# 1 Introduction

## 1.1 Purpose of this document

- 1.1.1 This Statement of Common Ground (SoCG) has been prepared in respect of the A428 Black Cat to Caxton Gibbet improvements (the Scheme) made by National Highways Company Limited (National Highways) to the Secretary of State for Transport (Secretary of State) for a Development Consent Order (the Order) under section 37 of the Planning Act 2008 (PA 2008).
- 1.1.2 The Order, if granted, would authorise National Highways to construct a new 10 mile (16km) dual 2-lane carriageway from the Black Cat roundabout to Caxton Gibbet roundabout and in addition approximately 1.8 miles (3km) of tie-in works. The Scheme includes the following components:
- a. A new three-level grade separated junction at Black Cat roundabout, with the A1 at the lower level, the new dual carriageway on the upper level and a roundabout between the two at approximately existing ground level. In addition to slip roads, a new free flowing link between the A421 eastbound carriageway and the A1 northbound carriageway will also be provided.
  - b. A new grade separated all movements junction will be constructed to the east of the existing Cambridge Road roundabout to provide access to the new dual carriageway and maintain access to the existing A428.
  - c. At the Caxton Gibbet roundabout, a new grade separated all movements junction will be constructed, incorporating the existing roundabout on the south side of the new dual carriageway and a new roundabout on the north side. The new dual carriageway will then tie-in to the existing A428 dual carriageway to the east of the new Caxton Gibbet junction.
  - d. In the vicinity of the new Black Cat junction, direct access onto the A1 from some local side roads and private premises will be closed for safety reasons. A new local road will provide an alternative route. The existing Roxton Road bridge will be demolished and replaced with a new structure to the west to accommodate the realigned A421.
  - e. New crossings will be constructed to enable the new dual carriageway to cross the River Great Ouse, East Coast Main Line railway, Barford Road, the B1046/Potton Road, Toseland Road and the existing A428 at Eltisley.
  - f. The existing A428 between St Neots and Caxton Gibbet will be de-trunked and retained for local traffic and public transport with maintenance responsibility transferred to the local highway authorities.
  - g. An alternative access will be provided to side roads at Chawston, Wyboston and Eltisley.

h. There will be safer routes for walkers, cyclists, and horse riders.

1.1.3 This SoCG has been produced to confirm to the Examining Authority (ExA) where agreement has been reached between the parties to it, and where agreement has not (yet) been reached. SoCGs are an established means in the planning process of allowing all parties to identify and so focus on specific issues that may need to be addressed during the Examination.

## 1.2 Parties to this Statement of Common Ground

1.2.1 This SoCG has been prepared by (1) National Highways as the Applicant and (2) the Central Bedfordshire Council (CBC).

1.2.2 National Highways (formerly known as Highways England) became the Government-owned Strategic Highways Company on 1 April 2015. It is the highway authority in England for the strategic road network and has the necessary powers and duties to operate, manage, maintain and enhance the network. Regulatory powers remain with the Secretary of State. The legislation establishing National Highways made provision for all legal rights and obligations of National Highways, including in respect of the Application, to be conferred upon or assumed by National Highways.

1.2.3 CBC is a prescribed consultee for this application under Sections 42(1)(a) and 56(2)(a) of the PA 2008.

1.2.4 Collectively National Highways and CBC are referred to as ‘the parties’.

## 1.3 Terminology

1.3.1 In Section 3 of this SoCG:

- a. “Agreed” indicates where the issue has been resolved.
- b. “Not Agreed” indicates a final position.

1.3.2 It can be taken that any matters not specifically referred to in the Issues chapter of this SoCG are not of material interest or relevance to CBC’s representation and therefore have not been considered in this document. It is recognised however that engagement between both parties will need to continue due to their joint vested interest in the area of the Scheme.

## 2 Record of Engagement

2.1.1 The parties have been engaged in consultation since the pre-application period for the proposed development. A summary of the meetings and correspondence that has taken place between National Highways and CBC in relation to the Application is outlined in the records of engagement set out in Table 2-1.

**Table 2-1 - Record of Engagement**

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 29/01/2018 | Meeting                | Meeting held with CBC Highways to introduce the Scheme and discuss the Scheme's impact on side roads within CBC's jurisdiction as well as de-trunking extents and requirements.  |
| 29/01/2018 | Meeting                | Meeting held with CBC to discuss and understand issues associated with waste material placed on land to the north-west of Black Cat Junction on the site of a proposed lorry park and the associated Enforcement Notice that had been imposed by CBC. Also discussed was the status of the gravel pits in operation on the eastern side of the Black Cat Junction. |
| 06/02/2019 | Email                  | Departures from Standard application for Barford Road cross section sent to CBC to complete.   |
| 13/03/2018 | Email                  | Confirmation from CBC that there are no heavy or high load requirements for CBC side roads that may impact on the strategic road network.  |
| 27/03/2018 | Email                  | Following the meeting on 29/01/2018 with CBC Highways, the A428 project team requested accident data for Barford Road to assist in development the realignment designs.  |
| 27/03/2018 | Email                  | CBC Highways provided A428 project team with collision history data relating to the Barford Road Realignment   |
| 27/03/2018 | Email                  | A428 project team requested full STATS 19 data for the extent of Barford Road from CBC Highways.   |
| 26/03/2018 | Email                  | Discussions with CBC and Bedfordshire and Luton Suicide Prevention Steering Group regarding the design of suicide prevention measures.   |
| 10/05/2018 | Email                  | Three draft drawings depicting Representative Viewpoints for Landscape and Visual Impact Assessment (LVIA) shared with CBC.  |
| 18/05/2018 | Meeting                | Highways England (HE) held a meeting with CBC to discuss the options for the Barford Road realignment.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 21/05/2018 | Meeting                | Archaeology Presentation in Phase 1 Evaluation.   |
| 23/05/2018 | Meeting                | Meeting held with CBC to discuss the updated traffic modelling and environmental surveys with the authority.  |
| 23/05/2018 | Email                  | Confirmation that pavement design requirements in Central Bedfordshire can be designed to the Design Manual for Roads and Bridges (DMRB) requirements with specified surface material from CBC.   |
| 03/07/2018 | Meeting                | A meeting was held with BBC, CBC, HDC, and SCDC during which a presentation was given on the Landscape visual impact assessment (LVIA) viewpoints to landscape officers. The ongoing nature of consultation was discussed, and HE invited further thoughts on the initial viewpoint selections for LVIA photomontages, so that they could brief surveyors in August 2018. |
| 13/08/2018 | Email                  | Email informing CBC of the identification of zigzag elm sawfly during ecological surveys.   |
| 14/01/2019 | Email                  | Email from CBC asking for details of the scheme which passes through their council area.  |
| 21/01/2019 | Email                  | Brief sent from CCC and covering CBC and BBC too.   |
| 18/02/2019 | Email                  | Confirmation from CBC that consultation material cannot be displayed at Council Offices but could be displayed at the Sandy Library.  |
| 20/02/2019 | Email                  | Confirmation that information booklets for the A428 Scheme can be displayed at the Sandy Library.   |
| 14/03/2019 | Email                  | Information emailed to BBC, CBC, and CCC on preferred route announcement. Update on progress to geophysical survey.   |
| 15/03/2019 | Email                  | Link to plans etc emailed to BBC, CBC, and CCC.   |
| 25/03/2019 | Email                  | Written Scheme of Investigation (WSI) prepared by MHI for geophysical survey sent to BBC, CBC, and CCC.   |
| 26/03/2019 | Email                  | CCC comments on WSI, sent on behalf of all three councils.  |
| 28/03/2019 | Email                  | Response to some comments on WSI sent back.   |
| 29/03/2019 | Email                  | Updated version of geophysics WSI sent to the councils.   |

