1 Introduction

- 1.1.1 A section 106 agreement (s106) could not be reached between the Applicant and Kent County Council and so this document presents planning obligations in the form of a unilateral undertaking from the Applicant to Kent County Council. The executed version of the undertaking will be submitted at Deadline 10.
- 1.1.2 The contents of the unilateral undertaking are understood to be agreed by Kent County Council but the reason for an agreement not being reached is because of certain matters that the Applicant was not prepared to include in the s106 agreement.
- 1.1.3 To give the Examining Authority an indication of the final status of the draft s106 agreement negotiations, Table 1.1 presents a broad summary of positions on the main clauses and schedules of the unilateral undertaking.

Table 1.1 Summary positions on the main clauses and schedules of the draft s106 at Deadline 9

Sections	Commentary
s106 clauses	Drafts of the Section 106 agreements have been exchanged between the two parties and a number of the County Council's comments have been addressed by the Applicant. The s106 clauses (at the front end of the document) were substantially if not wholly agreed
Schedule 1 – Officer Support Contributions	The County Council has accepted the Applicant's financial contribution and the terms of payment.
Schedule 2 – Severance Contributions	The County Council has accepted the Applicant's financial contribution and the terms of payment.
Schedule 3 – Payments to the Council – Enhancement of the Kent Downs Area of Outstanding Natural Beauty (KDAONB)	The County Council has accepted the Applicant's financial contribution and the terms of payment.
Schedule 4 – Heavy Goods Vehicles ("HGV") Restrictions	The County Council has accepted the Applicant's financial contribution and the terms of payment.

- 1.1.4 The matters that the County Council wanted to be in the section 106 agreement but are not:
- a. An obligation for the Applicant to carry out a programme of pre-emptive works to prevent or minimise damage to the Local Road Network during the LTC construction phase. In the alternative, funding for KCC to undertake such works at National Highway's expense.
 - b. An obligation that National Highways should fund KCC to carry out identified mitigation measures on the Local Road Network (LRN) as identified through the Wider Network Impact (WNI) study (details of mitigation schemes including costs are provided in Appendix B of KCC's D7

submission - [REP7-198]). The combined cost of all the proposed mitigation is estimated at £23.3m.

- c. An obligation upon the Applicant to contribute [financially] to the preparation of an outline business case for the A229 Blue Bell Hill Improvement Scheme in the order of £3m by June 2024 to allow KCC to meet its current programme.
- d. An obligation upon the Applicant to identify and fully fund mitigation to local bus services which are disrupted because of temporary works during construction. This would include a financial contribution of £80,000 due to delays arising from construction traffic management measures as set out in the Transport Assessment a further £80,000 to cover the temporary works that may impact bus services but which the Transport Assessment [APP-529] cannot determine at this stage
- e. An obligation upon the Applicant to provide a sufficient financial contribution for the implementation of traffic management measures identified through the Traffic Management Plan and Traffic Management Forum.

1.1.5 It is the Applicant's view that these requests are either already appropriately provided for and secured by Control Documents (principally the oTMPfC [REP7-148] and the dDCO (in respect to items (a), (d) and (e)); or are not required in order to make the Project acceptable in planning terms (in respect of items (b) and (c)). The Applicant's position on these matters is set out within the Statement of Common Ground between the parties submitted at Deadline 9A under matters 2.1.8, 2.1.108 (DL-1), 2.1.170 (DL-6) and 2.1.25-28.

1.1.6 The unilateral undertaking is presented in full in Appendix A.

1.1.7 In summary the unilateral undertaking provides the following:

- a. Annual financial contributions towards various officer posts to assist the County Council in meeting its obligations on account of the Authorised Development.
- b. The payment of the financial contributions for officer posts is triggered by an input date i.e. the intended first date on which work falling within a relevant role at the County Council is requested or required by the Applicant in respect of matters under the Development Consent Order in respect of the Authorised Works
- c. The payment of the financial contributions for officer posts will cease six months post the construction end date, which is defined as the date when the road tunnels are open for public use.
- d. The Applicant also covenants to pay to the Council a one-off payment of £30,000 to assist the County Council to make the necessary changes to the Historic Environment Record that would result from the Authorised Development and to upgrade the online Historic Environment Record

- e. The payment of £103,000 to mitigate severance effects on Valley Drive, Gravesend. The payment meets the County Council's costs of a study to identify the optimal location of a pedestrian crossing to address the potential impacts on pedestrians on Valley Drive and the construction of the pedestrian crossing. The works must be carried out within 18 The months of the construction end date.
- f. The payment of £4.24M for an AONB Compensatory Enhancement Fund to fund measures and projects that meet a funding criterion that primarily conserves and enhances the natural beauty and special qualities of the Kent Downs AONB and its setting. An additional sum is included to meet the costs in managing and administering the fund.
- g. The payment of £28,000 to meet the County Councils costs of implementing HGV restrictions along Henhurst Road. The sum includes the costs of a feasibility study and for addressing the adverse consequences of the Henhurst Road restrictions.
