Status of the Statement of Common Ground

This is a Draft Agreed Statement of Common Ground with matters outstanding.

National Highways and Dartford Borough Council agree that this draft Statement of Common Ground is an accurate description of the matters raised and the current status of each matter.

Hi

I confirm that Dartford Borough Council endorses the attached draft Statement of Common Ground as an accurate description of the matters raised and the current status of each matter.

Regards,

1 Introduction

1.1 Purpose of the Statement of Common Ground

1.1.1 This Statement of Common Ground (SoCG) has been prepared in respect of the Development Consent Order (DCO) application for the proposed A122 Lower Thames Crossing (the Project) made by National Highways Limited (National Highways) to the Secretary of State for Transport (Secretary of State) under section 37 of the Planning Act 2008 on 31 October 2022.

1.1.2 The SoCG has been produced to confirm to the Examining Authority where agreement has been reached between National Highways (the Applicant) and Dartford Borough Council, and where agreement has not been reached. Where matters are yet to be agreed, the parties will continue to work proactively to reach agreement and will update the SoCG to reflect areas of further agreement.

1.1.3 This version of the SoCG has been submitted at Examination Deadline 1.

1.2 Principal Areas of Disagreement

1.2.1 On the 19 December 2022 the Examination Authority made some early procedural decisions to assist the Applicant, potential Interested Parties and themselves to prepare for the Examination of the Application.

1.2.2 One of these procedural decisions was to use a tracker recording Principal Areas of Disagreement in Summary (PADS).

1.2.3 The PADS Tracker would provide a record of those principal matters of disagreement emerging from the SoCG and should be updated alongside the SoCG as appropriate throughout the examination with the expectation that a revised PADS Tracker should be submitted at every Examination deadline.

1.3 Dartford Borough Council elected not to produce a PADS Tracker at pre-examination stage, confirming that it was satisfied that the Statement of Common Ground jointly signed off by National Highways and Dartford Borough Council at pre-examination stage adequately captured the relevant matters including those matters outstanding and were content that Table 2.1 within this SoCG adequately presented their matters. In addition, Dartford confirmed that it would submit its Relevant Representations in due course.

1.4 Terminology

1.4.1 In the matters table in section 2 of this SoCG, “Matter not agreed” indicates agreement on the matter could not be reached following significant engagement, and “Matter under discussion” where these points will be the

Deleted: <#>This SoCG does not seek to replicate information which is available elsewhere within the Application Documents. All documents may be available on the Planning Inspectorate website.¶

Deleted: <#>the parties named below

Deleted: <#>(yet)

Deleted: <#>SoCGs are an established means in the planning process of allowing all parties to identify and so focus on specific

Deleted: <#>that may need

Deleted: <#>addressed during

Deleted: <#>examination.

Deleted: to this

Deleted: <#>This SoCG has been prepared in respect of the Project by (1) National Highways, and (2) Dartford Borough Council.¶

National Highways became the Government-owned Strategic Highways Company on 1 April 2015. It is the highway authority in England for the strategic road network and has the necessary powers and duties to operate, manage, maintain and enhance the network. Regulatory powers remain with the Secretary of State. The legislation establishing National Highways made provision for all legal rights and obligations of the Highways Agency, including in respect of the Project, to be conferred upon or assumed by National Highways.¶

Dartford Borough Council is a host authority in respect of the application and as such is a category 'B' local authority under section 43(1) of the Planning Act 2008. As a borough council, it is the local planning authority and holds responsibilities including developing and implementing a Local Plan, waste management, community and environmental issues within its boundary. The Borough of Dartford is a local government district in the north-west of the county of Kent, England. Its council is based in the town of Dartford. It is part of the contiguous London urban area. It borders the borough of Gravesham to the east, Sevenoaks District to the south, the London Borough of Bexley to the west, and the Thurrock unitary authority in Essex to the north, across the River Thames. The borough was formed on 1 April 1974 by the merger of the Municipal Borough of Dartford, the Swanscombe Urban District, and part of the Dartford Rural District. ¶

Matters¶

2 Matters

2.1 Movement of outstanding matters

2.1.1 ~~Following submission of the previous version of this Draft SoCG between the Applicant and Dartford Borough Council, further discussions on the outstanding matters have taken place. These discussions are summarised in Table A.1 in Appendix A and the outcome of these discussions is summarised below.~~

2.1.2 ~~The following matters have moved from 'matter under discussion' to 'matter agreed':~~

~~a. Item 2.1.8 Funding for improvement in and around the Dartford Crossing~~

2.1.3 ~~Further to the matters raised in the original SoCG, Dartford Borough Council submitted further comments on the DCO application which has led to new matters being included in Table 2.1. The new matters are:~~

~~b. Item 2.1.11 Combined Modelling and Appraisal Report (ComMA) / Congestion constrains economic growth~~

~~c. Item 2.1.12 Public transport / Network resilience and public transport improvements (Fastrack bus service)~~

~~d. Item 2.1.13 Local plan growth / Increased congestion at Dartford would slow planned growth~~

Deleted: It is agreed that any

Deleted: arise

Deleted: reserves the right to

2.1.4 Table 2.1 details and presents the matters which have been agreed, not agreed, or are under discussion between (1) the Applicant and (2) Dartford Borough Council.

