<p>Permanent acquisition required for:</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-124	2B and 2I	Permanent acquisition required for: Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing
06-125	2I, G1b and MU16	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-126	2I and G1b	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline
06-127	2I, G1b, MU16 and MU17	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-128	2I, G1b and MU17	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-129	2Q	Permanent acquisition required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-130	2Q	Permanent acquisition required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174
06-133	2Q, G1b and G2	Permanent acquisition required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174 and construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline Installation of a high-pressure gas pipeline
06-140	2B, 2I, 2S and G1b	Permanent acquisition required for: Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Improvement of the eastbound carriageway of the existing A2 Installation of a medium-pressure gas pipeline
06-141	2E, 2G, 2V, 2W, MU14, MU9, OH1 and OHT1	Permanent acquisition required for: Construction of a section of the new local roads between Halfpence Lane roundabout and Henhurst Road, including - construction of a new viaduct to carry the new road between the new Cobham roundabout and the Henhurst roundabout over the existing HS1 pond - construction of a section of the new highway local road, one-lane single carriageway, between the new Cobham roundabout and the Henhurst roundabout Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout Construction of the new local road, one-lane single carriageway, between the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline and the modified Gravesend East junction south Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-142	2B, 2I and G1b	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p>
06-143	2I, G1b, G2 and MU17	<p>Permanent acquisition required for:</p> <p>Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-145	2G, 2S, MU9, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Improvement of the westbound carriageway of the existing A2</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
06-146	2Q, E9 and ULH14	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing</p> <p>Implementation of environmental mitigation works to create a site for ancient woodland planting</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-147	2G, 2S, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline - construction of a new viaduct to carry the new link road over the new link road between the new A2 westbound link road and the westbound carriageway of the improved A2 mainline, the new link road between the westbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road, the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing, the new link road between the existing Valley Drive roundabout and the northbound carriageway of the new A122 Lower Thames Crossing and the new link road between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
06-148	2S	<p>Permanent acquisition required for:</p> <p>Improvement of the eastbound carriageway of the existing A2</p>
06-149	2S	<p>Permanent acquisition required for:</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p>
06-150	2B and 2S	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p>
06-154	2D, 2S, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 link roads, including construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
06-155	2B, 2D, 2H, 2S, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-155 Cont'd		<p>Construction of the new A2 link roads, including construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including a new highway, single carriageway, between the eastbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
06-156	2B, 2G, 2H, 2S, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline - construction of a new viaduct to carry the new link road over the new link road between the new A2 westbound link road and the westbound carriageway of the improved A2 mainline, the new link road between the westbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road, the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing, the new link road between the existing Valley Drive roundabout and the northbound carriageway of the new A122 Lower Thames Crossing and the new link road between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline <p>Construction of the new A122 Lower Thames Crossing link roads, including a new highway, single carriageway, between the eastbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-189 Cont'd		Construction of a new local highway, one-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout
06-190	1G, 2A, 2D and 2T	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A2 link roads, including construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline</p> <p>Construction of a new local highway, one-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout</p>
06-191	2G and 2K	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline - construction of a new viaduct to carry the new link road over the new link road between the new A2 westbound link road and the westbound carriageway of the improved A2 mainline, the new link road between the westbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road, the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing, the new link road between the existing Valley Drive roundabout and the northbound carriageway of the new A122 Lower Thames Crossing and the new link road between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline <p>Construction of a new drainage infiltration basin with associated drainage facilities</p>
06-192	1G, 2A, 2D, 2S and 2T	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new underbridge to carry the new link road between the northbound carriageway of the improved A2 and the westbound carriageway of the new A122 Lower Thames Crossing under the eastbound and westbound carriageways of the improved A2 mainline and the new link road between the westbound carriageway of the improved A2 and the new Cobham roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-192 Cont'd		<p>Construction of the new A2 link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new bridge to carry the new link road between the westbound carriageway of the new A2 link road and the westbound carriageway of the improved A2 mainline under the new link road between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout <p>Improvement of the westbound carriageway of the existing A2</p> <p>Construction of a new local highway, one-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout</p>
06-193	1G, 2A, 2D, 2J, 2U and MU9	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new A2 link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout <p>Improvement works to an existing drainage infiltration basin with associated drainage facilities</p> <p>Construction of a section of the new highway local road, one-lane single carriageway, between the Thong Lane bridge over the A2 and the new Cobham roundabout</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-194	2D, 2J and MU9	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 link roads, including construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout</p> <p>Improvement works to an existing drainage infiltration basin with associated drainage facilities</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
06-195	1G, 2A, 2D, 2S and 2T	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-195 Cont'd		<p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new underbridge to carry the new link road between the northbound carriageway of the improved A2 and the westbound carriageway of the new A122 Lower Thames Crossing under the eastbound and westbound carriageways of the improved A2 mainline and the new link road between the westbound carriageway of the improved A2 and the new Cobham roundabout <p>Construction of the new A2 link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new bridge to carry the new link road between the westbound carriageway of the new A2 link road and the westbound carriageway of the improved A2 mainline under the new link road between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout <p>Improvement of the eastbound and westbound carriageways of the existing A2</p> <p>Construction of a new local highway, one-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the new Cobham roundabout</p>
06-196	2D	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 link roads, including construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout</p>
06-197	2B and 2S	<p>Permanent acquisition required for:</p> <p>Construction of an improved section of the A2 mainline, including construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road</p> <p>Improvement of the eastbound and westbound carriageways of the existing A2</p>
06-198	2D	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 link roads, including construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout</p>
06-199	2D	<p>Permanent acquisition required for:</p> <p>Construction of the new A2 link roads, including construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout</p>

Table 1: Permanent Acquisition of Land - by plot number		
Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-200	2A, 2B, 2C, 2G, 2I, 2K, 2O, 2S, G1b and ULH15	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing - construction of a new underbridge to carry the new link road between the westbound carriageway of the improved A2 and the northbound carriageway of the new A122 Lower Thames Crossing under the eastbound and westbound carriageways of the improved A2 mainline and the new link road between the westbound carriageway of the improved A2 and the new Cobham roundabout <p>Construction of an improved section of the A2 mainline, including</p> <ul style="list-style-type: none"> - construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road - construction of a new bridge to carry the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road over, the new link road between southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline and the new Gravesend junction link road to the eastbound carriageway of the improved A2 mainline - construction of a new bridge to carry the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road over the link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of the new A122 Lower Thames Crossing Link Road, including a new highway, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the new A2 link road</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline - construction of a new viaduct to carry the new link road over the new link road between the new A2 westbound link road and the westbound carriageway of the improved A2 mainline, the new link road between the westbound carriageway of the improved A2 mainline, the new link road between the eastbound carriageway of the improved A2 mainline, the new link road between the westbound carriageway of the improved A2 mainline and the new A2 eastbound link road, the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing, the new link road between the existing Valley Drive roundabout and the northbound carriageway of the new A122 Lower Thames Crossing and the new link road between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline <p>Construction of new Gravesend East junction link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, one-lane single carriageway, between the new Gravesend East junction and the eastbound carriageway of the improved A2 mainline - construction of a new viaduct to carry the new link road between the existing Valley Drive roundabout and the new A122 Lower Thames Crossing southbound link road over the link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing, the link road between the southbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A2 mainline and the link road between the eastbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing and under the new bridge carrying the new link road between the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline <p>Construction of a private means of access from the new link road between the eastbound carriageway of the improved A2 mainline and the new A2 eastbound link road to the new drainage infiltration basin</p> <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-200 Cont'd		Improvement of the eastbound and westbound carriageways of the existing A2 Installation of a medium-pressure gas pipeline The establishment of a temporary utilities logistic hub for facilitating utility works
06-201	2A, 2G, 2O and G1b	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link roads, including - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline
06-202	2D	Permanent acquisition required for: Construction of the new A2 link roads, including - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout
06-203	1G, 2A and 2D	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A2 link roads, including construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline
06-206	1G, 2A, 2D, 2U, 2V and MU9	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link road, including a new highway, one lane single carriageway, between the new A2 westbound link road and the new link road between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-206 Cont'd		Construction of the new A2 link roads, including - construction of a new highway, two-lane single carriageway, between the new westbound A2 link road and the westbound carriageway of the improved A2 mainline - construction of a new highway, one-lane single carriageway, between the westbound carriageway of the new A2 link road and the new Cobham roundabout Construction of a section of the new highway local road, one-lane single carriageway, between the Thong Lane bridge over the A2 and the new Cobham roundabout Construction of a section of a new public right of way from Thong Lane bridge over the A2 to Henhurst roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
06-210	2O and G1b	Permanent acquisition required for: Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing Installation of a medium-pressure gas pipeline
06-211	2Q	Permanent acquisition required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174 and construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing
07-03	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-06	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-07	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-08	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-10	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-12	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
07-13	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-14	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-16	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-17	MU15	Permanent acquisition of public highway and bridge structure required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-18	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-19	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-20	MU15	Permanent acquisition of public highway and bridge structure required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-21	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-22	MU15	Permanent acquisition of public highway and bridge structure required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-23	MU15	Permanent acquisition of public highway and bridge structure required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-24	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-25	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
07-28	MU15	Permanent acquisition of public highway and bridge structure required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-30	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
07-31	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-32	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-33	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-34	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-35	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-36	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-37	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-38	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-39	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-43	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
07-44	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-45	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-46	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-47	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-48	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-49	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
07-50	2S	Permanent acquisition required for: Improvement of the westbound carriageway of the existing A2
08-01	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
08-02	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
08-03	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
08-04	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
08-05	MU15	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
09-01	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-01	E11	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
10-03	E11	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
10-04	E12	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-11	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-12	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-13	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-14	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-15	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
10-16	E13	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
11-01	2I, 2Q, 2R, E9, G1b, G3, G4, MU17, OH1, OHT1 and ULH14	Permanent acquisition required for: Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing and improvements works of a section of the existing public right of way footpath NS169

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-01 Cont'd		<p>Construction of a new public right of way between the existing footpath NS174 and the new public right of way</p> <p>Implementation of environmental mitigation works to create a site for ancient woodland planting</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
11-08	2Q, 2R, G1b, G3, MU17, OH1, OHT1, OSC2 and ULH14	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing</p> <p>Construction of a new public right of way between the existing footpath NS174 and the new public right of way</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>Implementation of new open space at Claylane Wood</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-09 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new open space at Claylane Wood
11-10	2A, 2G, 2O, 2Q, 2R, 3A, 3B, E9, G1b, G3, G4, MU17, MU18, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing <p>Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline</p> <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Construction of a new public right of way from the new A2/A122 Lower Thames Crossing junction to the new Thong Lane over the A122 Lower Thames Crossing</p> <p>Construction of a new public right of way between the existing footpath NS174 and the new public right of way</p> <p>Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure</p> <p>Improvement works to a section of the existing Thong Lane, including</p> <ul style="list-style-type: none"> - construction of a new public right of way on the new Thong Lane bridge - construction of a new public right of way between the public right of way along the northern verge of Thong Lane over A122 Lower Thames Crossing - construction of a new public right of way between the new public right of way along the southern verge of Thong Lane bridge <p>Implementation of environmental mitigation works to create a site for ancient woodland planting</p> <p>Installation of a medium-pressure gas pipeline</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
11-11	2R, G1b, OH1, OHT1 and OSC3	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way between the existing footpath NS174 and the new public right of way</p> <p>Installation of a medium-pressure gas pipeline</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-11 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new open space at Claylane Wood
11-12	2R and OSC3	Permanent acquisition required for: Construction of a new public right of way between the existing footpath NS174 and the new public right of way Implementation of new open space at Claylane Wood
11-13	2A, 2G, 2I, 2O, 2R and G1b	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing link roads, including - construction of a new highway, three-lane single carriageway, between the westbound carriageway of the improved A2 mainline and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new highway, two-lane single carriageway, between the eastbound carriageway of the improved A2 mainline and the southbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing link roads, including construction of a new highway road, one-lane single carriageway, between the southbound carriageway of the new A122 Lower Thames Crossing and the westbound carriageway of the improved A2 mainline Construction of new Gravesend East junction link roads, including a new highway, one-lane single carriageway, between the new Gravesend East junction and the northbound carriageway of the new A122 Lower Thames Crossing Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing Construction of a new public right of way between the existing footpath NS174 and the new public right of way Installation of a medium-pressure gas pipeline
11-14	3A, 3B, 3D, 3G, 3H, 3J, CA3, MU18, MU19, OH1, OHT1 and OSC4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Construction of a new drainage structure, including a new drainage attenuation pond and three new drainage infiltration basins with associated drainage facilities, and a new private means of access and a new public right of way from the realigned Thong Lane over the new A122 Lower Thames Crossing Construction of a new private means of access from the southbound carriageway of the new A122 Lower Thames Crossing to the northbound carriageway of the new A122 Lower Thames Crossing, around the south portal, as the new south portal emergency loop road for the new A122 Lower Thames Crossing tunnel Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-14 Cont'd		<p>Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape</p>
11-16	3B and MU18	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
11-17	3B and MU18	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
11-18	3B and MU18	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
11-19	3B, MU18 and MU19	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
11-20	3B and MU18	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
11-21	3B and MU18	<p>Permanent acquisition required for:</p> <p>Improvement works to a section of the existing Thong Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-22	3B, CA3, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-23	3B and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-25	3B and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-26	3B and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-27	3B and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-28	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-29	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-30	3B and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-30 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-31	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-32	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-33	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-34	3B, MU18 and MU19	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane, and construction of a new public right of way on the new Thong Lane bridge Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-35	2O, 3A, 3B, G3, G4, MU17, MU18, MU19, OH1 and OHT1	Permanent acquisition required for: Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure Improvement works to a section of the existing Thong Lane, including - construction of a new bridge to carry the realigned Thong Lane over the southbound and northbound carriageways of the new A122 Lower Thames Crossing - construction of a new public right of way on the new Thong Lane bridge - construction of a new public right of way between the public right of way along the northern verge of Thong Lane over A122 Lower Thames Crossing - construction of a new public right of way between the new public right of way along the southern verge of Thong Lane bridge Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-36	2O, 3A, 3B, G3, G4, MU18, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure</p> <p>Improvement works to a section of the existing Thong Lane, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Thong Lane over the southbound and northbound carriageways of the new A122 Lower Thames Crossing - construction of a new public right of way on the new Thong Lane bridge - construction of a new public right of way between the public right of way along the northern verge of Thong Lane over A122 Lower Thames Crossing - construction of a new public right of way between the new public right of way along the southern verge of Thong Lane bridge <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
11-37	2O, 3A, 3B, 3D, 3H, 3I, CA3, G3, G4, MU18, OH1 and OHT1	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way connecting Thong Lane bridge over the improved A2 mainline to Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure</p> <p>Improvement works to a section of the existing Thong Lane, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Thong Lane over the southbound and northbound carriageways of the new A122 Lower Thames Crossing - construction of a new public right of way on the new Thong Lane bridge - construction of a new public right of way between the public right of way along the northern verge of Thong Lane over A122 Lower Thames Crossing - construction of a new public right of way between the new public right of way along the southern verge of Thong Lane bridge <p>Construction of a new private means of access and a new public right of way from the realigned Thong Lane over the new A122 Lower Thames Crossing to the new drainage structures</p> <p>Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal</p> <p>Construction of a new public right of way from Thong Lane bridge over the new A122 Lower Thames Crossing to Shorne Ifield Road</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-37 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-41	3B, G3, MU18 and OH1	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-42	3B, G3, MU18 and OH1	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-44	3B, 3H, G3, MU18 and OH1	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-45	3B, 3H, G3 and MU18	Permanent acquisition required for: Improvement works to a section of the existing Thong Lane Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Installation of a high-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-45 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-49	E6, MU18 and OH2	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and supports
11-51	3D, 3I, CA3, G3, G4, OH1 and OHT1	Permanent acquisition required for: Construction of a new private means of access and a new public right of way from the realigned Thong Lane over the new A122 Lower Thames Crossing to the new drainage structures Construction of a new public right of way from Thong Lane bridge over the new A122 Lower Thames Crossing to Shorne Ifield Road, and a new public right of way from Shorne Ifield Road to the new private means of access for the new drainage structure Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-55	E6 and OH2	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Overhead lines diversion works, including the removal of existing overhead lines and supports
11-58	CA3, E10, G4, OH1, OH2, OHT1 and ULH13	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of a new bat barn structure Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Overhead lines diversion works, including the removal of existing overhead lines and supports

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-58 Cont'd		The establishment of a temporary utilities logistic hub for facilitating utility works
11-66	3D, 3E, 3J, CA3 and OH1	Permanent acquisition required for: Construction of three new drainage infiltration basins with associated drainage facilities Construction of a new drainage structure, including a new drainage attenuation pond and two new drainage infiltration basins with associated drainage facilities Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-72	E10, OH2 and ULH13	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of a new bat barn structure Overhead lines diversion works, including the removal of existing overhead lines and supports The establishment of a temporary utilities logistic hub for facilitating utility works
11-74	E10 and ULH13	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of a new bat barn structure The establishment of a temporary utilities logistic hub for facilitating utility works
11-77	E11	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
12-10	3J and MU20	Permanent acquisition required for: Construction of a new public right of way along the verge of the existing A226 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-11	3J	Permanent acquisition required for: Construction of a new public right of way along the verge of the existing A226

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-01	3L and OSC4	Permanent acquisition required for: Construction a new public right of way from the existing Thong Lane to the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape
13-02	3K, 3L, 3M, 3N, CA3 and OSC4	Permanent acquisition required for: Construction of a new public right of way from the new Thong Lane bridge over A122 Lower Thames Crossing to NG7, to the new public right of way between the existing Thong Lane to the new Thong Lane bridge over A122 Lower Thames Crossing Construction a new public right of way from the existing Thong Lane to the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 Construction of a new public right of way between the existing Thong Lane to the new Thong Lane bridge over the A122 Lower Thames Crossing Construction of a new public right of way, including the upgrade of a section of the existing footpath NG7 from the new public right of way between the existing Thong Lane to the new Thong Lane bridge over the A122 Lower Thames Crossing and Thong Lane Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape
13-03	3G, 3H, 3K, CA3, MU19 and OSC4	Permanent acquisition required for: Construction of a new private means of access from the southbound carriageway of the new A122 Lower Thames Crossing to the northbound carriageway of the new A122 Lower Thames Crossing, around the south portal, as the new south portal emergency loop road for the new A122 Lower Thames Crossing tunnel Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Construction of a new public right of way from the new Thong Lane bridge over A122 Lower Thames Crossing to NG7, to the new public right of way between the existing Thong Lane to the new Thong Lane bridge over A122 Lower Thames Crossing Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape
13-08	3A, 3G, 3H, 3J, CA3, MU19 and OSC4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure Construction of a new private means of access from the southbound carriageway of the new A122 Lower Thames Crossing to the northbound carriageway of the new A122 Lower Thames Crossing, around the south portal, as the new south portal emergency loop road for the new A122 Lower Thames Crossing tunnel

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-08 Cont'd		<p>Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal</p> <p>Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape</p>
13-09	3H, 3K, CA3, MU19 and OSC4	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal</p> <p>Construction of a new public right of way from the new Thong Lane bridge over A122 Lower Thames Crossing to NG7, to the new public right of way between the existing Thong Lane to the new Thong Lane bridge over A122 Lower Thames Crossing</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape</p>
13-10	3A, 3C, 3F, 3G, 3H, 3L, 3M, 3O, 3P, 4A, CA3, MU19, MU20, MU21, MU22, MUT3 and OSC4	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a new highway three-lane dual carriageway, new gantries and new charging infrastructure</p> <p>Construction of the new A122 Lower Thames Crossing south portal and tunnel approach, including</p> <ul style="list-style-type: none"> - the construction of the south portal for the new A122 Lower Thames Crossing tunnel - the construction of a new cut and cover section of tunnel - the construction of cross passages - the construction of a new highway three-lane dual carriageway - the construction of a new anti-recirculation wall between the southbound and northbound carriageways of the new A122 Lower Thames Crossing - the construction of a new tunnel services building - the construction of a new south portal approach for the new A122 Lower Thames Crossing tunnel <p>Construction of a new rendezvous point for the new A122 Lower Thames Crossing south portal</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-10 Cont'd		<p>Construction of a new private means of access from the southbound carriageway of the new A122 Lower Thames Crossing to the northbound carriageway of the new A122 Lower Thames Crossing, around the south portal, as the new south portal emergency loop road for the new A122 Lower Thames Crossing tunnel, and a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel</p> <p>Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal</p> <p>Construction a new public right of way from the existing Thong Lane to the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7</p> <p>Construction of a new public right of way between the existing Thong Lane to the new Thong Lane bridge over the A122 Lower Thames Crossing</p> <p>Construction of a public right of way between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the existing highway A226</p> <p>Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Utility works, including the construction of a new primary substation for power supply to the South Portal</p> <p>Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape</p>
13-23	3O and OSC4	<p>Permanent acquisition required for:</p> <p>Construction of a public right of way between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the existing highway A226</p> <p>Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape</p>
13-35	3G	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-36	3G	Permanent acquisition required for: Construction of a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel
13-37	3G	Permanent acquisition required for: Construction of a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel
13-39	3G	Permanent acquisition required for: Construction of a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel
13-43	CA3 and OSC4	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape
13-44	3G, 4A, CA3, MU20, MU22, MU24 and MUT3	Permanent acquisition required for: Construction of a new private means of access from the south portal emergency loop road to the A226, as emergency and maintenance access for the new A122 Lower Thames Crossing tunnel Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-49	CA3 and OSC4	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape
13-51	CA3 and OSC4	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Implementation of new recreational site, including the establishment of a hilltop landform and the creation of landforms and associated landscape

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-52	3E, 3J, CA3 and G4	Permanent acquisition required for: Construction of a new drainage structure, including two new drainage infiltration basins with associated drainage facilities Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline
13-57	3H, 3P and CA3	Permanent acquisition required for: Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-58	3H, 3J, 3P, CA3 and G4	Permanent acquisition required for: Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline
13-59	3H and 3P	Permanent acquisition required for: Construction of a new public right of way along the northern verge of the new Thong Lane bridge over A122 Lower Thames Crossing to the existing footpath NG7 on the east of the south portal Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-64	3J, CA3 and G4	Permanent acquisition required for: Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline
13-80	3J and CA3	Permanent acquisition required for: Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-82	3J, CA3 and MU20	Permanent acquisition required for: Construction of a new public right of way along the verge of the existing A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-83	3J and CA3	Permanent acquisition required for: Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure and a new public right of way along the verge of the existing A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-84	3J, CA3 and MU20	Permanent acquisition required for: Construction of a new public right of way between the new private means of access from the new drainage structure to the existing highway A226, along the new drainage structure and a new public right of way along the verge of the existing A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-86	3J, CA3 and MU20	Permanent acquisition required for: Construction of a new public right of way along the verge of the existing A226 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-87	3J and MU20	Permanent acquisition required for: Construction of a new public right of way along the verge of the existing A226 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-36	CA5 and OSC5	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
16-37	CA5, E14 and OSC5	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
16-38	CA5, E14 and OSC5	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
16-39	4A, 5A, 5D, 5O, 5P, 5Q, CA5, E14, MU27 and OSC5	Permanent acquisition required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-39 Cont'd		<p>Construction of the new A122 Lower Thames Crossing between the north portal and northern end of Tilbury viaduct, including</p> <ul style="list-style-type: none"> - construction of the north portal for the new A122 Lower Thames Crossing tunnels - construction of a new cut and cover section of tunnel - construction of cross-passages - construction of a new highway three-lane dual carriageway - construction of a new tunnel services building; - construction of a new outfall from the north portal to the River Thames - construction of a new anti-recirculation wall between the southbound and northbound carriageways of the new A122 Lower Thames Crossing - construction of new north portal approach ramp retaining structures and associated works for the new A122 Lower Thames Crossing - construction of a new rendezvous emergency area. <p>Construction of a new private means of access to provide for a turnaround facility and emergency and maintenance access from the new operational access to the tunnel north portal and for access to the tunnel services building</p> <p>Construction a new public right of way along the existing footpath FP146</p> <p>Construction of a new permissive path across the new Tilbury Fields recreational site</p> <p>Construction of a new public right of way and a new permissive path across the new Tilbury Fields recreational site</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-48	5Q, CA5, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way across the new Tilbury Fields recreational site</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-50	5Q, CA5, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way across the new Tilbury Fields recreational site</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-50 Cont'd		<p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-51	5Q, CA5, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way across the new Tilbury Fields recreational site</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-52	5Q, CA5, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way across the new Tilbury Fields recreational site</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-53	5Q, CA5, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way across the new Tilbury Fields recreational site</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
16-61	5O, 5Q and CA5	<p>Permanent acquisition required for:</p> <p>Construction a new public right of way along the existing footpath FP146</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-61 Cont'd		Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
19-01	5R and E17	Permanent acquisition required for: Construction of a new public right of way between the improved section of FP200 and Station Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
19-03	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-07	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-09	5R, 5X and E15	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200 and a new public right of way between the improved section of FP200 and Station Road Construction of a new water inlet with self-regulating valve Implementation of environmental mitigation works to create a site for protected species
19-12	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-13	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-17	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-18	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
19-19	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-20	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-23	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-24	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-25	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-29	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-30	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-31	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-32	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-33	E15	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
19-34	5R	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200
19-39	5S and E16	Permanent acquisition required for: Construction of a new permissive path adjacent to East Tilbury Battery