| Date   | Form of correspondence      | Key topics discussed and key outcomes   |
|--|-----------------------------|---|
| 01/04/2019   | Email                       | Confirmation that CBC are happy with the content in the draft Statement of Community Consultation.  |
| 09/04/2019   | Email                       | Interim geophysical survey results sent to councils.  |
| 10/04/2019   | Email                       | Correspondence regarding potential extensions to the 1km archaeological study area and data requests for the majority of St. Neots.   |
| 10/04/2019   | Email                       | Cultural heritage: Request for additional data for small outlier compounds etc.   |
| 12/04/2019   | Email                       | Confirmation from CBC that proposed study area for compounds is acceptable.   |
| 12/04/2019   | Email                       | Request for additional data (from OP).  |
| 15/04/2019;<br>07/05/2019;<br>and<br>08/05/2019  | Email                       | Emails with CBC regarding an outstanding invoice to be resolved before CBC can send data.   |
| 15/04/2019,<br>24/04/2019,<br>08/05/2019,<br>29/05/2019,<br>12/08/2019,<br>19/08/2019<br>and<br>22/10/2019 | Email                       | Interim geophysical survey results sent to councils.  |
| 30/04/2019   | Meeting – cultural heritage | Meeting held with BBC, CCC, and CBC to give an update on the programme and work to date, including the aerial photography and geophysical survey. There was discussion of the trenching strategy that led to an agreement that a percentage coverage was not a ubiquitous measure and that trenching could be intensified in areas if it was justified. |
| 14/05/2019   | Email                       | Interim geophysical survey results sent to councils. Links to georeferenced files also provided.  |
| 21/05/2019   | Meeting                     | Community Forum – update on the Scheme’s development.   |
| 02/06/2019   | Letter                      | Statutory Consultation Launch Communications.   |
| 06/06/2019   | Email                       | Cultural heritage: First draft of Phase 1 trenching layout sent to BBC, CBC, and CCC.   |
| 07/06/2019   | Email                       | Email from CBC detailing some initial high-level comments on the trenching plan.  |

| Date       | Form of correspondence             | Key topics discussed and key outcomes   |
|------------|------------------------------------|---|
| 07/06/2019 | Email                              | Agreement to CBC email from CCC.  |
| 10/06/2019 | Meeting                            | Trenching strategy discussion and the principles of it.   |
| 14/06/2019 | Email                              | Meeting minutes emailed to BBC, CBC, and CCC.   |
| 24/06/2019 | Email                              | Cultural Heritage: Second draft of Phase 1 trench layout.   |
| 24/06/2019 | Email                              | Confirmation from CBC that two additional trenches can be dug due to constraints of an overhead line.                                     |
| 28/06/2019 | Email                              | Cultural Heritage: Further comments received from CBC on Phase 1 trench layout.   |
| 22/07/2019 | Email                              | Cultural Heritage: Requesting final comments on the Phase 1 trenching from councils.  |
| 22/07/2019 | Email                              | Confirmation from HE to CBC that HE have not been doing any noise monitoring in Sandy.  |
| 24/07/2019 | Email                              | Confirmation that CBC comments on the trenching stand – these override comments from CCC.   |
| 26/07/2019 | Response to Statutory Consultation | CBC Public Consultation response.   |
| 06/08/2019 | Email and File share               | Final trenching plan sent to councils.  |
| 06/08/2019 | Email                              | Cultural Heritage: Removal of trenches in an area no longer affected. Request from one landowner to remove trenches.                      |
| 07/08/2019 | Email                              | Cultural Heritage: CBC not content with removal of trenches at landowner request.   |
| 13/08/2019 | Email                              | Update to inform CBC Officers that ground investigations and archaeological surveys will be carried out along the route of the Scheme.    |
| 21/08/2019 | Email                              | Cultural heritage: Request for updated brief. Confirmed that Phase 2 Geophysical Survey results will be targeted in Phase 2 of trenching. |
| 21/08/2019 | Email                              | Cultural heritage: Updated brief sent from CCC on behalf of all councils.   |
| 30/09/2019 | Meeting                            | Community Forum – Western Area.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 01/10/2019 | Email                  | Email asking how many trenches could be signed off on each monitoring visit.  |
| 01/10/2019 | Email                  | Response from CBC regarding trench sign-off and asking if there was a start date for the trenching works.   |
| 01/10/2019 | Email                  | Response from BBC regarding trench sign-off.  |
| 01/10/2019 | Email                  | Response to CBC and BBC that a start date for trenching was not yet available.  |
| 02/10/2019 | Meeting                | Highways and Planning Technical Working Group.  |
| 08/10/2019 | Meeting                | Strategic Road Users Technical Working Group.   |
| 08/10/2019 | Meeting                | Walkers, Cyclists and Horse Riders Technical Working Group.   |
| 17/10/2019 | Meeting                | An inaugural meeting was held with BBC, CCC, CBC, and SCDC as part of the formation of the Flood Risk/Water Management group. The meeting covered the terms of reference for the working group, the lessons that could be learnt from the A14 and each authorities' areas watercourses and responsibilities. HE also gave an overview of the different types of hydraulic modelling of water course crossings and overland runoff for the three main technical notes to be generated (River Ouse Crossing, Bedfordshire Area and Cambridgeshire Area). The Environment Agency and the Bedford Group of Drainage Boards were also in attendance. |
| 22/10/2019 | Email                  | Cultural heritage: Email from CCC asking about aerial photographic report and whether contractor on board for trenching.  |
| 22/10/2019 | Email                  | Confirmation that the aerial photographic report is being reviewed internally and that there is no preferred contractor for trenching works at this stage.  |
| 22/10/2019 | Email                  | Cultural heritage: Information on status of aerial photography report sent to councils. Responded to query about trenching contractor – TBC.  |
| 24/10/2019 | File transfer          | Draft geophysical survey results sent.  |
| 24/10/2019 | Email                  | Asked for X-Y plots and shapefiles of results.  |
| 24/10/2019 | Email                  | Echoed request from CCC for geophysical shapefiles.   |
| 28/10/2019 | Email                  | Cultural heritage: Update on charging for consultation time sent to councils.   |

