**TRANS-PENNINE UPGRADE**  
PUBLICATION OF STATEMENT OF COMMUNITY CONSULTATION  
SECTION 47 NOTICE

The Trans-Pennine Upgrade is looking to improve connectivity between Manchester and Sheffield city regions. The existing route connecting the M67 at Mottram in Longdendale to the M1, north of Sheffield, mostly consists of single carriageway sections with steep gradients and sharp bends. The existing route currently poses a number of negative impacts on local people. Sections of the route can also be badly affected by poor weather, accident rates are above the national average and it is often congested.

The scheme is an Environmental Impact Assessment development, which means a Preliminary Environmental Information Report (PEIR) will be produced (to describe the environmental effects of the scheme) and consulted on.

The Statement of Community Consultation (SoCC) sets out how we will be consulting with the local community about our scheme and how they can get involved. The SoCC can be inspected online at [www.highways.gov.uk/trans-pennine-upgrade/](http://www.highways.gov.uk/trans-pennine-upgrade/) or at the following deposit locations: Broadbottom Community Centre, Hattersley Hub (Stockport Road), Hattersley Library, Hollingworth Post Office, Magdalene Centre (Mottram Road, Broadbottom), Mottram Post Office (1 Mottram Moor), St. Mary's Church (Market Street, Hollingworth), Bradbury Community House, Gattopark Community and Sports Centre (Melandra Castle Road, Glossop), Glossop Leisure Centre, Glossop Library, Hadfield Library (Station Road, Glossop), High Peak Borough Council, Peak District National Park Authority, Barnsley Central Library, Tankersley Welfare Hall, Tankersley Post Office, Penistone Library, Stocksbridge Library.

The consultation will be held from 12 February 2018 to 25 March 2018. You can view our consultation materials (including: plans, brochure, SoCC, PEIR) at our consultation events where you can speak with the Project Team and share your views. Consultation events will be held at the following locations:

## REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURES) REGULATIONS 2009 TRANS-PENNINE UPGRADE NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER

HIGHWAYS ENGLAND COMPANY LIMITED of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

The Application is for the proposed Trans-Pennine Upgrade between the roundabout at Junction 4 of the M67 (which meets the A57 at Mottram) and a new junction on the A57 at Woolley Bridge.

The scheme's main proposals in summary are:

- Mottram Moor link road - a new dual-carriageway link road from the M67 terminal roundabout to a new junction at A57(T) Mottram Moor and a new single carriageway link;
- A57(T) to A57 link road - a new single carriageway link from the A57 at Mottram Moor to a new junction on the A57 at Brookfield, bypassing the existing A628/A57 and A57 Woolley Lane/Hadfield road junctions.

The scheme is an Environmental Impact Assessment development ("EIA development"), as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will be submitted as part of the Application.

Preliminary Environmental Information ("PEI") forms part of the consultation material. Consultation on the proposals will take place from 12 February 2018 to 25 March 2018. Copies of the consultation materials - including documents, plans and maps showing the nature and location of the proposed development and the PEI - will be available for inspection free of charge from 12 February 2018 to 25 March 2018 at the following locations and times:

There will be a charge of 10p per A4 side (Black and White) and 60p per side (Colour) for any person that are requested. This is including postage and packaging and 20% VAT. Any person may comment on the proposals or otherwise respond to this publicity. Responses must be received between 12 February 2018 and 25 March 2018.

A consultation feedback form is available as part of the consultation materials. When providing your response, please include your name and address or, if you would prefer your comments to be anonymous, your postcode only. Please also confirm the nature of your interest in the scheme. Please supply any response to:

- Trans\_Pennine\_Scheme@highwaysengland.co.uk
- Freepost TRANS-PENNINE UPGRADE
- [www.highways.gov.uk/trans-pennine-upgrade/](http://www.highways.gov.uk/trans-pennine-upgrade/)

Responses must be received no later than 23:59pm on 25 March 2018 - or, if later, 25 days from the date of this notice.

Highways England will consider and have regard to all responses when developing the Application for a Development Consent Order once consultation has closed. Responses will form the basis of a Consultation Report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of the Consultation Report. If you would like further information about this notice, the consultation or the scheme, please contact the project team by using one of the contact methods provided above.

Monica Corso-Griffiths, Senior Project Manager, Highways England.

### REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 TRANS-PENNINE UPGRADE NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER

**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

- The Application is for the proposed Trans-Pennine Upgrade between the roundabout at junction 4 of the M67 (which meets the A57 at Mottram) and a new junction on the A57 at Woolley Bridge

The scheme's main proposals in summary are:

- Mottram Moor link road - a new dual-carriageway link road from the M67 terminal roundabout to a new junction at A57(T) Mottram Moor and a new single carriageway link;
- A57(T) to A57 link road - a new single carriageway link from the A57 at Mottram Moor to a new junction on the A57 at Brookfield, bypassing the existing A628/A57 and A57 Woolley Lane/Hadfield road junctions

The scheme is an Environmental Impact Assessment Development ("EIA development"), as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will be submitted as part of the Application. Preliminary Environmental Information ("PEI") forms part of the consultation material. Consultation on the proposals will take place from 12 February 2018 to 25 March 2018. Copies of the consultation materials - including documents, plans and maps showing the nature and location of the proposed development and the PEI - will be available for inspection free of charge from 12 February 2018 to 25 March 2018 at the following locations and times:

### TRANS-PENNINE UPGRADE PUBLICATION OF STATEMENT OF COMMUNITY CONSULTATION SECTION 47 NOTICE

The Trans-Pennine Upgrade is looking to improve connectivity between Manchester and Sheffield city regions. The existing route connecting the M67 at Mottram in Longendale to the M1, north of Sheffield, mostly consists of single carriageway sections with steep gradients and sharp bends. The existing route currently poses a number of negative impacts on local people. Sections of the route can also be badly affected by poor weather, accident rates are above the national average and it is often congested.

The scheme is an Environmental Impact Assessment development, which means a Preliminary Environmental Information Report (PEIR) will be produced (to describe the environmental effects of the scheme) and consulted on.

The Statement of Community Consultation (SoCC) sets out how we will be consulting with the local community about our scheme and how they can get involved. The SoCC can be inspected online at [www.highways.gov.uk/trans-pennine-upgrade/](http://www.highways.gov.uk/trans-pennine-upgrade/) or at the following deposit locations: Broadbottom Community Centre, Hattersley Hub (Stockport Road), Hattersley Library, Hollingworth Post Office, Magdalene Centre (Mottram Road, Broadbottom), Mottram Post Office (1 Mottram Moor), St. Mary's Church (Market Street, Hollingworth), Bradbury Community House, Gamesley Community and Sports Centre (Melandra Castle Road, Glossop), Glossop Leisure Centre, Glossop Library, Hadfield Library (Station Road, Glossop), High Peak Borough Council, Peak District National Park Authority, Barnsley Central Library, Tankersley Welfare Hall, Tankersley Post Office, Penistone Library, Stocksbridge Library.

The consultation will be held from 12 February 2018 to 25 March 2018. # **Trans Pennine Upgrade: Statement of Community Consultation (SoCC)**

**February 2018**

---

Section 47(1) of the Planning Act 2008 states that the promoter of a proposed Development Consent Order (DCO) application must prepare a statement setting out how they propose to consult people living in the vicinity of the land about the proposed application. This template can be used by project teams preparing a SoCC to support an application for a DCO. The wording below is set text for Highways England.

## Introduction

1. Highways England is publishing this **Statement of Community Consultation (SoCC)** in connection with a proposed improvement to the Trans-Pennine route between the roundabout at junction 4 of the M67 (which meets the A57 at Mottram) and junction 36 of the M1 in Tankersley. The purpose of this document is to set out how we will consult the local community about the scheme. This document also provides background to the scheme and how the application to build it will progress.

## The Application

2. Highways England is developing part of this scheme under the Planning Act 2008 and is publishing this statement under Section 47 of that Act (see further details in The Scheme section 7 below). We have liaised with the local authorities responsible for areas where we intend to build this project, about plans to consult with the local community. These Local Authorities are Tameside Metropolitan Borough Council, Derbyshire County Council and High Peak Borough Council.
3. The Planning Act 2008 requires Highways England to make an application to the Secretary of State through the Planning Inspectorate for a Development Consent Order (DCO) to build parts of the scheme. The Secretary of State's role is to consider whether authorisation should be given for major infrastructure projects like this scheme. Highways England anticipates that a DCO application for the scheme will be submitted winter 2018/19. The Planning Inspectorate will examine the DCO application and the Secretary of State will decide on whether the scheme should go ahead.
4. Government policy relating to the development of the national road network is set out in the National Networks National Policy Statement (NNNPS). This provides the framework for DCO applications to be considered against.
5. When Highways England submits its DCO application, the Secretary of State must consider whether the consultation has been adequate. This pre-application consultation will be important in relation to the examination process that follows after an application is accepted by the Planning Inspectorate. **Therefore, the best time to provide feedback on this scheme is now by taking part in this pre-application statutory consultation.**
6. You can find more information about the Planning Inspectorate and the Planning Act 2008 on the National Infrastructure Planning website:

## The Scheme

7. The existing route connecting the M67 at Mottram in Longdendale to the M1, north of Sheffield, mostly consists of single carriageway sections with steep gradients and sharp bends. The existing route currently causes a number of negative issues for local people. Sections of the route can also be badly affected by poor weather and accident rates are above the national average. The road is often closed for these reasons, which means it is not as reliable as it should be. The lack of technology in the area, such as electronic information signs, also means that there is little information available for road users to make informed decisions about their journey.
8. The elements to be developed and delivered in the Trans-Pennine Upgrade are:

### DCO Elements

- Mottram Moor Link Road – a new dual-carriageway link road from the M67 junction 4, to a new junction at A57(T) Mottram Moor and a new single carriageway connecting to the A6018 Roe Cross Road
- A57(T) to A57 Link Road – a new single carriageway link from the A57(T) at Mottram Moor to a new junction on the A57 at Wooley Bridge

### Non DCO Elements

- Safety and Technology Improvements – including safety measures focused on addressing accident clusters and the provision of electronic message signs.
- A616/A61(T) Westwood Roundabout – improvements to reduce congestion and improve the flow of traffic through the roundabout in Tankersley, Sheffield.

