

Submission ID: 5341

Application by Highways England for an Order granting Development Consent for the A47 North Tuddenham to Easton

We refer to your letter of 12 August 2021 regarding the above proposal and your invitation to submit a draft Statement of Common Ground between Orsted Hornsea Project Three (UK) Limited (the named undertaker on the Development Consent Order for the Hornsea Three Offshore Wind Farm Order 2020 which overlaps with the Order limits and Order land for the A47 Tuddenham DCO) and Highways England (the Parties) by Deadline 1 (1st September) as set out in the Examination Timetable.

We can confirm that the Parties continue to work together to agree a draft SoCG and hope to submit by Deadline 4 (12th November). The Parties also continue to discuss protective provisions but hope that a co-operation agreement to facilitate co-existence will be entered into to dispense with the need for protective provisions. If sufficient progress is not made then draft protective provisions will be submitted by Deadline 5 (23rd November).

We do not propose to submit a written representation as the relevant representation dated 17th June outlines the matters we would like to see addressed through examination.