| Date       | Form of correspondence  | Key topics discussed and key outcomes  |
|------------|-------------------------|--|
| 05/11/2019 | Email                   | Dropbox link for geophysical X-Y plots.  |
| 05/12/2019 | Email                   | Cultural heritage: Copy of MOLA's WSI for the Phase 1 trenching (sent via file share to CCC).  |
| 09/12/2019 | Meeting                 | Economic and Benefits Technical Working Group.   |
| 10/12/2019 | Meeting                 | Strategic Road Users Technical Working Group.  |
| 11/12/2019 | Meeting                 | Highways and Planning Technical Working Group.   |
| 13/12/2019 | Email and file transfer | Cultural heritage: Phase 2 trenching plan sent to councils.  |
| 16/12/2019 | Meeting                 | Walkers, Cyclists and Horse Riders Technical Working Group.  |
| 18/12/2019 | Email                   | Cultural heritage: Requested copies of the trenching scope of works and the aerial photo report.   |
| 18/12/2019 | Email                   | Cultural heritage: Response confirming AP report was not ready to be sent. Scope of works sent.  |
| 18/12/2019 | Email                   | Cultural heritage: Screen shot of slight amendment to Phase 2 trenches.  |
| 20/12/2019 | Email                   | Comments from CBC on the Phase 1 WSI from MOLA.  |
| 14/10/2019 | Meeting                 | Economic and Benefits Technical Working Group.   |
| 13/12/2019 | Email                   | Phase 2 trenching plan sent to councils.   |
| 18/12/2019 | Email                   | Requested copies of the trenching scope of works and the aerial photo report.  |
| 18/12/2019 | Email                   | Response confirming AP report was not ready to be sent. Scope of Works sent.   |
| 18/12/2019 | Email                   | Screen shot of slight amendment to Phase 2 trenches.   |
| 20/12/2019 | Email                   | Provided comments on the Phase 1 WSI.  |
| 14/01/2020 | Email                   | A428 Bedfordshire Watercourse Technical Note shared with CBC.  |
| 16/01/2020 | Email                   | Request from CBC for historical flood event data for fluvial, pluvial, groundwater, sewer, snowmelt, reservoir and other artificial flood sources. |
| 21/01/2020 | Meeting                 | Economic and Benefits Technical Working Group.   |

