Dear Mr Fedden

Application by Norfolk County Council for an Order Granting Development Consent for the Great Yarmouth Third River Crossing: Adequacy of consultation request

Thank you for your email correspondence of 1 May 2019, consulting Norfolk County Council as County Planning Authority (statutory consultee) on the adequacy of consultation for the Great Yarmouth Third River Crossing.

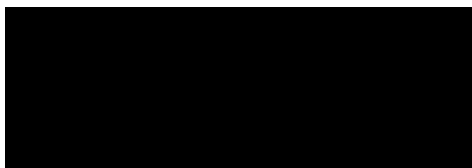

Norfolk County Council as developer produced a draft Statement of Community Consultation (SoCC) which the County Planning Authority provided comments on. The County Planning Authority received a copy of the final version of the SoCC and a covering letter incorporating the comments raised. During the consultation period the proposed scheme was publicised by a range of publicity methods across an extensive area. In addition, the developer consulted on the proposed scheme changes, the Preliminary Environmental Information Report (PEIR), and extended the consultation period when it was brought to their attention that figures in the PEIR had been omitted.

I can confirm that Norfolk County Council as County Planning Authority considers that the developer has undertaken appropriate and adequate consultation, in accordance with the provisions of Section 42, 47 and 48 of the Planning Act 2008 (as amended), in respect of their DCO application for the above development.
