

Application by Highways England for an Order Granting Development Consent for A57 Link Roads The Examining Authority's second written questions and requests for information Issued on Wednesday 2 March 2022

This document sets out the Examining Authority's (ExA's) second written questions and requests for information.

Responses should be submitted for Deadline 6 on Wednesday 16 March 2022.

The Planning Inspectorate's document references in these questions [in square brackets] can be found on the National Infrastructure Planning website at: <http://infrastructure.planninginspectorate.gov.uk/document/TR010034-000603>

Please could all parties answer all questions directed to them or explain why the question is not relevant to them. If questions can be **fully** answered within another submission, then a reference to the relevant paragraph(s) of the submission will be enough.

When you are answering a question, please start your answer by quoting the question number.

If you are answering no more than 3 questions, responses in a letter format will suffice. If you are answering several questions, it will assist the ExA if you could use a table based on that used below. An editable version of this table, in Microsoft Word, is available on request from the Planning Inspectorate. Please email your request to: A57LinkRoads@planninginspectorate.gov.uk.

Abbreviations

AADT	Annual Average Daily Traffic	NO₂	Nitrogen Dioxide
dDCO	Draft Development Consent Order	NPPF	National Planning Policy Framework
DMRB	Design Manual for Roads and Bridges	NPSNN	National Policy Statement for National Networks
DPD	Development Plan Document	PAS 2080	Carbon Management in Infrastructure, published by BSI
EMP	Environmental Management Plan	PDNP	Peak District National Park
ES	Environmental Statement	PRoW	Public rights of way
ExA	Examining Authority	RIS	Road Investment Strategy
IAQM	Institute of Air Quality Management	SPA	Special Protection Area
IEMA	Institute of Environmental Management and Assessment		

Contents

Section	Topic

2.	General matters
3.	Transport networks and traffic, alternatives, access, severance, walkers, cyclists, and horse riders
4.	Peak District National Park
5.	Other landscape and visual, design, Green Belt
6.	Other noise, vibration, and nuisance
7.	Air quality
8.	Climate change
9.	The historic environment
10.	Soils, ground conditions, material assets and waste
11.	The water environment, drainage, flood risk assessment, Water Frameworks Directive
12.	Biodiversity, ecological and geological conservation, Habitat Regulation Assessment
13.	Land use, social and economic, human health
14.	Other environmental topics
15.	Compulsory Acquisition, Temporary Possession, Statutory Undertakers, and funding

No	Question to	Reference	Question	HPBC's response
1.	The draft Development Consent Order (dDCO) and other consents			
	Reference is made to the dDCO submitted by the Applicant for Deadline 5 [REP5-006].			
	General matters and other consents			
1.1.	Applicant	Other consents	At Issue Specific Hearing 1 [EV-016 EV-018] the Applicant said it would provide an updated Consents and Agreements Position Statement [REP1-009] at Deadlines 5, 7 and 9. An update was not provided at Deadline 5. Please could the Applicant provide updates at Deadlines 6, 7 and 9?	N/A
	Parts 1 to 7			
1.2.	Derbyshire County Council	Article 2(1) Interpretation - commence	Derbyshire County Council [REP4-010] raised concerns about the need to secure pre-commencement archaeological investigations and mitigation works, the need for a	N/A

No	Question to	Reference	Question	HPBC's response
			<p>Written Scheme of Investigation, and for Derbyshire County Council to be consulted accordingly.</p> <p>The Applicant [REP4-006 page 9] has suggested the addition of Requirement 10(8). The ExA understands that the suggestion is that this would provide the necessary mitigation when taken together with Requirement 10(1) and the addition of a definition of "preliminary works" to Requirement 1.</p> <p>a) Does Derbyshire County Council have any comments on the Applicant's updates to the dDCO [REP5-006]?</p> <p>b) Does Derbyshire County Council have any remaining</p>	

No	Question to	Reference	Question	HPBC's response
			concerns regarding the mitigation of pre-commencement activities?	
1.3.	Applicant Local authorities	Article 7(a) – Limits of deviation	The Applicant [REP4-006 page 12] advised that the Environmental Statement (ES) has not fully considered the horizontal deviation of 5m that would be permitted by the dDCO [REP5-006]. It said that noise and air pollution concentration would be higher than considered in the ES if the roads moved towards receptors and lower if it moved away. The Applicant [REP4-008 Item 2n] said that noise levels could change by between around 1dB and 2dB for receptors closer than 40m to the alignment and considers that there would be unlikely to	N/A - concerns issues with the Rochdale envelope. The main environmental affects in HPBC are from the increase in traffic on the existing roads rather than the new development, therefore deviation of the road is likely to have a very small impact on predictions.

No	Question to	Reference	Question	HPBC's response
			<p>be any changes to the significance. Changes to air pollution have not been quantified.</p> <p>Noting the potential magnitude of change in noise and air quality arising from a 5m deviation, particularly in the vicinity of sensitive receptors, the ExA is concerned that the Rochdale Envelope does not appear to have included for the proposed limits of deviation and that a reasonable worst-case scenario does not appear to have been assessed.</p> <p>a) Please could the Applicant advise on the implications of it being secured that the main carriageway would be permitted to deviate horizontally by</p>	

No	Question to	Reference	Question	HPBC's response
			<p>up to 1m? How practical would it be for the limit of deviation to vary between 1m and 5m depending on the proximity to sensitive receptors?</p> <p>b) Please could the local authorities comment on the Applicant's consideration of a horizontal deviation of 5m and on whether that should be reduced to 1m in the vicinity of sensitive receptors?</p> <p>The Applicant [REP4-008] also states that landscape impacts in urban areas could have a change to significance of effects as a result of the limits of deviation. It said that this would be subject to a "not environmentally</p>	