| Date                  | Form of correspondence | Key topics discussed and key outcomes   |
|-----------------------|------------------------|---|
| 22/01/2020            | Email                  | Formal request from CBC to start drawing up the Planning Performance Agreement (PPA).   |
| 24/01/2020            | Email                  | Updated Phase 1 WSI prepared by MOLA shared following comments by CBC, BBC and CCC.   |
| 24/01/2020            | Email                  | Cultural heritage: Further comments on Phase 1 WSI from CBC.  |
| 24/01/2020            | Email                  | Cultural heritage: Dates for induction.   |
| 24/01/2020            | Email                  | Cultural heritage: Confirmation that comments on WSI will be addressed and asked for any other comments from CCC and BBC. Work will start on site on 28/01/2020.  |
| 28/01/2020            | Email                  | Cultural Heritage: Email from HE Archaeologist regarding CSCS cards and inductions.   |
| 28/01/2020            | Email                  | Cultural Heritage Warned that if they cannot monitor the evaluation then comments to PINS will reflect the fact that they cannot validate results, which they would like to avoid.  |
| 28/01/2020            | Email                  | Cultural heritage: Emails regarding trench changes in F44 due to services.  |
| 28/01/2020            | Email                  | Cultural heritage: Email confirming work had started and that contingency can be accommodated as required. Informed curators of need for minor changes to Phase 1 trenches for safety reasons. Reminder that comments on Phase 2 trench layout were needed. |
| 28/01/2020            | Email                  | Cultural heritage: Email from CBC asking if the aerial photograph layer was available to inform comments.   |
| 28/01/2020            | Email                  | Cultural heritage: CBC trying to determine what aerial photographic information Arial Photography information they have.  |
| 29/01/2020            | Email                  | Cultural heritage: HE confirmed Arial Photography aerial photographic layer not yet available. Requested information from CBC.  |
| 29/01/2020            | Email                  | Cultural heritage: Emails with CBC regarding Phase 2 trenching.   |
| 30/01/2020-31/01/2020 | Email                  | Cultural heritage: Changes to F44 trenches. All agreed.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 31/01/2020 | Email                  | Request for planning data from CBC regarding strategic sites, transport related infrastructure schemes and certainty of development.   |
| 10/02/2020 | Email                  | MOLA Report from week 2 of Phase 1 trial trenching shared with CBC.  |
| 13/02/2020 | Email                  | Cultural heritage: Emails with CBC regarding photographs of trenches from site and access to MOLA GIS system.  |
| 31/03/2020 | Email                  | Request to CBC for details of nearby developments to inform the EIA Cumulative Effects Assessment.   |
| 17/02/2020 | Email                  | Cultural heritage: Desk-Based Assessment shared with BBC, CBC, and CCC.  |
| 18/02/2020 | Email                  | Cultural heritage: Confirmed which fields CBC will monitor.  |
| 10/02/2020 | Email                  | Draft PPA shared with CBC.   |
| 17/02/2020 | Email                  | Draft version of the Archaeological DBA shared with CBC.   |
| 24/02/2020 | Email                  | MOLA Report from week 4 of Phase 1 trial trenching shared with CBC.  |
| 25/02/2020 | Meeting                | Economic and Benefits Technical Working Group.   |
| 02/03/2020 | Email                  | Cultural heritage: Geophysical survey reports sent to BBC, CBC, and CCC for comment.   |
| 02/03/2020 | Email                  | MOLA Report from week 5 of Phase 1 trial trenching shared with CBC.  |
| 03/03/2020 | Meeting                | Walkers, Cyclists and Horse Riders Technical Working Group.  |
| 03/03/2020 | Email                  | Cultural heritage: Emails resending geophysical information.   |
| 05/03/2020 | Meeting                | Meeting held with BBC, CCC, and CBC during which the project team presented information on the Stage 3 Model, including the model network and area of detailed modelling. The traffic forecasting process was explained and presented to the local authorities as well as the Model Cordon Data. |
| 06/03/2020 | Email                  | Comments from CBC on the draft version of the Archaeological DBA.  |
| 06/03/2020 | Email                  | Cultural heritage: Confirmation that no comments on Desk-Based Assessment DBA.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 09/03/2020 | Email                  | MOLA Report from week 6 of Phase 1 trial trenching shared with CBC.  |
| 11/03/2020 | Email                  | MOLA Report from week 7 of Phase 1 trial trenching shared with CBC.  |
| 12/03/2020 | Meeting                | Further to the meeting on 17 October 2019 a second meeting was held with BBC, CCC, CBC, and SCDC for the Flood Risk/ Water Management Technical Working Group. Each local authorities' watercourse was reviewed and discussed and the terms of reference for the group were finalised and agreed. The Environment Agency and Bedford Group of Drainage Boards were also in attendance. |
| 18/03/2020 | Email                  | Link shared by CBC to assist HE with finding local and hard to reach groups.   |
| 23/03/2020 | Email                  | MOLA Report from week 8 of Phase 1 trial trenching shared with CBC.  |
| 24/03/2020 | Email                  | Correspondence to CBC that fieldwork will be temporarily stopped as a result of lockdown measures; and a request for remote sign-off for backfilling currently open trenches.  |
| 30/03/2020 | Email                  | MOLA Report from week 9 of Phase 1 trial trenching shared with CBC.  |
| 02/04/2020 | Email                  | MOLA Report from week 10 of Phase 1 trial trenching shared with CBC.   |
| 02/04/2020 | Email                  | List of remaining Phase 1 trial trenches shared with CBC.  |
| 03/04/2020 | Email                  | Comments from CBC on the geophysical survey report.  |
| 03/04/2020 | Email                  | Cultural heritage: Comments on geophysical survey report.  |
| 03/04/2020 | Email                  | Comments on Geophysical Survey Report for Phases 1 and 2 and proposals for Phase 3 Trench locations from CBC.  |
| 08/04/2020 | Email                  | Request for updated housing data from CBC required to complete uncertainty log.  |
| 09/04/2020 | Email                  | Cultural heritage: Phase 2 trench layout query.  |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 14/04/2020 | Meeting                | Cultural heritage: An archaeological consultation meeting was held which included discussion on SOCGs and how COVID-19 might impact archaeological investigation. An update was also provided on Phase 1 fieldwork and the archaeological potential and land access of various fields were discussed. Historic England were also in attendance. |
| 14/04/2020 | Email                  | Photos taken of trenches in F39 shared with CBC.  |
| 16/04/2020 | Email                  | MOLA Report from week 11 of Phase 1 trial trenching shared with CBC.  |
| 17/04/2020 | Email                  | Updates to the work package programme as of April 2020 shared by HE.  |
| 20/04/2020 | Email                  | MOLA Report from week 12 of Phase 1 trial trenching shared with CBC.  |
| 22/04/2020 | Email                  | Confirmation from Historic England shared with CBC, confirming that F44 is not being considered to be designated as a scheduled ancient monument.   |
| 23/04/2020 | Email and file share   | Cultural heritage: WSI for Phase 2 trenching sent to councils.  |
| 24/04/2020 | Email                  | Confirmation from CBC that clearance of archaeological excavations will require a temporary compound where a necessary planning permission would be required.   |
| 27/04/2020 | Email                  | Cultural heritage: Sent revised Phase 2 WSI to BBC and CBC.   |
| 27/04/2020 | Email                  | Cultural heritage: Comments on Phase 2 WSI from CBC.  |
| 28/04/2020 | Email                  | Comments on v3 of the Phase 2 trenching WSI.  |
| 28/04/2020 | Email                  | Response from HE Archaeologist HE to CBC comments on Phase 2 WSI.   |
| 28/04/2020 | Email                  | Requested final Phase 1 WSI.  |
| 30/04/2020 | Email                  | Planner for May archaeological information shared.  |
| 30/04/2020 | Email                  | Final Phase 1 WSI sent to CBC.  |
| 30/04/2020 | Email                  | Noted that Figure 5 in the Phase 1 WSI was wrong. Asked for an amended version at some stage (not urgent).  |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 30/04/2020 | Email                  | Email from HE Archaeologist with programme for when reviews needed from curators. Responses from all authorities with some confusion.   |
| 01/05/2020 | Email                  | MOLA Report from week 1 of Phase 2 trial trenching shared with CBC.   |
| 04/05/2020 | Meeting                | Meeting with CBC in which the project team explained the ecological approach to F44, an area on the approach to Alington Hill. This area is of archaeological interest for the Scheme so the local authority was interested in how ecological mitigations would be made within the archaeological excavation. |
| 06/05/2020 | Email                  | MOLA Report from week 2 of Phase 2 trial trenching shared with CBC.   |
| 07/05/2020 | Email                  | Cultural heritage: Phase 3 geophysics and Phase 3 trench plan sent to councils.   |
| 11/05/2020 | Email                  | EWP1 Major Developments work package issued to CBC.   |
| 11/05/2020 | Email                  | Proposed environmental work packages for CBC shared by HE.  |
| 13/05/2020 | Email                  | MOLA Report from week 3 of Phase 2 trial trenching shared with CBC.   |
| 13/05/2020 | Email                  | Cultural heritage: Comments from CBC on the addendum to the geophysical survey report and the proposals for the Phase 3 trench locations.   |
| 14/05/2020 | Email                  | Cultural heritage: HE response to comments on Phase 3 trench layout.  |
| 15/05/2020 | Email                  | MOLA Report from week 3 of Phase 1 trial trenching shared with CBC.   |
| 15/05/2020 | Email                  | Cultural heritage: Information on trench numbers requiring changes in F34.  |
| 15/05/2020 | Email                  | Phase 1 archaeological trenching results shared with CBC.   |
| 18/05/2020 | Email                  | MOLA Phase 1 Trenching Report shared with CBC.  |
| 19/05/2020 | Meeting                | This meeting was a Local Model Validation Report (LMVR) and modelling workshop with CCC and CBC during which the project team ran through an overview of the Stage 3 Model,   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
|            |                        | including an overview of the base year model calibration and validation performance.  |
| 19/05/2020 | Email                  | Cultural heritage: Copy of Phase 1 trenching report to BBC, CBC, and CCC.   |
| 19/05/2020 | Email                  | Cultural heritage: Response regarding F34 trenches.   |
| 20/05/2020 | Email                  | Cultural heritage: Request for Phase 1 trench report figures.   |
| 20/05/2020 | Email                  | Latest programme for the work packages and Local Authority engagement shared with CBC.  |
| 21/05/2020 | Teams Meeting          | Cultural Heritage Meeting with BBC, CCC, and CBC during which MOLA gave a presentation on the results of the Phase 1 trenching. Attendees were informed that it was possible that not all trenching results would be available with the submission of the DCO and could be submitted as an addendum.  |
| 21/05/2020 | Email                  | Cultural heritage: Slides from presentation sent to Historic England, BBC, CBC, and CCC   |
| 21/05/2020 | Email                  | Information from CBC regarding NMP data.  |
| 22/05/2020 | Email                  | MOLA Report from week 4 of Phase 2 trial trenching shared with CBC.   |
| 29/05/2020 | Teams Meeting          | Cultural heritage: Following the meeting on the 4 May 2020, an additional cultural heritage meeting was held with CBC to clarify the approach to ecological mitigation with the local authority. The proposed layout of the scope of works was described. Ecological constraints were discussed, along with the archive and publication. The local authority was satisfied with the ecological and archaeological approach set out by the project team. |
| 01/06/2020 | Email                  | MOLA Report from week 5 of Phase 2 trial trenching shared with CBC.   |
| 03/06/2020 | Email                  | Cultural heritage: Comments from CBC on Phase 1 trenching report.   |
| 10/06/2020 | Email                  | Latest draft of draft PPA with CBC shared.  |
| 10/06/2020 | Email                  | MOLA Report from week 7 of Phase 2 trial trenching shared with CBC.   |
| 12/06/2020 | Email                  | Draft scope of works for excavation in Field 44 shared with CBC.  |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 16/06/2020 | Email                  | Draft PPA with CBC shared by HE.   |
| 17/06/2020 | Email                  | Comments on draft scope of works for F44 shared by CBC.  |
| 18/06/2020 | Email                  | MOLA Report from week 8 of Phase 2 trial trenching shared with CBC.  |
| 18/06/2020 | Email                  | Amended draft of draft PPA with CBC shared.  |
| 23/06/2020 | Email and file share   | Cultural heritage: Phase 3 WSI prepared by MOLA sent to BBC, CBC, and CCC.   |
| 24/06/2020 | Letter                 | Supplementary Consultation Launch Communications.  |
| 24/06/2020 | Email                  | MOLA Report from week 9 of Phase 2 trial trenching shared with CBC.  |
| 24/06/2020 | Email                  | Link for online consultation sent to BBC, CBC, and CCC.  |
| 25/06/2020 | Teams Meeting          | A cultural heritage meeting was held with BBC, CCC, and CBC to discuss five sites (F9, F34, F44, F59 and F97) that would be targeted early for advanced construction activity including compounds, statutory diversions and borrow pits. Concerns over furrows were raised by attendees and further specialist research was undertaken as a result. Historic England were also in attendance HE. |
| 25/06/2020 | Email                  | Notes from Phase 1 presentation issued.  |
| 01/07/2020 | Email                  | Comments from CBC on the Phase 3 WSI from MOLA.  |
| 01/07/2020 | Email                  | Cultural heritage: Comments on Phase 3 WSI received from CBC. Plan of F45 trenches also shared.  |
| 02/07/2020 | Email                  | Screenshot of trenching plan in F45 shared.  |
| 02/07/2020 | Email                  | Asked if trench plan for F45 would be in updated WSI and if a scale plan be sent in due course.  |
| 02/07/2020 | Email                  | Latest version of draft PPA with CBC shared.   |
| 03/07/2020 | Email                  | Programme for work packages and Local Authority engagement for June 2020 shared by HE.   |
| 16/07/2020 | Email                  | Technical note detailing proposed mitigation for the archaeological excavation works in F44 shared with CBC.   |
| 09/07/2020 | Email                  | Draft trenching layout shared with CBC.  |

