Appendix A – Schedule of Notifications under section 102A of the Planning Act 2008	submitted separately

1 Introduction

1.1 Purpose of this document

- 1.1.1 This Schedule of Changes to the Book of Reference is a consolidated record of all amendments to the Book of Reference since the Development Consent Order (DCO) application for National Highways A122 Lower Thames Crossing project (the Project).
- 1.1.2 This schedule lists all versions of 4.2 Book of Reference [**Document Reference 4.2 (8)**], the version number and the date the version was submitted.
- 1.1.3 For each listed version this schedule will provide all changes made since the previous version, and the reason for the change.

2 Reasons for change to the Book of Reference

2.1 Continued diligent inquiry

- 2.1.1 Since DCO application the Applicant's land referencing team has continued to undertake diligent inquiry, as described in 4.1 Statement of Reasons Annex C Land Referencing Methodology [[APP-061](#)].
- 2.1.2 Any change to ownership, occupancy or other interests in land are captured through this process of diligent inquiry and the Book of Reference (BoR) is updated to accurately reflect these changes. In some cases this update process may require the removal of previous plots and the addition of new plots.
- 2.1.3 The removal of previous plots and the addition of new plots can occur when ownership or another relevant criteria change within that area of land, for example:
- a. It comes to the attention of the Applicant that an individual recorded as the owner of a land plot has sold half of the land within that plot and retained the rest.
 - b. The affected plot is then 'removed' and the BoR will show "Number not used" for that plot reference. This plot number will not be utilised again in any subsequent version of the BoR.
 - c. Two new plots will be 'added' which accurately represent the new ownership boundary for the land within the area of the removed plot. These new plots will be given the next available reference numbers within that sheet.
 - d. In such a case this schedule will detail the change to both the removed plot and the two added plots with the following appropriate reasons:
 - i. *"New plot due to change of owner(s) requiring new plot boundaries following continued diligent inquiry" or,*
 - ii. *"Deletion of plot due to change of owner(s) requiring new plot boundaries following continued diligent inquiry."*
- 2.1.4 Care is taken to ensure that the information contained within the Book of Reference is correct and accurate at the date of submission. However, if it is discovered that a mistake has been made in a previous version, the Applicant will provide a correction at the next opportunity to do so.

2.2 Recommendation of the Planning Inspectorate

- 2.2.1 The Applicant will seek to incorporate advice from the Planning Inspectorate into the next version of the Book of Reference e.g., advice provided under section 51 of the Planning Act 2008.

2.3 Modification of the Application

- 2.3.1 The Applicant is continuing to refine the design of the proposed Project and may seek to make changes to the application during Examination.
- 2.3.2 The Applicant continues to engage with landowners, advisory bodies and other affected parties and may come to agreements to seek to amend the proposed application for the purpose of minimising or mitigating any impact the Project may cause.
- 2.3.3 If accepted, any such changes to the application will be reflected in the next version of the Book of Reference.

2.4 Correction of minor errors

- 2.4.1 Spelling, typographical or other minor errors will be corrected and shown in this document.

3 How to read this document

- 3.1.1 For each post-application version of the Book of Reference, shown in Table 4.1 below, a chapter of this document will show the changes that have led to that version.
- 3.1.2 These changes will be shown in four sections within that chapter, which are described immediately below.

3.2 Section 1 - Summary of changes

- 3.2.1 This section will summarise the reasons for the changes to this version e.g., changes resulting from continued diligent inquiry or resulting from accepted change to the application.
- 3.2.2 This section will provide the total number of land plots that have been added, removed, or suffered a change of any kind.
- 3.2.3 This section will describe which parts of the BoR have been affected by any changes.

3.3 Section 2 – Multi-plot changes

- 3.3.1 It may be the case that a single change has an impact on a large number of plots. Individual changes that impact ten or more plots will be shown in this section, rather than duplicating the entry multiple times in the other sections of this document.
- 3.3.2 A summary of the change, the number of plots affected, the parts of the BoR affected and a list of all those individual plots will be provided.
- 3.3.3 The reason for the change will be provided in all cases.

3.4 Section 3 – Comprehensive list of changes

- 3.4.1 Any change within the Order limits not shown within table of multi-plot changes will be detailed in this section.
- 3.4.2 New and previous entries will be shown within this section, together with the relevant land plot reference.
- 3.4.3 The reason for a change will be provided in all cases.

3.5 Section 4 – Changes to Category 3 interests outside the Order limits

- 3.5.1 A person is within Category 3 if the Applicant believes that, if the DCO were to be made and fully implemented, they would or might be entitled to make a relevant claim as defined in section 57(6) of the 2008 Act. A relevant claim is a claim under section 10 of the Compulsory Acquisition Act 1965, a claim under part 1 of the Land Compensation Act 1973, or a claim under section 152(3) of the 2008 Act.
- 3.5.2 Category 3 persons may appear in Part 2 of the BoR for interests outside the Order limits. As these interests are not associated with a particular plot

reference any change to these interests will not appear in the previous change sections but will instead be listed within this section.

4 Book of Reference versions

4.1 Previous and current versions of the BoR

4.1.1 The table below lists all versions of the Book of Reference, including the current version.

Table 4.1 All versions of the Book of Reference (BoR)

BoR version number	Version required for	Date of submission	Examination deadline (if applicable)

4.2 v3.0	Update to capture changes following continued diligent inquiry	July 2023	Deadline 1 (D1)
4.2 v4.0	Update to capture changes following continued diligent inquiry and Project amendments	August 2023	Deadline 3 (D3)
4.2 v5.0	Update to capture changes following continued diligent inquiry and accepted Project changes within Change Application (August 2023)	September 2023	Deadline 4 (D4)
4.2 v6.0	Update to capture changes following continued diligent inquiry and accepted Project changes within Second Change Application (September 2023)	October 2023	Deadline 5 (D5)
4.2 v7.0	Update to capture changes following continued diligent inquiry, accepted Project changes within third Change Application (October 2023) and Project amendments	November 2023	Deadline 7 (D7)

5 Version 2.0 changes

5.1 Summary of changes

- 5.1.1 The changes within this version can be summarised as:
- a. Addition of reference to relevant Articles of the DCO to all plot descriptions following advice from the Planning Inspectorate under section 51 of the Planning Act 2008.
- 5.1.2 A total of 4,204 plots with one change following advice from the Planning Inspectorate.

5.2 Multi-plot changes

- 5.2.1 One change has impacted 4,204 land plots within the Book of Reference. This change is described in the table below.

Table 5.1 Multi-plot changes to the BoR v2.0

Summary and reason for change	New entry	Previous entry	Plots affected	Parts of the BoR affected
