**5. Closing**

## **Purpose of this ISH**

The purpose of this ISH is to inquire into the progress on the actions arising from ISH4 and ISH10 seeking final positions on local modelling, intersection performance and the management of uncertainty: operational monitoring and mitigation.

NB – The ExA has amended the examination timetable to provide Deadline 6A on 14 November 2023 for comments on localised modelling. It seeks positions informed by the documentation submitted to meet that deadline. This Agenda and so the business of this ISH remain in outline until the ExA has considered documents submitted for Deadline 6A.

## **Attendees**

The ExA would find it helpful if the following parties could attend this Hearing.

- The Applicant
- The host highway authorities
- Port of Tilbury London Ltd
- DP World London Gateway Port
- Any other public authority affected by the proposed development
- Anyone who wishes to make oral representations in respect of local traffic modelling and effects.

However, this does not indicate that other parties will not be able to contribute. All Interested Parties (IP) are invited to attend and make oral representations on the matters set out in the Agenda, subject to the ExA's ability to control the Hearing.

The Applicant is requested to have people with expertise in Public Rights of Way and Non-Motorised User routes to assist the hearing.

The ExA has sought to provide sufficient detail to assist the parties to prepare for the Hearing. The details set out above are indicative and the ExA may find it necessary to include additional Agenda items or to amend the order in which the items are dealt with.

The event will be livestreamed and a link for watching the livestream will be posted on the [project webpage of the National Infrastructure Planning website](#) closer to the Hearing date. IPs and members of the public who wish to observe the Hearing can view and listen to the Hearing using the livestream, or view and listen to the recording, after it has concluded. For the avoidance of doubt, you are advised that the recordings that we make are retained and published and form a public record that can contain your personal information and to which the UK General Data Protection Regulation applies.

## **Registration Process**

### *Registering as a speaker*

The speakers invited to this hearing are listed above. If you are invited, please register at **9-15am**. This enables arrangements to be explained and hearings to make a prompt start.

You can register in person at the venue. If you are attending virtually, you will receive joining and registration instructions in a separate email, shortly in advance of the event. This email will also explain what to do if you have difficulties getting connected.

### *Observing the hearing*

Hearings are held in public. If you are not speaking, public seating at the venue will be open from **9-15am**. If you are observing on-line, please go to the [project landing page](#) on the National Infrastructure Planning website where you will find:

- on the day - a link to a livestream to watch the hearing in real time; and
- after the event has closed - a link to the recordings of the hearing

All Interested Parties (IPs) are welcome to submit observations in writing by the deadline following the hearing.

### **Procedure at an ISH**

Guidance under the Planning Act 2008 and the Infrastructure Planning (Examination Procedure) Rules 2010 provides that it is for the ExA to probe, test and assess the evidence through direct questions of persons making oral representations at Hearings. Questioning at the Hearing will be led by the ExA. Cross questioning of a person giving evidence by another person will only be permitted if the ExA decides it is necessary to ensure representations are adequately tested or that an IP has had a fair chance to put its case.

Parties attending an ISH for the first time are encouraged to view parts of previous ISH1 held at the start of this Examination, using the recordings held online. Whilst the matters to be examined in this hearing – identified in this Agenda – will be different, the approaches taken to hearing management and involvement by parties will be similar. Introductory and advisory material included in the opening stages of that hearing will not be set out in full in later hearings and so the ISH1 recording of the opening session on Day 1 will assist those who are not familiar with this type of hearing.

- ISH1 Recordings ([Day 1 – 21 June 2023](#))
- ISH1 Recordings ([Day 2 – 23 June 2023](#))

Participants at the hearing are reminded of the importance of respecting all other participants and allowing everyone here to have their say. Please do not interrupt the other speakers. If the ExA needs to clarify something that is being said, then the ExA will intervene. Unnecessary interruptions that disrupt the hearing can be viewed as unreasonable behaviour for which awards of costs can be sought by other interested parties; they can also lead to a party being removed from the hearing.

Every effort will be made to ensure that the issues will be discussed on the day that they are scheduled for. The hearing will finish as soon as the ExA deems that all those present have had their say and that all matters have been covered. If there are additional matters to be dealt with or there are submissions that take a considerable amount of time at any hearing, it may be necessary to prioritise matters and defer others to written responses to actions, to written questions or to a subsequent hearing.

Please contact the Case Team if you have any questions regarding the arrangements for the hearing or how to participate.