| Date       | Form of correspondence                 | Key topics discussed and key outcomes  |
|------------|--|--|
| 16/07/2020 | Email                                  | CBC asked if extracts from Phase 1 eval report reflected the updated report following their comments.  |
| 16/07/2020 | Email                                  | HE confirmed that the Phase 1 eval report did not reflect comments – some still awaited.   |
| 17/07/2020 | Email                                  | MOLA Report from week 12 of Phase 2 trial trenching shared with CBC.   |
| 21/07/2020 | Meeting                                | A meeting was held with BBC, CCC, and CBC to present the methodology adopted for the traffic forecasting and the results of the future forecasts to the local authorities.   |
| 23/07/2020 | Email                                  | Local Authority Work Package programme update for July 2020.   |
| 23/07/2020 | Email                                  | Programme for work packages and Local Authority engagement for July 2020 shared by HE.   |
| 24/07/2020 | Email                                  | Photos of trenches in F45 shared with CBC.   |
| 24/07/2020 | Email                                  | MOLA Report from week 13 of Phase 2 trial trenching shared with CBC.   |
| 28/07/2020 | Meeting                                | A meeting was held with CBC to present a summary of the assessment of the wider traffic impacts and junction capacity modelling to be contained in the Transport Assessment (TA).  |
| 28/07/2020 | Response to Supplementary Consultation | CBC response to Supplementary Consultation.  |
| 28/07/2020 | Meeting                                | Cultural heritage meeting including discussion of: <ul style="list-style-type: none"> <li>• Scheme and programme update.</li> <li>• Update provided on engagement of stakeholders, including previous meeting with BBC conservation and archaeology officers, and with Historic England.</li> <li>• Update on progress with archaeological trial trenching.</li> <li>• Discussion of advanced works.</li> <li>• Brook Cottages and listed milestones discussed.</li> </ul> |
| 29/07/2020 | Email                                  | MOLA Report from week 14 of Phase 3 trial trenching shared with CBC.   |
| 30/07/2020 | Meeting                                | Local Economy Legacy Working Group.  |

| Date       | Form of correspondence            | Key topics discussed and key outcomes  |
|------------|-----------------------------------|--|
| 30/07/2020 | Email                             | CBCEWP7 Archaeology WSI+ATT work package issued to CBC County Archaeologist.   |
| 30/07/2020 | Email                             | Work package "CCCHWP15 LTN 1/20" issued to CBC for info only.  |
| 04/08/2020 | Email                             | Work package on Order Plans & Schedules issued to CBC.   |
| 12/08/2020 | Email                             | MOLA Report from week 16 of Phase 3 trial trenching shared with CBC.   |
| 17/08/2020 | Email                             | Cultural heritage: Meeting notes for 25 June meeting sent to Historic England, BBC, CBC, and CCC.  |
| 19/08/2020 | Email                             | MOLA Report from week 17 of Phase 3 trial trenching shared with CBC.   |
| 21/08/2020 | Email                             | Cultural heritage: Received comment on meeting notes from 25 June from CBC.  |
| 25/08/2020 | Meeting                           | HE cultural heritage meeting was held regarding gas diversion in F34 and advance archaeological works. It was recognised that the plan would not impact on the archaeological deposits within F34, but it was agreed it would be preferable to undertake the excavation in advance of work.  |
| 25/08/2020 | Email from CCC to HE, BBC and CBC | <p>Email explaining following receipt of the notes made in the meeting held on 25 June, the council does not recall the need to provide a revised brief. The council explains they have not received firm plans for F59 and therefore cannot specify an area in a brief.</p> <p>The council explained they are obliged to respond to the consultation plan but advise no such division of Wintringham Park Site, 3 as proposed for the A428, should occur.</p> |
| 27/08/2020 | Email                             | MOLA Report from week 18 of Phase 3 trial trenching shared with CBC.   |
| 02/09/2020 | Email                             | MOLA Report from week 19 of Phase 3 trial trenching shared with CBC.   |
| 07/09/2020 | Email                             | Cultural heritage: Minutes from meeting regarding gas diversion in F34 and advance archaeological works  |
| 09/09/2020 | Meeting                           | Meeting with CCC, CBC, and HDC to provide an update on the Scheme, Landscape and Visual Impact Assessment (LVIA), landscape design approach and next steps.  |
| 09/09/2020 | Email                             | Invite from HE's Archaeologist HE to consultees to invite them to a meeting to discuss the rationale and strategy for  |

