63					Detailed engagement has been ongoing since August 2018. Multiple survey consent forms have been agreed to facilitate Applicant surveys, including agreement of compensation therefrom. Negotiations are progressing on an acquisition by agreement basis and valuations have been exchanged. A property search has also been undertaken to assist the landowner in identifying relocation options and the Applicant has also offered to engage and assist the agent with calculating a disturbance estimate to provide a global estimate of compensation. The Applicant has responded to the landowners relevant representation and offered a Statement of Common Ground to record the position. The Applicant has offered in principle to reimburse a second agency search to assist relocation efforts.			H	Detailed engagement has been ongoing since August 2018. In conversation with agent (17-09-20) he confirmed that engagement has been limited as the landowner not unduly concerned at this stage as land acquisition is temporary with permanent rights for utilities and that they will engage further once final design is submitted in Development Consent Order. Initial land requirements significantly reduced owing to change of utility requirements. At CAH3 a 'lift and shift' agreement was discussed in respect of the utility access route and will be progressed on a subject to Contract and Subject to Project Approval basis. 356					Contact has been made with landowner's agent and solicitor who are aware of the Project and its effect on his client's property. An invitation to negotiate and acquire the interests required voluntarily has been sent although a previously discussed section 253 (Highways Act 1980) agreement is now thought unsuitable for such specialist (ancient woodland creation) essential ecological mitigation. A proposed lease arrangement is currently under discussion, but the terms are not agreed and the current proposed terms are considered unsuitable for permanent essential ecological mitigation by the Applicant. The Applicant will continue discussions with the landowner.

On site consultation events have been held and attended by Thurrock Council representatives and members of the travelling community to seek feedback on alternative relocation options for this site. During COVID-19 options and engagement were shared via a private Facebook Group as well as engagement by the Traveller Liaison Officer for Thurrock Council. New site agreed in principle by both Thurrock as the Freeholder and by the occupiers. All occupiers will be relocated onto the new site and discussions are ongoing to agree the final details of the design of the site layout.