## Strategic Benefits

- **Connectivity** – by reducing congestion and improving the reliability of people's journeys between Manchester and Sheffield city regions.
- **Environmental** – by improving air quality and reducing noise levels in certain areas, through reduced congestion and removal of traffic from residential areas. The scheme is also being designed to avoid unacceptable impacts on the natural environment and landscape in the Peak District National Park.
- **Societal** – by re-connecting local communities along the Trans-Pennine route.
- **Capacity** – by reducing delays and queues that occur during busy periods and improving the performance of junctions on the route.
- **Reliability** – by reducing the number of incidents and by the use of technology to advise drivers of incidents along the route.
- **Safety** – by reducing the number of accidents along the route through targeted improvement

---

## Local benefits

The scheme will:

- Remove through traffic from a number of the existing main roads in Mottram and Hollingworth, which will reduce noise levels and pollution to properties (including residential) for people living nearby.
- Create better conditions for pedestrians and cyclists in Mottram and on a number of existing main roads in Hollingworth.
- Reduce congestion and delays affecting residents and businesses in the area.
- Help public transport to be more reliable where it currently gets delayed.
- Reduce congestion and improve traffic flows on the Westwood roundabout so that it is no longer a bottleneck.

## Consulting the community

9. In accordance with section 47 of the Planning Act 2008, Highways England is consulting with residents and businesses in the vicinity of the proposed scheme.
10. We have already undertaken two public information exhibition events. Public awareness events were held in autumn 2016 and a four week non-statutory period with public consultation events were held in spring 2017. We asked consultees for their views on proposed route options and Option A, their preferred option for improvements to the Mottram link road has become the preferred route. Though not proposed at the time, there were many comments regarding improvements to Westwood Roundabout, and therefore we are taking forward a scheme to improve congestion and traffic flows at the junction. There was broad agreement on which safety measures would be preferred which will influence the final design. We have gained more information on how the scheme will affect local people.
11. More details, including the outcomes of the spring 2017 consultation, are available to download from [www.highways.gov.uk/trans-pennine-upgrade/](http://www.highways.gov.uk/trans-pennine-upgrade/), on request from Highways England, or to view for the duration of the consultation period at the deposit locations detailed in this SoCC.
12. We want to make sure that the local community, residents, local interest groups, businesses, visitors and road users, have the opportunity to fully understand the scheme and comment on our proposals. To do this we will hold a six weeks statutory consultation from 12 February 2018 to 25 March 2018, where we will consult on:

DCO Elements:

- Mottram Moor and A57(T) to A57 link roads.
- Works to the existing A57 road.
- Land above the Mottram underpass.

Non DCO Elements:

- Improved facilities for pedestrians, cyclists, equestrians and walkers.
- Safety and technology improvements.
- A616/A61(T) Westwood roundabout.

13. We have carried out an Environmental Impact Assessment for the scheme. The scheme is an Environmental Impact Assessment development, and therefore we are publishing a Preliminary Environmental Information (PEI) report. The PEI report will be available as part of the consultation materials. This gives information about the potential environmental effects of the scheme and the measures proposed to reduce those effects to assist well-informed responses to the consultation. The PEI report has been developed based on assessment work done to date. The PEI report and a Non-Technical Summary (NTS) will be available at consultation events. A copy of the PEI report and the NTS are also available online or to view at the deposit locations listed.

14. All comments received will be considered and will influence, where possible, any further refinements to the Project and our approach to environmental mitigation.

Our statutory public consultation will involve:

## Next steps

16. Comments made during the public consultation will be recorded and carefully considered by Highways England and will be taken into account in developing the scheme proposal. An explanation of how comments received have shaped and influenced our proposals including feedback received at previous consultation events, will be reported in a Consultation Report prepared by Highways England which will accompany the DCO application as required by Section 37(3) (c) of the Planning Act 2008. The Planning Inspectorate will decide whether the application meets the required standards to proceed to examination, and will determine whether Highways England's pre-application consultation has been adequate.

17. Highways England needs to collect and assess all responses to consultation before compiling the DCO application to the Planning Inspectorate. To allow time to do this, we must receive feedback by 23:59 on the 25 March 2018.