| Date       | Form of correspondence            | Key topics discussed and key outcomes  |
|------------|-----------------------------------|--|
|            |                                   | mitigation on the A428, to include for discussion on the strategies for the 39 sites have identified during the evaluations.   |
| 10/09/2020 | Email                             | MOLA Report from week 20 of Phase 3 trial trenching shared with CBC.   |
| 10/09/2020 | Email from HE to CBC              | Email attaching notes with key points on the Archaeological Mitigation in Field 34. The council explained they are reading the draft specification for archaeology and the phase 2 evaluation report from MOLA.  |
| 16/09/2020 | Email                             | MOLA Report from week 21 of Phase 3 trial trenching shared with CBC.   |
| 18/09/2020 | Meeting                           | Cultural heritage: Archaeological meeting with BBC, CCC, and CBC to present the results of the Phase 2 trenching evaluation. The presentation was by MOLA.   |
| 22/09/2020 | Email and file share              | Cultural heritage: Slides of Phase 2 trenching presentation were shared.   |
| 22/09/2020 | Email from HE to CCC, CBC and BBC | Email attaching the Phase 1 and Phase 2 Archaeology Presentation.  |
| 23/09/2020 | Email                             | Cultural heritage: Email sending current draft of the archaeological strategy document prepared by HE in advance of the meeting on 24-09-2020.   |
| 23/09/2020 | Email                             | CBC confirmed receipt of the archaeological mitigation table and strategy document and will aim to review.   |
| 24/09/2020 | Meeting                           | Cultural heritage: An archaeological meeting was held with BBC and CBC to discuss the archaeological mitigation strategy [TR010044/APP/6.12] with local authority officers.<br><br>Presentations on the archaeological approach, the rationale and strategy, and the form of the strategy for the Environmental Statement. |
| 25/09/2020 | Email                             | Email from HE requesting file share for the PowerPoint of the meeting held on 24/09/2020. Second email regarding the drawings. Requested examples from the A14 scheme.   |
| 25/09/2020 | Email and file share              | PowerPoint from meeting on 24/09/2020 shared with the councils.  |
| 30/09/2020 | Email                             | Water Courses work package issued to CBC Biodiversity/Drainage teams.  |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 30/09/2020 | Meeting                | Cultural heritage: Minutes of the Phase 2 trenching presentation were shared.   |
| 30/09/2020 | Meeting                | Cultural heritage: Email from HE to CCC, BBC and CBC with attached minutes of the meeting on the Rational, Strategy and Mitigation were shared.   |
| 30/09/2020 | Email                  | Email from HE to CCC, BBC and CBC attaching the minutes of the Phase 2 trenching presentation   |
| 30/09/2020 | Email                  | Email from HE's Archaeologist HE with dates of the review programme for the evaluation reports.   |
| 30/09/2020 | Email                  | Email from HE's Archaeologist HE on inputs required on the mitigation strategy.   |
| 30/09/2020 | Email                  | Email from HE to CCC, BBC and CBC providing a series of milestones for the delivery and review of the archaeological evaluation reports by MOLA and agreement made Friday 16 <sup>th</sup> for the next presentation.   |
| 02/10/2020 | Email                  | Geophysical Survey Report for Phases 1 and 2 shared with CBC.   |
| 02/10/2020 | File transfer          | Cultural heritage: Updated Phase 1 and 2 trenching reports, plus draft mitigation area figures.   |
| 13/10/2020 | Email                  | HE's Archaeologist emailed copies of mitigation area plans in CBC.  |
| 14/10/2020 | Email                  | Comments on v4 of Phase 1 report.   |
| 15/10/2020 | Email                  | Email from CCC to HE, BBC and CBC explaining the Phase 1 and 2 report, alongside the AECOM proposed mitigation areas have been reviewed. CCC have not had time to review the areas alongside levels of engagement. The council consider the proposal is inconsistent or unworkable. Mitigation area review document may need to be sent to MFT service as this document is too large. |
| 15/10/2020 | Email                  | Emails regarding photographic requirements in Bedfordshire.   |
| 15/10/2020 | Email                  | Request for suggested peer review of medieval text in CBC.  |
| 16/10/2020 | Email                  | CBC suggested a person for the medieval peer review.  |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 16/10/2020 | Meeting                | An archaeological meeting was held with BBC, CCC, and CBC present the Phase 3 trenching results. This was the result of all the trenching proposed. The presentation was by MoLA.   |
| 18/10/2020 | Email                  | Email from BBC to HE, CCC and CBC outlining key issues with the Phase 1 report, this includes Section 6.3, Section 6.4 and Appendix 4, Table 4.1. The council complained about the length of the document and reported the documents kept crashing on their system. The council raised cross referencing is a time consuming process. The council explained they are part way through reviewing the Phase 2 report.                                   |
| 19/10/2020 | Email                  | Cultural heritage: Information on time required to review medieval paper.   |
| 20/10/2020 | Email                  | HE's Archaeologist HE email indicating a lesson's learnt exercise on the trenching will be needed.  |
| 21/10/2020 | Email                  | Project management work package "MWP1" issued to CBC for review.  |
| 27/10/2020 | File transfer          | Cultural heritage: Draft Phase 3 report sent to BBC, CBC, and CCC.  |
| 28/10/2020 | Email                  | Comments on Mitigation Strategy and Rationale.  |
| 29/10/2020 | Meeting                | <p>Cultural heritage: An archaeological meeting with BBC, CCC, and CBC was called by HE to review the mitigation rationale document and discuss the archaeological mitigation strategy [TR010044/APP/6.12]. The meeting covered the following:</p> <ul style="list-style-type: none"> <li>- Documents to be included in the DCO.</li> <li>- Discussion on the Rationale and Strategy.</li> <li>- Mitigation strategy for individual sites.</li> </ul> |
| 03/11/2020 | Email                  | Carbon work package "CBCEWP14" issued to CBC for review.  |
| 05/11/2020 | Email                  | Cultural heritage: Response to curator comments on the Archaeological Mitigation Strategy.  |
| 09/11/2020 | Email                  | Invite from HE's Archaeologist HE for lessons learnt session.   |
| 09/11/2020 | Email                  | Cultural heritage: Comments on Phase 3 trenching report (shared via BOX and resent as a pdf)  |
| 10/11/2020 | Meeting                | A meeting was held with ecologists from BBC and CBC to discuss work package EWP2a.  |