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
19-39 Cont'd		Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-40	5S and E16	Permanent acquisition required for: Construction of a new permissive path adjacent to East Tilbury Battery Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-41	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-42	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-43	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-44	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-45	5R and E15	Permanent acquisition required for: Construction of a new public right of way along the eastern section of FP200 Provision for access for environmental mitigation works to create a site for protected species
19-46	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-47	5R and E15	Permanent acquisition required for: Construction of a new public right of way along the eastern section of FP200 Provision for access for environmental mitigation works to create a site for protected species
19-48	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
19-49	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-50	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-51	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-52	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-53	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-54	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-55	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
19-56	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
20-45	5A, 5B, 5D, 5E, 5F, 5G, 5H, 5I, 5M, CA5, E14, MU27, MUT7 and OSC5	Permanent acquisition required for: Construction of a new rendezvous emergency area Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access to provide for a turnaround facility and emergency and maintenance access from the new operational access to the tunnel north portal and for access to the tunnel services building

Table 1: Permanent Acquisition of Land - by plot number		
Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-45 Cont'd		<p>Construction of a new operational access, including</p> <ul style="list-style-type: none"> - construction of a new private means of access roundabout on the western side of the new A122 Lower Thames Crossing - construction of a new private means of access road between the eastern and western roundabouts of the new operational access - construction of a new bridge to carry the new private means of access road between the eastern and western roundabouts of the new operational access over the new A122 Lower Thames Crossing <p>Construction of the new operational access link private means of access roads, including</p> <ul style="list-style-type: none"> - construction of a new private means of access road between the northbound carriageway of the new A122 Lower Thames Crossing and the new operational access through the western roundabout - the construction of a new private means of access road between the new operational access and the southbound carriageway of the new A122 Lower Thames Crossing - construction a new private means of access road between the new operational junction and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new private means of access road between the operational access and the existing Station Road - construction of a new private means of access road between the southbound carriageway of the new A122 Lower Thames Crossing and the new operational access <p>Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond</p> <p>Construction of a new watercourse diversion culvert and diversion of an existing watercourse through the culverts for the construction of the new north portal emergency and maintenance access road</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
20-51	5D, CA5, E14, MU27 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access to provide for a turnaround facility and emergency and maintenance access from the new operational access to the tunnel north portal and for access to the tunnel services building</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-52	5D, CA5, E14, MU27 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access to provide for a turnaround facility and emergency and maintenance access from the new operational access to the tunnel north portal and for access to the tunnel services building</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-81 Cont'd		Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-82	CA5, E14 and OSC5	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-83	E14 and OSC5	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-84	5U, E14 and OSC5	Permanent acquisition required for: Construction of a new public rights of way along the existing footpath FP200 Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-85	5R, 5U, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200 Construction of a new public rights of way along the existing footpath FP200 Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-86	CA5, E14 and OSC5	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-86 Cont'd		Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-88	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-89	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-94	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-96	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-96 Cont'd		Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-98	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-100	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
20-101	5Q, CA5, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way across the new Tilbury Fields recreational site Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
22-26	5T, CA5 and MUT11	Permanent acquisition required for: Construction of a new public rights of way along the verge of the existing Station Road Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-28	5R	Permanent acquisition required for: Construction of a new public right of way between the improved section of FP200 and Station Road
22-40	5R, 5S and E17	Permanent acquisition required for: Construction of a new public right of way between the improved section of FP200 and Station Road Construction a new permissive path between Princess Margaret Road and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
22-45	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-46	E16 and MUT11	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
22-59	5S and E17	Permanent acquisition required for: Construction a new permissive path between Princess Margaret Road and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
22-72	5S and E17	Permanent acquisition required for: Construction a new permissive path between Princess Margaret Road and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
22-77	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-92	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-93	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-94	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-95	5S and E16	Permanent acquisition required for: Construction of a new permissive path adjacent to East Tilbury Battery and a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-96	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-97	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-98	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-99	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-100	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-101	5S and E16	Permanent acquisition required for: Construction of a new permissive path adjacent to East Tilbury Battery

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-101 Cont'd		Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-102	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-103	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-104	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-105	5S and E16	Permanent acquisition required for: Construction of a new permissive path between the existing footpath FP147 and Princess Margaret Road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-106	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-107	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-108	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-109	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-110	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-111	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-112	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-113	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-114	E16	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
22-115	5T and CA5	Permanent acquisition required for: Construction of a new public rights of way along the verge of the existing Station Road Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-51	5B, 5C, 5K, 5V, 5W, 6A, E19, FCA1, MU28, MU33, OH3, OH4 and OHT2	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Modification of an existing irrigation reservoir and the diversion and modification of irrigation infrastructure, including possible provision of a new groundwater abstraction well Diversion of the existing public right of way BR58 Coal Road underneath the new Tilbury viaduct and construction of a new private means of access for maintenance access to the new irrigation reservoir Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 Implementation of environmental mitigation works to create a site for protected species Construction of a new flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-68	5B, 5F, 5J, 5N, CA5, MU27, MU30, MUT9, OH3, OH4 and TFGP1	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new operational access link private means of access roads, including</p> <ul style="list-style-type: none"> - construction a new private means of access road between the new operational junction and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new private means of access road between the operational access and the existing Station Road <p>Construction of a new drainage attenuation basin with associated drainage facilities, and a private means of access to the drainage attenuation basin</p> <p>Construction of a new watercourse diversion culvert and diversion of an existing watercourse through the culvert for the construction of the new link road between the operational access and Station Road</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>Installation of a high-pressure gas pipeline</p>
23-70	5C, MU28, MU30, MU32 and OH4	<p>Permanent acquisition required for:</p> <p>Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
23-73	5F, MU27 and MU30	<p>Permanent acquisition required for:</p> <p>Construction of the new operational access link private means of access roads, including a new private means of access road between the operational access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
23-74	5C, 5F, MU27 and MU30	<p>Permanent acquisition required for:</p> <p>Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road</p> <p>Construction of the new operational access link private means of access roads, including a new private means of access road between the operational access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-75	5C and MU30	Permanent acquisition required for: Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-77	5B and 5C	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road
23-78	5B, 5C, MU28, MU30 and MU32	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-79	5W	Permanent acquisition required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61
23-80	5B, 5C, MU27 and MU30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-81	MU33	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation
23-82	5B, MU27, MU30, OH3 and TFGP1	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Installation of a high-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-83	5B, 5C, MU27 and MU30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-84	5B, MU27, MU30, OH3 and TFGP1	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Installation of a high-pressure gas pipeline
23-85	5B, 5C, MU27, MU30 and OH3	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-86	5B, 5C, E14, MU27, MU30, OH3, OSC5 and TFGP1	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape Installation of a high-pressure gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-87	5W, MU28 and OH3	Permanent acquisition required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-89	5W, MU28 and OH3	Permanent acquisition required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-92	5C and MU30	Permanent acquisition required for: Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-93	5B, 5C, MU27, MU30 and OH3	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-94	5B, 5C, MU30 and OH3	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new viaduct, to carry the A122 Lower Thames Crossing over existing Station Road, the Tilbury Loop Railway line and the existing BR58 Coal Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-106	5B, 5F, 5U, CA5, E14, MU27, OSC5 and TFGP1	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new operational access link private means of access roads, including</p> <ul style="list-style-type: none"> - construction a new private means of access road between the new operational junction and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new private means of access road between the southbound carriageway of the new A122 Lower Thames Crossing and the new operational access <p>Construction of a new public rights of way along the existing footpath FP200</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p> <p>Installation of a high-pressure gas pipeline</p>
23-113	5B, 5F, 5U, CA5, E14, MU27 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new operational access link private means of access roads, including a new private means of access road between the southbound carriageway of the new A122 Lower Thames Crossing and the new operational access</p> <p>Construction of a new public rights of way along the existing footpath FP200</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
23-117	5U, CA5, E14, MU27 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public rights of way along the existing footpath FP200</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-117 Cont'd		<p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape, and the implementation of new common land at Tilbury Green</p>
23-118	5U, CA5, E14, MUT6 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public rights of way along the existing footpath FP200</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>
23-144	CA5	<p>Permanent acquisition required for:</p> <p>Permanent acquisition of properties within the compound at the A122 Lower Thames Crossing north portal and tunnel approach of the Lower Thames Crossing</p>
23-145	CA5	<p>Permanent acquisition required for:</p> <p>Permanent acquisition of properties within the compound at the A122 Lower Thames Crossing north portal and tunnel approach of the Lower Thames Crossing</p>
23-147	CA5	<p>Permanent acquisition required for:</p> <p>Permanent acquisition of properties within the compound at the A122 Lower Thames Crossing north portal and tunnel approach of the Lower Thames Crossing</p>
23-156	5R, 5U, E14 and OSC5	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way between Coalhouse Fort and FP200</p> <p>Construction of a new public rights of way from Station Road to the existing footpath FP200</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-158	5R, 5U, E14 and OSC5	Permanent acquisition required for: Construction of a new public right of way between Coalhouse Fort and FP200 Construction of a new public rights of way along the existing footpath FP200 Implementation of environmental mitigation works to create a site for protected species Implementation of new replacement land, including the implementation of a new recreational site with the establishment of a sculptural landscape moulding, landforms and associated landscape
23-172	5T, CA5 and MUT6	Permanent acquisition required for: Construction of a new public rights of way along the verge of the existing Station Road Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-173	5T, CA5, MUT10 and MUT6	Permanent acquisition required for: Construction of a new public rights of way along the verge of the existing Station Road Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-02	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-04	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-10	6B	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-11	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-13	6B	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-14	6B	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-15	6B	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-16	6B	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-18	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-19	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-20	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-20 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-21	6B	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-33	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-35	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-36	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-37	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-38	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-38 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-39	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-40	6A, 6C and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access from the new realigned Hoford Road to the existing drainage pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-41	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-44	6B and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-50	6B and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-51	6B, MU34, MU35, MU36 and OH5	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new local side road - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-52	6B	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road
24-54	6B and MU35	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
24-55	6B, MU34, MU35, MU36 and OH5	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new local side road - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-58	6B and MU35	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-60	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new local side road - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-61	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new local side road - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-64	6A, 6C, 6E, 6F, MU36 and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access from the new realigned Hoford Road to the existing drainage pond Construction of a private means of access from the new local side road off the realigned Muckingford Road, to the drainage attenuation pond Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-65	6A, 6C, 6E, 6F, 6K, MU36 and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access from the new realigned Hoford Road to the existing drainage pond

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-65 Cont'd		<p>Construction of a private means of access from the new local side road off the realigned Muckingford Road, to the drainage attenuation pond</p> <p>Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.</p> <p>Re-modelling of an existing pond</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-66	6C and OH5	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access from the new realigned Hoford Road to the existing drainage pond</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-70	6A and OH5	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-72	6B and MU36	<p>Permanent acquisition required for:</p> <p>Construction of a new local side road from the new Muckingford Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
24-73	6A, 6E, 6J, MU34, MU36, OH5 and OHT2	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert.</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-75	6A, 6E, 6J, MU34, MU36, OH5 and OHT2	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a new drainage attenuation pond with associated drainage facilities, including a private means of access from the new local side road off the realigned Muckingford Road, to the drainage attenuation pond, and a new private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert.</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-76	6B, MU34, MU35, MU36 and OH5	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-77	6A, 6E, 6J, MU36, OH5 and OHT2	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert.</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-78	6B, MU34, MU35, MU36 and OH5	<p>Permanent acquisition required for:</p> <p>Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-87 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-88	6E and MU36	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-89	6E, MU36, OH4 and OHT2	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-94	6E, MU36, OH4 and OHT2	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-97	6B, 6E, MU36 and OHT2	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-101	6E, MU36 and OHT2	Permanent acquisition required for: Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-102	6B, 6E, MU36 and OHT2	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-104	6E and OHT2	Permanent acquisition required for: Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-106	6B, MU36, OH4 and OHT2	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-107	6B, 6E, MU34, MU35, OH4 and OHT2	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new local side road, with a single carriageway - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Construction of a private means of access from the new A122 Lower Thames Crossing to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-108	6B, MU36, OH4 and OHT2	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-108 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-110	6B, MU36 and OH4	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-111	E19, MU34 and OH4	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-114	6B, MU36, OH4 and OHT3	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-115	6B, MU36, OH4 and OHT3	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-117	6B, MU28, MU36, OH3, OH4 and OHT3	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-117 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-118	6B, MU28, MU34, MU35, MUT6, OH3, OH4 and OHT3	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new local side road, with a single carriageway - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-119	6B, MU28, MU36, OH3, OH4 and OHT3	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-122	6B, MU28, MU36, OH3, OH4 and OHT3	Permanent acquisition required for: Construction of a new local side road, with a single carriageway, from the new Muckingford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-132	E20 and MUT6	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-134	E20	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-135	6B, MU34, MU35, MU36 and MUT6	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-137	6B, MU34, MU35, MU36 and MUT6	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-138	6B, MU34, MU35, MU36 and MUT6	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-140	6B, MU34, MU35, MU36 and MUT6	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-141	6B, MU34, MU35, MU36 and MUT6	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-146	6B, MU34, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-146 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-149	6B, MU34 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-155	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-156	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-159	6B, MU35 and MU36	Permanent acquisition required for: Construction of a section of the new realigned Muckingford Road over the new A122 Lower Thames Crossing, including - construction of a new road, with a single carriageway in both directions - construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-182	E20	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
24-185	E20	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species
25-94	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-94 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-96	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-97	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-100	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-103	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-104	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-105	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-107	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-108	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-110	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-112	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
25-113	6B and MU35	Permanent acquisition required for: Construction of a new public right of way along the verge of the new Muckingford Road and the existing Linford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-01	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-02	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-03	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-04	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-05	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-06	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
26-07	7T	Permanent acquisition required for: Improvements to the existing A1089
26-08	7T	Permanent acquisition required for: Improvements to the existing A1089
26-09	7T	Permanent acquisition required for: Improvements to the existing A1089
26-10	7T	Permanent acquisition required for: Improvements to the existing A1089
26-11	7T	Permanent acquisition required for: Improvements to the existing A1089

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-12	7T	Permanent acquisition required for: Improvements to the existing A1089
26-13	7T	Permanent acquisition required for: Improvements to the existing A1089
26-14	7T	Permanent acquisition required for: Improvements to the existing A1089
26-15	7T	Permanent acquisition required for: Improvements to the existing A1089
26-16	7T	Permanent acquisition required for: Improvements to the existing A1089
27-03	6D, E24 and E25	Permanent acquisition required for: Construction of new private means of access from the realigned Brentwood Road to Brook Farm and to the new watercourse diversion culvert Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of a new bat barn structure Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
27-04	6A and 6H	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
27-05	E25	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
27-08	6C	Permanent acquisition required for: Construction of a new private means of access for maintenance access from the realigned Hoford Road to the new A122 Lower Thames Crossing
27-10	6C, 6G and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including - construction of realigned Hoford Road - construction of a new private means of access for maintenance access to the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-10 Cont'd		Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-13	6A and 6H	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
27-14	6A, 6C and 6H	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access for maintenance access from the realigned Hoford Road to the new A122 Lower Thames Crossing Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
27-15	6A, 6C, 6G, 6H, E23, E24, E25 and MU37	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a section of the new realigned Hoford Road, including - construction of realigned Hoford Road - construction of a new private means of access for maintenance access to the new A122 Lower Thames Crossing Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Implementation of environmental mitigation works to create a site for protected species Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of a new bat barn structure Implementation of environmental works to create a compensatory habitat site for nitrogen deposition Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-17	6C	Permanent acquisition required for: Construction of a new private means of access for maintenance access from the realigned Hoford Road to the new A122 Lower Thames Crossing
27-18	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-19	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-20	6A, 6C, 6G and MU37	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a section of the new realigned Hoford Road, including - construction of a new bridge to carry the realigned Hoford Road over the new A122 Lower Thames Crossing - construction of realigned Hoford Road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-21	6A, 6C, 6G, MU37 and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a section of the new realigned Hoford Road, including - construction of a new bridge to carry the realigned Hoford Road over the new A122 Lower Thames Crossing - construction of realigned Hoford Road - construction of a new private means of access to the existing drainage pond Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-22	6C, 6G and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including - construction of realigned Hoford Road - construction of a new private means of access for maintenance access to the new A122 Lower Thames Crossing Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-23	6C, 6G and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-23 Cont'd		Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-24	6A, 6C, 6G and MU37	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a section of the new realigned Hoford Road, including - construction of a new bridge to carry the realigned Hoford Road over the new A122 Lower Thames Crossing - construction of realigned Hoford Road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-26	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-28	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-29	6C	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road
27-30	6C	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road
27-31	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-32	6C	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-33	6C	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road
27-34	6C and MU37	Permanent acquisition required for: Construction of a section of the new realigned Hoford Road, including construction of realigned Hoford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-43	6A and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-46	6A and OH5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-63	E26	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
27-64	E26	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
27-73	E26	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
28-07	7A, 7S, 7Y, MU40, MU47, MUT13, MUT16, MUT18, OH6, OH7, OHT4 and OHT5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new private means of access from the Hornsby Lane turning head south of the new A122 Lower Thames Crossing Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-07 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-10	MU47, MU48, MUT16 and MUT18	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation
28-17	7S, MU47, MUT16, OH6 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-18	7S, MU47, MUT16, OH6 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-19	7S, MU47, MUT16, OH6 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-20	7S, MU47, OH6 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-22	7S, MU47, OH6, OH7, OHT4 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-23	7S, MU47, OH6, OH7, OHT4 and OHT5	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane and construction of a new private means of access from the Hornsby Lane turning head south of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-24	7A, 7S, MU40, MU47, MUT13, OH6, OH7, OHT4 and OHT5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new Hornsby Lane turning heads to the south of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-25	7S, MU41 and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-26	7A, MU40, MU47, MUT13, OH7 and OHT4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-28	7S and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-29	7S, MU47 and MUT13	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-32	7S and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-33	7S and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane and construction of a new private means of access from the new Hornsby Lane turning head north of the new A122 Lower Thames Crossing to Heath Place Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-36	7S, MU41 and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane and construction of a new private means of access from the new Hornsby Lane turning head north of the new A122 Lower Thames Crossing to Heath Place Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-40	7S and MU47	Permanent acquisition required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-41	7A, 7B, CA6, MU40, MUT13, OH6, OH7, OHT4 and OHT5	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new public right of way, including the realignment of existing footpath FP79 Temporary construction compound at surface for facilitating main works

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-41 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-44	MU41	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-48	7B, OH6 and OH7	Permanent acquisition required for: Construction of a new public right of way, including the realignment of existing footpath FP79 Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-55	6D, 6M, 7A, 7B, CA6, MU39, MU40, MU41, MUT12, MUT13, MUT15, OH6 and OH7	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing, including - construction of realigned Brentwood Road - construction of a private means of access between Brentwood Road and the northbound A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new bridge to carry footpath FP79, including - construction of a new public right of way, including the realignment of existing footpath FP79 - construction of a new bridge to carry the new public right of way over the new A122 Lower Thames Crossing - construction of a new private means of access from the improved Brentwood Road Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-66	7B, 7X, CA6 and E27	Permanent acquisition required for: Construction of a new private means of access from the improved Brentwood Road Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-66 Cont'd		Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
28-74	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-75	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-76	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-77	6D and MU39	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-78	6D and MU39	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-79	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-80	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-81	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-82	6D, MU39, MU40 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-83	6D, MU39, MU40, MUT13 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-84	6D, MU39, MU40 and MUT13	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-85	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-86	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-87	6M, MU39, MU40 and MUT13	Permanent acquisition required for: Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-88	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-88 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-89	6M, MU39, MU40 and MUT13	Permanent acquisition required for: Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-90	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-91	6M and MU40	Permanent acquisition required for: Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-92	6M and MU40	Permanent acquisition required for: Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-93	6D, MU39 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-94	6D, MU39, MU40, MUT13 and MUT14	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-95	6D, MU39, MU40 and MUT13	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-96	6D, 6L, 6M, MU39, MU40 and MUT13	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southeast of the new A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-97	6M, MU40 and MUT13	Permanent acquisition required for: Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-99	6D, 7A, MU39, MU40, MUT13, OH6 and OH7	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing, including - construction of realigned Brentwood Road - construction of a private means of access between Brentwood Road and the northbound A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-101	6D, 7A, MU39, MU40, MUT13, OH6 and OH7	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing, including - construction of realigned Brentwood Road - construction of a private means of access between Brentwood Road and the northbound A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-102	6D, 6L, 6M, 7A, MU39, MU40, MUT13, OH6 and OH7	<p>Permanent acquisition required for:</p> <ul style="list-style-type: none"> Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing, including <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Brentwood Road over the new A122 Lower Thames Crossing - construction of realigned Brentwood Road - construction of new private means of access to Brook Farm and to the new watercourse diversion culvert - construction of a private means of access between Brentwood Road and the northbound A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southeast of the new A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southwest of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-105	6D, 6L, MU39, MU40, OH6 and OH7	<p>Permanent acquisition required for:</p> <ul style="list-style-type: none"> Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Construction of a new public right of way and a new private means of access road from the improved Brentwood Road, southeast of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-108	6A, 6D, MU38, MU40, MU41, MUT12, OH6 and OH7	<p>Permanent acquisition required for:</p> <ul style="list-style-type: none"> Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing, including <ul style="list-style-type: none"> - construction of 3m high reflective acoustic barrier next to Brook Farm - construction of new private means of access to Brook Farm and to the new watercourse diversion culvert - construction of a private means of access between Brentwood Road and the southbound A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of two new electrical substations

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-108 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-109	6D, MU39, MU40 and MU41	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-110	6D, MU39, MU40 and MU41	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-111	6D, MU39, MU40 and MU41	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-112	6D, MU39, MU40, MUT12 and MUT13	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-113	6D, MU39, MU40 and MU41	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-114	6D, MU39, MU40, MUT12 and MUT15	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-115	6D, MU39, MU40, MU41 and MUT12	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
		Permanent acquisition required for:

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-116 Cont'd	6D, G5, MU39, MU40, MUT12 and MUT15	Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-117	6D, MU40 and MUT12	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-118	6D, MU39 and MU40	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-119	6D, MU39 and MU40	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-120	6D, MU40, MU41 and MUT12	Permanent acquisition required for: Construction of new private means of access from the realigned Brentwood Road to Brook Farm and to the new watercourse diversion culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of two new electrical substations
28-121	6D, MU39, MU40 and MUT15	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-122	6D, MU39 and MU40	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-123	6D, MU39 and MU40	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-126	6D, G5, MU39 and MU40	Permanent acquisition required for: Construction of a new section of the realigned Brentwood Road over the new A122 Lower Thames Crossing Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-136	6D and MUT12	Permanent acquisition required for: Construction of new private means of access from the realigned Brentwood Road to Brook Farm and to the new watercourse diversion culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-138	6D, MU38 and MUT12	Permanent acquisition required for: Construction of new private means of access from the realigned Brentwood Road to Brook Farm and to the new watercourse diversion culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-140	6D, E25, MU38 and MUT12	Permanent acquisition required for: Construction of new private means of access from the realigned Brentwood Road to Brook Farm and to the new watercourse diversion culvert Implementation of environmental works to create a compensatory habitat site for nitrogen deposition Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-142	E25	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
29-01	7F, E31, MU54, MU57 and OSC7	Permanent acquisition required for: Construction of a new public right of way from Long Lane to south of the A13 road Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new common land at Ron Evans Memorial Field

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-02	7F, E30, MU54, MU55, MU56, MU57, MUT20, OH6, OH7 and OHT6	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from Long Lane to south of the A13 road</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-06	7E, 7F, 7Z, MU54, MU55, MU57 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing</p> <p>Improvement to the existing dual carriageway A13, and construction of a new bridge to carry the existing A13 over the link road between the northbound carriageway of the A1089 and the northbound carriageway of the new A122 Lower Thames Crossing, and the link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-07	7F, CA8B, E29, MU56, MUT20, OH6, OHT6 and ULH8	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from Long Lane to south of the A13 road</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-08	E29 and MU56	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-09	7E, 7Z, MU54 and OH7	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-12	7F, E29, MU56, MUT20, OH6, OHT6 and OSC6	Permanent acquisition required for: Construction of a new public right of way from Long Lane to south of the A13 road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Ron Evans Memorial Field
29-14	7F, E29, MU56, MUT20 and OHT6	Permanent acquisition required for: Construction of a new public right of way from Long Lane to south of the A13 road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-15	7F, 7Z and MU54	Permanent acquisition required for: Improvement to the existing dual carriageway A13

