# 1 Introduction

- 1.1.1 In response to The Planning Inspectorate’s Section 51 advice letter dated 28th November 2022 relating to document 4.2 Book of Reference and the apparent inconsistent use of place names in the Lower Thames Crossing Development Consent Order (DCO) Application; the Applicant has prepared the attached Place Name Gazetteer to provide additional clarity for place names within and adjoining the DCO Order Limits.
- 1.1.2 For places that benefit from several correct naming conventions, the Gazetteer provides a definitive description of each, a suggested Lower Thames Crossing title for that place and lists the other names or spellings accepted for it, as used in the DCO application, to avoid confusion. For places that are distinct but have similar names, that could reasonably be confused, the Gazetteer provides a definitive description of each as well as a suggested Lower Thames Crossing title to aid interpretation of the DCO documents.
- 1.1.3 The Gazetteer is proposed to remain a live document throughout Examination and will be used as a repository for place names to aid the Examining Authority’s interpretation of the DCO application. This first iteration responds to the places identified in the Section 51 advice and others recognised by the Applicant at this stage.
