

Submission ID: 24909

We note that the comments made in our previous written representations submitted at Deadline 8 (ref. REP8-193) have not been addressed within the final dDCO, Register of Environmental Actions and Commitments, or Stakeholder Actions and Commitments Register submitted by the Applicant at Deadline 9. We therefore would like to impress upon the Examining Authority that our comments made within REP8-193 still stand and we would respectfully request that these be incorporated into the approved versions of the documents.