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-15 Cont'd		Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-16	7F, E29, MU56, MUT20, OH6, OHT6 and OSC6	Permanent acquisition required for: Construction of a new public right of way from Long Lane to south of the A13 road Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Ron Evans Memorial Field
29-18	CA8A, E29, MU55, MU56, MUT16, MUT20, OH6, OH7, OHT6 and OSC6	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Ron Evans Memorial Field
29-19	CA8A, E29, MU55, OH7 and OSC6	Permanent acquisition required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Ron Evans Memorial Field

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-21	7F and MU54	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-22	7E, 7Z and MU54	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-23	7R, 7U, 7Z, CA8A, MU55 and MUT20	Permanent acquisition required for: Reprovision of new Travellers' site and associated landscaping Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-24	7R, 7U, CA8A, MU55, MUT20 and OH7	Permanent acquisition required for: Reprovision of new Travellers' site and associated landscaping Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-25	7A, 7C, 7F, MU54 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new overbridge to carry the improved section of the dual carriageway of A13 over the new A122 Lower Thames Crossing Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-27	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-28	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-30	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-32	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-34	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-35	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-36	7A, 7G, MU52, MU53 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-37	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-38	7E and MU54	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-40	7E, 7Z and MU54	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-41	7A, 7E and MU54	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-42	7D, 7U, MU44, MU47, MU55, MUT16, MUT20, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-42 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-43	7D, 7U, MU44, MU47, MU55, MUT16, MUT20, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-44	7D, MU44, MU47, MU55, MUT16, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-45	7A, 7C, 7F, MU52 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new overbridge to carry the improved section of the dual carriageway of A13 over the new A122 Lower Thames Crossing Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-46	7A and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-47	7D, 7Z, MU44, MU47, MU54, MU55, MUT16, MUT20, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-48	7D, MU44, MU47, MU55, MUT16 and OH6	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-50	7E and MU54	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-52	7U, MU55 and MUT20	<p>Permanent acquisition required for:</p> <p>Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-53	7U, 7Z, MU54, MU55 and MUT20	<p>Permanent acquisition required for:</p> <p>Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-54	7D, 7U, 7Z, MU44, MU54, MU55, MUT16, MUT20, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013</p> <p>Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-55	7U, MU55 and MUT20	<p>Permanent acquisition required for:</p> <p>Improvements works to the existing Gammonfields Way and construction of a new public right of way along the verge of the realigned Gammonfields Way</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-56	7A	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p>
29-57	7A and 7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing</p>
29-58	7Z and MU54	<p>Permanent acquisition required for:</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-59	7Z	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing
29-60	7A, MU51 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-64	7G, MU52, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-66	7G	Permanent acquisition required for: Improvements to Woolings Close
29-67	7G	Permanent acquisition required for: Improvements to Woolings Close
29-68	7G, MU52, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-69	7Z and MU54	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-70	7G	Permanent acquisition required for: Improvements to Woolings Close
29-71	7G, MU52, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-72	7G	Permanent acquisition required for: Improvements to Woolings Close
29-73	7G, MU52, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-74	MU53 and MUT13	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-75	7Z and MU54	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-76	7Z and MU54	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-77	7F, 7G, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-78	7G, MU52 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-79	7G, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-80	7T and MU54	Permanent acquisition required for: Improvements to the existing A1089 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-81	7G, MU53 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-81 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-82	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-83	7D, 7Z, MU44, MU54, MUT20, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-84	7G and MU53	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-85	7G, MU52 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-86	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-87	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-88	7D, 7Z, MU44, MU54, MUT20, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-89	7F, 7G, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-90	7G and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-90 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-91	7G and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-92	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-93	7V, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-94	7G	Permanent acquisition required for: Improvements to Woolings Close
29-95	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-96	7V, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-97	7V, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-98	7V, MU51, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-99	7G	Permanent acquisition required for: Improvements to Woolings Close
29-100	7G and MU53	Permanent acquisition required for: Improvements to Woolings Close Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-101	7G, 7J and MU53	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-102	7G, 7J and MU53	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link roads between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the existing Baker Street Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-103	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-104	7F, MU52 and MUT13	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-105	7V, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-106	7G	Permanent acquisition required for: Improvements to Woolings Close
29-107	7V, MU51, MU52 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-108	7Z, MU44 and MU54	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-109	7E, 7F, 7V, MU51, MU52 and MUT13	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing Improvement to the existing dual carriageway A13 Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street, and private means of access of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-110	7V, MU51 and MUT13	Permanent acquisition required for: Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-111	7Z, MU44 and MU54	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-112	7G and MU53	Permanent acquisition required for: Improvements to Woolings Close Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-114	7E, 7T, 7Z, MU44 and MU54	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 Improvements to the existing A1089 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-116	7A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway
29-117	7G and MU53	Permanent acquisition required for: Improvements to Woolings Close Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-118	7G and MU53	Permanent acquisition required for: Improvements to Woolings Close Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-119	7G	Permanent acquisition required for: Improvements to Woolings Close
29-120	7G	Permanent acquisition required for: Improvements to Woolings Close
29-121	7A and 7E	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-122	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing
29-123	7D, 7Z, MU44, MU54, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-124	7D, 7Z, MU44, MU54, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-125	7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing
29-126	7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing
29-127	7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-128	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-129	7A and 7E	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing
29-130	7F, 7G, 7H and MU46	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-131	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-132	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-133	7E and MU50	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new A122 Lower Thames Crossing and improved Baker Street - demolition of the existing bridge on the redundant A1089 slip road over the existing Baker Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-134	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-135	7A and 7E	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of the new A13 westbound link roads, including - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing
29-136	7A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway
29-137	7E and MU44	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-138	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-139	7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p>
29-141	7A, 7E, 7O, 7V, MU51 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new A122 Lower Thames Crossing and improved Baker Street - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 crossing over the improved Baker Street, the new A122 Lower Thames Crossing, the existing A1089 and the new link road between the northbound carriageway of the improved A1089 and the northbound carriageway of the new A122 Lower Thames Crossing <p>Construction of a new drainage infiltration basin with associated drainage facilities, including construction of a private means of access to the drainage infiltration basin from Baker Street</p> <p>Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-142	7D, 7E, 7T, 7Z, MU44, MU54 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p> <p>Improvements to the existing A1089</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-142 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-143	7A and 7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new A122 Lower Thames Crossing and improved Baker Street - demolition of the existing bridge on the redundant A1089 slip road over the existing Baker Street
29-144	7D, 7E, 7T, 7Z, MU44, MU54 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p> <p>Improvements to the existing A1089</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-145	7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new A122 Lower Thames Crossing and improved Baker Street - demolition of the existing bridge on the redundant A1089 slip road over the existing Baker Street

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-146	7D, 7E, 7T, 7Z, MU44, MU54 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p> <p>Improvements to the existing A1089</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-147	7A and 7E	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new A122 Lower Thames Crossing and improved Baker Street
29-148	7D, 7T, 7Z, MU54 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Improvements to the existing A1089</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-148 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-149	7D, 7E, 7T and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the existing and improved A1089, the new link road between the northbound carriageway of the A1089 and the northbound carriageway of the A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 Improvements to the existing A1089 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-150	7E, 7T, 7Z, MU54 and OH7	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 Improvements to the existing A1089 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-151	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-152	MU50	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-153	MU50	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-154	7E, 7T, 7Z, MU54 and OH7	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 Improvements to the existing A1089 Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-155	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-156	7T, 7Z, MU54, OH6 and OH7	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-157	7D, MU44 and MU50	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-158	7E, 7T, 7W, 7Z, MU47, MU54, MUT16, MUT20, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p> <p>Improvements to the existing A1089</p> <p>Construction of a realigned section of the existing Heath Road</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-159	7A	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p>
29-160	7A and MU50	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-161	7D, 7W and MU44	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of a realigned section of the existing Heath Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-162	7E and 7T	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089</p> <p>Improvements to the existing A1089</p>
29-163	MU50	<p>Permanent acquisition required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-164	MU50	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-165	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-166	7D, 7W and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-167	7A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway
29-168	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-169	7D and MU50	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-170	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-171	7D, 7W and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-172	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-173	7D and MU50	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-174	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-175	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-176	7E	Permanent acquisition required for: Construction of the new A13 westbound link roads, including a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089
29-177	7A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-178	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-179	7A, 7D, MU44 and MU50	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the new A122 Lower Thames Crossing - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-180	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-181	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-182	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-183	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-184	7W, MU49, OH6 and OH7	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-184 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-185	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-186	7G, 7J and MU46	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-187	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-188	7A, 7D, MU44, MU50 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the new A122 Lower Thames Crossing - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-189	7D and MU49	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-190	7D and MU50	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-191	7T, MU47, MU54, MUT16, MUT20, OH6 and OH7	Permanent acquisition required for: Improvements to the existing A1089 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-192	7G, 7J and MU53	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-193	7T, MU47, MU54, MUT16, MUT20, OH6 and OH7	Permanent acquisition required for: Improvements to the existing A1089 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-194	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-195	7D, 7E, 7O, 7V, 7Y, MU44, MU46, MU51 and MUT13	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - construction of a new bridge to carry the realigned A1013 over the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the new A122 Lower Thames Crossing - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of the new A13 westbound link roads, including - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 Lower Thames Crossing over the new link road between the improved A13 and the southbound carriageway of the new A122 Lower Thames Crossing - construction of a new bridge to carry the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the improved A1089 over the new link road between the improved A13 and the southbound carriageway of the new A122 Lower Thames Crossing Construction of a new drainage infiltration basin with associated drainage facilities, including construction of a private means of access to the drainage infiltration basin from Baker Street Construction of a realigned section of Baker Street and a new public right of way along the verge of the realigned Baker Street, and private means of access of the realigned Baker Street Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-196	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-197	7A, 7D, 7Y, MU44 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-197 Cont'd		<p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the new A122 Lower Thames Crossing - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-198	7W and MU49	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-199	7W and MU49	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road and a new private means of access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-200	7W, MU49, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-201	7A, 7D, 7Y, MU44 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned A1013 over the new link road between the westbound carriageway of the improved A13 and the southbound carriageway of the new A122 Lower Thames Crossing - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 <p>Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-203	7A, 7D, 7Y, MU44 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013</p> <p>Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-204	7W and MU49	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-206	7A, 7D, 7Y, MU44 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013</p> <p>Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
29-207	7W, MU49 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
29-208	7W and MU49	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of the existing Heath Road and a new private means of access</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-209	7W, MU49 and OH7	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road and a new private means of access Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-210	7A, 7W, 7Y, MU49, MU50, MUT13, OH6 and OH7	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a realigned section of the existing Heath Road Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-214	7W	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road
29-216	7W, MU49 and OH6	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-217	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-218	7W, MU49 and OH7	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-218 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-219	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-220	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-221	7A, 7W, 7Y, MU48, MU49, MU50, MUT13, OH6, OH7 and OHT4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a realigned section of the existing Heath Road Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-222	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-223	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-224	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-225	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-226	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-227	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-228	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-229	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation
29-230	MU49, OH6 and OH7	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-232	7W and MU49	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-232 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-233	7W, MU49 and OH7	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-234	OH6	Permanent acquisition required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-235	7W, MU49 and OH7	Permanent acquisition required for: Construction of a realigned section of the existing Heath Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-239	MU49	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-240	7T	Permanent acquisition required for: Improvements to the existing A1089
29-241	MU49	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-243	7T	Permanent acquisition required for: Improvements to the existing A1089
29-244	7T	Permanent acquisition required for: Improvements to the existing A1089

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-246	OH6	Permanent acquisition required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-252	7D	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013
29-253	7D	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 - construction of a new private means of access from the improved A1013
29-254	7D	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 - construction of a new private means of access from the improved A1013
29-255	7A, 7Y, MU48, OH7 and OHT4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-257	7J and MU46	Permanent acquisition required for: Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-259	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-260	7D	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013
29-261	7Y	Permanent acquisition required for: Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing
29-265	7A, 7Y, OH7 and OHT4	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-269	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-270	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-271	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-272	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-273	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-274	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-275	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-276	7D	Permanent acquisition required for: Improvement to the existing A1013 and construction of the new public right of way along the verge of the improved A1013
29-278	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-279	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-280	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-281	7D	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-03	CA13 and CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
30-13	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
30-15	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
30-16	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
30-18	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
30-70	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
31-01	7F and G6	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Installation of a high-pressure gas pipeline
31-03	7F and G6	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Installation of a high-pressure gas pipeline
31-04	7F and G6	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Installation of a high-pressure gas pipeline
31-12	G6 and G6a	Permanent acquisition required for: Installation of a high-pressure gas pipeline Construction of a new gas compound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
31-23	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-24	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-25	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-26	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-27	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-28	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-29	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-30	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-31	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-32	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-33	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-34	E26	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
31-35	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
31-36	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-01	7D, MU44, MU46, MU47 and MUT17	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-02	7D, MU44, MU46, MU47 and MUT17	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-03	7D, MU44, MU46, MU47 and MUT17	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-04	7D, MU44, MU46 and MU47	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-06	7G, 7J and MU46	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Construction of a new public right of way between Woolings Close and Rectory Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-06 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-08	7F, 7H, 7I and MU46	Permanent acquisition required for: Improvement to the existing dual carriageway A13 Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13 Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-09	7D, MU44, MU46, MU47 and MUT17	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-10	7E, 7H, 7Y, MU44, MU46 and MU47	Permanent acquisition required for: Construction of the new A13 westbound link roads, including - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13 Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-19	7J and MU46	Permanent acquisition required for: Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-20	7G, 7I, 7J, G6, MU45 and MU46	<p>Permanent acquisition required for:</p> <p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane road, between the new link road and the eastbound carriageway of the improved A13 trunk road - construction of the new link road between the new A122 Lower Thames Crossing and the existing Orsett Cock roundabout <p>Construction of the new A13 eastbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of a new bridge to carry the new link road between the eastbound carriageway of the improved A13 and the improved Orsett Cock roundabout over the new link roads of the new A122 Lower Thames Crossing to the improved A13 trunk road <p>Construction of a realigned section of Rectory Road, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Rectory Road over the new A122 Lower Thames Crossing link roads to Orsett Cock, over the new A122 Lower Thames Crossing link roads to A13 eastbound carriageway, over the improved A13 trunk road, over the link roads between the improved A13 westbound carriageway, the north and southbound carriageways of the new A122 Lower Thames Crossing and the and the southbound carriageway of the improved A1089 and over the new link road between Orsett Cock and A13 westbound carriageway - improvement works to the existing Rectory Road - construction of two new public right of way along the verge of the improved Rectory Road - construction of a new public right of way between Woolings Close and Rectory Road <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
32-21	7J and MU46	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way between Woolings Close and Rectory Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
32-22	7F, 7H and 7I	<p>Permanent acquisition required for:</p> <p>Improvement to the existing dual carriageway A13</p> <p>Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13</p> <p>Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-23	7F, 7H and 7I	<p>Permanent acquisition required for:</p> <p>Improvement to the existing dual carriageway A13</p> <p>Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13</p> <p>Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout</p>
32-24	7F, 7H and 7I	<p>Permanent acquisition required for:</p> <p>Improvement to the existing dual carriageway A13</p> <p>Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13</p> <p>Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout</p>
32-26	7E, 7H, 7Y and MU44	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including</p> <ul style="list-style-type: none"> - construction of a new two-lane link road, between the westbound carriageway of the improved A13 and the Orsett Cock roundabout and the southbound carriageway of the improved A1089 - construction of a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing <p>Construction of a new link road between Orsett Cock roundabout and A13, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13 - construction of a new bridge to carry the new link road between the existing Orsett Cock roundabout and the westbound carriageway of A13 over the new link road between the westbound carriageway of A13 and the new A122 Lower Thames Crossing trunk road <p>Construction of a new two-lane link road between the westbound carriageway of the improved A13 to the A1089 and new A122 Lower Thames Crossing northbound link road and the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-75 Cont'd		Construction of a realigned section of Rectory Road, including - construction of a new bridge to carry the realigned Rectory Road over the new A122 Lower Thames Crossing link roads to Orsett Cock, over new A122 Lower Thames Crossing link roads to A13 eastbound carriageway, over the improved A13 trunk road, over the link roads between the improved A13 westbound carriageway, the north and southbound carriageways of the new A122 Lower Thames Crossing and the and the southbound carriageway of the improved A1089 and over the new link road between Orsett Cock and A13 westbound carriageway - improvement works to the existing Rectory Road - construction of two new public right of way along the verge of the improved Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-76	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-77	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-79	7D, 7X, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-80	7D, 7X and MU43	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-80 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-82	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-83	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-86	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-87	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-88	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-89	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-90	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-94	7G and G6	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new link road between the new A122 Lower Thames Crossing and the existing Orsett Cock roundabout Installation of a high-pressure gas pipeline
32-95	7G, 7I and G6	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new link road between the new A122 Lower Thames Crossing and the existing Orsett Cock roundabout Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Installation of a high-pressure gas pipeline
32-96	7F, 7G, 7H, 7I, MU44 and MUT19	Permanent acquisition required for: Improvement to the existing dual carriageway A13 and existing Orsett Cock roundabout Construction of new A122 Lower Thames Crossing link roads, including a new link road between the new A122 Lower Thames Crossing and the existing Orsett Cock roundabout Construction of a new link road between Orsett Cock roundabout and A13, including a new two-lane link road, between the improved Orsett Cock roundabout and the westbound carriageway of the improved A13

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-96 Cont'd		Construction of the new A13 eastbound link roads, including a new two-lane link road, between eastbound carriageway of the improved A13 and the new link road between the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-97	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-98	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-99	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-100	7D, MU43 and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-101	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-105	7D and MU44	Permanent acquisition required for: Construction of a realigned section of the A1013 from Orsett Cock roundabout westwards - improvement to the existing A1013 - construction of the new public right of way along the verge of the improved A1013 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-106	7F, MU44 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-107	7F, MU43, MU44 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-108	7F, MU43, MU44 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-112	7F, MU43 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-113	7F, MU43 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-114	7F, MU43 and MUT19	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-121	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13 and existing Orsett Cock roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-123	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13 and existing Orsett Cock roundabout
32-126	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13 and existing Orsett Cock roundabout
32-127	7F	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout
32-131	7F	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout
32-132	7F, MU39, MU43 and MUT15	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-146	7F	Permanent acquisition required for: Improvements to the existing Orsett Cock roundabout
32-150	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-151	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-154	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-161	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-167	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-184	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
32-185	7F	Permanent acquisition required for: Improvement to the existing dual carriageway A13
33-04	G7, OH6, OH7, OHT7 and OSC8	Permanent acquisition required for: Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Orsett Fen
33-07	7L, CA9, MU60 and MUT23	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-09	7M, 8J, OH6, OH7 and OHT7	Permanent acquisition required for: Construction of a realigned section of Green Lane, including - construction of a new public right of way as the improved Green Lane - construction of a new private means of access along the improved Green Lane - construction of the new public right of way between Green Lane and the improved Stifford Clays Road Construction of a new public right of way between the realigned Green Lane and the private means of access to the new drainage pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
33-10	7M, OH6, OH7 and OHT7	Permanent acquisition required for: Construction of a realigned section of Green Lane, including - construction of a new public right of way as the improved Green Lane - construction of a new private means of access along the improved Green Lane - construction of the new public right of way between Green Lane and the improved Stifford Clays Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-10 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
33-11	7A, 7M, 7Q, 7Z, 8K, MUT13, MUT24, OH6, OH7 and OHT7	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of a realigned section of Green Lane, including</p> <ul style="list-style-type: none"> - construction of a new public right of way as the improved Green Lane - construction of a new private means of access along the improved Green Lane - construction of the new public right of way between Green Lane and the improved Stifford Clays Road <p>Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new multi-lane link road starting from the diverge to the new link road to the southbound carriageway of the new A122 Lower Thames Crossing and to the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
33-12	7M and MUT24	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-13	7F, E31, MU57 and OSC7	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from Long Lane to south of the A13 road</p> <p>Implementation of environmental mitigation works to create a site for protected species</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Implementation of new common land at Ron Evans Memorial Field</p>
33-14	7F	<p>Permanent acquisition required for:</p> <p>Improvement to the existing dual carriageway A13</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-15	7E, 7F, 7N, 7Z, CA9, MU54, MU55, MU57, MU58, OH6 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing</p> <p>Improvement to the existing dual carriageway A13, and construction of a new bridge to carry the existing A13 over the link road between the northbound carriageway of the A1089 and the northbound carriageway of the new A122 Lower Thames Crossing, and the link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of the new bridge for A13 eastbound link road, including a new bridge to carry the eastbound link road between the improved A13 and the existing southbound carriageway of the A1089 over the northbound link road between the existing A1089 and the northbound carriageway of the new A122 Lower Thames Crossing and the westbound link road between the improved A13 and the northbound carriageway of the new A122 Lower Thames Crossing</p> <p>Construction of new A122 Lower Thames Crossing link roads, including construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
33-16	7L, CA9, MU60 and MUT23	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of Stifford Clays road, including</p> <ul style="list-style-type: none"> - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-18	7F and MU57	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way from Long Lane to south of the A13 road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-20	7L	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of Stifford Clays road, including</p> <ul style="list-style-type: none"> - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-21	7L	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road
33-22	7L	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road
33-23	7L, CA9, MU58, MU60, MUT13 and MUT23	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-25	7L, MUT13 and MUT24	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-26	7A, 7M, 7P, 7Q, 7Z, 8E, 8J, 8K, G7, MUT13 and OHT7	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of a realigned section of Green Lane, including - construction of a new public right of way as the improved Green Lane - construction of a new bridge to carry the realigned Green Lane over the new A122 Lower Thames Crossing and the new link road between the westbound carriageway of the improved A13 and the northbound carriageway of the new A122 Lower Thames Crossing - construction of a new private means of access along the improved Green Lane Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert. Construction of new A122 Lower Thames Crossing link roads, including construction of the new multi-lane link road starting from the diverge to the new link road to the southbound carriageway of the new A122 Lower Thames Crossing and to the northbound carriageway of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-26 Cont'd		<p>Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond</p> <p>Construction of a new public right of way between the realigned Green Lane and the private means of access to the new drainage pond, and a new public right of way along the Mardyke channel from the private means of access to the new drainage pond</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p> <p>Installation of a high-pressure gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
33-27	7L, MU60 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of Stifford Clays road, including</p> <ul style="list-style-type: none"> - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-28	7L, MU60, MUT13 and MUT23	<p>Permanent acquisition required for:</p> <p>Construction of a realigned section of Stifford Clays road, including</p> <ul style="list-style-type: none"> - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-29	7A, 7E, 7G, 7K, 7L, 7Z, CA9, MU55, MU58, MU60, MUT13, MUT21, MUT23, MUT24, OH6, OH7 and OHT7	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of the new A13 westbound link roads, including a new two-lane link road between the westbound carriageway of the improved A13 and the new link road from the A1089 connecting onto the new A122 Lower Thames Crossing</p> <p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-29 Cont'd		<p>Construction of a new link road from the A1089 connecting onto the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - construction of the new multi-lane link road, between the existing A1089 and the southbound carriageway of the new A122 Lower Thames Crossing - construction of a new bridge to carry the new link road between the existing A1089 and the southbound carriageway of the new A122 Lower Thames Crossing over the new Lower Thames Crossing trunk road <p>Construction of a realigned section of Stifford Clays road, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the realigned Stifford Clays Road over the new northbound link road from the A1089 connecting onto the northbound carriageway of the new A122 Lower Thames Crossing and the new link road from the A13 westbound to the A122 Lower Thames Crossing northbound carriageway - construction of a new bridge to carry the realigned Stifford Clays Road over the new A122 Lower Thames Crossing trunk road and the new link road between the southbound carriageway of the new Lower Thames Crossing and the eastbound carriageway of the improved A13 - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road <p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the existing A1089 and the new link road to the southbound carriageway of the new A122 Lower Thames Crossing - construction of the new multi-lane link road starting from the diverge to the new link road to the southbound carriageway of the new A122 Lower Thames Crossing and to the northbound carriageway of the new A122 Lower Thames Crossing <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