No	Question to	Reference	Question	HPBC's response
			<p>worse than" assessment.</p> <p>c) Please could the Applicant set out when this assessment would be undertaken and/ or how results would be reported?</p>	
1.4.	Applicant Derbyshire County Council	Article 10 – Street Works	<p>The Applicant [REP4-006 page 13] said that Derbyshire County Council's permit scheme would be disapplied. It referred to ongoing discussions and that a Traffic Management Plan would be consulted on with Derbyshire County Council.</p> <p>Derbyshire County Council [REP4-010] is concerned that there is coordination and liaison to avoid any conflicts and have suggested that 3 months notice be provided of any works.</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>Are the Applicant and Derbyshire County Council able to agree suitable provisions in the first iteration Environmental Management Plan (EMP) [REP3-010 REP5-012] to set out the measures to be included in the Traffic Management Plan?</p>	
1.5.	Derbyshire County Council	Article 12(5) - Construction and maintenance of new, altered or diverted streets and other structures – responsibility for maintenance	<p>The Applicant [REP4-006 page 13] said the principles of future maintenance had been agreed with Derbyshire County Council and that the detail would be contained in the second iteration EMP.</p> <p>Derbyshire County Council [EV-016 EV-018 REP4-010] said that responsibilities for maintenance had not been agreed and that any need for commuted sums could be developed through the</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>emerging EMP and the Statements of Common Ground.</p> <p>The ExA notes the potential for measures not being agreed in the Statement of Common Ground, and that the second iteration of the EMP requires consultation rather than agreement with Derbyshire County Council.</p> <p>a) Is Derbyshire County Council content that with Article 12(5)?</p> <p>b) Should the maintenance responsibilities be set out in the first iteration EMP [REP3-010 REP5-012]?</p>	
1.6.	Applicant Local authorities	Articles 14(6), 18(11), 19(8), 21(6) – Deemed consent	Please could the Applicant and the local authorities provide an update on discussions regarding the addition of a	No discussions have taken place but the matters predominantly relate to the highways authority.

No	Question to	Reference	Question	HPBC's response
			<p>provision for any application for consent to contain a statement drawing the street authority's attention to the guillotine?</p> <p>If agreement is not reached then the ExA is minded to include this provision, for the reasons set out in the first written questions [PD-009 Q1.19, Q1.21, Q1.22 and Q1.24].</p>	
1.7.	Applicant	<p>Article 15(2)(b) - Permanent stopping up and restriction of use of highways, streets and private means of access - Temporary alternative routes for private means of access</p>	<p>The Applicant [REP4-006 page 14] confirmed that private means of access will be maintained.</p> <p>The ExA is considering whether Article 15(2)(b) is sufficiently clear in providing for private means of access to be maintained.</p> <p>Would Article 15(2)(b) be clearer that private means of access would be maintained if the</p>	N/A

No	Question to	Reference	Question	HPBC's response
			need for alternative routes for streets to be maintained to the reasonable satisfaction of the street authority was set out separately in Article 15(2)(c)?	
Schedules 1 and 2				
1.8.	Applicant	Further development "... <i>within the Order limits which does not give rise to ...</i> "	The Applicant [REP4-006 page 16] has added introductory wording to confirm that further development would not give rise to materially new or different environmental effects to those assessed in the ES. For consistency with similar wording elsewhere, should it be amended to "... <i>within the Order limits provided that it does not give rise to...</i> "?	N/A
1.9.	Environment Agency	Requirement 4(1) – second iteration EMP	The Environment Agency [REP2-052 Q1.32] said that it wished to be	N/A

No	Question to	Reference	Question	HPBC's response
			<p>consulted on any EMP detail to ensure mitigation for pollution prevention impacts of the construction are considered for the water environment.</p> <p>The Applicant added a provision for the Environment Agency to be consulted on the second iteration EMP, which includes the Pollution Prevention Plan and the Construction Water Management Plan.</p> <p>Does the Environment Agency have any remaining concerns regarding dDCO [REP5-006] provisions for consultation in relation to mitigation measures for pollution prevention?</p>	
1.10.	Applicant Local authorities	Requirement 4(1) and (2) - second iteration EMP	The ExA [EV-016 EV-018] has raised concerns that key principles established for the	b) Without input from the applicant it is difficult to postulate why the applicant does not appear to be comfortable for the dDCO to require that the measures for the construction stage referred to in the ES are included in the second iteration EMP.

No	Question to	Reference	Question	HPBC's response
			<p>first iteration EMP should not be lost or watered down in subsequent versions.</p> <p>The Applicant [REP4-006 page 17] has explained the process for the development of the second iteration of the EMP and explained that the second iteration would not follow the first iteration "slavishly".</p> <p>The Applicant [REP4-006 page 17] said that the first iteration EMP [REP3-010 REP5-012] incorporates the measures for the construction stage referred to in the ES as being incorporated in the EMP. It said that the second iteration would be updated to reflect the finalised design and construction plans and would reflect the mitigation for</p>	<p>Given the further detail in the 2nd iteration , commitment to consultation & to adopt BPM in the REAC (for mitigation) this is not considered to be critical for all the general mitigation proposals highlighted to be included.</p> <p>However, the above noted, where mitigation has been described as embedded and presumed to occur in an associated assessment then there should be a commitment that this mitigation will be included (as impacts have been assessed on this basis)</p>

No	Question to	Reference	Question	HPBC's response
			<p>the consented scheme. The Applicant does not appear to be comfortable for the dDCO [REP5-006] to require that the measures for the construction stage referred to in the ES are included in the second iteration EMP. The second iteration is the version that would be used during construction.</p> <p>a) The ExA is considering whether it can rely on the measures for the construction stage referred to in the ES if their inclusion in the second iteration EMP is not secured in the dDCO [REP5-006]. Please could the Applicant comment? Can a firmer undertaking be</p>	

