**Subject:** Csn we have confirmation of what this is for ? I.e. a bypass to relieve traffic? This scheme will increase traffic where I live on the Moor creating a further bottleneck in Hollingworth from traffic bypassed further up. But alas no such changes to furt...

This place is dangerous enough as it is, as a non driver walking from this end of Hollingworth to the other up to thorncliffe daily for the nursery run, I do not wish to see further increased traffic here. If the bypass will not bypass traffic through all of what is needed, what is the point in destroying the nature that's here (my only guess is that thus "bypass" is a disguise for proposal for more housing estates)

Kind regards

Laura