33-38	8K	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-39	8K	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures
33-40	8K	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures
33-41	7M and 8K	Permanent acquisition required for: Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane Construction of a new private means of access for maintenance of the new drainage structures
33-43	7M and 8K	Permanent acquisition required for: Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane Construction of a new private means of access for maintenance of the new drainage structures
33-44	7M and 8K	Permanent acquisition required for: Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane Construction of a new private means of access for maintenance of the new drainage structures
33-45	7M and 8K	Permanent acquisition required for: Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane Construction of a new private means of access for maintenance of the new drainage structures
33-46	7M and 8K	Permanent acquisition required for: Construction of a new public right of way as the improved Green Lane, and a new private means of access along the improved Green Lane Construction of a new private means of access for maintenance of the new drainage structures
33-50	7G, 7L, MU60 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-50 Cont'd		Construction of a realigned section of Stifford Clays road, including - construction of a new bridge to carry the realigned Stifford Clays Road over the new A122 Lower Thames Crossing trunk road and the new link road between the southbound carriageway of the new Lower Thames Crossing and the eastbound carriageway of the improved A13 - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-51	7L, MUT13 and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-52	7A, 7G, 7K, 7L, MU60 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road Construction of a new multi-lane link road between the existing A1089 and the southbound carriageway of the new A122 Lower Thames Crossing Construction of a realigned section of Stifford Clays road, including - construction of a new bridge to carry the realigned Stifford Clays Road over the new A122 Lower Thames Crossing trunk road and the new link road between the southbound carriageway of the new Lower Thames Crossing and the eastbound carriageway of the improved A13 - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road - construction of a new private means of access from Stifford Clays Road to the east of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-57	7L, MU60 and MUT13	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-58	7G	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road
33-59	7A, 7G, 7K and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of new A122 Lower Thames Crossing link roads, including - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road - construction of a new bridge to carry the new link road between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the new A122 Lower Thames Crossing Construction of a new multi-lane link road between the existing A1089 and the southbound carriageway of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-60	7G	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road
33-62	7L, MU59, MU60 and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road - construction of a new private means of access from Stifford Clays Road to the east of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-63	7G, 7K, 7L, MU59, MU60 and MUT13	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout Construction of a new multi-lane link road between the existing A1089 and the southbound carriageway of the new A122 Lower Thames Crossing Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road - construction of a new private means of access from Stifford Clays Road to the east of the new A122 Lower Thames Crossing

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-63 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-64	7L and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-65	7L and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road - construction of a new private means of access from Stifford Clays Road to the east of the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-72	7L and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-73	7L, MU59, MU60 and MUT21	Permanent acquisition required for: Construction of a realigned section of Stifford Clays road, including - improvement works of the existing Stifford Clays Road - construction of a new public right of way along the verge of the improved Stifford Clays Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-76	7G	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road
33-85	7A, 7G and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-85 Cont'd		<p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road - construction of a new bridge to carry the new link road between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-95	7G	<p>Permanent acquisition required for:</p> <p>Construction of new A122 Lower Thames Crossing link roads, including a new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road</p>
33-96	7A and 7G	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road - construction of a new bridge to carry the new link road between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the new A122 Lower Thames Crossing
33-97	7A, 7G, MU52 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p> <p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road - construction of a new bridge to carry the new link road between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
33-102	7A, 7G, MU52 and MUT13	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-102 Cont'd		<p>Construction of new A122 Lower Thames Crossing link roads, including</p> <ul style="list-style-type: none"> - construction of the new two-lane link road, between the southbound carriageway of the new A122 Lower Thames Crossing and the improved Orsett Cock roundabout - construction of the new two-lane link road, between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 trunk road - construction of a new bridge to carry the new link road between the northbound carriageway of the new A122 Lower Thames Crossing and the eastbound carriageway of the improved A13 over the new A122 Lower Thames Crossing <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor and the installation of a new electrical substation</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

33-214	7G	<p>Permanent acquisition required for:</p> <p>Improvements to Woolings Close</p>
33-216	7G	<p>Permanent acquisition required for:</p> <p>Improvements to Woolings Close</p>
33-218	7G	<p>Permanent acquisition required for:</p> <p>Improvements to Woolings Close</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-223	7G	Permanent acquisition required for: Improvements to Woolings Close
33-288	7J and MU46	Permanent acquisition required for: Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-289	7J and MU46	Permanent acquisition required for: Construction of a new public right of way between Woolings Close and Rectory Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-07	MU60	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-08	CA9 and MU60	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-09	CA9 and MU60	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-10	CA9	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound
34-11	MU60	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-12	MU60	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-14	MUT24, OH6 and OSC8	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-14 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Orsett Fen
34-16	MUT24, OH6 and OSC8	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Orsett Fen
34-18	MUT24 and OSC8	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new common land at Orsett Fen
34-21	CA9 and MU60	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-22	CA9, MU60 and MUT23	Permanent acquisition required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-34	MUT23	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-35	MUT23	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-36	MUT23	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-37	MUT23	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-04	OH7 and OSC8	Permanent acquisition required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Implementation of new common land at Orsett Fen
35-12	E36	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-14	8A, 8B, 8G, 8J, 8K, E36, FCA2, FCA3 and OH7	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Orsett Fen viaduct accommodating access between fields and Orsett Fen Construction of a new drainage attenuation pond with associated drainage facilities, east of the new A122 Lower Thames Crossing, and a private means of access to the drainage attenuation pond Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond Construction of a new private means of access for maintenance of the new drainage structures Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Construction of a new flood compensation area Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-15	E36	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-16	8J and OH7	Permanent acquisition required for: Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-17	8J and OH7	Permanent acquisition required for: Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-18	E36	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-22	8A, 8B, 8J and 8K	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Orsett Fen viaduct accommodating access between fields and Orsett Fen Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond Construction of a new private means of access for maintenance of the new drainage structures
35-23	8A, 8B, 8J and 8K	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Orsett Fen viaduct accommodating access between fields and Orsett Fen Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond Construction of a new private means of access for maintenance of the new drainage structures
35-24	7A, 7Z, 8A, 8B, 8E, 8F, 8J, 8K, 8S, G7 and MUT13	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, a new highway three-lane dual carriageway Construction of new A122 Lower Thames Crossing link roads, including construction of the new multi-lane link road starting from the diverge to the new link road to the southbound carriageway of the new A122 Lower Thames Crossing and to the northbound carriageway of the new A122 Lower Thames Crossing Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Orsett Fen viaduct accommodating access between fields and Orsett Fen Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-24 Cont'd		Construction of a new private means of access for maintenance of the new drainage structures Construction of a new culvert and diversion of the watercourse through the culvert, under the new private means of access for the new drainage pond Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-25	8K	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures
35-26	8K and MUT13	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-27	8K	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures
35-28	8K	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures
35-31	8K and MUT13	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-39	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-40	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-41	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-43	E35 and MUT25	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-44	E35 and MUT25	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-45	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-46	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-47	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-48	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-49	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-50	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
35-51	E35	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
37-01	8K, E36 and FCA2	Permanent acquisition required for: Construction of a new private means of access for maintenance of the new drainage structures Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
37-01 Cont'd		Construction of a new flood compensation area
37-02	FCA2	Permanent acquisition required for: Construction of a new flood compensation area
37-03	FCA2	Permanent acquisition required for: Construction of a new flood compensation area
37-04	OSC9	Permanent acquisition required for: Implementation of new common land at Orsett Fen
38-04	8A, G8 and MU64	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-05	8A, MU64 and MU65	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-06	8A and G8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Diversion of existing gas pipeline
38-07	8A and G8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Diversion of existing gas pipeline
38-08	8A, 8C, 8H, 8I, 8L, 8V, G8, MU62, MU64 and MU65	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-08 Cont'd		<p>Construction of a new public right of way over the new A122 Lower Thames Crossing, including a new bridge to carry the new public right of way over the new A122 Lower Thames Crossing</p> <p>Construction of a new drainage attenuation pond with associated drainage facilities, south of the new A122 Lower Thames Crossing, and a private means of access to the drainage attenuation pond</p> <p>Modification and improvements to an existing infiltration pond and the watercourse diversion</p> <p>Construction of a new public right of way between the new public right of way between Green Lane and Mardyke valley, and the realigned footpath FP136</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert.</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
38-11	8A, 8C, G8, MU62, MU64 and MU65	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new public right of way over the new A122 Lower Thames Crossing</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
38-12	8A, 8C, 8M, G8, MU62, MU63, MU64, MU65 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new public right of way over the new A122 Lower Thames Crossing</p> <p>Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
38-17	8H and 8I	<p>Permanent acquisition required for:</p> <p>Construction of a private means of access to the drainage attenuation pond south of the new A122 Lower Thames Crossing</p> <p>Modification and improvements to an existing infiltration pond and the watercourse diversion</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-21	8M, G8, MU63 and OH7	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136, and a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
38-26	8C and G8	<p>Permanent acquisition required for:</p> <p>Construction of a new public right of way over the new A122 Lower Thames Crossing</p> <p>Diversion of existing gas pipeline</p>
38-27	8A, 8B, 8C, 8L, 8O, 8P, 8U, E36, FCA4, G8, MU61, MU62, MU63, OH7 and OHT8	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke</p> <p>Construction of a new public right of way over the new A122 Lower Thames Crossing</p> <p>Construction of a new public right of way between the new public right of way and the realigned footpath FP136, and a new private means of access around the earthworks of the new A122 Lower Thames Crossing</p> <p>Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert.</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds</p> <p>Construction of a new flood compensation area</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-30	8C, MU62 and OH7	Permanent acquisition required for: Construction of a new public right of way over the new A122 Lower Thames Crossing Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-45	8A, 8B, 8L and E36	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke Construction of a new public right of way between the new public right of way between Green Lane and Mardyke valley, and the realigned footpath FP136 Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-48	8A, 8B, 8L and E36	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke Construction of a new public right of way between the new public right of way between Green Lane and Mardyke valley, and the realigned footpath FP136 Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-50	8A, 8B, 8J, 8K, 8L and E36	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond, and a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Construction of a new private means of access for maintenance of the new drainage structures Construction of a new public right of way between the new public right of way between Green Lane and Mardyke valley, and the realigned footpath FP136 Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-56	8A, 8B, 8J, 8K, E36, FCA2 and FCA3	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke</p> <p>Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds</p> <p>Construction of a new flood compensation area</p>
38-57	8A, 8B, 8J, 8K, E36, FCA2 and FCA3	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke</p> <p>Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds</p> <p>Construction of a new flood compensation area</p>
38-58	8A, 8B, 8J, 8K, 8T, E36, FCA2 and FCA3	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new A122 Lower Thames Crossing Mardyke viaduct over the River Mardyke</p> <p>Construction of a new public right of way along the Mardyke channel from the private means of access to the new drainage pond</p> <p>Construction of a new private means of access for maintenance of the new drainage structures</p> <p>Construction of a new culvert and diversion of the watercourse through the culvert, under the new private means of access for maintenance to the drainage structures</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds</p> <p>Construction of a new flood compensation area</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-62	8J and OSC9	Permanent acquisition required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of new common land at Orsett Fen
38-63	8J	Permanent acquisition required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way
39-03	8D, 9A, 9B, 9M, 9W, CA14, E41, G9, MU71 and MUT29	Permanent acquisition required for: Construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of a new public right of way over the new A122 Lower Thames Crossing - construction of a new private means of access to culvert Construction of a watercourse diversion in pipe, including - construction of a new culvert and diversion of the watercourse through the culvert - construction of a new pipe on both sides of the new A122 Lower Thames Crossing, and diversion of the watercourse through the pipe Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-07	8A, 8D, 9A, 9B and G9	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Diversion of existing gas pipeline

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-09	E41 and MUT29	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-10	9B and G9	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Diversion of existing gas pipeline
39-11	9B, G9 and MU71	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-19	9B and MU71	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-24	8A, 8D, 8R, G9, MU67, MU68, MU69, MU70 and MUT28	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - improvement works to the existing North Road - construction of a new public right of way along the verge of the improved North Road - construction of a new private means of access for maintenance from the southern side of the North Road bridge to the new A122 Lower Thames Crossing - construction of a new private means of access for maintenance from the northern side of the North Road bridge to the new A122 Lower Thames Crossing - construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge Construction of a two new culverts and diversion of the watercourse through the culverts along the northern earthworks for the new A122 Lower Thames Crossing Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-34	8D	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road
39-35	8D, MUT28 and MUT29	Permanent acquisition required for: Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - construction of a new public right of way along the verge of the improved North Road - construction of a new public right of way from the realigned North Road to the new public right of way to Church Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-36	8D, MUT28 and MUT29	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-37	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-38	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-39	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-40	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-41	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-42	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-43	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-44	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-45	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-47	8A, 8D, 8R, G9, MU68, MU69, MU70, MUT26 and MUT28	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - improvement works to the existing North Road - construction of a new bridge to carry the improved B186 North Road over the new A122 Lower Thames Crossing - construction of a new public right of way along the verge of the improved North Road - construction of a new private means of access for maintenance from the northern side of the North Road bridge to the new A122 Lower Thames Crossing - construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge Construction of a two new culverts and diversion of the watercourse through the culverts along the northern earthworks for the new A122 Lower Thames Crossing Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-48	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-48 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-49	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-51	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-53	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-56	8D and MUT28	Permanent acquisition required for: Construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-58	8D and MU66	Permanent acquisition required for: Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - improvement works to the existing North Road - construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-60	8A, 8D, 8R, G9, MU66, MU68, MU69, MUT26, MUT27 and MUT28	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-60 Cont'd		<p>Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - improvement works to the existing North Road - construction of a new bridge to carry the improved B186 North Road over the new A122 Lower Thames Crossing - construction of a new public right of way along the verge of the improved North Road - construction of a new private means of access for maintenance from the northern side of the North Road bridge to the new A122 Lower Thames Crossing - construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge <p>Construction of a two new culverts and diversion of the watercourse through the culverts along the northern earthworks for the new A122 Lower Thames Crossing</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
39-61	8D, MU69 and MUT28	<p>Permanent acquisition required for:</p> <p>Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - improvement works to the existing North Road - construction of a new public right of way along the verge of the improved North Road <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
39-62	8A, 8D, 8Q, 8R, G9, MU68, MU69 and MUT27	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound</p> <p>Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including</p> <ul style="list-style-type: none"> - improvement works to the existing North Road - construction of a new bridge to carry the improved B186 North Road over the new A122 Lower Thames Crossing - construction of a new public right of way along the verge of the improved North Road - construction of a new private means of access for maintenance from the southern side of the North Road bridge to the new A122 Lower Thames Crossing <p>Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert along the southern earthworks for the new A122 Lower Thames Crossing</p> <p>Construction of a two new culverts and diversion of the watercourse through the culverts along the northern earthworks for the new A122 Lower Thames Crossing</p> <p>Diversion of existing gas pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-63	8D, MU69 and MUT26	Permanent acquisition required for: Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - improvement works to the existing North Road - construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-64	8D, MU68, MU69 and MUT26	Permanent acquisition required for: Construction of a new bridge to carry B186 North Road over the new A122 Lower Thames Crossing, including - improvement works to the existing North Road - construction of a new public right of way along the verge of the improved North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-71	8A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound
39-73	8A and MUT27	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-75	8A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound
39-76	8A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound
39-79	8A, G8, MU64 and MUT27	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing, including a three-lane carriageway northbound and two-lane carriageway southbound Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
40-01	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
40-02	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
40-03	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-04	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-05	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-06	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-07	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-08	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
40-09	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
40-10	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
40-11	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
40-12	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
40-13	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
40-14	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-15	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-16	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-17	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-18	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-19	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-20	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-23	9A, G9 and MU71	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
40-24	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-25	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
40-26	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
40-27	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
41-21	8M, MU63 and MUT26	Permanent acquisition required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
41-22	8M, MU63 and MUT26	Permanent acquisition required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-15	E44, MU73 and MU75	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-18	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
42-19	E45, MU77, MUT31 and OSC10	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new open space at Thames Chase Forest Centre
42-20	9M	Permanent acquisition required for: Construction of new public right of way from West Road to Pea Lane
42-26	9N, E45, MU76, MU77, MUT30, MUT31 and OSC10	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-26 Cont'd		Implementation of new open space at Thames Chase Forest Centre
42-27	9N, MU76, MU77, MUT30 and MUT31	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-28	9N, MU75, MU76 and MUT30	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-29	9A, 9N, MU75, MU76 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-30	9A, MU73, MU75, MU76 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-31	9N, E45, MU77 and MUT31	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-32	9A and MU77	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-33	9N, E45, MU77 and OSC10	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new open space at Thames Chase Forest Centre
42-35	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-36	9A, 9N and MU76	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-37	9E, 9M and MU72	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of new public right of way from West Road to Pea Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-38	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-39	9E and 9M	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of new public right of way from West Road to Pea Lane
42-40	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-41	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-42	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-43	9A and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-44	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-45	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-46	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-47	9A, MU73 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-48	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-49	9A and MU76	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-49 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-50	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-51	9E and 9M	Permanent acquisition required for: Improvements to the existing highway M25 southbound Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of new public right of way from West Road to Pea Lane - construction of a new public right of way over the new A122 Lower Thames Crossing Construction of new public right of way from West Road to Pea Lane
42-52	9A and MU76	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-53	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-54	9A and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-55	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
42-56	9A, MU73 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-57	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
42-58	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-59	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-60	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-61	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-62	9A and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-63	9A and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-64	9A, MU73 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-65	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-65 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-66	9A, MU73 and MUT30	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-67	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
42-68	9N, MU76 and MUT30	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-69	9N, MU76 and MUT30	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-70	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-71	9N and MUT30	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-72	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-73	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-74	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-76	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-77	9N and MUT30	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-78	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-79	9A and 9E	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, including - construction of new A122 Lower Thames Crossing link road with a three-lane single carriageway - construction of new underbridge to carry the new link road under an improved section of the M25 Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-80	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-81	9A and 9E	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, including - construction of new A122 Lower Thames Crossing link road with a three-lane single carriageway - construction of new underbridge to carry the new link road under an improved section of the M25 Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-82	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
42-83	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-84	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-85	9A, 9B, 9E and MU73	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-86	9M	Permanent acquisition required for: Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of new public right of way from West Road to Pea Lane - construction of a new public right of way over the new A122 Lower Thames Crossing Construction of new public right of way from West Road to Pea Lane
42-87	9M	Permanent acquisition required for: Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of new public right of way from West Road to Pea Lane - construction of a new public right of way over the new A122 Lower Thames Crossing - construction of a new bridge to carry the new public right of way over the existing Upminster and Grays Branch railway line
42-88	9B, 9E, 9N, MU73 and MUT30	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound - construction of a new public right of way along the edge of the embankment associated with the new A122 Lower Thames Crossing southbound link road to M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-89	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-90	9B, 9D, 9E and 9Q	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-90 Cont'd		Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-91	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-92	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-93	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-94	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-95	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
42-96	9Q	Permanent acquisition required for: Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-97	9E, 9N and 9Q	Permanent acquisition required for: Improvements to the existing highway M25 northbound Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-98	9B, 9E, 9N, MU76 and MUT30	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-98 Cont'd		Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-100	9B, 9E, 9N and 9Q	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
42-101	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-102	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-103	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
42-104	8D, 9A, 9B, 9M, 9W, CA14 and MU71	Permanent acquisition required for: Construction of a new private means of access for maintenance from the southern side of the North Road bridge, along the new A122 Lower Thames Crossing earthworks, to the new bridge Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of a new public right of way over the new A122 Lower Thames Crossing - construction of a new bridge to carry the new public right of way over the new A122 Lower Thames Crossing northbound and southbound carriageways - construction of a new bridge to carry the new public right of way over the existing Upminster and Grays Branch railway line - construction of a new private means of access to culvert

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-104 Cont'd		Construction of a watercourse diversion in pipe, including - construction of a new culvert and diversion of the watercourse through the culvert - construction of a new pipe on both sides of the new A122 Lower Thames Crossing, and diversion of the watercourse through the pipe Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-105	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
42-106	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
42-107	9B, 9E, 9N and MU76	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-108	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
42-109	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
42-110	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
42-111	9B, 9N, MU73, MU74 and MU76	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-111 Cont'd		Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new public right of way along the edge of the embankment associated with the new A122 Lower Thames Crossing southbound link road to M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-112	9B, 9E, 9N and MU76	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 southbound Realignment of the existing B1421 Ockendon road, including - improvement works to the existing B1421 Ockendon Road - construction of a new bridge to carry the existing B1421 Ockendon Road over the new A122 Lower Thames Crossing northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-113	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
42-114	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-117	9N, MU74 and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-118	9N, MU74 and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-119	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-120	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-121	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
42-122	9N, MU74 and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-123	9M	Permanent acquisition required for: Construction of a new public right of way over the new A122 Lower Thames Crossing, including - construction of a new public right of way over the new A122 Lower Thames Crossing - construction of a new bridge to carry the new public right of way over the new A122 Lower Thames Crossing northbound and southbound carriageways - construction of a new bridge to carry the new public right of way over the existing Upminster and Grays Branch railway line
42-125	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-126	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-129	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-130	9N and MU76	Permanent acquisition required for: Realignment of the existing B1421 Ockendon road, including improvement works to the existing B1421 Ockendon Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-04	CA15A, E45, MU72, MU77, MUT31, OH8 and OSC10	<p>Permanent acquisition required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>Implementation of new open space at Thames Chase Forest Centre</p>
43-06	9A, 9C and 9Q	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway</p> <p>Construction of new A122 Lower Thames Crossing one-lane link road between the new A122 Lower Thames Crossing northbound link road and M25 northbound to M25 junction 29 link road</p> <p>Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond</p>
43-08	9A, 9C, 9D, 9O, MU72, MU78 and OH8	<p>Permanent acquisition required for:</p> <p>Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, including</p> <ul style="list-style-type: none"> - construction of new A122 Lower Thames Crossing link road with a three-lane single carriageway northbound - construction of new underbridge to carry the new link road under an existing link road between M25 northbound and M25 junction 29 <p>Construction of new A122 Lower Thames Crossing one-lane link road between the new A122 Lower Thames Crossing northbound link road and M25 northbound to M25 junction 29 link road</p> <p>Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road</p> <p>Construction of new public right of way over the new A122 Lower Thames Crossing and across Thames Chase Forest, including</p> <ul style="list-style-type: none"> - construction of a new bridge to carry the public right of way from FP232 to FP230 over the new A122 Lower Thames Crossing, the improved section of the M25 and A122 Lower Thames Crossing link roads - construction of a new public right of way and permissive path over the new A122 Lower Thames Crossing - construction of a new public right of way and new permissive path from the new bridge to the existing FP230 <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-11	9B, 9D, 9E and 9Q	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
43-12	9B, 9D, 9E and 9Q	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond
43-13	9O and MU78	Permanent acquisition required for: Construction of a new public right of way and permissive path over the new A122 Lower Thames Crossing, and new bridge to carry the public right of way over the new A122 Lower Thames Crossing, the improved section of the M25 and A122 Lower Thames Crossing link roads Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-14	9A, 9D, 9E, 9O, MU78 and OH8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new public right of way and permissive path over the new A122 Lower Thames Crossing, and new bridge to carry the public right of way over the new A122 Lower Thames Crossing, the improved section of the M25 and A122 Lower Thames Crossing link roads Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-15	9B and 9E	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-16	9B and 9E	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway Improvements to the existing highway M25 southbound
43-17	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
43-20	9B	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing link road to the M25 southbound, a two-lane carriageway
43-21	9A and OH8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-22	9O, MU72, MU78 and OH8	Permanent acquisition required for: Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-23	9C, 9D, 9O, MU72 and OH8	Permanent acquisition required for: Construction of new A122 Lower Thames Crossing one-lane link road between the new A122 Lower Thames Crossing northbound link road and M25 northbound to M25 junction 29 link road Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-24	9O, MU72 and OH8	Permanent acquisition required for: Construction of a new permissive path over the new A122 Lower Thames Crossing and the improved section of the M25 Junction

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-24 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-25	9O, 9R, MU78 and OH8	Permanent acquisition required for: Construction of a new public right of way and permissive path over the new A122 Lower Thames Crossing Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-26	9A and OH8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-29	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
43-30	9A, 9E and OH8	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway Improvements to the existing highway M25 northbound and existing highway M25 southbound Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-31	9A	Permanent acquisition required for: Construction of the new A122 Lower Thames Crossing northbound to M25 northbound link road, a new section of highway with a three-lane single carriageway
43-32	9D and OH8	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-32 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-33	9E and OH8	Permanent acquisition required for: Improvements to the existing highway M25 southbound Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-34	9E, 9R and OH8	Permanent acquisition required for: Improvements to the existing highway M25 southbound Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-36	9E and OH8	Permanent acquisition required for: Improvements to the existing highway M25 southbound Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-37	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
43-38	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
43-39	9R	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
43-42	9O	Permanent acquisition required for: Construction of a new permissive path along the existing FP230

