The Archaeological Mitigation Strategy has been submitted again at Deadline 4 to correct formatting errors in the previously submitted version at Deadline 3. A figure was also missing from this earlier version. Also note that further clarifications have been made, largely regarding terminology, based on comments from the local planning authorities. As such a clean and tracked version have been submitted so that it is clear where changes have been made.

As indicated in Deadline 3 submissions, the Applicant was intending to submit a number of ecology survey reports into the Examination at Deadline 4. However, the Applicant now anticipates being in a position to submit the survey reports at Deadline 5. The Planning Inspectorate Case Manager has been made aware of this.

We trust that the above is clear but if you do have any questions please do not hesitate to contact me using the details below.

Yours faithfully

Anne-Marie Rogers