No	Question to	Reference	Question	HPBC's response
			<p>secured regarding the mitigation referred to in the ES?</p> <p>The Applicant [REP4-006 page 17] said that the second iteration EMP would contain a record of the consents, commitments and permissions resulting from liaison with statutory bodies and be kept up to date with any material changes during construction and for consultation to be required on those changes. However, the Applicant does not appear to be comfortable for the dDCO [REP5-006] to include those requirements for the second iteration.</p> <p>b) Please could the local authorities comment?</p>	
1.11.	Applicant	Requirement 4(2)(c) - second	The ExA [PD-009 Q1.34] is	N/A

No	Question to	Reference	Question	HPBC's response
		iteration EMP - Working hours	<p>suggesting additional wording to mitigate the impacts of night-time working by giving the local authorities prior notification to help them to manage communications with local communities:</p> <p><i>"Provided that written notification of the extent, timing and duration of each activity is given to relevant local authorities in advance of any works that are to be undertaken outside of the specified hours, except in cases of emergency or for the repair or maintenance of construction equipment, which are to be notified to the relevant local authorities as soon as is practicable."</i></p> <p>The Applicant [REP4-006 page 18] said that it may not</p>	

No	Question to	Reference	Question	HPBC's response
			<p>always be possible to give notice for some of the listed works.</p> <p>The ExA would like to understand why some of the works would not be planned in advance. Please could the Applicant explain why it is not possible to give notice for:</p> <ul style="list-style-type: none"> a) Night-time closures including for road crossings and final surfacing tie ins? b) Any oversize deliveries or deliveries but only where daytime working would be excessively disruptive to normal traffic operation? c) Junction tie-in works? d) Removal of overhead power lines? 	

No	Question to	Reference	Question	HPBC's response
			e) Overnight traffic measures?	
1.12.	Applicant Local authorities	Requirement 4(4) and 4(5) – third iteration EMP	<p>The ExA [EV-016 EV-018] has raised concerns that key principles established for the first iteration EMP [REP3-010 REP5-012] should not be lost or watered down in subsequent versions.</p> <p>The Applicant [REP4-006 pages 18 to 19] has explained the process and legislative requirements for the development of the third iteration of the EMP and said that the third iteration EMP would be developed from the second iteration EMP, which is the version that would be used for construction. The Applicant does not appear to be comfortable for the dDCO [REP5-006] to require that the measures for the</p>	<p>a) More appropriate for DCC to comment if requirement 4(4) requires the 3rd EMP to be prepared in accordance with a process contained in the 2nd EMP, where they would have been consulted.</p> <p>As noted in 1.1 above where any operational mitigation has been described as embedded and presumed to occur, in an associated assessment, then there should be a commitment that this mitigation will be included (as impacts have been assessed on this basis) in the third iteration</p>

No	Question to	Reference	Question	HPBC's response
			<p>construction stage referred to in the ES are included in the second iteration EMP. The third iteration is the version that would be prepared at handover.</p> <p>a) There are no requirements for approval, or consultation on the third iteration EMP. Please could the local authorities comment?</p> <p>b) Noting that the second iteration EMP is for the construction phase, please could the Applicant advise whether it would reflect measures for the management and operation stage that are included in the first iteration? Is it necessary to ensure that the third</p>	

No	Question to	Reference	Question	HPBC's response
			<p>iteration reflects measures in the first iteration?</p> <p>c) The ExA is considering whether it can rely on the measures for the management and operation stage referred to in the ES if their inclusion in the third iteration EMP is not secured in the dDCO [REP5-006]. Please could the Applicant comment? Can a firmer undertaking be secured regarding the mitigation referred to in the ES?</p>	
1.13.	Applicant	Requirement 5 - Landscaping	Derbyshire County Council [REP2-051 and REP4-010] said that the landscape scheme should be approved prior to commencement of the construction	N/A

No	Question to	Reference	Question	HPBC's response
			<p>works to ensure that works make provision for the approved landscaping. It refers to experience of dealing with large-scale developments where they consider that on too many occasions landscape proposals have had to be significantly amended after the construction phase because the site hasn't been left in an appropriate condition for the required landscaping or on occasions, insufficient land has been left available post construction to accommodate all of the proposed landscaping.</p> <p>Tameside Borough Council [REP5-030] consider it is reasonable for approval of the landscaping to be required to be</p>	

No	Question to	Reference	Question	HPBC's response
			<p>approved before any construction works commence.</p> <p>a) The Applicant [REP4-006 page 20] proposes that landscaping scheme be submitted and approved before the relevant part of the authorised development can come into use. The Applicant explained that it needs to be able to deliver the highway scheme and has suggested that it's construction may need to guide the landscaping scheme.</p> <p>b) Does the Applicant consider that it is not possible for the construction works to be planned to enable the delivery of a</p>	

No	Question to	Reference	Question	HPBC's response
			<p>landscape scheme that is submitted and approved? If so, please could detailed justification be provided?</p> <p>c) The Applicant's approach suggests the potential for a large degree of flexibility in the landscape mitigation that is delivered. Please could the Applicant summarise how the landscaping mitigation is secured and how it is secured that it will not result in no materially new or more adverse effects materially new or materially worse environmental effects in comparison with those reported in the ES? To</p>	

No	Question to	Reference	Question	HPBC's response
			<p>what extent would the Illustrative Environmental Masterplan [APP-074 Figure 2.4] be followed?</p>	
1.14.	Environment Agency	Requirement 6 – Contaminated land and groundwater	<p>The Environment Agency [REP3-037] made recommendations regarding model procedures and good practice for contamination.</p> <p>The Applicant [REP4-006 page 20] noted the recommendations, the approach taken for the land contamination risk assessment, and referred to the adjustment to Requirement 4(1) to require consultation with the Environment Agency.</p> <p>Does the Environment Agency have any remaining concerns regarding</p>	N/A