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-44	9O	Permanent acquisition required for: Construction of a new permissive path along the existing FP230
43-48	9O	Permanent acquisition required for: Construction of a new permissive path along the existing FP230
43-50	9O	Permanent acquisition required for: Construction of a new permissive path along the existing FP230
43-51	9O	Permanent acquisition required for: Construction of a new permissive path along the existing FP230
43-52	9O	Permanent acquisition required for: Construction of a new public right of way from Clay Tye road to the existing footpath FP230
44-12	9D, 9O and MU72	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new permissive path to the new culvert, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-15	FCA6	Permanent acquisition required for: Construction of a new flood compensation area
44-18	9D, 9P and MU86	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the link road over the Shoeburyness railway line - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-19	E48, FCA6, MU72, MU79, MU80, MU82 and OSC11	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-19 Cont'd		Construction of a new flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Implementation of new open space at Thames Chase Forest Centre
44-21	9D, 9T, MU79, MU82 and MU83	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-23	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-24	9D and MU86	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the link road over the Shoeburyness railway line - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-25	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-26	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
44-27	9D and 9X	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-28	9D, MU72, MU79, MU80 and MU82	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-29	9D and 9X	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-30	9D, 9E, 9P and MU86	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-31	9D, 9T, MU79, MU80 and MU82	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new drainage attenuation pond with associated drainage facilities, and a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-32	9D and MU84	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-33	9D, 9E, 9P and MU86	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-34	9D and 9X	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-35	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-36	9D and 9E	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over Shoeburyness railway line
44-37	9D, 9E and MU84	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over Shoeburyness railway line Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-38	9D and 9X	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-39	9D and 9X	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-40	9E and 9X	Permanent acquisition required for: Improvements to the existing highway M25 northbound Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-41	9D, 9E, MU83 and MU84	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-42	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-43	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
44-45	9E and MU86	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over Shoeburyness railway line Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-46	9E and 9X	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-47	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
44-48	9R	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
44-49	9D and MU80	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the improved M25 northbound to M25 junction 29 link road over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-50	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
44-51	9R	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-52	9D, MU72, MU79 and MU82	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-53	9E, 9P and MU86	Permanent acquisition required for: Improvements to the existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over Shoeburyness railway line Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-54	9D, 9E, MU72, MU79, MU80 and MU82	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-55	9D and MU80	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the improved M25 northbound to M25 junction 29 link road over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-57	9E and 9X	Permanent acquisition required for: Improvements to the existing highway M25 southbound Construction of a new watercourse diversion culvert and diversion of the watercourse through the culvert.
44-58	9P and MU86	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-59	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-60	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
44-61	9D and MU80	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the improved M25 northbound to M25 junction 29 link road over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-62	9D, MU80 and MU82	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new bridge to carry the improved M25 northbound to M25 junction 29 link road over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-63	9D and MU80	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-65	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
44-66	9E, 9S and FCA5	Permanent acquisition required for: Improvements to the existing highway M25 southbound Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Construction of a new flood compensation area
44-67	9P, 9U and MU86	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-69	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-70	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-71	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-74	9U	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
44-75	9S, MU72, MU79 and MU82	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-76	9S	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
44-77	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over B187 St Marys Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-78	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 southbound, including the modification of a bridge to carry the improved M25 southbound over B187 St Marys Lane

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-78 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-79	9E and MU80	Permanent acquisition required for: Improvements to the existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-82	9S, MU80 and MU81	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-83	9S, MU72, MU79 and MU82	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-97	E47	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds
45-13	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-14	9J, 9Y and MU91	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-27	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-27 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-30	9J, 9Y and MU91	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-32	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-34	9Y	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway
45-35	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-36	9J, 9Y and MU91	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-37	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-37 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-40	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-41	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-44	9J and 9Y	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway
45-51	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-53	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-54	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-54 Cont'd		Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-55	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-56	E49	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
45-57	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-58	E49	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
45-59	E49	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
45-60	9Y and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-61	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-61 Cont'd		Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-63	9H, 9Y and MU91	Permanent acquisition required for: Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-64	9Y, E49 and MU91	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Implementation of environmental mitigation works to create a site for ancient woodland planting Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-65	E49	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting
45-73	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
45-74	9H	Permanent acquisition required for: Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout
45-75	9G and 9H	Permanent acquisition required for: Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout
45-76	9D, 9G, 9H, 9J and MU88	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-76 Cont'd		<p>Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout</p> <p>Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout</p> <p>Improvement works to a section of the existing two-lane dual carriageway A127 highway</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
45-77	9K	<p>Permanent acquisition required for:</p> <p>Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound</p>
45-78	9E, 9K and MU89	<p>Permanent acquisition required for:</p> <p>Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road</p> <p>Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
45-80	9D, MU86 and MU87	<p>Permanent acquisition required for:</p> <p>Construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers</p>
45-81	9D, 9E, 9F, 9G, 9H, 9J and MU88	<p>Permanent acquisition required for:</p> <p>Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road</p> <p>Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road</p> <p>Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road</p> <p>Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout</p> <p>Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout</p> <p>Improvement works to a section of the existing two-lane dual carriageway A127 highway</p>

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-81 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-82	9E, 9G, 9H and MU89	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-83	9G and MU89	Permanent acquisition required for: Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-84	9E and 9L	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout
45-85	9E, 9G, 9K and MU89	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-86	9J and MU88	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-90	9L	Permanent acquisition required for: Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout
45-91	9E, 9G, 9L and MU89	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-92	9E, 9G and MU89	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-93	9E, 9G, 9I and MU89	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound, including the modification of Codham Hall viaduct to carry the improved M25 over M25 junction 29 roundabout and the A127 road Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Improvements to the existing highway M25 junction 29 roundabout link roads, including improvement works to the two-lane link road between M25 junction 29 roundabout and the eastbound link road to A127 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-94	9G and MU89	Permanent acquisition required for: Improvements to the existing multi-lane M25 junction 29 circulatory, including construction of a new public right of way in the verge of the improved M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-95	9J and MU88	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-96	9D, 9E, 9F and 9P	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-97	9G and 9I	Permanent acquisition required for: Improvements to the existing multi-lane M25 junction 29 circulatory Improvements to the existing highway M25 junction 29 roundabout link roads, including improvement works to the two-lane link road between M25 junction 29 roundabout and the eastbound link road to A127
45-98	9G and 9I	Permanent acquisition required for: Improvements to the existing multi-lane M25 junction 29 circulatory Improvements to the existing highway M25 junction 29 roundabout link roads, including improvement works to the two-lane link road between M25 junction 29 roundabout and the eastbound link road to A127
45-101	9F and 9P	Permanent acquisition required for: Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-102	9D	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-103	9F, 9I, 9J, 9P, MU88 and MU90	Permanent acquisition required for: Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road Improvements to the existing highway M25 junction 29 roundabout link roads, including improvement works to the two-lane link road between M25 junction 29 roundabout and the eastbound link road to A127 Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-104	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-106	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-109	9D	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
45-113	9D, 9E, 9F, 9P and MU87	Permanent acquisition required for: Construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers
45-114	9P, 9U, MU85, MU86, MU87 and MUT32	Permanent acquisition required for: Construction of a new public right of way under the new A122 Lower Thames Crossing, including - construction of a new public right of way between the existing footpath FP176 and Warley Street - construction of a new private means of access between the new drainage pond and B186 local road Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-114 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers
45-115	9D and MU87	Permanent acquisition required for: Construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers
45-116	9F and 9P	Permanent acquisition required for: Improvements to a section of the existing highway A127 between the westbound carriageway of the A127 and the improved southbound carriageway of the M25 link road Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-117	9D and MU87	Permanent acquisition required for: Improvement of an existing link road between M25 northbound and M25 junction 29, including - construction of a new two-lane link road from the M25 northbound carriageway to M25 junction 29 link road - construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers
45-118	9D and MU87	Permanent acquisition required for: Construction of a new private means of access between the new public right of way and the existing M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the installation of poles and pole mounted transformers
45-119	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-122	9P, 9U and MU86	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-123	9U	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
45-124	9J, 9P and MU90	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-125	9J	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway
45-126	9P, 9Z and MU90	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-127	9Z and MU90	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-128	9J	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway
45-129	9J, 9Z and MU90	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-130	9P, 9Z and MU90	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-131	9Z	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway
45-133	9J, 9P, 9Z and MU90	Permanent acquisition required for: Improvement works to a section of the existing two-lane dual carriageway A127 highway Construction of a new public right of way between the existing footpath FP176 and Warley Street Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-134	9Z and MU90	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-135	9Z and MU90	Permanent acquisition required for: Construction of a new public right of way over the improved section of the A127 highway, including a new bridge to carry the new public right of way over the A127 highway Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
45-136	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-138	MU85 and MUT32	Permanent acquisition required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-156	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-157	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-162	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-163	9P	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street
45-170	9P and MU85	Permanent acquisition required for: Construction of a new public right of way between the existing footpath FP176 and Warley Street Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-05	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
46-07	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
46-10	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
46-14	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
46-15	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
46-16	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-17	9E and G10	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Installation of a high-pressure gas pipeline
46-18	9E, G10 and MU92	Permanent acquisition required for: Improvements to the existing highway M25 northbound Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-19	E50 and OSC12	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of new open space at Folkes Lane
46-20	E50, E52, G10 and ULH1	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of environmental works to create a compensatory habitat site for nitrogen deposition Installation of a high-pressure gas pipeline The establishment of a temporary utilities logistic hub for facilitating utility works
46-21	9E, G10 and MU92	Permanent acquisition required for: Improvements to the existing highway M25 northbound Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-22	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
46-27	E49	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-28	9E and MU92	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-29	9K and MU92	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-30	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-31	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-32	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-33	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-34	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-35	9V, E50 and MU92	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-36	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-36 Cont'd		Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-37	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-38	E50 and MU92	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-39	9E and MU92	Permanent acquisition required for: Improvements to the existing highway M25 southbound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-40	9E, 9L and MU92	Permanent acquisition required for: Improvements to the existing highway M25 southbound Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
46-41	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-42	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-43	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-44	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-45	9K	Permanent acquisition required for: Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-46	9E and 9K	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound Improvements to the existing two lane link road between M25 junction 29 roundabout and M25 northbound
46-47	9E and 9L	Permanent acquisition required for: Improvements to the existing highway M25 southbound Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout
46-48	9E, 9L and 9V	Permanent acquisition required for: Improvements to the existing highway M25 southbound Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
46-49	9V	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond
46-50	9E and 9L	Permanent acquisition required for: Improvements to the existing highway M25 southbound Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout
46-51	9V	Permanent acquisition required for: Modification to an existing drainage attenuation pond with associated drainage facilities, and construction of a private means of access to the drainage attenuation pond

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-53	9L	Permanent acquisition required for: Improvements to the existing two-lane link road between M25 southbound and M25 junction 29 roundabout
46-54	E52	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
47-01	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-02	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-03	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-04	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
47-05	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-06	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-07	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-08	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-09	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-10	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
47-11	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-12	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-13	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-14	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-15	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-16	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-17	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-18	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-19	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-20	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-21	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-22	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
47-23	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-24	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
47-25	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-27	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-28	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
47-29	E50 and OSC12	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of new open space at Folkes Lane
47-30	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

47-32	E50 and OSC12	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of new open space at Folkes Lane
47-33	E50 and OSC12	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of new open space at Folkes Lane

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
47-34	E50, E52 and ULH1	Permanent acquisition required for: Implementation of environmental mitigation works to create a site for ancient woodland planting, including the construction of new ecological ponds Implementation of environmental works to create a compensatory habitat site for nitrogen deposition The establishment of a temporary utilities logistic hub for facilitating utility works
47-35	E52	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
47-36	E52	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
47-37	E52	Permanent acquisition required for: Implementation of environmental works to create a compensatory habitat site for nitrogen deposition
48-01	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
48-02	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
48-03	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
48-04	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
48-05	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
48-06	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-01	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound

Table 1: Permanent Acquisition of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
49-02	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-03	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-04	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-05	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-06	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
49-07	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-08	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-09	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-10	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-11	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
49-12	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
49-13	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound

Table 1: Permanent Acquisition of Land - by plot number		
Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
49-14	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-15	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-16	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-17	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
49-18	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound
49-19	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-20	9E	Permanent acquisition required for: Improvements to the existing highway M25 northbound and existing highway M25 southbound
49-21	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound
49-22	9E	Permanent acquisition required for: Improvements to the existing highway M25 southbound

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
01-01	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-03	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-05	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-08	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-09	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-10	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-11	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-13	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-15	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
01-16	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-17	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-18	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-19	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-20	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-21	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
01-22	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-01	E2	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-03	E2	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
02-04	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-05	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-06	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-07	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-08	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-09	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-10	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
02-11	E1	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
03-02	G1a and MU1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-03	G1a and MU1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-07	MU2, MU3 and MU4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-14	G1a and MU1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-16	G1a and MU1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-17	G1a and MU1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-33	MU4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-87	MU3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-96	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-98	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-112	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-135	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-139	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-140	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-141	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-142	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-143	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-144	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
03-146	MU1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
04-03	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
04-07	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
04-08	MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
04-12	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
04-14	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
04-16	MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
04-17	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
04-38	CA2 and G1b	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-38 Cont'd		Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

04-266	G1a	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
04-268	G1a	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-274	E4 and G1a	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
05-07	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-08	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-09	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-10	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-11	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-12	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-13	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-14	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
05-15	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-16	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-17	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
05-18	MU8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-03	MU15 and MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-18	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-19	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-46	OH1	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
06-54	OH1	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-55	MU14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-56	1L, E5 and OH1	Acquisition of rights required for: Construction of a new permissive path between the improved public right of way and Jeskyns Community woodland Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
06-64	MU14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-67	MU14 and MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-72	G1b and MU16	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-78	G1b and MU16	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-91	2Q and MU16	Acquisition of rights required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-96	2Q and MU16	Acquisition of rights required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-98	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-99	2Q and MU16	Acquisition of rights required for: Construction of a new public right of way from Valley Drive to the existing public right of way footpath NS174 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-102	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-104	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-107	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-111	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-112	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-113	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-114	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-115	MU16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-117	MU14 and MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-121	E5, MU14, MU9, OH1 and OHT1	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
06-131	G1b and MU16	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-132	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-136	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-137	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-139	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-144	G1b and G2	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-151	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-152	G1b, G2, G3, MU17, OH1 and OHT1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
06-158	G1b, G2, G3, MU17 and OH1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
06-182	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
06-187	MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-188	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
06-204	E5	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
06-205	MU9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
06-207	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-208	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
06-209	G1b	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
07-01	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-02	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-04	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
07-05	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-09	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-11	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-15	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-17	MU15	Acquisition of rights over bridge surface required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-20	MU15	Acquisition of rights over bridge surface required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-22	MU15	Acquisition of rights over bridge surface required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-23	MU15	Acquisition of rights over bridge surface required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-26	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
07-27	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-28	MU15	Acquisition of rights over bridge surface required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-29	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-40	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-41	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
07-42	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-06	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-07	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-08	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
08-09	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-10	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-11	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-12	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-13	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-14	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
08-15	MU15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
10-05	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
10-06	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
10-07	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
10-08	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
10-09	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
10-10	E13	Acquisition of rights required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition, and the rights for access to maintain those environmental works
11-15	G1b and OH1	Acquisition of rights required for: Installation of a medium-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
11-24	G3 and OH1	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
11-38	MU18 and OH1	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
11-39	G3, MU18 and OH1	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-39 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
11-40	OH1	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
11-43	MU18	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
11-46	MU18	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
11-47	MU18	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
11-48	MU18	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
11-50	G3 and MU18	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
11-64	G4	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
11-70	G4	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-73	CA3, G4 and OH1	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
12-02	G4 and OH1	<p>Acquisition of rights required for:</p> <p>Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
12-06	MU20 and OH1	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works</p>
12-08	CA3 and MU20	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
12-09	CA3 and MU20	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
12-12	CA3 and MU20	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
12-13	MU20	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-14	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-15	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-16	MU20	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-17	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-18	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-19	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
12-19 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
12-20	MU20 and OH2	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and supports
13-12	MU23 and MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-13	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-14	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-15	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-16	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-17	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-18	MU23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-19	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-20	CA3 and MUT3	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-21	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-24	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-25	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-26	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-27	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-28	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-29	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-30	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-31	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-32	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-33	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-34	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-40	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-42	CA3 and MUT3	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-45	MUT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-54	CA3 and MU20	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-54 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-55	CA3 and MU20	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-56	CA3 and MU20	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-63	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-65	CA3, G4 and OH1	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
13-67	CA3, G4 and OH1	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Provision for temporary access for overhead lines diversion works
13-70	CA3 and MU20	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-70 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-71	CA3 and MU20	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-72	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-74	CA3 and OH1	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
13-75	CA3 and OH1	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
13-79	CA3 and OH1	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
13-85	CA3 and MU20	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-89	CA3 and MU20	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
13-90	CA3 and MU20	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-02	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-04	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-05	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-10	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-10 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
16-11	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-12	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-17	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-18	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-19	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-20	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-21	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-22	CA5, MU27, MUT4 and MUT5	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Utility works, including the installation of a substation to power the tunnel boring machine at the northern portal, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-30	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-31	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-32	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
16-44	5A, 5O and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Construction a new public right of way along the existing footpath FP146</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-45	5A	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p>
16-46	5A	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p>
16-49	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-54	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-55	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-56	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-57	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-58	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-59	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-60	5A, 5O and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Construction a new public right of way along the existing footpath FP146</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
16-62	5A, 5O and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Construction a new public right of way along the existing footpath FP146</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-63	5A, 5O and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Construction a new public right of way along the existing footpath FP146</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
19-05	E17	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
20-01	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-06	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-07	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-08	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-09	CA5, MU27 and MUT4	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-10	OH3	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-11	CA5 and OH3	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-12	OH3	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-13	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-14	MU27 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-15	OH3	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-16	OH3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-17	OH3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-18	CA5, MU28, OH3 and OH4	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-19	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-20	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-21	MU28 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
20-22	MU28 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-23	CA5 and OH3	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-24	CA5 and OH3	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-25	CA5 and OH3	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-28	OH3	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-32	OH3	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
20-41	CA5, MU27, MU29, MUT7, MUT8 and MUT9	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-42	CA5, MU27, MUT4 and MUT5	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-42 Cont'd		<p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Utility works, including the installation of a substation to power the tunnel boring machine at the northern portal, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-47	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-48	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-49	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-50	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-55	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-56	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-57	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-61	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-75	5U, CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Construction of a new public rights of way along the existing footpath FP200</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
20-76	5U, CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Construction of a new public rights of way along the existing footpath FP200</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-99	5A and CA5	<p>Acquisition of rights required for:</p> <p>Construction of a new outfall from the north portal to the River Thames, including rights to construct, operate, protect and maintain the outfall</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p>
21-13	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
21-14	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
21-15	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
21-16	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
21-17	MU27	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
21-20	CA5 and MU27	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
21-21	CA5, MU27 and MUT4	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-23	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-24	CA5, MU27 and MUT4	Acquisition of rights required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-25	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-26	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-28	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
21-29	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-04	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-04 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-05	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-06	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-08	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-10	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-14	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-25	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-25 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-27	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-29	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-30	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-31	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-32	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-33	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-34	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-34 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-36	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-37	E16 and MUT11	Acquisition of rights required for: Provision for temporary access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-38	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-41	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-42	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-43	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-44	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-49	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
22-50	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-51	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-52	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-53	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-54	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
22-55	MUT11	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-01	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-02	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-03	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-04	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-05	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-06	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-07	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-08	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-09	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-10	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-11	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-12	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-13	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-14	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-15	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-16	E18 and MU29	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-17	E18	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
23-18	MU29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-19	E18, MU29 and MUT8	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-20	E18	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-21	E18	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
23-22	E18	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
23-24	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-25	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-26	MU27 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-27	MUT8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-28	MU27 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-29	MU27, MU28 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-29 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-30	CA5, CA5A, MU27, MU28, MU29, MU30, MUT7, MUT8, MUT9, OH3, OH4 and TFGP1	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Temporary satellite construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p> <p>Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain</p>
23-31	MUT8	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
23-32	MUT8	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
23-33	MU28, MU29 and MUT8	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
23-34	MUT8	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
23-41	OH5	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-44	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-45	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-46	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-47	5K, FCA1, MU33, OH4 and ULH12	Acquisition of rights required for: Modification of an existing irrigation reservoir and the diversion and modification of irrigation infrastructure, including possible provision of a new groundwater abstraction well Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works The establishment of a temporary utilities logistic hub for facilitating utility works
23-48	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-49	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-50	FCA1, MU33, OH4, OH5 and OHT2	Acquisition of rights required for: Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-50 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-53	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-54	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-55	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-56	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-57	MU33 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-58	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
23-59	MU28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-60	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-61	MU28, MU33 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
23-62	MU28	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
23-63	MU27, MU28, MU30, MUT9 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
23-64	MU27, MU28, MU30, MU32, MUT9 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
23-65	MU27, MU28, MU30, MUT9 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
23-66	OH4	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
23-67	OH4	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-69	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-71	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-72	MU28, OH3 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-76	5K, FCA1, MU28, MU33 and OH3	Acquisition of rights required for: Modification of an existing irrigation reservoir and the diversion and modification of irrigation infrastructure, including possible provision of a new groundwater abstraction well Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-88	MU28 and OH3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-90	MU28 and OH3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-90 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-91	MU28 and OH3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-95	MU28, MU30, MU31, MU32 and OH3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-97	MU30 and OH3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
23-104	MU33	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-105	MU33	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-107	MU33	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-108	5U and MU27	Acquisition of rights required for: Construction of a new public rights of way along the existing footpath FP200

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-108 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-109	MU33	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-110	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-112	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-120	5U and MU27	Acquisition of rights required for: Construction of a new public rights of way along the existing footpath FP200 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-121	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-123	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-125	CA5 and MU31	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-127	MU27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-128	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-129	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-130	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-132	CA5 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
23-133	CA5, MU27, MUT10 and MUT6	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:

