---

Dear Sir,

I hope this finds you keeping safe and well.

I had a couple of questions regarding the A57 Link Roads Scheme. I have called the case team and Edwin Mawdsley kindly advised one of my questions regarding procedural elements around the timing for unaccompanied site inspection, publication of observations and opportunity for the community to respond is likely to be answered through the written submissions. Thank you.

However Edwin advised my second question may be a point to raise at ISH3.

My question is to the Applicant following additional traffic flow modelling that has been conducted by the Applicant to help assess environmental impact and impact to the local community of the new Glossop Spur Road, and was discussed in the last Hearing:

- Please can the Applicant advise what adjustments, investigations or additional measures have been identified as part of the A57 Link Roads Scheme proposals to help address traffic flow distribution concerns, and the potential for predicted traffic flow increases via the new A57 Glossop Spur Road to Dinting (AQMA area), surrounding villages and onwards towards Glossop and Snake Pass, and the potential under-utilisation of the national strategic road network (A628 Woodhead Pass). We are also mindful that Tintwistle is an AQMA area.

Please can I request to pre-register to participate in Issue Specific Hearing 3 via Microsoft Teams. I can confirm I do not need to attend in person at the physical venue. I am not sure if the question is most appropriate for the items Transport Networks and Traffic or Air Quality on the agenda.

Yours sincerely,

Carole Hallam

Subject: Attendance at next Issue Specific Hearings 3 and 4 - A57 Link Roads -  
Sharefirst My Journey to School

Dear Sir,

Please could I request to join the livestream for ISH 3 and 4 as part of the  
Examination of A57 Link Roads.

Yours sincerely,

Carole Hallam