| Date       | Form of correspondence         | Key topics discussed and key outcomes  |
|------------|--------------------------------|--|
| 12/11/2020 | Email                          | Work package "EWP2b" (landscaping) issued to CBC for review.   |
| 12/11/2020 | Meeting                        | A meeting was held with BBC, CCC, CBC, SCDC, and HDC to provide a briefing on the draft Development Consent Order to highlight the key articles and provide an overview of the requirements. An overview of the structure of the Environmental Management Plan and explanation of the role of local authorities in the post submission process (covering Adequacy of Consultation responses and Local Impact Reports) was also provided. |
| 17/11/2020 | Email                          | Responses to CBC points, and requests for clarification on the A428 Rationale and Strategy by HE.  |
| 17/11/2020 | Email                          | CBC advised no issue with the response to CBC comments on the Rationale and Strategy.  |
| 20/11/2020 | Email                          | Email to check that CBC had the A428 Phase 1 issue 4 and Phase 2 issue 3 final reports. The revised Phase 3 report will be sent.   |
| 20/11/2020 | Email                          | Confirmation that CBC had received the Phase 1 (issue 4) and Phase 2 (issue 3) final reports.  |
| 20/11/2020 | We Transfer and CCC file share | Cultural heritage: Revised Phase 3 report sent to Historic England, BBC, CBC, and CCC.   |
| 25/11/2020 | Meeting                        | Lessons learnt session for the A428 Evaluation reporting process.  |
| 25/11/2020 | Email                          | Email to CBC stating that we had thought that it was agreed that the Phase 1 report could be submitted as is and then amendments made for the HER submission of the report. Asked CBC to confirm if amendments were required.  |
| 25/11/2020 | Email                          | CBC had missed that the Phase 1 amendments would not be included in the DCO submission. Asked for confirmation that issue 4 of the report would go into the EIA.   |
| 30/11/2020 | Email                          | Notified CBC that HE had addressed CBC and BBC comments, but that no comments were received from CCC. Asked if CBC wanted to see the revised document.   |
| 30/11/2020 | Email                          | Confirmed that CBC would like to review the revised rationale and strategy by HE.  |
| 04/12/2020 | Meeting                        | Cultural heritage: discussion on SoCG, archives and other matters relating to mitigation.  |

| Date         | Form of correspondence | Key topics discussed and key outcomes  |
|--------------|------------------------|--|
| 04/12/2020   | Email                  | Draft SoCG info sent to CBC following the meeting.   |
| 04/12/2020   | Email                  | Email from HE with notes and actions from lessons learnt session.  |
| 21/01/2021   | File share             | Final version of Phase 1 trenching report issued to councils.  |
| January 2021 | Email                  | Planning data requested from CBC, including public transport schemes.  |
| 03/02/2021   | Briefing               | Officers from BBC, CCC, and CBC were briefed on a Scheme walk through which included mainline alignment design and reason for changes, junction locations and designs, key structures, public rights of way proposals, borrow pits and key constraints and design considerations. The structure of the DCO application and the key documents within it were also covered. A recap was provided on the role of local authorities in the post submission period, as well as an update on the draft legal agreements. |
| 05/02/2021   | Meeting                | In this meeting with BBC, CCC, and CBC, the results of the sensitivity tests for the update of the Uncertainty Log were presented to the local authorities. This is reported in application document [TR010044/APP/7.9] - Sensitivity Test Utilising 2020 Uncertainty Log Data.  |
| 21/04/2021   | Email                  | Email from HE to CBC providing a link to the confidential ecological appendices  |
| 25/05/2021   | Meeting                | Biodiversity update meeting including introduction to the SoCG and biodiversity impacts, effects and mitigation. Meeting minutes were provided following the meeting on 27/05/2021.  |
| 26/05/2021   | Meeting                | Cultural heritage update meeting including introduction to the SoCG and cultural heritage impacts, effects and mitigation. Meeting minutes were provided following the meeting on 28/05/2021.  |
| 10/06/2021   | Meeting                | Air quality and noise and vibration update meeting including introduction to the SoCG and air quality and noise and vibration impacts, effects and mitigation. Meeting minutes were provided following the meeting on 16/06/2021.  |
| 22/06/2021   | Meeting                | Meeting to discuss the cultural heritage elements of the SOCG. Meeting minutes were provided following the meeting on 30/06/2021.  |