24-49	MU36 and OH5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works</p>
24-53	OH5	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
24-56	MU36	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-59	MU36	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-62	MU34, MU36 and OH5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-62 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-63	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-67	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-68	MU36	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-69	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-80	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-81	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-82	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-83	OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-84	OH3, OH4 and OHT2	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-90	MU36	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-91	MU36, OH3, OH4 and OHT2	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-92	OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-93	OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-95	MU28, MU36, MUT6, OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-96	MU36, OH4 and OHT2	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-98	OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-99	OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-100	MU28, MU36, OH3, OH4, OHT2 and OHT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-103	MU36, OH4 and OHT2	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-105	MU36, OH4 and OHT2	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-109	MU36, OH4, OHT2 and OHT3	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-112	MU34 and OH4	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-112 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
24-113	MU34 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
24-116	5W, MU28, MU34, MUT6, OH3, OH4 and ULH11	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
24-120	5W and OH4	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
24-121	5W and OH4	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
24-123	5W and OH4	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-124	5W, MU28, OH3, OH4 and ULH11	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
24-126	MU36	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-129	MU36	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-130	MU36	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-133	MUT6	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
24-136	MU34, MU35, MU36, MUT6 and OH4	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works</p>
24-148	MUT6	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-150	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-152	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-153	MU34	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-160	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-161	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-162	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-163	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-165	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-168	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-174	5W and MUT6	Acquisition of rights required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
24-176	MUT6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-01	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-02	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-03	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-04	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-05	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-06	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-07	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-08	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-09	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-10	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-11	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-12	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-13	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-14	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-15	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-16	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-17	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-18	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-19	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-20	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-21	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-22	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-23	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-24	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-25	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-26	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-27	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-28	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-29	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-30	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-31	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-32	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-33	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-34	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-35	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-36	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-37	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-38	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-39	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-40	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-41	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-42	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-43	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-44	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-45	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-46	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-47	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-48	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-49	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-50	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-51	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-52	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-53	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-54	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-55	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-56	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-57	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-58	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-59	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-60	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-61	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-62	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-63	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-64	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-65	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-66	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-67	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-68	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-69	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-70	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-71	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-72	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-73	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-74	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-75	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-76	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-77	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-78	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-81	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-82	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-83	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-84	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-85	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-86	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-87	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-88	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-89	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-90	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-91	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-92	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-93	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-95	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-98	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-99	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-101	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-102	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-106	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
25-109	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
25-111	MU35	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-17	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-18	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-19	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-20	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-21	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-22	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-23	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-25	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-26	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-27	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-28	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-29	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-30	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-31	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-32	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-33	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-35	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-36	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-37	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-38	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-39	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-40	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-41	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-42	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-44	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-45	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-46	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-47	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-48	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-49	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-50	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-51	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-52	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-53	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-54	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-55	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-56	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-57	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-58	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-59	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-60	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-61	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-62	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
26-63	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-64	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-65	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
26-66	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-01	E21 and E22	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-02	MU37, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-06	OH6 and OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-09	MU37, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-11	MU37, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-12	MU37, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-16	OH6 and OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-25	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-27	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-36	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-37	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-38	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-39	MU37	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
27-41	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-42	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-44	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-45	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-47	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-48	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-50	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-51	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-53	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-54	OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-57	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-58	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-59	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-60	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-61	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-62	E21	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
27-67	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-68	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-69	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-70	OH4 and OH5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works Provision for temporary access for overhead lines diversion works
27-71	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-74	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-75	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-76	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-77	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-78	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-79	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-80	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-81	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-82	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-83	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-84	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-85	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-86	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-87	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-88	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-89	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-90	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-91	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-92	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-93	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-94	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-95	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-96	OH4	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
27-97	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
27-98	OH4	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
28-01	MU47, MUT16, MUT18, OH6, OH7, OHT4, OHT5 and ULH9	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works The establishment of a temporary utilities logistic hub for facilitating utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-02	MU47, MU48 and MUT16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-03	MU47, MUT16, MUT18, OH6 and OHT5	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
28-04	MU47, MU48, MUT16, MUT18, OH6 and OHT5	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
28-05	7S, CA7, MU40, MU41, MU47, MUT13, MUT16, MUT17 and MUT18	Acquisition of rights required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-06	MU47, MUT16, MUT18, OH6, OH7, OHT4 and OHT5	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
28-08	CA7, E28 and MU41	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-08 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-09	MU47, MU48, MUT16, MUT18, OH6, OH7 and OHT5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
28-11	MU47, MU48, MUT16, MUT18 and OHT5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
28-12	MU47, MU48, MUT16 and MUT18	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-13	MU47, MUT16, MUT18, OH6 and OHT5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
28-14	MU47, MUT16 and MUT18	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-15	MU47, MUT16, MUT18, OH6 and OHT5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-21	MU47, OH6 and OHT5	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
28-27	7S, MU41 and MU47	<p>Acquisition of rights required for:</p> <p>Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-30	7S, MU41 and MU47	<p>Acquisition of rights required for:</p> <p>Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-35	7S, MU41 and MU47	<p>Acquisition of rights required for:</p> <p>Construction of a new private means of access from the new Hornsby Lane turning head north of the new A122 Lower Thames Crossing to Heath Place</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-37	7S and MU47	<p>Acquisition of rights required for:</p> <p>Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-38	MU40 and MUT13	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-39	7S and MU47	<p>Acquisition of rights required for:</p> <p>Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-39 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-42	CA6, E27, MU41 and MU47	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-45	MU41	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-46	MU41	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-49	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-50	MU39 and MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-51	MU39 and MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-52	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-53	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-54	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-56	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-57	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-59	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-60	MU40, MUT13, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
28-61	MUT14	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-64	CA6, E27 and MU41	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-64 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-67	7B, CA6, MU40, MU41, MUT12, MUT13, MUT15 and ULH10	<p>Acquisition of rights required for:</p> <p>Construction of a new private means of access from the improved Brentwood Road</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
28-69	MUT14	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-70	MUT14	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-71	MUT14	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-72	MUT14	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-73	MUT14	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
28-98	MU40 and MUT13	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-100	MU40 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-103	MU40 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-106	MU38, MU40, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
28-124	G5, MU39, MU40, MUT12 and MUT15	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-125	MU39, MU40 and MUT12	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-127	MU40 and MUT12	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-128	G5, MU40 and MUT12	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-129	MU39 and MU40	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-131	MU39, MU40 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-132	G5, MU39, MU40 and MUT15	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-133	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-134	MU40, MU41 and MUT12	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-135	MU40	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
28-137	MU38 and MUT12	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-139	MU38	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-141	MU38	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
28-143	OH6 and OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-03	CA8A, E30, MU54, MU55, MU56, MUT20, OH6, OH7 and OHT6	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-04	E30, MU55, MU56, MUT20, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-10	MU56	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
29-11	MU55, MU56, MUT16, OH6, OH7 and OHT6	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-13	MU56, OH6 and OHT6	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-17	MU55, MU56, MUT16, MUT20, OH6, OH7 and OHT6	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-20	CA8A, MU55, MU56, MUT16, MUT20, OH6, OH7 and OHT6	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-26	OH6	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-49	MU47, MU55, MUT16, MUT20, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
29-61	MU52 and MUT13	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
29-62	MU52 and MUT13	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
29-63	MU52 and MUT13	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-65	MU52 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-113	7G	Acquisition of rights required for: Improvements to Woolings Close, and the rights and restrictive covenants to construct, protect, operate, access and maintain the improvements
29-115	7G and MU53	Acquisition of rights required for: Improvements to Woolings Close, and the rights and restrictive covenants to construct, protect, operate, access and maintain the improvements Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-140	MU53	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-202	MU50	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-205	MU50	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-211	MU53	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-212	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-213	MU47, MU49, MUT16, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-213 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-215	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-231	MU47, MU49, MUT16, MUT18, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-236	MU49 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-237	MU49 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-238	MU47, MU49, MUT16, MUT18, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-242	MU47, MU49, MUT16, MUT18, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-242 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-247	MU49 and MUT18	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-248	MU47, MU48, MUT16, MUT18, OH6, OH7, OHT4 and OHT5	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-249	MU49	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-250	MU49	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-258	MU41 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-262	MU47 and MUT16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-263	MU47	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-264	MU46	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-266	MU47	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-267	MU47 and MUT16	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-268	MU41 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-277	OH6, OH7, OHT4 and OHT5	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
29-282	E30 and MU57	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
29-283	E30, MU54, MU55, MU57, MUT20 and OH6	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
30-01	CA13, E38, OH6 and OH7	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works Provision for temporary access for overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-02	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-04	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-05	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-06	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-07	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-08	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-09	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-10	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-11	CA13, E38, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Provision for temporary access for overhead lines diversion works</p>
30-74	MUT23	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
30-75	MUT23	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
30-76	MUT23	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
30-77	MUT23	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-78	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
30-79	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
30-80	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-07	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
31-10	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-11	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
31-14	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-15	G6 and MU42	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-16	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
31-17	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-20	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-21	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
31-22	MU42	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-05	MU46	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-11	G6 and MU46	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-15	G6 and MU46	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-16	G6 and MU46	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-17	G6 and MU46	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-18	MU46	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-25	MU46, MU47 and MUT17	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-33	MU47	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-35	MU47	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-36	MU47	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-39	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-44	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-48	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-49	7X, MU41 and MU43	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-55	MU43	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-58	G6 and MU45	<p>Acquisition of rights required for:</p> <p>To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-59	G6 and MU45	<p>Acquisition of rights required for:</p> <p>To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-63	G6, MU45 and MUT19	<p>Acquisition of rights required for:</p> <p>Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-84	7X and MU43	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
32-91	MU43 and MUT19	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-93	G6 and MUT19	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-103	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-110	MUT19	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-111	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-116	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-118	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-120	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-122	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-124	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-125	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-128	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-129	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-130	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-133	G6	Acquisition of rights required for: Provision for access for works involving the installation of a high-pressure gas pipeline, and rights for access to maintain the pipeline
32-135	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-136	MU39, MU43 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-138	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-139	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-140	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-141	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-142	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-143	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-144	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
32-145	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-148	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-155	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-156	G6b	Acquisition of rights required for: Installation of a isolation valve, and the rights and restrictive covenants to construct, protect, operate, access and maintain the valve
32-157	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-159	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-160	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-163	G6b	Acquisition of rights required for: Installation of a isolation valve, and the rights and restrictive covenants to construct, protect, operate, access and maintain the valve

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-164	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-168	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-169	MU43	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-170	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-171	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-172	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-173	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-174	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
32-177	E22	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-178	E22	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
32-179	MU39 and MUT15	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-01	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
33-02	CA9, MU60 and MUT23	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-03	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
33-05	G6, MU55, MUT13, MUT24, OH6, OH7 and OHT7	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
33-08	CA9, MU60 and MUT23	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-08 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-17	OH6, OH7 and OHT7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
33-24	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-30	CA9, MU55, MU57, MU58, OH6, OH7 and ULH7	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works The establishment of a temporary utilities logistic hub for facilitating utility works
33-35	MU54, MU55, MU57, MUT20 and OH6	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
33-36	CA10, E34, G6, MU55, MU60, MUT13, MUT21 and MUT22	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-47	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-48	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-49	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-53	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-54	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-55	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-56	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-61	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-66	MU59 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-67	MU59 and MU60	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-68	MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-69	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-70	MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-71	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-77	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-78	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-79	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-80	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-81	MU59, MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-82	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-83	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-84	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-86	G6 and MUT22	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-87	E33 and MUT22	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-88	G6 and MUT22	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-89	G6 and MUT22	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-89 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-90	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-91	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-93	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-94	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-98	MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-99	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-100	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-101	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-103	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-104	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-105	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-106	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-107	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-108	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-109	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-110	MU52, MU60, MUT21 and MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-112	MU52, MU60, MUT21 and MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-113	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-114	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-115	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-116	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-117	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-118	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-119	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-120	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-121	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-122	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-123	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-124	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-125	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-126	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-127	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-128	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-129	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-130	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-131	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-132	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-133	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-134	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-135	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-136	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-137	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-138	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-139	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-140	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-141	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-142	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-143	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-144	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-145	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-146	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-147	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-148	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-149	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-150	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-151	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-152	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-153	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-154	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-155	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-156	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-157	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-158	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-159	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-160	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-161	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-162	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-163	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-164	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-165	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-166	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-167	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-168	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-169	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-170	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-171	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-172	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-173	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-174	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-175	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-176	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-177	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-178	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-180	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-181	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-182	MU52 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-183	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-184	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-185	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-186	MU52	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-187	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-188	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-189	MU52 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-190	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-191	MU52 and MUT13	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-192	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-194	E32	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
33-195	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-196	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-197	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-199	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-200	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-201	7G	Acquisition of rights required for: Improvements to Woolings Close, and the rights and restrictive covenants to construct, protect, operate, access and maintain the improvements
33-202	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-203	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-205	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-206	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-207	7G	Acquisition of rights required for: Improvements to Woolings Close, and the rights and restrictive covenants to construct, protect, operate, access and maintain the improvements
33-208	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-209	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-210	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-211	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-212	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-215	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-217	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-219	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-220	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-221	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-222	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-225	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-227	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-228	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-229	E32	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
33-230	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-231	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-232	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-233	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-236	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-238	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-239	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-240	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-241	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-243	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-244	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-245	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-246	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-247	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-248	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
33-250	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
33-251	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-252	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-253	G6, MU60 and MUT21	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-256	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-258	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-260	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-261	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-262	G6, MU60 and MUT21	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-264	G6, MU60 and MUT21	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-266	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
33-267	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-269	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-270	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-271	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-272	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-273	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
33-274	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-275	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-277	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
33-278	G6 and MU46	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-279	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-283	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-284	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-286	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-287	MU60 and MUT21	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
33-290	MU46	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-01	CA13, E38, MUT24, OH6 and OH7	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-02	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-03	CA13, E38, MUT24, OH6 and OH7	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-05	CA13, E38, MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p> <p>Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>
34-06	MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>
34-13	MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>
34-15	MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>
34-17	MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>
34-19	MUT24, OH6 and OH7	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Provision for temporary access for overhead lines diversion works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-23	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-24	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-25	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-26	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-30	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
34-31	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
34-33	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-38	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-39	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-40	MUT23	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-41	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-42	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-43	MUT24, OH6 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Provision for temporary access for overhead lines diversion works
34-44	CA9, MU60 and MUT23	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
34-45	G6	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
35-01	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-02	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
35-03	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-05	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
35-06	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
35-07	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-08	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
35-09	E36 and OH7	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
35-10	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-11	E36 and OH7	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
35-13	E36, FCA3 and OH7	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p> <p>Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
35-19	E36	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
35-20	E36	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
35-21	E36	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
35-32	CA11, MUT13, MUT22 and MUT25	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
35-33	MUT22 and MUT25	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-34	MUT25	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-35	MUT25	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-36	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-37	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-38	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
35-42	MUT22	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
36-01	E38	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
36-02	CA13, E38 and MUT24	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
36-03	E38	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
36-05	CA13 and E38	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
36-06	MUT24	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
37-05	E37 and E39	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
37-06	E37 and E39	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
37-07	E37 and E39	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
38-01	8M, CA13, MU64, MU65, MUT26 and MUT27	Acquisition of rights required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
38-03	MU64 and MUT27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-13	MU65	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
38-14	CA13 and E40	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-15	MU64	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
38-20	MU63	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
38-22	8M, G8, MU63 and OH7	Acquisition of rights required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136 Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
38-24	CA13 and E40	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-25	8M and OH7	Acquisition of rights required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-25 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
38-31	G8 and MU63	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
38-32	G8, MU62, MU63, OH7, OHT8 and ULH4	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works The establishment of a temporary utilities logistic hub for facilitating utility works
38-33	MU62, MU63 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
38-34	E40	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
38-35	OH7 and OHT8	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
38-38	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-40	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-41	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-42	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-43	8J and E36	Acquisition of rights required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-44	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-46	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-47	E36, FCA4 and MU61	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-49	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-51	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-52	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
38-53	E36 and FCA3	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area
38-54	E36 and FCA3	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area
38-55	E36 and FCA3	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area
38-59	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-60	8J and E36	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
38-61	8J and E36	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
38-64	E36	<p>Acquisition of rights required for:</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
38-65	8J and E36	<p>Acquisition of rights required for:</p> <p>Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p>
39-04	G9	<p>Acquisition of rights required for:</p> <p>Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline</p>
39-06	MU71	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
39-13	CA14 and MUT29	<p>Acquisition of rights required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
39-16	MU71	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-17	MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-18	MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-20	8D and MUT29	Acquisition of rights required for: Construction of a new public right of way from the realigned North Road to the new public right of way to Church Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-21	MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-23	G9, MU68, MU69 and MU70	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-27	MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-28	MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-29	MUT28 and MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-30	MU69	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-31	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-32	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-33	8D, MUT28 and MUT29	Acquisition of rights required for: Construction of a new public right of way from the realigned North Road to the new public right of way to Church Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-50	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-52	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-54	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-55	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-57	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-59	MU66	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-65	8M, MU69 and MUT26	Acquisition of rights required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-66	MU69 and MUT26	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-67	G9, MU69 and MUT27	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-72	MUT27	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-78	G8, MU64 and MUT27	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
39-82	E42	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
39-83	8M, E42 and MUT26	Acquisition of rights required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-83 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
40-22	G9 and MU71	Acquisition of rights required for: Diversion of existing gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
41-01	E42	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
41-02	E42	Acquisition of rights required for: Provision for access for environmental mitigation works to create a site for protected species, and the rights for access to maintain those environmental works
41-03	E42	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-04	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-05	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-08	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-10	MUT26 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-11	8M and MUT26	Acquisition of rights required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
41-13	OH7	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
41-14	OH7	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
41-23	MU63, MUT26 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-24	MU63 and OH7	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-32	OH7	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
41-33	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-34	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-35	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-36	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-37	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-38	8J and E36	Acquisition of rights required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-40	8M and E36	Acquisition of rights required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136 Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-41	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-42	E36	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
41-43	8J and E36	Acquisition of rights required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-01	E43	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
42-02	E43	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
42-03	E43	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
42-05	MU72, MU75 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-06	MU72, MU75 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-08	MU72 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-09	MU72 and MU75	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-10	MU72 and MU75	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-11	MU72, MU75 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-12	MU72 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-13	MU72 and MU75	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-14	MU72, MU73 and MU75	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-16	MU75	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-17	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-21	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-22	MU75 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-23	MU75 and MUT30	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-24	MU76, MU77 and MUT30	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-25	MU75, MU76 and MUT30	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-34	MU73	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-115	MU73, MU74 and MU76	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-131	CA15A and MU76	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-132	CA15A and MU76	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-133	CA15A and MU76	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-134	CA15A and MU76	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-139	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-140	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-141	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-142	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-143	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-144	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-145	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-146	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-147	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-148	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-149	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-150	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-151	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-152	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-153	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-154	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-155	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-156	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-157	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-158	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-159	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-160	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-161	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-162	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-163	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-164	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-165	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-166	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-167	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-168	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-169	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-170	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-171	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-172	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-173	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-174	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-175	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-176	MUT28 and MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-177	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-178	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-179	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-180	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-181	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-182	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-183	MUT28 and MUT29	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-184	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
42-185	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-01	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-02	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-03	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-05	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-07	9O, MU72, MU78 and OH8	Acquisition of rights required for: Construction of a new permissive path over the new A122 Lower Thames Crossing and the improved section of the M25 Junction Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
43-09	MU72, MU78 and OH8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-09 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
43-18	9O, MU72, MU78 and OH8	<p>Acquisition of rights required for:</p> <p>Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-19	9O, E46, MU72 and OH8	<p>Acquisition of rights required for:</p> <p>Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert</p> <p>Implementation of environmental mitigation works to create a site for protected species, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-35	OH8	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-47	OH8	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-53	OH8	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-54	CA15A and MUT28	<p>Acquisition of rights required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-54 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-55	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-56	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-57	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-58	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-59	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-60	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-61	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-62	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-81	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-89	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-91	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-92	CA15A and MUT28	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-96	OH8	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-97	OH8	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
43-99	OH8	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
43-100	OH8	Acquisition of rights required for: Provision for access for Overhead lines diversion works, and the rights for access to maintain those overhead line diversion works
43-103	MUT28	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
43-104	90, MU72, MU78 and OH8	Acquisition of rights required for: Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
43-105	MU72 and OH8	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
43-106	OH8	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works
43-107	OH8	Acquisition of rights required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-108	MU72, MU78 and OH8	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-109	OH8	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-110	OH8	<p>Acquisition of rights required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons, and the rights and restrictive covenants to construct, protect, operate, access and maintain those overhead lines diversion works</p>
43-111	MU78	<p>Acquisition of rights required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
44-01	FCA7	<p>Acquisition of rights required for:</p> <p>Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area</p>
44-02	FCA7	<p>Acquisition of rights required for:</p> <p>Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area</p>
44-03	FCA7	<p>Acquisition of rights required for:</p> <p>Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area</p>
44-05	FCA7 and MU72	<p>Acquisition of rights required for:</p> <p>Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-06	FCA7	Acquisition of rights required for: Construction of a new flood compensation area, including rights and restrictive covenants to construct, protect, operate, access and maintain the flood compensation area
44-08	9O and MU72	Acquisition of rights required for: Construction of a new permissive path from Thames Chase Forest, a new permissive path to the new culvert and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-09	MU79, MU80, MU82 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-10	MU80	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-11	MU86	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-13	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-14	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-16	MU84	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-17	MU79, MU80, MU82 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-20	MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-44	MU80	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-68	MU81 and MU84	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-80	MU81 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-81	MU72, MU79, MU81, MU82 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-84	MU80	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-86	MU72, MU79, MU80, MU81, MU82 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-88	MU72, MU79, MU80 and MU82	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-89	MU80 and MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-90	MU84	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-91	MU72, MU79, MU80, MU81, MU82 and MU83	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-94	MU72	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-95	MU80 and MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-96	MU80 and MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-98	MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-99	MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
44-100	MU81	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-112	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
44-120	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
44-121	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
44-122	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
44-123	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
44-124	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
45-10	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-11	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-19	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-21	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-23	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-24	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-25	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-26	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-29	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-31	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-33	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-38	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-42	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-50	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-52	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-62	MU91	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-66	9H and MU91	Acquisition of rights required for: Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-71	MU88	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-72	9H and MU88	Acquisition of rights required for: Improvements to the existing two-lane link road between A127 eastbound and M25 junction 29 roundabout Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-87	MU87	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, the installation of poles and pole mounted transformers, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-89	MU87	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, the installation of poles and pole mounted transformers, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-99	9I and MU88	Acquisition of rights required for: Improvement works to the existing private means of access between the improved M25 junction 29 roundabout and Codham Hall Lane. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-100	9I and MU88	Acquisition of rights required for: Improvement works to the existing private means of access between the improved M25 junction 29 roundabout and Codham Hall Lane. Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-108	MU87	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, the installation of poles and pole mounted transformers, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-110	MU87	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
45-111	MU86 and MU87	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, the installation of poles and pole mounted transformers, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-112	MU87	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
45-120	9P	Acquisition of rights required for: Construction of protection measures for retention of the existing infrastructure, and the rights and restrictive covenants to construct, protect, operate, access and maintain those protection measures
45-121	CA16, MU85, MU87 and MUT32	Acquisition of rights required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-121 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, the installation of poles and pole mounted transformers, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-155	CA16, MU85 and MUT32	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-158	CA16 and MU85	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-160	CA16, MU85 and MUT32	Acquisition of rights required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-165	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-168	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-169	MU85 and MUT32	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-171	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
45-172	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-173	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-174	MU85	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
45-175	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
45-176	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
45-177	MU84	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
46-04	E51	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works
46-06	E51, G10 and ULH2	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline The establishment of a temporary utilities logistic hub for facilitating utility works
46-08	G10	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline

Table 2: Acquisition of Rights and Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
46-09	G10	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
46-11	G10	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
46-12	G10	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
46-13	G10	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline
46-23	MU92	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
46-24	MU92	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
46-25	MU92	Acquisition of rights required for: Provision for access for utility works, and the rights for access to maintain those utility works
46-26	MU92	Acquisition of rights required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
46-55	G10 and ULH2	Acquisition of rights required for: Installation of a high-pressure gas pipeline, and the rights and restrictive covenants to construct, protect, operate, access and maintain the pipeline The establishment of a temporary utilities logistic hub for facilitating utility works
47-26	E51	Acquisition of rights required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds, and the rights and restrictive covenants to construct, protect, operate, access and maintain those environmental mitigation works

Table 3: Acquisition of Subsoil and Restrictive Covenants - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
14-04	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-05	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-06	4A and 4B	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel
14-07	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-08	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-09	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-10	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-12	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-13	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound
14-14	4C	Acquisition of subsoil and restrictive covenants required for: Provision of a directional drill pipe from construction compound

Table 3: Acquisition of Subsoil and Restrictive Covenants - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
14-15	4A and 4B	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p>

15-11	4A	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>
15-12	4A	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>
15-13	4A	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>
15-14	4A	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>
15-15	4A	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>

Table 3: Acquisition of Subsoil and Restrictive Covenants - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
15-16	4A	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works
15-20	4A and 4B	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel
16-41	4A	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works
16-42	4A	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works
16-43	4A	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works

Table 4: Acquisition of Subsoil and Restrictive Covenants and Temporary Possession of Land at the Surface - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-38	4A and CA3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p>
13-41	4A and CA3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p>
13-46	4A, CA3, MU20, MU22, MU24 and MUT3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
13-47	4A, CA3, MU20, MU24 and MUT3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
13-48	4A, CA3, MU24 and MUT3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p>

Table 4: Acquisition of Subsoil and Restrictive Covenants and Temporary Possession of Land at the Surface - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-48 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
13-50	4A and CA3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p>
14-11	4A, 4B, CA3, CA3A, MU25, MU26 and MUT3	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Temporary satellite construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
14-16	4A, 4B and MU26	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works</p>
14-17	4A, 4B and MU26	<p>Acquisition of subsoil and restrictive covenants required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p>

Table 4: Acquisition of Subsoil and Restrictive Covenants and Temporary Possession of Land at the Surface - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
14-17 Cont'd		Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
14-18	4A, 4B and MU26	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Utility works, including the installation or diversion of underground utilities within a multi-utility corridor, and the rights and restrictive covenants to construct, protect, operate, access and maintain those utility works
15-17	4A, 4B and CA3B	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Temporary satellite construction compound at surface for facilitating main works
15-18	4A, 4B and CA3B	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Temporary satellite construction compound at surface for facilitating main works
15-19	4A, 4B and CA3B	Acquisition of subsoil and restrictive covenants required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works

Table 4: Acquisition of Subsoil and Restrictive Covenants and Temporary Possession of Land at the Surface - by plot number		
Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
15-19 Cont'd		Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Temporary satellite construction compound at surface for facilitating main works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
01-01	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-03	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-05	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-08	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-09	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-10	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-11	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-13	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-15	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-16	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-17	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-18	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
01-19	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-20	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-21	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
01-22	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-01	E2	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-03	E2	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-04	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-05	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-06	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-07	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-08	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-09	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
02-10	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
02-11	E1	Temporary possession required for: Provision for access for environmental works to create a compensatory habitat site for nitrogen deposition
03-02	G1a and MU1	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-03	G1a and MU1	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-04	1K	Temporary possession required for: Improvement works to the existing public right of way along footpath NS179
03-07	MU2, MU3 and MU4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-08	1K	Temporary possession required for: Improvement works to the existing public right of way along footpath NS179
03-14	G1a and MU1	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-16	G1a and MU1	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-17	G1a and MU1	Temporary possession required for: Installation of a medium-pressure gas pipeline