No	Question to	Reference	Question	HPBC's response
			dDCO [REP5-006] provisions in relation to model procedures and good practice for contamination?	
1.15.	Natural England	Requirement 7 – Protected species	<p>Natural England [REP2-054 Q1.40] suggested additional provisions in relation to the cessation of works in case a protected species is shown to be present or there is a reasonable likelihood of it being present.</p> <p>The Applicant [REP4-006 pages 20 and 21] set out its approach and suggested a provision that relevant works likely to affect the identified protected species must cease until a scheme of protection and mitigation measures has been approved.</p> <p>a) Does Natural England have any comments</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>on the Applicant's suggestion?</p> <p>b) Does Natural England have any remaining concerns regarding dDCO [REP5-006] provisions in relation to protected species?</p>	
1.16.	Applicant	Requirement 8 - Surface and foul water drainage	<p>Should the end of Requirement 8(1) be amended to:</p> <p><i>"... following consultation with the relevant lead local flood authority and the Environment Agency on matters related to their functions"?</i></p>	N/A
1.17.	Environment Agency Lead Local Flood Authorities	Requirement 9(2) – Flood risk assessment	<p>Derbyshire County Council [REP4-010] said that the Lead Local Flood Authority would welcome consultation on any works that were not in accordance with an approved Flood Risk Assessment for</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>clarity and certainty and for the opportunity to comment on or raise concerns about any works that may result in problems for flood risk in the wider area.</p> <p>The Environment Agency [REP3-037] recommended that they should be consulted in relation to works proposed in accordance with the flood risk assessment and otherwise in accordance with the flood risk assessment. They also stated that all works should be carried out in accordance with an approved flood risk assessment regardless of whether affected landowners accept any exceedances of flood levels. They said that the flood risk assessment</p>	

No	Question to	Reference	Question	HPBC's response
			<p>must show that risks would not be increased elsewhere.</p> <p>The Applicant [REP4-006 pages 21 and 22] responded to the Environment Agency's concerns and updated the dDCO [REP5-006].</p> <p>a) Does the Environment Agency have any comments on the Applicant's updates to Requirement 9?</p> <p>b) Do the Environment Agency or the Lead Local Flood Authorities have any remaining concerns regarding dDCO [REP5-006] provisions in relation to flood risk assessment?</p>	
1.18.	Applicant	Requirement 10 – Archaeological remains	The ExA [PD-009 Q1.35] suggested that a requirement be added for any programme of	N/A

No	Question to	Reference	Question	HPBC's response
			<p>archaeological reporting, post excavation and publication to be consulted on and / or agreed in writing. The Applicant [REP4-006 page 22] said that the requirement would be added.</p> <p>Please could the Applicant add a requirement for any programme of archaeological reporting, post excavation and publication to be consulted on and / or agreed in writing?</p>	
1.19.	Applicant Local authorities	Requirement 12(1) Details of consultation – minimum period	Please provide an update on discussions regarding the consultation period, for which a period ranging from 14 days to 28 days have been suggested.	No update.
Schedules 3 to 10				

No	Question to	Reference	Question	HPBC's response
1.20.	Tameside Metropolitan Borough Council	Schedule 3, 4 and 5	Has Tameside Metropolitan Borough Council reviewed the latest versions? Does it have any further comments, please?	N/A
1.21.	Applicant	Schedule 9 – Protective Provisions	Section 127 of the Planning Act 2008 requires the ExA to consider the potential for serious detriment to Statutory Undertakers for the carrying on of their undertakings. As part of that consideration the ExA seeks written confirmation from the Applicant and from the Statutory Undertakers that all necessary matters, including the protective provisions and any relevant side agreements have been agreed. If written confirmation is not received by all relevant parties before the close of	N/A

No	Question to	Reference	Question	HPBC's response
			<p>the examination, then the ExA will be minded to recommend to the Secretary of State that it does not make a decision until it has satisfied itself that the protective provisions and any relevant side agreements have been agreed between the Applicant and any Statutory Undertakers that are named in Schedule 9 and / or have raised relevant matters requiring agreement during the examination. Please could the Applicant provide an update on:</p> <p>a) The name of each Statutory Undertaker that Parts 1, 2 and 3 of Schedule 9 apply to?</p> <p>b) The identification of</p>	

No	Question to	Reference	Question	HPBC's response
			<p>all relevant side agreements?</p> <p>c) Whether each relevant Part and side agreement has been agreed with each Statutory Undertaker and with the Environment Agency?</p> <p>d) The provision of written evidence from each party of any agreement?</p> <p>e) Any matters that are still subject to agreement with each party, the steps being taken to resolve them and when any updates will be provided?</p>	
1.22.	Applicant	Schedule 10	a) Should the Register of Environmental Statement Changes be added to Schedule 10 as a	N/A

No	Question to	Reference	Question	HPBC's response
			document to be certified? b) Please could a copy of the Register of Environmental Statement Changes be submitted to the Examination?	
2.	General matters			
	Legislation and policy			
2.1.	Tameside Metropolitan Borough Council	Draft Places for Everyone: Joint Development Plan Document (DPD) for Bolton, Bury, Manchester, Oldham, Rochdale, Salford, Tameside, Trafford and Wigan	Since the submission of the application the draft Places for Everyone: Joint Development Plan Document for Bolton, Bury, Manchester, Oldham, Rochdale, Salford, Tameside, Trafford and Wigan has been published for consultation. a) What weight do you consider should be placed on the policies within the document?	N/A

