Please can the proposed hours of operation during construction work be reviewed. Currently I believe they are 7am - 7pm Mon - Sat. Surely this is too long a time to expect locals to put up with the inevitable noise. 8am - 6pm Mon - Fri would seem much more reasonable. If Saturday working must be permitted, then surely some respite can be given in the afternoon; therefore just, say, working 9 - 12 on Saturday morning only, 2 Saturdays in each month.
