Dear Mr Cowperthwaite

We are just alerting you to a delay in submitting our completed work on alternatives and carbon. At the ISH2 we promised to do this by D4 Feb 23rd. We did note however that was contingent on getting the requested information from National Highways. At 1800hrs on 18th Feb National Highways emailed us with some, but not all, of the public transport information we requested. A simplified version was agreed at NH's request so this is now a part of what was already less than requested. We consider impact on public transport and other sustainable modes, and how this has been modelled, as critical to assessment of this scheme. It will be even more important if the scheme is subject to new modelling using a forecast based on the DfT Decarbonisation Strategy, which now seems to be being proposed by NH (page 37, Item 6 of the Response to the ISH2). Despite pressing National Highways repeatedly on this public transport issue we have still not received the data we requested. This has inhibited our ability to make complete submissions within the timescales available, which otherwise we would. Consequently this further delay has meant we have been unable to meet the 23rd Feb deadline. We do hope you would accept a late submission, once we have the outstanding data and have analysed it.

Many thanks for your consideration.

Best wishes

Anne
