

Submission ID: 3858

You will have received a detailed letter from Cambridgeshire County Council dated 2nd August signed on behalf of the main LPAs which Bedford Borough Council supports. We have concerns about the tight examination timetable when we are still awaiting basic information from the applicants to enable us to consider our position on important issues including Borrow pits, Heritage impacts and noise impacts.

Deadline 1 (31st August) is also at a time in the middle of school summer holidays when many technical experts are away on annual leave and not available adding additional time pressures. Officers can be available of the ASI. Separate representations will be made on land ownership