2.1.5 In the column 'Item No' in Table 2.1, 'Rule 6' indicates a matter entered in the SoCG as a result of a request in the Rule 6 letter, 'RRN' indicates a matter entered into the SoCG as a result of content in the Relevant Representation, 'RRE' indicates an existing SoCG matter that was also raised in the Relevant Representation and 'DLX' indicates a new matter added during examination at/around that deadline.

2.1.6 At Examination Deadline 1, there are 12 matters in total of which 8 are agreed and 4 remain under discussion.

Design – road, tunnels, utilities					
Junctions Tilbury Link Road	2.1.7	Dartford Borough Council supports the proposed junction between Lower Thames Crossing and M2/A2 but expresses disappointment that no link has been proposed from Lower Thames Crossing onto the A13 westbound and towards the Port of Tilbury. This will affect the connectivity between Kent and Essex, leading to longer journey times and reduced economic benefits.	The Tilbury Link Road is currently within the RIS3 pipeline at Stage 0 (Project initiation) and the Applicant is working with Thurrock Council to understand local road options alongside strategic road options. The Tilbury Link Road scheme would be separate to the Project. During the review of the Tilbury Fields element of the Project, the Thames Freeport was designated, the Applicant sought direction and received instruction from Department for Transport (DfT) and Department for Levelling Up, Housing and Communities (DLUHC) that the Tilbury Link Road should be delivered through a separate consenting process to the Project. The revised design at Tilbury Fields provides an operational access, with no access for public traffic on or off the Lower Thames Crossing at this location. The operational access	N/A	Matter Agreed

		<p>construction supported by air quality monitoring included in the scheme's management and monitoring plans. It is anticipated that these issues can be resolved during the Examination stage. In this respect, KCC have suggested in their PADS Tracker submission, timely co-operation of relevant parties and the intervention of the ExA to impose planning obligation on the Applicant to secure S106 funding to expand the scope of the management and monitoring plans. DBC considers that this is important and aligns with the Project objective to minimise impacts on health. As a minimum, DBC would welcome funding support to monitor its Air Quality Management Areas (AQMA) which mostly have passive nitrogen dioxide tubes and currently have one operational real time analyser in one of the three AQMAs in Dartford.</p>	<p>such, Dartford Borough Council is listed in Table 2.1 of the WNIMMP. The Applicant is obligated to work with local highway authorities and others to align national and local plans and investments, balance national and local needs and support better end to end journeys for road users (paragraph 5.19 of Highways England: Licence). The Applicant will continue to deliver in accordance with this obligation in its collaborative work. At a meeting on 24 January 2023, Dartford Borough Council requested that it be consulted on the traffic monitoring scheme both directly by the Applicant and through Kent County Council (as the highway authority). This approach was agreed by the Applicant and further information is available in the WNIMMP, Section 2.4: Position within the wider DCO application. Dartford Borough Council also noted Plate 5.1: Proposed</p>

Appendix A Engagement activity

Engagement activities between the Applicant and Dartford Borough Council since the DCO Application was submitted on 31 October 2022