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-17 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-33	MU4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-36	1K	Temporary possession required for: To facilitate the construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and to provide temporary storage, laydown areas and working space
03-80	1K	Temporary possession required for: To facilitate the construction of a new public right of way from drainage pond to the improved public right of way south of the improved A2 mainline, and to provide temporary storage, laydown areas and working space
03-87	MU3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-96	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-98	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-112	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-135	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-139	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-140	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
03-141	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-142	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-143	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-144	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
03-146	MU1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-03	G1b	Temporary possession required for: Installation of a medium-pressure gas pipeline
04-07	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-08	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-12	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-14	G1b	Temporary possession required for: Installation of a medium-pressure gas pipeline
04-16	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-17	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-25	1L	Temporary possession required for: Improvement works of the existing public right of way to a section between Halfpence Lane roundabout to Jeskyns Community woodland
04-28	1L	Temporary possession required for: Improvement works of the existing public right of way to a section between Halfpence Lane roundabout to Jeskyns Community woodland
04-37	1E and 1L	Temporary possession required for: Construction of a new permissive path from Halfpence Lane roundabout to road leading to Scalers Hill House Improvement works of the existing public right of way to a section between Halfpence Lane roundabout to Jeskyns Community woodland
04-38	CA2 and G1b	Temporary possession required for: Temporary construction compound at surface for facilitating main works Installation of a medium-pressure gas pipeline
04-42	CA2, G1b, MU10 and OH2	Temporary possession required for: Temporary construction compound at surface for facilitating main works Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and supports
04-45	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-46	1L	Temporary possession required for: Improvement works of the existing public right of way to a section between Halfpence Lane roundabout to Jeskyns Community woodland
04-58	G1b, MU10 and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and supports

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-61	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-63	G1b and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and supports
04-72	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-89	E4, G1a, G1b, MU10, MU11 and MUT1	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-92	G1b, MU10 and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and supports
04-93	G1b and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and supports
04-94	G1b and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and supports
04-96	1H	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Thong Lane over the improved section of the A2 mainline, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
04-98	G1b and OH2	Temporary possession required for: Installation of a medium-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and supports
04-99	E4	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-100	1H	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Thong Lane over the improved section of the A2 mainline, and to provide temporary storage, laydown areas and working space
04-101	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-103	1H	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Thong Lane over the improved section of the A2 mainline, and to provide temporary storage, laydown areas and working space
04-108	E4	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
04-109	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-122	E5	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
04-123	1E	Temporary possession required for: Construction of a new permissive path from Halfpence Lane roundabout to road leading to Scalpers Hill House
04-128	MU9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
04-137	E4	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-15	G1b and OH1	Temporary possession required for: Installation of a medium-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-24	G3 and OH1	Temporary possession required for: Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-38	MU18 and OH1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-39	G3, MU18 and OH1	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-40	OH1	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-43	MU18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-46	MU18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-47	MU18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-48	MU18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-50	G3 and MU18	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
11-52	G3	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
11-53	G3	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
11-54	G3	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
11-56	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-57	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-59	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-60	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-61	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-62	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-63	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
11-64	G4	Temporary possession required for: Installation of a high-pressure gas pipeline
11-65	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-67	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
11-68	G4	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
11-69	G4	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
11-70	G4	Temporary possession required for: Installation of a high-pressure gas pipeline
11-71	OH2 and ULH13	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports The establishment of a temporary utilities logistic hub for facilitating utility works
11-73	CA3, G4 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
11-75	ULH13	Temporary possession required for: The establishment of a temporary utilities logistic hub for facilitating utility works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
11-76	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
12-01	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
12-02	G4 and OH1	Temporary possession required for: Installation of a high-pressure gas pipeline Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
12-03	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
12-04	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
12-05	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
12-06	MU20 and OH1	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for access for overhead lines diversion works
12-07	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
12-08	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
12-09	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-12	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-13	MU20	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-14	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-15	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-16	MU20	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-17	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
12-18	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-56 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-60	3P, CA3 and OH1	<p>Temporary possession required for:</p> <p>Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Provision for temporary access for overhead lines diversion works</p>
13-61	3P, CA3 and OH1	<p>Temporary possession required for:</p> <p>Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Provision for temporary access for overhead lines diversion works</p>
13-62	3P, CA3 and OH1	<p>Temporary possession required for:</p> <p>Construction of a public right of way, including the upgrade of a section of existing footpath NG8 between the new public right of way from Thong Lane bridge over the A122 Lower Thames Crossing to NG7 and the A226</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Provision for temporary access for overhead lines diversion works</p>
13-63	CA3 and MU20	<p>Temporary possession required for:</p> <p>Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
13-65	CA3, G4 and OH1	<p>Temporary possession required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach</p> <p>Installation of a high-pressure gas pipeline</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-66	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-67	CA3, G4 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Installation of a high-pressure gas pipeline Provision for temporary access for overhead lines diversion works
13-68	CA3 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
13-69	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-70	CA3 and MU20	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-71	CA3 and MU20	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-72	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-73	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-74	CA3 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
13-75	CA3 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
13-76	OH2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and supports
13-77	CA3 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
13-78	OH1	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
13-79	CA3 and OH1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Provision for access for overhead lines diversion works
13-81	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-85	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
13-88	CA3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
13-89	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
13-90	CA3 and MU20	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
14-01	4C and ET1	Temporary possession required for: Provision for temporary outfall of drainage from temporary satellite construction compound to existing ditch Implementation of temporary environmental works to create a compensatory habitat site
14-02	4C	Temporary possession required for: Provision for temporary outfall of drainage from temporary satellite construction compound to existing ditch
14-03	4C	Temporary possession required for: Provision for temporary outfall of drainage from temporary satellite construction compound to existing ditch
14-11	4A, 4B, CA3, CA3A, MU25, MU26 and MUT3	Temporary possession required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach Temporary satellite construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
14-16	4A, 4B and MU26	<p>Temporary possession required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
14-17	4A, 4B and MU26	<p>Temporary possession required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
14-18	4A, 4B and MU26	<p>Temporary possession required for:</p> <p>Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works</p> <p>Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
14-19	CA3A	<p>Temporary possession required for:</p> <p>Temporary satellite construction compound at surface for facilitating main works</p>
14-20	CA3A	<p>Temporary possession required for:</p> <p>Temporary satellite construction compound at surface for facilitating main works</p>
15-01	CA3B	<p>Temporary possession required for:</p> <p>Temporary satellite construction compound at surface for facilitating main works, including access to the compound and provision for repairs to existing culvert</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
15-02	CA3B	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound facilitating main works at the A122 Lower Thames Crossing south portal and tunnel approach
15-03	CA3B	Temporary possession required for: Provision for repairs to existing culvert
15-04	CA3B	Temporary possession required for: Provision for repairs to existing culvert
15-05	CA3B	Temporary possession required for: Provision for repairs to existing culvert
15-06	CA3B	Temporary possession required for: Provision for repairs to existing culvert
15-07	CA3B	Temporary possession required for: Provision for repairs to existing culvert
15-08	ET1	Temporary possession required for: Implementation of temporary environmental works to create a compensatory habitat site
15-09	CA3B	Temporary possession required for: Temporary satellite construction compound at surface for facilitating main works
15-17	4A, 4B and CA3B	Temporary possession required for: Construction of a twin-bore tunnel, one tunnel bore for northbound traffic and one tunnel bore for southbound traffic, with a three-lane carriageway in each direction, between a portal on the north side of the river Thames in the borough of Thurrock, Essex, and a portal in Gravesham, Kent, including cross-passages connecting the two tunnels and associated tunnelling works Construction of a new permanent ground protection tunnel and access shafts to undertake ground treatment works above the new A122 Lower Thames Crossing tunnel Temporary satellite construction compound at surface for facilitating main works

15-23	CA3B	<p>Temporary possession required for:</p> <p>Temporary satellite construction compound at surface for facilitating main works</p>
16-01	CA5	<p>Temporary possession required for:</p> <p>Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach</p>
16-02	CA5, MU27 and MUT4	<p>Temporary possession required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-03	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-04	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-05	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-06	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-07	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-08	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-09	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-10	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-11	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-12	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-13	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-14	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-15	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-16	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-17	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-18	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-18 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-19	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-20	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-21	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-22	CA5, MU27, MUT4 and MUT5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation of a substation to power the tunnel boring machine at the northern portal
16-23	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-24	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-25	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-26	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-27	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-28	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-29	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-30	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-31	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
16-32	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-33	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-34	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-35	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-40	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-44	5A, 5O and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Construction a new public right of way along the existing footpath FP146 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-45	5A	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames
16-46	5A	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames
16-47	5A	Temporary possession required for: Provision for temporary outfall of drainage to the River Thames from the north portal of the A122 Lower Thames Crossing
16-49	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-49 Cont'd		Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-54	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-55	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-56	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-57	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-58	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-59	5A and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
16-60	5A, 5O and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Construction a new public right of way along the existing footpath FP146 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-62	5A, 5O and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Construction a new public right of way along the existing footpath FP146 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-63	5A, 5O and CA5	Temporary possession required for: Construction of a new outfall from the north portal of the A122 Lower Thames Crossing to the River Thames Construction a new public right of way along the existing footpath FP146 Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
16-64	5A	Temporary possession required for: Provision for temporary outfall of drainage to the River Thames from the north portal of the A122 Lower Thames Crossing
17-01	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
17-02	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
17-03	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
17-04	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
17-05	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
17-06	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
17-07	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
18-01	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-02	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-03	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-04	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-05	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
18-06	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-07	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-08	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-09	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
18-10	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
19-02	E15	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
19-04	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-05	E17	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure
19-06	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-08	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
19-10	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-11	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-14	E15	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
19-15	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-16	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-21	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-22	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-26	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-27	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-28	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
19-35	E15	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
19-36	5R	Temporary possession required for: Construction of a new public right of way along the eastern section of FP200 and a new public right of way between Coalhouse Fort and FP200

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
19-37	5X	Temporary possession required for: Construction of a new water inlet with self-regulating valve
19-38	5R	Temporary possession required for: Construction of a new public right of way along the eastern section of FP200
20-01	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-02	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-03	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-04	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-05	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-06	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-07	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-08	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-09	CA5, MU27 and MUT4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-10	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-11	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-12	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-13	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-14	MU27 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-15	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-16	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-17	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-18	CA5, MU28, OH3 and OH4	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-19	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-20	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-21	MU28 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-22	MU28 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-22 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-23	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-24	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-25	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-26	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-27	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-28	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-29	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-30	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-31	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-32	OH3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
20-33	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-34	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-35	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-36	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-37	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-38	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-39	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-40	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-41	CA5, MU27, MU29, MUT7, MUT8 and MUT9	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-42	CA5, MU27, MUT4 and MUT5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Utility works, including the installation of a substation to power the tunnel boring machine at the northern portal
20-43	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-44	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-46	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-47	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
20-47 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-48	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-49	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-50	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-54	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
20-55	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
20-56	CA5 and MU27	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-08	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-09	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-10	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-11	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-12	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-13	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-14	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-15	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-16	E18 and MU29	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-17	E18	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
23-18	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-19	E18, MU29 and MUT8	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-20	E18	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
23-21	E18	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
23-22	E18	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
23-23	CA5	Temporary possession required for: Temporary possession of railway to facilitate the construction of the new A122 Lower Thames Crossing between the north portal and northern end of Tilbury viaduct
23-24	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-25	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-26	MU27 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-27	MUT8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-28	MU27 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-29	MU27, MU28 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-30	CA5, CA5A, MU27, MU28, MU29, MU30, MUT7, MUT8, MUT9, OH3, OH4 and TFGP1	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Temporary satellite construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Installation of a high-pressure gas pipeline
23-31	MUT8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-32	MUT8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-33	MU28, MU29 and MUT8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-34	MUT8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-35	OH5	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-36	MUT8	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-37	MUT8	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-38	CA5	Temporary possession required for: Temporary possession of railway to facilitate the construction of the new A122 Lower Thames Crossing between the north portal and northern end of Tilbury viaduct
23-39	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
23-40	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
23-41	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-42	CA5	Temporary possession required for: Provision for temporary access and traffic management for temporary construction compound facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach
23-43	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-44	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
23-45	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
23-46	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-47	5K, FCA1, MU33, OH4 and ULH12	<p>Temporary possession required for:</p> <p>Modification of an existing irrigation reservoir and the diversion and modification of irrigation infrastructure, including possible provision of a new groundwater abstraction well</p> <p>Construction of a new flood compensation area</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
23-48	OH5	<p>Temporary possession required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
23-49	OH4	<p>Temporary possession required for:</p> <p>Provision for access for overhead lines diversion works</p>
23-50	FCA1, MU33, OH4, OH5 and OHT2	<p>Temporary possession required for:</p> <p>Construction of a new flood compensation area</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
23-52	CA5 and CA5A	<p>Temporary possession required for:</p> <p>Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory</p> <p>Temporary satellite construction compound at surface for facilitating main works</p>
23-53	OH4	<p>Temporary possession required for:</p> <p>Provision for access for overhead lines diversion works</p>
23-54	OH4	<p>Temporary possession required for:</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-55	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
23-56	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-57	MU33 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-58	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
23-59	MU28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-60	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-61	MU28, MU33 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-62	MU28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-63	MU27, MU28, MU30, MUT9 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-64	MU27, MU28, MU30, MU32, MUT9 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-65	MU27, MU28, MU30, MUT9 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-66	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-67	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-69	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-71	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-72	MU28, OH3 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-76	5K, FCA1, MU28, MU33 and OH3	Temporary possession required for: Modification of an existing irrigation reservoir and the diversion and modification of irrigation infrastructure, including possible provision of a new groundwater abstraction well

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-76 Cont'd		Construction of a new flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-88	MU28 and OH3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-90	MU28 and OH3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-91	MU28 and OH3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-95	MU28, MU30, MU31, MU32 and OH3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-96	MU28, OH3 and OH4	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-97	MU30 and OH3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-97 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
23-98	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-99	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-100	CA5 and OH3	Temporary possession required for: Temporary possession of railway to facilitate the construction of the new A122 Lower Thames Crossing between the north portal and northern end of Tilbury viaduct To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-101	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-102	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-103	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-104	MU33	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-105	MU33	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-107	MU33	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-108	5U and MU27	Temporary possession required for: Construction of a new public rights of way along the existing footpath FP200

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-108 Cont'd		Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-109	MU33	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-110	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-111	CA5 and OH3	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-112	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-114	OH3	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
23-115	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-116	MU28	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-119	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-120	5U and MU27	Temporary possession required for: Construction of a new public rights of way along the existing footpath FP200 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-121	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-122	MU27	Temporary possession required for: Provision for temporary access for utility works
23-123	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-124	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-125	CA5 and MU31	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-126	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-127	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-128	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-129	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-130	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-131	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-132	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-133	CA5, MU27, MUT10 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-134	CA5	Temporary possession required for: Temporary possession of railway to facilitate the construction of the new A122 Lower Thames Crossing between the north portal and northern end of Tilbury viaduct
23-135	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-136	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-137	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-138	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-139	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-140	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-141	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-142	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-143	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-146	MU27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-148	CA5, MU27, MUT10 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-149	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-150	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-151	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-152	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
23-153	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-154	CA5, MUT10 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-155	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-157	CA5, MUT10 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-159	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-160	5R	Temporary possession required for: To facilitate the construction of a new public right of way along the eastern section of FP200, and to provide temporary storage, laydown areas and working space
23-161	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-162	CA5 and MUT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-163	E16	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
23-164	E16	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
23-165	E16	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
23-166	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
23-167	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
23-168	E16	Temporary possession required for: Provision for temporary access for environmental mitigation works to create a site for protected species
23-169	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-170	MU29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-171	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
23-174	CA5	Temporary possession required for: Temporary construction compound at surface for facilitating main works at the A122 Lower Thames Crossing north portal and tunnel approach, including workers accommodation, batch plants and segment cast factory
24-01	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-03	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-05	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-06	MU37, OH6 and OH7	Temporary possession required for: Provision for access for utility works Provision for access for overhead lines diversion works
24-07	MU37, OH6 and OH7	Temporary possession required for: Provision for access for utility works Provision for access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-08	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-09	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-12	MU37, OH6 and OH7	Temporary possession required for: Provision for access for utility works Provision for access for overhead lines diversion works
24-17	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-22	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-23	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-24	MU37	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-25	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-26	MU37	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-27	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-28	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-29	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-30	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-31	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-32	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-34	OH6 and OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-42	OH5	Temporary possession required for: Provision for access for overhead lines diversion works
24-43	MU36 and OH5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-45	MU34, MU36 and OH5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-46	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-47	OH5	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
24-48	OH5	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
24-49	MU36 and OH5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for access for overhead lines diversion works
24-53	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-56	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-59	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-62	MU34, MU36 and OH5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-63	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-67	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-68	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-69	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-71	MU36	Temporary possession required for: Temporary possession of property, to facilitate the installation or diversion of underground utilities within a multi-utility corridor
24-74	OH5	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
24-80	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-81	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-82	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-83	OH3, OH4, OHT2 and OHT3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-84	OH3, OH4 and OHT2	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-90	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-91	MU36, OH3, OH4 and OHT2	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-92	OH3, OH4, OHT2 and OHT3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-93	OH3, OH4, OHT2 and OHT3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-95	MU28, MU36, MUT6, OH3, OH4, OHT2 and OHT3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-96	MU36, OH4 and OHT2	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-98	OH3, OH4, OHT2 and OHT3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-99	OH3, OH4, OHT2 and OHT3	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-100	MU28, MU36, OH3, OH4, OHT2 and OHT3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-103	MU36, OH4 and OHT2	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-105	MU36, OH4 and OHT2	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-109	MU36, OH4, OHT2 and OHT3	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-112	MU34 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-113	MU34 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-113 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
24-116	5W, MU28, MU34, MUT6, OH3, OH4 and ULH11	<p>Temporary possession required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>
24-120	5W and OH4	<p>Temporary possession required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-121	5W and OH4	<p>Temporary possession required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-123	5W and OH4	<p>Temporary possession required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
24-124	5W, MU28, OH3, OH4 and ULH11	<p>Temporary possession required for:</p> <p>Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p> <p>The establishment of a temporary utilities logistic hub for facilitating utility works</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-125	OH3	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
24-126	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-127	5W, OH3, OH4 and ULH11	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
24-128	OH3	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
24-129	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-130	MU36	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-131	5W, OH3, OH4 and ULH11	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
24-133	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-136	MU34, MU35, MU36, MUT6 and OH4	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-139	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-142	5W	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61
24-143	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-144	5W	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61
24-145	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-148	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-150	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-151	5W	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61
24-152	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-153	MU34	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-154	5W	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61
24-157	5W and MUT6	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-157 Cont'd		To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-158	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-160	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-161	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-162	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-163	MU35	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-164	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-165	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-166	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-167	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-168	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
24-169	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-170	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-171	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-172	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-173	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-174	5W and MUT6	Temporary possession required for: Construction of a new public right of way between the new public right of way underneath the Tilbury viaduct and footpath FP61 Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-175	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
24-176	MUT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
24-177	MUT6	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
24-178	6B	Temporary possession required for: To facilitate the construction of a new bridge to carry the realigned Muckingford Road over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space

26-66	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-01	E21 and E22	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-02	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-06	OH6 and OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-07	MU37	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
27-09	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-11	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-12	MU37, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-16	OH6 and OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-25	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-27	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-35	6C and OH5	Temporary possession required for: To facilitate the construction of realigned Hoford Road, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-35 Cont'd		Provision for temporary access for overhead lines diversion works
27-36	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-37	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-38	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-39	MU37	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
27-40	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-41	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-42	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-44	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-45	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-47	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-48	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-49	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-50	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-51	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-52	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-53	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-54	OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-55	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-56	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-57	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-58	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-59	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-60	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-61	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-62	E21	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
27-65	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-66	OH4	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
27-67	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-68	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-69	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-70	OH4 and OH5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons Provision for temporary access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-71	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-72	OH5	Temporary possession required for: Provision for temporary access for overhead lines diversion works
27-74	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-75	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-76	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-77	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-78	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-79	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-80	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-81	OH4	Temporary possession required for: Provision for access for overhead lines diversion works

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-82	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-83	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-84	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-85	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-86	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-87	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-88	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-89	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-90	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-91	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-92	OH4	Temporary possession required for: Provision for access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
27-93	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-94	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-95	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-96	OH4	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
27-97	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
27-98	OH4	Temporary possession required for: Provision for access for overhead lines diversion works
28-01	MU47, MUT16, MUT18, OH6, OH7, OHT4, OHT5 and ULH9	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons The establishment of a temporary utilities logistic hub for facilitating utility works
28-02	MU47, MU48 and MUT16	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-03	MU47, MUT16, MUT18, OH6 and OHT5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-04	MU47, MU48, MUT16, MUT18, OH6 and OHT5	<p>Temporary possession required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
28-05	7S, CA7, MU40, MU41, MU47, MUT13, MUT16, MUT17 and MUT18	<p>Temporary possession required for:</p> <p>Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
28-06	MU47, MUT16, MUT18, OH6, OH7, OHT4 and OHT5	<p>Temporary possession required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
28-08	CA7, E28 and MU41	<p>Temporary possession required for:</p> <p>Temporary construction compound at surface for facilitating main works</p> <p>Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>
28-09	MU47, MU48, MUT16, MUT18, OH6, OH7 and OHT5	<p>Temporary possession required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p> <p>Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons</p>
28-11	MU47, MU48, MUT16, MUT18 and OHT5	<p>Temporary possession required for:</p> <p>Utility works, including the installation or diversion of underground utilities within a multi-utility corridor</p>

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-11 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-12	MU47, MU48, MUT16 and MUT18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-13	MU47, MUT16, MUT18, OH6 and OHT5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-14	MU47, MUT16 and MUT18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-15	MU47, MUT16, MUT18, OH6 and OHT5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-16	ULH9	Temporary possession required for: The establishment of a temporary utilities logistic hub for facilitating utility works
28-21	MU47, OH6 and OHT5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-27	7S, MU41 and MU47	Temporary possession required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-30	7S, MU41 and MU47	Temporary possession required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-31	7S	Temporary possession required for: Construction of a new private means of access from the new Hornsby Lane turning head north of the new A122 Lower Thames Crossing to Heath Place
28-34	MU40	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
28-35	7S, MU41 and MU47	Temporary possession required for: Construction of a new private means of access from the new Hornsby Lane turning head north of the new A122 Lower Thames Crossing to Heath Place Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-37	7S and MU47	Temporary possession required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-38	MU40 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-39	7S and MU47	Temporary possession required for: Construction of a new Hornsby Lane turning heads to the north of the new A122 Lower Thames Crossing, including improvement to Hornsby Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-42	CA6, E27, MU41 and MU47	Temporary possession required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-43	MU47	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
28-45	MU41	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-46	MU41	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-47	CA6	Temporary possession required for: Temporary construction compound at surface for facilitating main works
28-49	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-50	MU39 and MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-51	MU39 and MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-52	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-53	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-54	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-56	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-57	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-58	MU40	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
28-59	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-60	MU40, MUT13, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
28-61	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-62	CA6 and ULH10	Temporary possession required for: Temporary construction compound at surface for facilitating main works The establishment of a temporary utilities logistic hub for facilitating utility works
28-63	CA6	Temporary possession required for: Temporary construction compound at surface for facilitating main works
28-64	CA6, E27 and MU41	Temporary possession required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-65	7X	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road
28-67	7B, CA6, MU40, MU41, MUT12, MUT13, MUT15 and ULH10	Temporary possession required for: Construction of a new private means of access from the improved Brentwood Road Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor The establishment of a temporary utilities logistic hub for facilitating utility works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-68	7X	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road
28-69	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-70	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-71	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-72	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-73	MUT14	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-98	MU40 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-100	MU40 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-103	MU40 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-104	MU40	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
28-106	MU38, MU40, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-107	MU40	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
28-124	G5, MU39, MU40, MUT12 and MUT15	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-125	MU39, MU40 and MUT12	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-127	MU40 and MUT12	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-128	G5, MU40 and MUT12	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-129	MU39 and MU40	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-130	G5	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
28-131	MU39, MU40 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-132	G5, MU39, MU40 and MUT15	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-133	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
28-134	MU40, MU41 and MUT12	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-135	MU40	Temporary possession required for: Provision for access for utility works
28-137	MU38 and MUT12	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-139	MU38	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-141	MU38	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
28-143	OH6 and OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-03	CA8A, E30, MU54, MU55, MU56, MUT20, OH6, OH7 and OHT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-04	E30, MU55, MU56, MUT20, OH6 and OH7	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-05	ULH8	Temporary possession required for: The establishment of a temporary utilities logistic hub for facilitating utility works
29-10	MU56	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-11	MU55, MU56, MUT16, OH6, OH7 and OHT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-13	MU56, OH6 and OHT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-17	MU55, MU56, MUT16, MUT20, OH6, OH7 and OHT6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-20	CA8A, MU55, MU56, MUT16, MUT20, OH6, OH7 and OHT6	Temporary possession required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-26	OH6	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-29	MU44	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
29-31	OH6 and OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons
29-33	MU44	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
29-39	MU44	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
29-49	MU47, MU55, MUT16, MUT20, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-51	MU44	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
29-61	MU52 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-62	MU52 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-63	MU52 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-65	MU52 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-113	7G	Temporary possession required for: Improvements to Woolings Close

