

Submission ID: 4787

I have read NCC's response to ExA's question EXQ1 7.0.18. I could not understand the question, so tracked back through the applicant's document referred-to (the Rights of Way and Access statement and plans) and could not find the references numbers quoted, viz. path CF1 to CF2A in Column 2 of Pt 6 of Schedule 3. Part of work no 26a. The Examination Library filter appeared to be no help.

I looked at the maps of PROW, but they are so small I could not possibly find CF1 on them. Is there no way of making these matters plain, rather than hidden in numerous schedules, etc.? Otherwise this becomes a conversation had between the only two people in the world who possibly know what they are referring to. How does that help openness and transparency ?
Thank you. R Hawker