No	Question to	Reference	Question	HPBC's response
			b) Please provide justification for why this weight is considered appropriate.	
3.	Transport networks and traffic, alternatives, access, severance, walkers, cyclists, and horse riders			
	Traffic modelling			
3.1.	Applicant	Level of confidence in traffic modelling / traffic growth assumptions	There is uncertainty at this time resulting from the introduction of electric (or other alternative power trains) for vehicles, possible levels of autonomy for vehicles, the future introduction of policies intended to restrain the use of the private car and encourage transference to more sustainable modes, volatility in fuel prices, changes to working practices and other factors. These have potential to affect	N/A

No	Question to	Reference	Question	HPBC's response
			<p>forecast traffic growth.</p> <p>a) What level of confidence can now be placed on the traffic modelling?</p> <p>b) What impact would this have for the case for the scheme?</p>	
3.2.	Local highway authorities	Godley Green Development	<p>Reference has been made to a development at Godley Green for which it is understood that an application has now been made and registered. The Applicant has provided a response outlining their approach in dealing with this matter with regard to modelling [REP5-022].</p> <p>a) Are the local highway authorities satisfied with this approach?</p> <p>b) If not, what approach should</p>	N/A

No	Question to	Reference	Question	HPBC's response
			be taken to the development in the modelling?	
3.3.	Applicant	Modal transference.	<p>There are aspirations, both at local and national level, to transfer journeys to more sustainable transport modes.</p> <p>a) Is this reflected within the model?</p> <p>b) If so, what assumptions and allowances have been made to reflect this?</p> <p>c) If not, should it be?</p>	N/A
3.4.	Applicant Local highway authorities	<p>Modal use assumptions.</p> <p>CPRE Peak District and South Yorkshire Branch Deadline 5 Submission - Responses to Deadline 4 submissions and comments on Issue Specific Hearing 2 [REP5-029]</p>	<p>There are concerns, expressed by CPRE Peak District and South Yorkshire Branch in [REP5-029 paragraphs 160 and 170] and elsewhere, that public transport and active travel modes have been under-represented in the model.</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>a) Please provide comments on the issues raised.</p> <p>b) If these modes have been under-represented, what effect would this have on the case for the scheme?</p> <p>c) Do the local highway authorities have any comments in regard to this issue?</p>	
3.5.	<p>Applicant Local authorities Peak District National Park Authority Natural England</p>	Screening thresholds	<p>The Design Manual for Roads and Bridges (DMRB) provides screening criteria for traffic flows which are used to decide whether a detailed assessment is required with particular reference to biodiversity, noise, air quality, and in relation to the effects on the Peak District National Park.</p>	<p>HPBC has accepts that the recommended DMRB screening criteria for national highways road schemes, indicates that both the Glossop and Tintwistle AQMAs would be screened out, based on the traffic figures presented</p> <p>The key concern remains that HPBC would like to have seen the AQMAs, although HPBC appreciate that DMRB has been followed they believe there should be a lower criteria set for AQMA, inline with the principles of the IAQM guidance</p> <p>HPBC considers there to be a good argument for inclusion of both AQMA based on uncertainty in the traffic modelling:</p> <ul style="list-style-type: none"> - Change in AADT on the A628 in Tintwistle is only fractionally below the DMRB criteria - Concerns over the likelihood of extra (approx. 4K AADT) from the new A57 traffic diverting onto Shaw

No	Question to	Reference	Question	HPBC's response
			<p>a) Please provide, for each relevant environmental topic, the screening threshold set out in the DMRB, providing the relevant paragraph reference in each case.</p> <p>b) Please identify any other recognised screening criteria (Institute of Environmental Management and Assessment (IEMA), Institute of Air Quality Management (IAQM), etc) that have been used or considered, providing the relevant paragraph reference in each case.</p> <p>c) Where there is a choice of DMRB or other screening</p>	<p>Lane/Dinting Road rather than only 300 remaining on A57 within Glossop AQMA</p>

No	Question to	Reference	Question	HPBC's response
			<p>criteria, please identify the criteria selected and the reasoning for that choice.</p> <p>d) Do the local authorities, Peak District National Park Authority and Natural England have any comments that they wish to make about this matter?</p>	
3.6.	Applicant	Trips diverting within the Local Study Area	<p>Various routes have been identified onto which trips may divert to avoid delays and minimise journey times or costs as perceived by drivers. These trips pass through Tintwistle, Hollingsworth and Glossop, as well as other settlements, and may have adverse impact on relevant environmental topics.</p>	N/A

No	Question to	Reference	Question	HPBC's response
			Please confirm whether, or not, the worst-case scenario for diverted trips, with maximum estimated flow, has been considered when assessing the impact of such diversions.	
3.7.	Peak District National Park Authority	Confidence limits for traffic flows on links within the National Park. National Highways Deadline 3 Submission - Comments on Local Impact Report submitted by Peak District National Park Authority [REP3-028]	Please confirm whether, or not, the Authority is satisfied with the Applicant's explanation regarding confidence in traffic increase figures / screening out of effects on the A628 [REP3-028].	N/A
Alternatives				
3.8.	Applicant	Gyratory Stephen Bagshaw's Written	In his written representation Mr Bagshaw has proposed an	N/A

Traffic effects outside the Order Limits				

No	Question to	Reference	Question	HPBC's response
3.10.	Applicant Derbyshire County Council	Junction of A57 Brookfield / Shaw Lane / Dinting Vale North Derbyshire County Council Deadline 2 Submission - Local Impact Report from Derbyshire County Council [REP2-045]	In their Local Impact Report [REP2-045], Derbyshire County Council identify concerns regarding future capacity at the junction of A57 Brookfield / Shaw Lane / Dinting Vale North and that this will result in local delays. a) Has any specific analysis of the operation of this junction been undertaken? b) Should the specific mitigation be provided to address any resultant additional? c) Has any potential mitigation been considered? d) If so, how would this be secured? e) Would an increase in junction capacity it this junction	More detailed analysis is required of the impacts of the increase in traffic using Shaw Lane and Dinting Road. The screening out of the consideration of the AQMA at Dinting is predicated on alternative routes across Glossop being readily utilised by vehicles. Our LIR questioned the suitability of the Shaw Lane and Dinting Road diversion " <i>given this route has a higher number of roadside residential receptors</i> " (paragraph 8.46). Even if feasible, such a diversion is likely to lead to negative impacts which have not been properly considered or mitigated. Alternatively, if the junction and alternative route are not used as predicted, it is likely that the traffic passing through the AQMA at Dinting will be higher than forecast with consequential implications for air quality. In this scenario, severance and safety issues will also potentially be more prevalent on the A57.