Date	Overview of Engagement Activities
<u>11 November 2022</u>	<u>Emailed to offer DCO briefing session</u>
<u>14 November 2022</u>	<u>Emailed to notify of publication of documents on Planning Inspectorate website</u>
<u>28 November 2022</u>	<u>Emailed to inform that Lower Thames Crossing was Application Accepted for Examination</u>
<u>15 December 2022</u>	<u>Emailed with pre-examination strategy, timetable and matters under discussion</u>
<u>04 January 2023</u>	<u>Emailed to advise of PADS Tracker request from Planning Inspectorate</u>
<u>09 January 2023</u>	<u>Emailed to advise on relevant reps opening and further PADS tracker guidance from Planning Inspectorate</u>
<u>12 January 2023</u>	<u>Emailed to advise on relevant reps closing date and further PADS tracker guidance from Planning Inspectorate</u>
<u>24 January 2023</u>	<u>Meeting on Wider Network Impacts and Benefits SoCG matters</u>
<u>26 January 2023</u>	<u>Emailed notes from meeting on 24 January 2023</u>
<u>3 March 2023</u>	<u>SoCG resolution meeting</u>
<u>13 April 2023</u>	<u>Emailed updated SoCG matters to Dartford Borough Council</u>
<u>24 April 2023</u>	<u>Emailed to inform of launch of minor refinements consultation</u>
<u>17 May 2023</u>	<u>Emailed to advise that the minor refinements consultation was live</u>
<u>1 June 2023</u>	<u>Emailed SoCG consultation timetable</u>
<u>9 June 2023</u>	<u>Emailed draft SoCG for comment</u>
<u>26 June 2023</u>	<u>Emailed draft SoCG for final comments</u>
<u>5 July 2023</u>	<u>Emailed final SoCG for endorsement</u>

Appendix B Glossary

Term	Abbreviation	Explanation
A122 Lower Thames Crossing	Project	A proposed new crossing of the Thames Estuary linking the county of Kent with the county of Essex, at or east of the existing Dartford Crossing.
Calculation of Road Traffic Noise	CRTN	Provides a methodology originated by the National Physical Laboratory for calculating road traffic noise levels in some situations. It is linked to the procedure issued by the Department for Transport.
Code of Construction Practice	CoCP	Contains control measures and standards to be implemented by the Project, including those to avoid or reduce environmental effects.
Department for Levelling Up, Housing and Communities	DLUCH	The UK Government department for housing, communities, local government in England and the levelling up policy. Formerly called the Ministry of Housing, Communities and Local Government.
Department for Transport	DfT	The government department responsible for the English transport network and a limited number of transport matters in Scotland, Wales and Northern Ireland that have not been devolved.
Design Manual for Roads and Bridges	DMRB	A comprehensive manual which contains requirements, advice and other published documents relating to works on motorway and all-purpose trunk roads for which one of the Overseeing Organisations (National Highways, Transport Scotland, the Welsh Government or the Department for Regional Development (Northern Ireland)) is the highway authority. For the A122 Lower Thames Crossing, the Overseeing Organisation is National Highways.
Development Consent Order	DCO	Means of obtaining permission for developments categorised as Nationally Significant Infrastructure Projects (NSIP) under the Planning Act 2008.
Environmental Impact Assessment	EIA	A process by which information about environmental effects of a proposed development is collected, assessed and used to inform decision making. For certain projects, EIA is a statutory requirement, reported an Environmental Statement.
Environmental Statement	ES	A document produced to support an application for development consent that is subject to Environmental Impact Assessment (EIA), which sets out the likely impacts on the environment arising from the proposed development.
Health and Equalities Impact Assessment	HEqIA	A systematic process used to identify the potential health and equalities impacts arising from policies, plans, programmes and projects, to identify the distribution of those effects amongst the population and to identify

Deleted: Acronym

Term	Abbreviation	Explanation
		mitigation measures to address these effects, thereby minimising adverse effects on the local population
Lower Thames Area Model	LTAM	Transport model designed to forecast impacts of providing additional road -based capacity across the River Thames at locations at or east of the existing Dartford Crossing.
National Policy Statement for National Networks	NPSNN	The NPSNN sets out the need for, and Government's policies to deliver, development of Nationally Significant Infrastructure Projects on the national road and rail networks in England. It provides planning guidance for promoters of Nationally Significant Infrastructure Projects on the road and rail networks, and the basis for the examination by the Examining Authority and decisions by the Secretary of State.
National Trip End Model	NTEM	A model that forecasts the growth in trip origin-destinations (or productions-attractions) up to 2051 for use in transport modelling. The forecasts take into account national projections of population, employment, housing, car ownership and trip rates.
Noise Policy Statement for England	NPSE	The Noise Policy Statement for England was published on 15 March 2010. It sets out the long-term vision of government noise policy, to promote good health and a good quality of life through the management of noise.
Register of Environmental Actions and Commitments	REAC	The REAC identifies the environmental commitments that would be implemented during the construction and operational phases of the Project if the Development Consent Order is granted, and forms part of the Code of Construction Practice (Application Document 6.3, ES Appendix 2.2).
Statement of Common Ground	SoCG	A Statement of Common Ground is a written statement containing factual information about the proposal which is the subject of the appeal that the appellant reasonably considers will not be disputed by the local planning authority.
Transport Analysis Guidance	TAG	National guidance document produced by the Department for Transport.
N/A	LaMAX	Maximum sound level. LA is a measurement of weighted sound.
