## 1 INTRODUCTION

- 1.1 This document is submitted to the Planning Inspectorate on behalf of the Secretary of State in relation to an application made by Highways England (“the Applicant”) under section 37 of the Planning Act 2008.
- 1.2 The application is for an order granting development consent (“the development consent order” / “DCO”) for the A585 Windy Harbour to Skippool Improvement Scheme scheme (“the Scheme”). The draft DCO is referred to as *A585 Windy Harbour to Skippool Improvement Scheme Development Consent Order 201[.]*.
- 1.3 This document comprises part of the suite of application documentation and is included in the application in compliance with Regulation 5(2)(o) and Regulation 5(4) of the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009, which requires:
- “5(2)(o) any other plans, drawings and sections necessary to describe the proposals for which development consent is sought, showing details of design, external appearance, and the preferred layout of buildings or structures, drainage, surface water management, means of vehicular and pedestrian access, any car parking to be provided, and means of landscaping.”*
- 5(4) “Where a plan comprises three or more separate sheets a key plan must be provided showing the relationship between the different sheets.”*
- 1.4 As this document is part of the application documentation, it should be read alongside and is informed by the other application documents. In particular, the plans should be read alongside the Engineering Section Drawings (document reference TR010035/APP/2.6), Schedule 1 of the draft DCO (document reference TR010035/APP/3.1) and the Environmental Masterplan (document reference TR010035/APP/6.19).
