Dear Lower Thames Crossing Team

**LOWER THAMES CROSSING – APPLICATION FOR DEVELOPMENT CONSENT-  
RESPONSE REFERENCE: 20035885 - SUBMITTED ON BEHALF OF STUART MEE,  
RICHARD JAMES MEE AND A P MEE TO NATIONAL HIGHWAYS’ LETTER OF 26  
NOVEMBER 2024**

We act on behalf of **STUART MEE, RICHARD JAMES MEE AND A P MEE** and have submitted representations throughout the process of the Lower Thames Crossing (LTC) proposal on their behalf.

The reference in Annex C in the Table A.1.2 is to a **“Side Legal Agreement including a voluntary public right of way dedication agreement”**. We have been negotiating the terms of an agreement specifically to protect our clients’ interests with special reference to water irrigation and other matters and believe that we have a fairly final agreed form of document but still need to finalise one or two matters.

In the event that an agreement is not finalised, our objections will remain and must be taken into account by the Secretary of State in the determination of the LTC proposal.

Separate to the above are the representations submitted relating to the Replacement Land in respect of which there has been no discussion and therefore remains a fundamental objection to the LTC proposal.

Yours faithfully
