1.1 Introduction

- 1.1.1 This document is to present any errata that have been identified within the documents that were submitted as part of the DCO Application for the Lower Thames Crossing (the Project).
- 1.1.2 The errors are minor in nature and do not change the meaning of documents, analysis or any assessment.
- 1.1.3 The errata are presented in Table 1.1 with the correction provided for clarification.
- 1.1.4 In addition to this Errata Report, a Place Name Gazetteer (Document Number 1.7) has been produced to address instances where there are local inconsistencies in the terms of place names used in the area of the Project and where similar place names are used in different locations. This highlights to the reader what these are and confirms the place name that the project is using.
