

Submission ID: 4355

•Application by Highways England for an Order granting Development Consent for the A47 North Tuddenham to Easton•

We refer to your letter of 12 August 2021 regarding the above proposal and your invitation to submit a draft Statement of Common Ground between Orsted Hornsea Project Three (UK) Limited (the named undertaker on the Development Consent Order for the Hornsea Three Offshore Wind Farm Order 2020 which overlaps with the Order limits and Order land for the A47 Tuddenham DCO) and Highways England (the Parties) by Deadline 1 (1st September) as set out in the Examination Timetable.

We are pleased to confirm that following the submission of the relevant representation dated 17th June, the Parties have continued to work together to agree a draft SoCG and hope to submit a draft SoCG by Deadline 3 (5th October). The Parties also continue to discuss protective provisions but hope that a co-operation agreement to facilitate co-existence will be entered into to dispense with the need for protective provisions. The Parties will keep the Examiners updated as to the progress of the co-operation agreement and if sufficient progress is not made then draft protective provisions will be submitted by Deadline 4 (12th November).

Kind regards,
Karma Leyland
Consents Project Manager
