Dear Sirs,

Having spent the last six years reading and listening to the so-called benefits of the by pass and having stated that this would only benefit those people living in Glossop and along the A57. For all the rest, especially those living in Hollingworth and Tintwistle it will be a nightmare, since the additional traffic attracted by the bypass would still pass through. The obvious solution would be to restrict the use of the Woodhead pass to vehicles less than 3.5ton and to remove the Manchester sign on the M1 at junction 35A.