No	Question to	Reference	Question	HPBC's response
			<p>affect any driver-perceived attractiveness of the Shaw Lane / Dinting Road route for drivers?</p> <p>f) If so, what would be the resulting effect?</p> <p>g) Would any additional diversion of traffic require additional mitigation?</p>	
3.11.	Peak District National Park Authority	Traffic management measures on A57 Snake Pass	<p>There are concerns that traffic flow over the Snake Pass will be increased by route transference and will result in additional accidents. Derbyshire County Council have identified a possible solution to control vehicle speeds on this route to address this issue. This would involve the introduction of average speed cameras.</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>a) Do you consider such a solution would provide a practicable and effective solution to vehicle speed management on the A57 Snake Pass?</p> <p>b) If not, why not?</p> <p>c) Do you have any suggestions for acceptable physical measures on the A57 Snake Pass to address highway safety?</p>	
3.12.	Peak District National Park Authority	Traffic management measures on A628 Woodhead Pass.	Similarly there are concerns that traffic flow over the Woodhead Pass will be increased by route transference and result in additional accidents. Derbyshire County Council have identified a possible solution to control vehicle speeds on this route to address this issue. This would involve the introduction of	N/A

N/A
6.	Other noise, vibration, and nuisance			
	Study area, baseline conditions and overall assessment methodology			
6.1.	Local authorities	Public rights of way	The Applicant [REP4-008 Item 2a] provided an assessment of noise impacts on public rights of way. The	HPBC is not responsible for rights of way.

No	Question to	Reference	Question	HPBC's response
			<p>assessment suggests that some perceptible differences, including some exceedances of significant observed adverse effect level. The Applicant concludes that the effects are not significant due to transient nature of users and therefore the duration of the interaction with the Proposed Development.</p> <p>Do the local authorities have any comments on the assessment and the conclusion that there would be no significant effects?</p>	
6.2.	Applicant	Baseline noise levels	<p>High Peak Borough Council [REP5-036 Item 2c] said that the first iteration EMP [REP3-010 REP5-012] lacks detail on the noise monitoring to be undertaken in the area of 18 and 54 Wooley Bridge e.g.</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>Annex B2: Noise and Vibration Management Plan 2.6.3 notes "Woolley Bridge".</p> <p>a) Please could the Applicant respond? Can more detail be provided and agreed with High Peak Borough Council?</p> <p>The Applicant [REP4-008 Item 2b] suggested that there may be a lower baseline in the area of 18 and 50 Woolley Bridge than considered in the assessment.</p> <p>b) Please could the Applicant comment on the potential for a lower baseline to result in an assessment of significant adverse effects?</p>	
	Construction phase			

No	Question to	Reference	Question	HPBC's response
6.3.	Local authorities	Noise sources with distinctive characteristics	<p>The Applicant [REP4-008 Item 2f] said that the assessment methodology does not require any special treatment or consideration for noise sources with distinctive tonal, impulsive or low frequency characteristics, although variation in spectral characteristics of specific construction plant has been considered.</p> <p>Are the local authorities content that the Applicant given enough consideration to distinctive tonal, impulsive, or low frequency characteristics including, but not limited to, percussive piling?</p>	<p>Yes, it would appear to have undertaken the assessment in accordance with appropriate guidance. It would be anticipated that any known "noise characteristics" of the associated kit listed in Appendix 11.2 (APP-175), such as piling, would be addressed within the (2nd EMP) noise management plan and the adoption of BPM</p>
6.4.	Applicant	Section 61 consents	High Peak Borough Council [REP5-036 Item 2g] said that the s61 process	N/A

No	Question to	Reference	Question	HPBC's response
			<p>does not mean that there would be no additional impacts or indeed that noise impacts would not be significant, only that the applicant will control these impacts in accordance with Best Practicable Means. It said that, typically, if an activity is infrequent or unexpected then it would not anticipate that it would be included in the assessment, but that if some of the activities listed were likely to become embedded, for example, nightly routine equipment maintenance then this should be included. There is also possibly some unknown element to this, as the application of s61 is appears to be at the discretion of the Principal Contractor.</p>	

No	Question to	Reference	Question	HPBC's response
			<p>a) Please could the Applicant comment? Which activities would be likely to be infrequent or unexpected and which would be likely to become embedded? How certain is that?</p> <p>The Applicant [REP4-008 Items 2g and 2h] said that the Section 61 application process would "<i>ensure that construction works including night working would not give rise to any materially new or worse effects</i>".</p> <p>b) How is that secured?</p> <p>c) If it is not, how can the ExA be satisfied that the flexibility provided using the Section 61 process is consistent with the assessment</p>	

No	Question to	Reference	Question	HPBC's response
			representing a reasonable worst-case scenario?	
6.5.	Applicant	Night works	<p>Paragraph 11.12.1 of ES Chapter 11 [REP3-007] states that "<i>no night works are anticipated with the exception of traffic management</i>"? At Issue Specific Hearing 2 [EV-016] the Applicant confirmed that was the basis of the assessment.</p> <p>Requirement 4 of the dDCO [REP5-006] lists activities permitted outside normal working hours, which would include night works.</p> <p>a) What hours are considered for night works in the assessment?</p> <p>b) Does it need to be ensured that only traffic management will be permitted during the hours</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>considered for night works?</p> <p>c) If not, how can the ExA be satisfied that the assessment represents a reasonable worst-case scenario?</p>	
6.6.	Applicant Local authorities	Percussive piling	<p>The Applicant [REP4-008 Item 2i] said the intention is that percussive piling would only be used where rotary bored piling is not feasible. ES Chapter 11 [REP3-007] refers to significant adverse effects for piling and suggests that percussive piling would be likely to result in more adverse impacts than rotary bored piling.</p> <p>The ExA would like to ensure that appropriate mitigation is secured.</p>	Agreed.

