A47 North Tuddenham to Easton
(TR0010038)

4. Confirming why the Planning Inspectorate should receive the application

The Scheme is a nationally significant infrastructure project ("NSIP") within sections 14(1)(h) and 22(1)(b) of the PA 2008. Under section 22 an NSIP must fall within one of the three categories specified, which are expressly stated to be alternatives. The Scheme is wholly in England. The Applicant, as strategic highways company, will be the highway authority for the highway. The area of the land on which the part of the highway to be altered is situated and any adjoining land expected to be used in connection with its alteration is greater than the relevant limit set out in subsection (4), which in this case is 12.5 hectares. The speed limits on the Scheme will be 50mph or greater.

5. Non-technical description of the Proposed Development

In summary, the Scheme comprises:

- 9km of new dual carriageway, running to the south of the existing A47 at Hockering and north of the existing A47 at Honingham
- two new junctions where the A47 passes over the local roads: one where of Berrys Lane meets Wood Lane (Wood Lane junction) and one where Blind Lane meets Taverham Road (Norwich Road junction)
- removal of the existing roundabout at Easton to create a free-flowing road
- building four bridges carrying: the A47 over the new Mattishall Lane Link Road, the proposed Wood Lane junction over the A47, the A47 over the River Tud and the proposed Norwich Road junction over the A47
- Sandy Lane connecting to the A47 via a new side road providing access to Wood Lane junction
- two new lay-bys on the A47 between Fox Lane and the proposed Wood Lane junction
- closure to through traffic of: Church Lane (East Tuddenham), Berrys Lane, Blind Lane and Church Lane (Easton), north the of A47
- widening of the junction of Rotten Row and Church Lane (East Tuddenham)
- alterations to existing public rights of way and provision of new segregated routes for walkers and cyclists, including:
 - o a new route for walkers and cyclists linking Honingham with St Andrew's Church across the A47 via the proposed Honingham Church underpass
 - o a new route for walkers and cyclists linking Easton with Lower Easton across the A47 via the proposed Easton footbridge
- new drainage systems, including:
 - o new outfalls to the River Tud
 - o dry culverts to maintain overland flow paths
 - o new attenuation basins, with pollution control devices, to control discharges to local watercourses
- compounds, material storage areas and temporary vehicle parking located within the scheme boundary when construction is taking place
- diverting or installing new utilities infrastructure, such as gas pipelines, electricity cables, water pipelines and electronic communications cables
- environmental measures embedded into the Scheme design to reduce the environmental effects and deliver wider benefits, such as noise barriers, low noise road surfaces, permanent mammal crossings and new wetland habitats

6. Location or route of the Proposed Development

Continued from previous page...

The Scheme is located in the East of England within the administrative boundaries of Norfolk County Council, Broadland District Council, Breckland District Council and South Norfolk District Council. The location of the Scheme is illustrated on the Location Plan (TR010038/APP/2.1).

Regulation 6 of the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009 requires additional information to be submitted with the following types of development.

- Construction or extension of a non offshore generating station (Reg. 6 (1a))
- Construction or extension of an offshore generating station (Reg. 6 (1b))
- Highway related development (Reg. 6 (2) (part 1))
- Construction or alteration of a railway (Reg. 6 (2) (part 2))
- Construction or alteration of harbour facilities (Reg. 6 (3))
- Construction of a pipeline (Reg. 6 (4))
- Construction or alteration of a hazardous waste facility (Reg. 6 (5))
- Construction of a dam or reservoir (Reg. 6 (6))

Highway related development (Reg. 6 (2) (part 1))

Ensure section drawings have been included as part of this application, with suitable horizontal and vertical scales, which show the levels, proposed works including in particular and where relevant by reference to Ordnance Survey or Chart datum
