

Deadline B preliminary meeting 1

LTC-AP546

As a resident of Thurrock, I would like to express my support to Thurrock Council 's request for an extension to the DCO process. I feel that the 114 has greatly penalised the great work Thurrock Council have done in the past to represent residents like myself who would be greatly affected by this proposed new road. I feel that as a resident, I am not being given the best support and representation without an extension. National Highways have had years to refine this project and have avoided questions saying everything will be in the DCO there is so much information the council have to sieve through plus a new consultation and coming out of purdah is all added pressure for the council. As an affected party I would like to give you as much notice as possible that I would like to request a compulsory acquisition hearing.

Leigh Hughes