No	Question to	Reference	Question	HPBC's response
			<p>a) Should restricting the use of percussive piling to when rotary bored piling is not feasible be secured as necessary mitigation?</p> <p>The Applicant [REP4-008 Item 2k] has listed other mitigation measures for percussive piling.</p> <p>b) Should those measures be added to the Outline Noise and Vibration Management Plan [REP3-010 Annex B2]?</p>	
6.7.	Applicant Tameside Metropolitan Borough Council High Peak Borough Council	Mitigation	Tameside Metropolitan Borough Council [REP5-031 Item 2I] said that details of the proposed complaints process should be provided together with how this will be managed. It also	National Highways (response to deadline 6) have stated that Outline NVMP includes a commitment that the construction noise monitoring methodology and number of locations will be discussed and agreed with the local authorities. These discussions will take place during the Detailed design of the Scheme and the Detailed NVMP (EMP v2), will include further information reflecting the outcomes of these discussions. This is acceptable

No	Question to	Reference	Question	HPBC's response
			<p>said that the scope and extent of monitoring to be implemented before works commence should be detailed.</p> <p>High Peak Borough Council [REP5-036 Item 2I] said that some of the commitments, notably monitoring, lack any real clarity or commitment and should be more focussed. It said that all environmental commitments made when undertaking the environmental assessments should be secured, for example a statement that Best Practicable Means will be adopted for all activities would be expected.</p> <p>a) Please could the Applicant comment?</p> <p>b) Please could the Applicant, Tameside Metropolitan</p>	

No	Question to	Reference	Question	HPBC's response
			<p>Borough Council and High Peak Borough Council discuss the comments, seek to agree any further updates to the first iteration EMP [REP3-010 REP5-012], and confirm which matters have been agreed or not agreed?</p>	
6.8.	Applicant Local authorities	Noise insulation and temporary housing	<p>The Applicant [REP2-021 Q9.13] said that the process and triggers for noise insulation or temporary housing set out in in Section E.4 of BS 5228:2009 Part 1 would be followed. The Applicant [REP4-008 Item 2m] said that threshold noise levels would be secured in the Noise and Vibration Management Plan. Should the process, triggers and example threshold</p>	Agreed.

No	Question to	Reference	Question	HPBC's response
			noise levels for noise insulation and temporary housing set out in Section E.4 of BS 5228:2009 be secured?	
Operational phase				
6.9.	Applicant Local authorities	Speed control measures	<p>The Applicant [REP4-008 Item 2q] said that there are no assessment methods within DMRB to consider the specific noise and vibration impacts from speed cushions or other similar traffic calming measures.</p> <p>a) Are assessment methods available elsewhere?</p> <p>b) What is the potential for significant noise or vibration impacts from speed cushions or other similar traffic calming measures?</p>	<p>N/A for HPBC</p> <p>The proposed traffic calming measures on the bypassed sections of the A57 are within the Rochdale Envelope / Tameside</p> <p>The response by the applicant deadline 6 appears reasonable</p>

No	Question to	Reference	Question	HPBC's response
6.10.	High Peak Borough Council	Operation phase	<p>In their Local Impact Report [REP2-046 Paragraphs 14.27, 14.28 and 14.29] High Peak Borough Council raised concerns about the method used to select the façade point used in the assessment, the number of properties experiencing significant adverse effects, and the location of receptors receiving perceptible increases in road traffic noise and whether those are significant. The Applicant responded at Deadline 3 [REP3-018].</p> <p>Please could High Peak Borough Council summarise any remaining concerns that it has about these issues?</p>	<p>Response from the applicant (REP3 -018) is considered acceptable</p>

7. Air quality				
7.1.	Applicant High Peak Borough Council	Matters raised in High Peak Borough Council's Local Impact Report [REP2-046]	<p><u>Item 8.37.</u> The Applicant has not definitively committed to construction dust monitoring at high-risk sites and said [REP3-006] that it would be considered if necessary to monitor effectiveness of standard mitigation in line with DMRB LA 105 Table 2.108.1.</p> <p>a) Please could the Applicant explain the parameters used to identify</p>	Attached are update and comments from 4 th and 18 th from the meeting with regards to AQ, which includes National Highways responses to deadline 6

No	Question to	Reference	Question	HPBC's response
			<p>whether monitoring would be required?</p> <p>Some high-level information about monitoring is set out in Appendix B7 Nuisance Management Plan to the first iteration EMP [REP3-010].</p> <p>b) Does High Peak Borough Council have any comments on this/ is it sufficient to address their concern about high-risk sites?</p> <p><u>Item 8.38.</u> High Peak Borough Council asked for the A57 Brookfield qualifying features used in the NO2 compliance assessment to be labelled on ES Figure 5.4 [APP-080].</p> <p>c) Is the Applicant able to do this, please?</p>	