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-115	7G and MU53	Temporary possession required for: Improvements to Woolings Close Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-140	MU53	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-202	MU50	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-205	MU50	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-211	MU53	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-212	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-213	MU47, MU49, MUT16, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-215	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-231	MU47, MU49, MUT16, MUT18, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-236	MU49 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-237	MU49 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-238	MU47, MU49, MUT16, MUT18, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-242	MU47, MU49, MUT16, MUT18, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-245	7J	Temporary possession required for: To facilitate the construction of a realigned section of Rectory Road, and to provide temporary storage, laydown areas and working space
29-247	MU49 and MUT18	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-248	MU47, MU48, MUT16, MUT18, OH6, OH7, OHT4 and OHT5	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-249	MU49	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-250	MU49	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-251	7J	Temporary possession required for: To facilitate the construction of a realigned section of Rectory Road, and to provide temporary storage, laydown areas and working space
29-256	7J	Temporary possession required for: To facilitate the construction of a realigned section of Rectory Road, and to provide temporary storage, laydown areas and working space
29-258	MU41 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-262	MU47 and MUT16	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-263	MU47	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-264	MU46	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-266	MU47	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-267	MU47 and MUT16	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-268	MU41 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
29-277	OH6, OH7, OHT4 and OHT5	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
29-282	E30 and MU57	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
29-283	E30, MU54, MU55, MU57, MUT20 and OH6	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of new ecological ponds Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
30-01	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-02	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-04	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-05	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-06	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-07	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-08	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-09	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-10	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-11	CA13, E38, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Provision for temporary access for overhead lines diversion works
30-12	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-14	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-17	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-19	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-20	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-21	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-22	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound

30-72	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-73	CA9	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
30-74	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
30-75	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
30-76	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
30-77	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
30-78	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
30-79	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
30-80	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-02	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
31-05	G6 and ULH6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
31-06	G6 and ULH6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
31-07	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
31-08	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
31-09	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
31-10	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-11	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
31-13	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
31-14	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-15	G6 and MU42	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-16	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-17	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-18	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
31-19	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
31-20	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
31-21	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
31-22	MU42	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-05	MU46	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-07	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-11	G6 and MU46	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-12	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-13	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-14	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-15	G6 and MU46	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-16	G6 and MU46	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-17	G6 and MU46	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-18	MU46	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-25	MU46, MU47 and MUT17	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-33	MU47	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-35	MU47	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-36	MU47	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-39	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-44	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-48	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-49	7X, MU41 and MU43	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-53	MU41	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
32-55	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-57	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-58	G6 and MU45	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-59	G6 and MU45	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-61	MU43	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
32-63	G6, MU45 and MUT19	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-66	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-78	7X	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road
32-81	7X	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-84	7X and MU43	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-85	7X	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the new public right of way over the new A122 Lower Thames Crossing and the realigned A1013 Stanford Road
32-91	MU43 and MUT19	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-92	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-93	G6 and MUT19	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-102	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-103	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-104	G6	Temporary possession required for: Provision for temporary access for works involving the installation of a high-pressure gas pipeline
32-109	7F	Temporary possession required for: To facilitate the improvement to the existing dual carriageway A13, and to provide temporary storage, laydown areas and working space
32-110	MUT19	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-111	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-115	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-116	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-117	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-118	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-119	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-120	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-122	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-124	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-125	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-128	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-129	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-130	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-133	G6	Temporary possession required for: Provision for access for works involving the installation of a high-pressure gas pipeline
32-134	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-135	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-136	MU39, MU43 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-137	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-138	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-139	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-140	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-141	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-142	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-143	G6	Temporary possession required for: Installation of a high-pressure gas pipeline

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-144	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
32-145	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-147	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-148	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-149	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-152	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
32-153	G6b	Temporary possession required for: Provision for access for works involving the diversion of existing gas pipeline
32-155	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-156	G6b	Temporary possession required for: Installation of a isolation valve
32-157	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-158	G6b	Temporary possession required for: Provision for access for works involving the diversion of existing gas pipeline
32-159	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-160	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-162	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-163	G6b	Temporary possession required for: Installation of a isolation valve
32-164	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-165	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-166	G6b	Temporary possession required for: Provision for access for works involving the diversion of existing gas pipeline
32-168	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-169	MU43	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-170	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-171	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-172	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-173	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
32-174	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-175	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-176	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-177	E22	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
32-178	E22	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
32-179	MU39 and MUT15	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
32-180	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-181	G6b	Temporary possession required for: Provision for temporary access for works involving the diversion of existing gas pipeline
32-182	G6 and ULH6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
32-183	G6 and ULH6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
32-186	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-01	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
33-02	CA9, MU60 and MUT23	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-03	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
33-05	G6, MU55, MUT13, MUT24, OH6, OH7 and OHT7	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
33-06	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-08	CA9, MU60 and MUT23	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-17	OH6, OH7 and OHT7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
33-19	MU57	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-24	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-30	CA9, MU55, MU57, MU58, OH6, OH7 and ULH7	Temporary possession required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons The establishment of a temporary utilities logistic hub for facilitating utility works
33-35	MU54, MU55, MU57, MUT20 and OH6	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
33-36	CA10, E34, G6, MU55, MU60, MUT13, MUT21 and MUT22	Temporary possession required for: Temporary construction compound at surface for facilitating main works Implementation of environmental mitigation works to create a site for protected species Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-37	CA10 and G6	Temporary possession required for: Temporary construction compound at surface for facilitating main works To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-42	8K	Temporary possession required for: To facilitate the construction of a new private means of access for maintenance of the new drainage structures and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-47	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-48	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-49	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-53	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-54	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-55	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-56	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-61	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-66	MU59 and MUT13	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-67	MU59 and MU60	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-68	MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-69	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-70	MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-71	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-74	7L	Temporary possession required for: To facilitate the construction of a realigned section of Stifford Clays road, and to provide temporary storage, laydown areas and working space
33-75	7L	Temporary possession required for: To facilitate the construction of a realigned section of Stifford Clays road, and to provide temporary storage, laydown areas and working space
33-77	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-78	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-79	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-80	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-81	MU59, MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-82	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-83	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-84	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

33-260	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-261	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-262	G6, MU60 and MUT21	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-263	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-264	G6, MU60 and MUT21	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-265	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-266	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
33-267	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-268	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-269	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-270	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
33-271	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-272	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-273	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
33-274	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-275	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-276	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-277	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
33-278	G6 and MU46	Temporary possession required for: Installation of a high-pressure gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-279	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-280	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-281	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-282	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
33-283	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-284	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-285	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
33-286	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-287	MU60 and MUT21	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
33-290	MU46	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-01	CA13, E38, MUT24, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-02	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-03	CA13, E38, MUT24, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-04	CA13	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
34-05	CA13, E38, MUT24, OH6 and OH7	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-05 Cont'd		Provision for temporary access for overhead lines diversion works
34-06	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-13	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-15	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-17	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-19	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-20	G6 and ULH5	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
34-23	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-24	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-25	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-26	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-27	G6 and ULH5	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space Provision for temporary access to the temporary utilities logistic hub
34-28	G6 and ULH5	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space Provision for temporary access to the temporary utilities logistic hub
34-29	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
34-30	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
34-31	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
34-32	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
34-33	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
34-38	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-39	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-40	MUT23	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-41	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-42	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-43	MUT24, OH6 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Provision for temporary access for overhead lines diversion works
34-44	CA9, MU60 and MUT23	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
34-45	G6	Temporary possession required for: Installation of a high-pressure gas pipeline
34-46	G6	Temporary possession required for: To facilitate the installation of a high-pressure gas pipeline, and to provide temporary storage, laydown areas and working space
35-01	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-02	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-03	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-05	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-06	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-07	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-08	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-09	E36 and OH7	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-10	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-11	E36 and OH7	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-11 Cont'd		Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-13	E36, FCA3 and OH7	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Construction of a new flood compensation area Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
35-19	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-20	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-21	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
35-29	CA11	Temporary possession required for: Temporary construction compound at surface for facilitating main works
35-30	CA11	Temporary possession required for: Temporary construction compound at surface for facilitating main works
35-32	CA11, MUT13, MUT22 and MUT25	Temporary possession required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-33	MUT22 and MUT25	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
35-34	MUT25	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-35	MUT25	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-36	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-37	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-38	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
35-42	MUT22	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
36-01	E38	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
36-02	CA13, E38 and MUT24	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Provision for access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
36-03	E38	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
36-04	CA13	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
36-05	CA13 and E38	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
36-05 Cont'd		Provision for access for environmental mitigation works to create a site for protected species
36-06	MUT24	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
37-05	E37 and E39	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
37-06	E37 and E39	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
37-07	E37 and E39	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
38-01	8M, CA13, MU64, MU65, MUT26 and MUT27	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-02	CA13	Temporary possession required for: Temporary construction compound at surface for facilitating main works
38-03	MU64 and MUT27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-09	MU65	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
38-10	CA13	Temporary possession required for: Temporary construction compound at surface for facilitating main works
38-13	MU65	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-14	CA13 and E40	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Implementation of environmental mitigation works to create a site for protected species
38-15	MU64	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-16	CA13	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
38-18	8C	Temporary possession required for: To facilitate the construction of a new public right of way over the new A122 Lower Thames Crossing, and to provide temporary storage, laydown areas and working space
38-19	8H	Temporary possession required for: To facilitate the construction of a new drainage attenuation pond with associated drainage facilities, laydown areas and working space
38-20	MU63	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-22	8M, G8, MU63 and OH7	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136 Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-23	8M	Temporary possession required for: To facilitate the construction of a new public right of way and to provide temporary storage, laydown areas and working space
38-24	CA13 and E40	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Implementation of environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-25	8M and OH7	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136 Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-28	8M	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136
38-29	8M	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136
38-31	G8 and MU63	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-32	G8, MU62, MU63, OH7, OHT8 and ULH4	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons The establishment of a temporary utilities logistic hub for facilitating utility works
38-33	MU62, MU63 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-34	E40	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-35	OH7 and OHT8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-36	G8	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
38-37	G8 and ULH4	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space The establishment of a temporary utilities logistic hub for facilitating utility works
38-38	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
38-39	G8	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
38-40	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-41	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-42	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-43	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-44	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-46	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-47	E36, FCA4 and MU61	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Construction of a new flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
38-49	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-51	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-52	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-53	E36 and FCA3	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Construction of a new flood compensation area
38-54	E36 and FCA3	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
38-54 Cont'd		Construction of a new flood compensation area
38-55	E36 and FCA3	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds Construction of a new flood compensation area
38-59	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-60	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-61	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-64	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
38-65	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
39-01	CA14	Temporary possession required for: Temporary construction compound at surface for facilitating main works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-02	8D and G9	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
39-04	G9	Temporary possession required for: Diversion of existing gas pipeline
39-05	MU71	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-06	MU71	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-08	8D	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space
39-12	8N	Temporary possession required for: Construction of a new public right of way between the new public right of way heading westwards of North Road and Church Lane
39-13	CA14 and MUT29	Temporary possession required for: Temporary construction compound at surface for facilitating main works Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-14	MU71	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-15	MU71	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-16	MU71	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-17	MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-18	MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-20	8D and MUT29	Temporary possession required for: Construction of a new public right of way from the realigned North Road to the new public right of way to Church Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-21	MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-22	G9	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
39-23	G9, MU68, MU69 and MU70	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-25	G9	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
39-26	8D	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space
39-27	MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-28	MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-29	MUT28 and MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-30	MU69	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-31	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-32	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-33	8D, MUT28 and MUT29	Temporary possession required for: Construction of a new public right of way from the realigned North Road to the new public right of way to Church Lane Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-46	8D	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space
39-50	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-52	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-54	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-55	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-57	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-59	MU66	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-65	8M, MU69 and MUT26	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-66	MU69 and MUT26	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-67	G9, MU69 and MUT27	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-68	G9 and MUT27	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-69	MUT26	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-70	MUT26	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-72	MUT27	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-74	MUT26	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
39-77	G8	Temporary possession required for: To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space
39-78	G8, MU64 and MUT27	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-80	8A	Temporary possession required for: To facilitate the construction of a three-lane carriageway northbound and two-lane carriageway southbound, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
39-81	8A	Temporary possession required for: To facilitate the construction of a three-lane carriageway northbound and two-lane carriageway southbound, and to provide temporary storage, laydown areas and working space
39-82	E42	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
39-83	8M, E42 and MUT26	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Provision for access for environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
39-84	CA13	Temporary possession required for: Temporary construction compound at surface for facilitating main works
40-21	8D, G9 and MU71	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space To facilitate the diversion of existing gas pipeline, and to provide temporary storage, laydown areas and working space To facilitate utility works, and to provide temporary storage, laydown areas and working space
40-22	G9 and MU71	Temporary possession required for: Diversion of existing gas pipeline Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
41-01	E42	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
41-02	E42	Temporary possession required for: Provision for access for environmental mitigation works to create a site for protected species
41-03	E42	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-04	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-05	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-06	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-07	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-08	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-09	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-10	MUT26 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-11	8M and MUT26	Temporary possession required for: Construction of a new public right of way between the new bridge to carry the realigned footpath FP136 and the new bridge to carry the realigned North Road Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
41-12	OH7	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
41-13	OH7	Temporary possession required for: Provision for access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-14	OH7	Temporary possession required for: Provision for access for overhead lines diversion works
41-15	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-16	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-17	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-18	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-19	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-20	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-23	MU63, MUT26 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-24	MU63 and OH7	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-25	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-26	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-27	OH7	Temporary possession required for: Provision for temporary access for overhead lines diversion works
41-28	OH7	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
41-29	OH7	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
41-30	OH7	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
41-31	OH7	Temporary possession required for: To facilitate overhead lines diversion works, and to provide temporary storage, laydown areas and working space
41-32	OH7	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
41-33	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-34	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-35	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
41-36	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-37	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-38	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-39	8M	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136
41-40	8M and E36	Temporary possession required for: Construction of a new public right of way between the public right of way along the Mardyke channel and the new bridge to carry the realigned footpath FP136 Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-41	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-42	E36	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds
41-43	8J and E36	Temporary possession required for: Construction of a new public right of way along the Mardyke channel, between south of the new Mardyke viaduct and the new public right of way Implementation of environmental mitigation works to create a site for protected species, including the construction of a new bat barn structure and new ecological ponds

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-01	E43	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
42-02	E43	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
42-03	E43	Temporary possession required for: Implementation of environmental mitigation works to create a site for protected species
42-04	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
42-05	MU72, MU75 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-06	MU72, MU75 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-07	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
42-08	MU72 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-09	MU72 and MU75	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-10	MU72 and MU75	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-11	MU72, MU75 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-12	MU72 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-13	MU72 and MU75	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-14	MU72, MU73 and MU75	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-16	MU75	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-17	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-21	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-22	MU75 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-23	MU75 and MUT30	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-24	MU76, MU77 and MUT30	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-25	MU75, MU76 and MUT30	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-34	MU73	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-75	9E	Temporary possession required for: To facilitate the improvements to the existing highway M25 northbound and existing highway M25 southbound, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-99	9M	Temporary possession required for: Temporary possession of the railway line railway to facilitate the construction of a new bridge to carry a new public right of way over the existing Upminster and Grays Branch railway line
42-115	MU73, MU74 and MU76	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-116	MU74	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
42-124	9M	Temporary possession required for: Temporary possession of the railway line railway to facilitate the construction of a new bridge to carry a new public right of way over the existing Upminster and Grays Branch railway line
42-127	8D	Temporary possession required for: To facilitate the improvement works to the existing North Road, and to provide temporary storage, laydown areas and working space
42-128	8N and CA14	Temporary possession required for: Construction of a new public right of way between the new public right of way heading westwards of North Road and Church Lane Temporary construction compound at surface for facilitating main works
42-131	CA15A and MU76	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-132	CA15A and MU76	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-133	CA15A and MU76	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-134	CA15A and MU76	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-135	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
42-136	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
42-137	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
42-138	8N	Temporary possession required for: Construction of a new public right of way between the new public right of way heading westwards of North Road and Church Lane
42-139	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-140	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-141	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-142	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-143	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-144	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-145	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-146	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-147	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-148	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-149	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-150	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-151	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-152	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-153	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-154	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-155	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-156	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-157	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-158	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-159	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-160	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-161	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-162	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-163	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-164	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-165	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-166	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-167	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-169	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-170	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-171	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-172	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-173	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-174	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-175	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-176	MUT28 and MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-177	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-178	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-179	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-180	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
42-181	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-182	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-183	MUT28 and MUT29	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-184	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
42-185	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-01	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-02	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-03	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-05	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-07	90, MU72, MU78 and OH8	Temporary possession required for: Construction of a new permissive path over the new A122 Lower Thames Crossing and the improved section of the M25 Junction Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-09	MU72, MU78 and OH8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-10	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
43-18	90, MU72, MU78 and OH8	Temporary possession required for: Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-19	90, E46, MU72 and OH8	Temporary possession required for: Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Implementation of environmental mitigation works to create a site for protected species Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-27	90	Temporary possession required for: Landscaping associated with the new public right of way and permissive path over the new A122 Lower Thames Crossing
43-28	90	Temporary possession required for: Construction of a new permissive path along the existing FP230, and landscaping associated with the new public right of way and permissive path over the new A122 Lower Thames Crossing
43-35	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-40	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-41	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-43	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-45	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-46	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-47	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-49	90	Temporary possession required for: Construction of a new permissive path along the existing FP230
43-53	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-54	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-55	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-56	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-57	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-58	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-59	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-60	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-61	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-62	CA15A and MUT28	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-63	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-97	OH8	Temporary possession required for: Provision for access for overhead lines diversion works
43-98	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-99	OH8	Temporary possession required for: Provision for access for overhead lines diversion works
43-100	OH8	Temporary possession required for: Provision for access for overhead lines diversion works
43-101	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-102	CA15A	Temporary possession required for: Provision for temporary access and traffic management for the temporary construction compound
43-103	MUT28	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
43-104	9O, MU72, MU78 and OH8	Temporary possession required for: Construction of a new permissive path from Thames Chase Forest, and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-105	MU72 and OH8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
43-106	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-107	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-108	MU72, MU78 and OH8	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-109	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-110	OH8	Temporary possession required for: Overhead lines diversion works, including the removal of existing overhead lines and pylons, construction of new overhead lines and pylons and works to existing overhead lines and pylons
43-111	MU78	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-01	FCA7	Temporary possession required for: Construction of a new flood compensation area
44-02	FCA7	Temporary possession required for: Construction of a new flood compensation area
44-03	FCA7	Temporary possession required for: Construction of a new flood compensation area
44-04	MU87	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-05	FCA7 and MU72	Temporary possession required for: Construction of a new flood compensation area Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-06	FCA7	Temporary possession required for: Construction of a new flood compensation area
44-07	MU83	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
44-08	9O and MU72	Temporary possession required for: Construction of a new permissive path from Thames Chase Forest, a new permissive path to the new culvert and a new private means of access from Thames Chase Forest to the new culvert Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-09	MU79, MU80, MU82 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-10	MU80	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-11	MU86	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-13	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-14	MU72	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-16	MU84	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-17	MU79, MU80, MU82 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-20	MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-22	9D	Temporary possession required for: Temporary possession of railway line to facilitate the construction of earthworks associated with the new A122 Lower Thames Crossing two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-44	MU80	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-56	9D	Temporary possession required for: Temporary possession of railway line to facilitate the construction of earthworks associated with the new A122 Lower Thames Crossing two-lane link road from the M25 northbound carriageway to M25 junction 29 link road
44-64	9E	Temporary possession required for: To facilitate the improvements to the existing highway M25 northbound and existing highway M25 southbound, and to provide temporary storage, laydown areas and working space
44-68	MU81 and MU84	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-72	9E	Temporary possession required for: To facilitate the improvements to the existing highway M25 northbound and existing highway M25 southbound, and to provide temporary storage, laydown areas and working space
44-73	9E	Temporary possession required for: To facilitate the improvements to the existing highway M25 northbound and existing highway M25 southbound, and to provide temporary storage, laydown areas and working space
44-80	MU81 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor

Table 5: Temporary Possession of Land - by plot number

Land plans plot ref.	DCO Work No(s).	Purpose for which the land is required:
44-81	MU72, MU79, MU81, MU82 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-84	MU80	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-85	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
44-86	MU72, MU79, MU80, MU81, MU82 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-87	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
44-88	MU72, MU79, MU80 and MU82	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-89	MU80 and MU81	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-90	MU84	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-91	MU72, MU79, MU80, MU81, MU82 and MU83	Temporary possession required for: Utility works, including the installation or diversion of underground utilities within a multi-utility corridor
44-92	MU84	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space
44-93	MU72	Temporary possession required for: To facilitate utility works, and to provide temporary storage, laydown areas and working space

26					There has been regular, detailed, and constructive correspondence and meetings with the landowner since April 2017 on all aspects of the Project. These include, but are not limited to (i) Detailed design development, impact mitigation, utility diversions, (ii) Reconfiguration of Low Street irrigation reservoir and irrigation system, (iii) Accommodation works and interface during construction, (iv) Location of ecological mitigation areas and potential long-term stewardship, (v) Replacement common land, and (vi) Access for surveys, ground investigation and archaeological trial trenching. The parties are developing a Statement of Common Ground and would progress separate agreements for other matters. Opportunity to acquire land by agreement has been discussed will be progressed if agreed.

Multiple survey consent forms have been agreed to facilitate Applicant surveys, including agreement of compensation therefrom. Negotiations are progressing on an acquisition by agreement basis and valuations have been undertaken. A property search has also been undertaken to assist the landowner in identifying relocation options. 12-04-2017 Letter Preferred Route Announcement notification sent 10-05-2017 Letter Preferred Route Announcement notification sent 31-10-2017 Letter Order Limits update notification sent 23-02-2018 Meeting Introductory meeting and Project update 14-05-2018 Letter Land Interest Questionnaire sent 20-07-2018 Phone Call Conversation regarding Land Interest Questionnaire assistance 10-08-2018 Meeting Discussion regarding Land Interest Questionnaire 10-08-2018 Letter Survey access request sent 15-08-2018 Letter Land Interest Questionnaire response 03-10-2018 Letter Land Interest Questionnaire response 09-10-2018 Letter Section 42 Statutory consultation notification sent 14-11-2018 Phone Call Conversation regarding Land Interest Questionnaire 23-11-2018 Meeting Discussion regarding Statutory consultation and design details 15-08-2019 Letter 2019 Post-Statutory consultation notification sent 16-10-2019 Email Correspondence confirming intention to acquire interests by agreement 29-10-2019 Email Correspondence from agent with tenure details and dates for site inspection

170	Christine Buckland	Cat 1	29-40	CA	<p>Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed.</p> <p>27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout</p>

465	John Beaney	Cat 1	29-40	CA	<p>Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed.</p> <p>27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout</p>

535	Laureena Saunders	Cat 1	29-40	CA	Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed. 27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-07-2021 Letter Community Impacts consultation notification sent 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout

562	Linda Baker	Cat 1	29-40	CA	Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed. 27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-07-2021 Letter Community Impacts consultation notification sent 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout

742	Port of Tilbury London Limited	Cat 1, 2 and 3	16-01	TP	The Applicant has regular discussions with Port of Tilbury regarding the impact of the Project on their operations and land holdings. To date agreements are being negotiated with regards to access and ducting routes. Land agreements are also being progressed and Heads of Terms are currently being negotiated with a view to these completing early in 2023. As the discussions continue, these will be detailed within the Statement of Common Ground submitted during the examination.

767	Rita M Beaney	Cat 1	29-40	CA	Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed. 27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout

835	Shannon L Baker	Cat 1	29-40	CA	<p>Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed.</p> <p>27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-07-2021 Letter Community Impacts consultation notification sent 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout</p>

863	Stephaling Saunders	Cat 1	29-40	CA	Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed. 27-11-2018 Meeting On site consultation event 05-12-2019 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout

1006	Walter Saunders	Cat 1	29-40	CA	Occupier at Gammonfields Way Travellers site. Occupied by way of a licence agreement from Thurrock Council. On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout. This will enable an indicative plan to be agreed. 27-11-2018 Meeting On site consultation event 03-02-2020 Meeting On site consultation event 24-02-2020 Meeting On site consultation event 13-07-2020 Letter Design Refinement consultation notification sent 13-07-2020 Meeting On site consultation event 13-07-2021 Letter Community Impacts consultation notification sent 13-05-2022 Letter Local Refinement consultation notification sent 24-05-2022 Letter Local Refinement consultation extension notification sent 07-07-2022 Letter Engagement seeking feedback on proposals for final site and pitch layout