No	Question to	Reference	Question	HPBC's response
			<p><u>Item 8.39.</u> High Peak Borough Council raised concerns about the non-application of adjustment to modelled NO₂ and PM₁₀ concentrations where the modelled values are within 30% of monitored. High Peak Borough Council [REP4-011] suggest they are concerned about over representation of beneficial effects.</p> <p>d) Please could the Applicant to comment on this, and any implications for the conclusions on effect significance?</p>	
7.2.	Applicant	Road gradient	The ExA understands that DEFRA guidance (DEFRA LAQM TAG16 paragraph 7.449) suggests identification of all roads with a gradient of more than 2.5% for the	N/A

No	Question to	Reference	Question	HPBC's response
			<p>modelling of gradient effects.</p> <p>a) Please could the Applicant clarify where the criteria that it has used for roads of more than 6% gradient is derived?</p> <p>b) Please could the Applicant confirm which roads within the study have a gradient of more than 2.5% and how the potential increase in emissions, especially from HDV exhaust, has been considered in the assessment? Can they confirm that there is no risk that excluding these gradient effects has resulted in an under reporting of effects.</p>	

No	Question to	Reference	Question	HPBC's response
7.3.	Applicant High Peak Borough Council	Air quality modelling	<p>High Peak Borough Council [REP4-011 Items 7t to 7v] has raised a number of concerns, including in relation to road gradient effects, data, model verification and improvement, and modelling. It requested examples of results obtained for receptor locations in High Peak between the different data sources to demonstrate that they are all similar to predictions. Clarification was requested regarding the splitting up of the localised model validation zones, was the model set up checked / altered in each of the localised zones or is the only difference between the initial model run and the model zones being the splitting up of the model based on</p>	

No	Question to	Reference	Question	HPBC's response
			<p>location and application of 6% emission factor gradient.</p> <p>The Applicant [REP5-022 paragraph 3.1.1] said that a meeting between the Applicant and High Peak Borough Council to discuss the matters raised by High Peak Borough Council is scheduled to take place in early March.</p> <p>The ExA notes the number of issues that appear to be unresolved and that the issues are potentially key to the air quality assessment. There is that there is little time remaining in the Examination for these matters to be addressed.</p> <p>c) Please could the Applicant and High Peak Borough Council discuss the</p>	

No	Question to	Reference	Question	HPBC's response
			<p>issues further and seek to reach agreement?</p> <p>d) Please could the parties set out their respective positions by Deadline 6, and no later than Deadline 7, in advance of the Hearings scheduled for April 2022?</p>	
7.4.	Applicant	Vehicles diverting to Shaw Lane and Dinting Road from A57 Glossop High Street	<p>High Peak Borough Council [REP4-011 Item 8.41] has questioned the rationale for showing vehicles diverting to Shaw Lane and Dinting Road from A57 Glossop High Street and whether this undermines the assessment of receptors on the A57. Peter Simon [REP4-026] suggested this would potentially affect flows through the Glossop Air Quality Management</p>	N/A

No	Question to	Reference	Question	HPBC's response
			<p>Area, which was screened out.</p> <p>Please could the Applicant respond and set out the implications for flows through the Glossop Air Quality Management Area if the diversion isn't taken? Are there any implications for the assessment of effects?</p>	
7.5.	<p>Applicant</p> <p>Tameside Metropolitan Borough Council</p> <p>High Peak Borough Council</p> <p>Peak District National Park Authority</p>	Screening	<p>The Applicant [REP4-008 Item 7dd and 7ee] has set out its approach to screening, the use of DMRB LA 105 guidance. It noted that lower thresholds are set out in Institute of Air Quality Management guidance, but that is specifically intended for residential and mixed used developments and highways schemes have their own set of criteria and</p>	

No	Question to	Reference	Question	HPBC's response
			<p>thresholds to be used.</p> <p>a) Please could the Applicant provide the IAQM screening criteria, compare it with the DMRB LA 105 and provide reasoning why it considers that IAQM screening criteria are not appropriate? Is the Applicant suggesting that if the modelled increases in traffic levels are the same then the type of project that led to the increase in traffic would make a difference to the receptors?</p> <p>b) Would a variation of the screening threshold be appropriate for links within the Air Quality</p>	

No	Question to	Reference	Question	HPBC's response
			<p>Management Areas?</p> <p>c) Please could Tameside Metropolitan Borough Council, High Peak Borough Council and Peak District National Park Authority comment?</p> <p>The ExA [EV-015 Item 7ee] asked the Applicant to comment on how the screening is consistent with the potential for a very small increase in Nitrogen Dioxide (NO₂) to result in non-compliance with the Air Quality Directive / Air Quality Standards Regulations 2010? The Applicant responded [REP4-008 Item 7ee]. The Applicant is predicting increases in traffic, which the ExA understands is likely to result in</p>	

No	Question to	Reference	Question	HPBC's response
			<p>increases in NO₂ emissions.</p> <p>The ExA is concerned whether enough consideration has been given for those increases to result in a non-compliance, even if the increases in traffic are below 1,000 AADT. It is also concerned about the consideration given to receptors within Air Quality Management Areas designated for NO₂ that are just outside the study area.</p> <p>d) Please could the Applicant comment?</p> <p>e) Please could Tameside Metropolitan Borough Council, High Peak Borough Council and Peak District National Park Authority comment?</p>	

No	Question to	Reference	Question	HPBC's response
7.6.	Applicant	Construction traffic	<p>High Peak Borough Council [REP4-011 Items 8.35 and 8.36] request information on the level of construction traffic and duration for the eastern end of the link road where it connects at Woolley Bridge due to air quality receptors being within 200m. They further request clarification on whether construction traffic and management are likely to result in an adverse effect on congestion in High Peak.</p> <p>Please could the Applicant respond?</p>	N/A
7.7.	High Peak Borough Council	Air Quality Management Areas NPSNN paragraph 5.11	<p>The Applicant [REP2-021 Q7.15 to 7.18 and REP4-008 Items 7dd to 7jj] responded to questions regarding its assessment of effects on Air Quality Management Areas.</p>