| Date                                  | Form of correspondence                                | Key topics discussed and key outcomes   |
|---------------------------------------|---|---|
| 23/06/2021                            | Meeting   | Meeting to discuss the biodiversity elements of the SOCG and update the team on the landscape and visual effects assessment. Meeting minutes were provided following the meeting on 30/06/2021.   |
| 23/06/2021                            | Email   | Email from CBC querying why borrow pits are not being discussed as part of the Material Assets and Waste Update presentation  |
| 23/06/2020                            | Email   | WSI for Phase 3 prepared by MOLA shared.  |
| 25/06/2021                            | Email   | Email from HE to BBC, CBC and CCC detailing a borrow pit technical note is being prepared and once issued HE will set up a specific meeting to discuss borrow pits.   |
| 01/07/2021                            | Meeting   | Joint meeting with BBC, CBC and CCC on material assets and waste covering roles in Examination, navigating the ES, the SOCG and material assets and waste impacts, effects and mitigation. Meeting minutes were provided following the meeting on 08/07/2021. |
| 01/07/2021                            | Meeting   | Joint meeting with BBC and CBC about construction impacts on traffic.   |
| 02/07/2021                            | Meeting   | Local Technical Review Group meeting - discussion on strategic and local models.  |
| 05/07/2021, 08/07/2021 and 27/07/2021 | Email   | Email from HE to CBC requesting the names of specialist team members from CBC geology and soils, road drainage and water environment, climate and population and human health with a view to organising future SOCG meetings. No response received.           |
| 05/07/2021, 08/07/2021 and 27/07/2021 | Email   | Email from HE to CBC landscape team requesting availability for a future meeting.   |
| 08/07/2021                            | Email   | Email from HE to CBC issuing the meeting minutes and presentation slides for the material assets and waste meeting on 01/07/2021.   |
| June 2021                             | Letter from CBC to HE (via the Planning Inspectorate) | Letter from CBC to HE detailing their Relevant Representation.  |
| 20/07/2021                            | Meeting   | Meeting with CBC and BBC on the Outline Construction Traffic Management Plan  |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 22/07/2021 | Meeting                | Meeting to discuss the air quality and noise and vibration elements of the SOCG.   |
| 28/07/2021 | Email                  | Email from HE to CBC issuing the meeting minutes and presentation slides following the air quality and noise and vibration SOCG meeting on 22/07/2021.   |
| 28/07/2021 | Email                  | Email from CBC Landscape Team advising that they don't have capacity to be involved in relevant discussion for the Scheme.   |
| 30/07/2021 | Email                  | Email from HE to CBC detailing the location of the report for the Sensitivity Test using 2020 Uncertainty Log Data which is part of the DCO application documents.   |
| 11/08/2021 | Email                  | Email from HE to CBC requesting air quality monitoring data for 2019 and 2020 if available.  |
| 12/08/2021 | Meeting                | JAAB (Joint Archaeological Advisors Brief) meeting with CCC and CBC to discuss outstanding questions about the "Cambridgeshire / Bedfordshire Brief for a Programme of Archaeological Investigation" for the A428.   |
| 13/08/2021 | Meeting                | Meeting between HE, the Cambridgeshire authorities (CCC, HDC and SCDC), BBC, CBC on borrow pits and the additional information provided in the Borrow Pit Technical Note. Meeting minutes were provided following the meeting on 23/08/2021.                     |
| 17/08/2021 | Email                  | Email from CBC to HE with NO <sub>2</sub> diffusion tube data and NO <sub>2</sub> , PM <sub>10</sub> and PM <sub>2.5</sub> data at the Sandy monitoring station.   |
| 20/08/2021 | Email                  | Email from National Highways to CBC asking if any of the monitoring tubes have been relocated.   |
| 20/08/2021 | Email                  | Email from National Highways to CBC requesting predicted operational noise levels for receptors R16, R17 and R18.  |
| 23/08/2021 | Email                  | Email from National Highways to CBC detailing that input will be required from CBC to a position statement on HRA and mitigation matters following a meeting between Natural England and National Highways on 23/08/2021. A recording of the meeting was shared. |
| 23/08/2021 | Email                  | Email from National Highways to CBC with the minutes from the Borrow Pits meeting on 13/08/2021.   |
| 23/08/2021 | Email                  | Latest programme for the work packages and Local Authority engagement shared by National Highways.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 24/08/2021 | Email                  | Email from CBC to National Highways advising that the monitoring tubes had not been relocated. CBC advised review of the 2019 monitoring data.  |
| 26/08/2021 | Email                  | The position statement for HRA and mitigation matters was shared with CBC for input. No response received.  |
| 02/09/2021 | Email                  | Email from National Highways (NH) to CBC with daytime noise levels for receptors R16, R17 and R18. National Highways advised that night-time noise levels would follow in a couple of weeks due to scheduled annual leave.  |
| 13/09/2021 | Meeting                | Meeting with CBC Roads team covering Highways, PRoW and WCH items within Table 3-6 of the Statement of Common Ground.   |
| 20/09/2021 | Meeting                | Meeting between NH and CBC to discuss the Joint Position Statement  |
| 30/09/2021 | Meeting                | Meeting with CCC, HDC, SCDC, BBC and CBC in response to Action 2 from the Issue Specific Hearing 3 (24 September 2021). Biodiversity issues discussion on drainage ponds and planting arrangement. Meeting minutes were provided following the meeting on 04/10/2021. |
| 04/10/2021 | Email                  | Position Statement detailing matters related to design principles and planting at attenuation basins circulated to CBC, other host authorities and Natural England for input at Deadline 3 of the Examination.  |
| 04/10/2021 | Email                  | Email from CBC re. Position Statement covering the matters raised by CBC at the Open Floor Hearing 1  |
| 04/10/2021 | Email                  | Email from CBC re. Position Statement with regards to transport modelling, methodology and outcomes.  |
| 05/10/2021 | Email                  | Email from NH to CBC with night-time noise predictions at receptors R16, R17 and R18 within CBC.  |
| 05/10/2021 | Email                  | Email from CBC to NH requesting LA <sub>max</sub> night time noise values.  |
| 08/10/2021 | Email                  | Email from NH to CBC confirming that LA <sub>max</sub> noise values is not part of the noise and vibration methodology set out in LA 111.   |
| 08/10/2021 | Email                  | Email from CBC to NH re. SoCG on Highways Design Matters  |
| 25/10/2021 | Meeting                | Meeting between NH and CBC to discuss Sensitivity Tests Outputs   |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 02/11/2021 | Email                  | Email from CBC to NH to advise additional traffic comments have been added on the SoCG   |
| 02/11/2021 | Email                  | Email from NH to CBC to they will review additional comments from CBC on the SoCG  |
| 02/11/2021 | Email                  | Email from CBC to NH, CCC and BBC arranging a site visit to F44. Agreed date between all parties 25/11/21. CBC also confirmed they are happy with the revised AMS.   |
| 02/11/2021 | Email                  | Email from CBC to NH requesting teams meeting to discuss F34 assessment report   |
| 04/11/2021 | Email                  | Email from CBC to NH detailing additional air quality and noise and vibration mitigation comments to be considered in the next iteration of the SOCG.  |
| 04/11/2021 | Email                  | Email from CBC to NH requesting a link to the D4 SoCG to add comments. NH advised that further comments cannot be added at his stage however updated can be made for D5. NH sent submitted version                                     |
| 04/11/2021 | Email                  | Email from CBC to NH confirming they would like to be involved in the digital archiving consultation. NH confirmed to CBC that they will look into dates for another environmental/discussion and F44                                  |
| 04/11/2021 | Email                  | Email from CBC to NH confirming F44 visit. NH confirmed F44 visit on 24/11/2021. CBC confirmed to BBC and CCC F44 visit.   |
| 04/11/2021 | Email                  | Email from NH to CBC advising that their additional comments on air quality and noise vibration mitigation cannot be added to the D4 version of the SoCG as it's too late but confirming they can in the D5 of D6 version of the SoCG. |
| 05/11/2021 | Email                  | Email from NH to CBC with availability for F34 meeting, CBC suggested time   |
| 05/11/2021 | Email                  | Email from CBC to NH requesting a monitoring catch up prior to F44 site visit.   |
| 05/11/2021 | Email                  | Email from CBC requesting detailed overview of designated funds, NH response including other aeras of NH to respond  |
| 05/11/2021 | Email                  | Email from CBC to request D & A test for colleague   |
| 08/11/2021 | Email                  | Email from CBC to NH with F34 Assessment Report Review attached  |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 08/11/2021 | Email                  | Email from CBC to NH to suggest chat about F34 Assessment Report Review   |
| 08/11/2021 | Email                  | Email from CBC to NH chasing up information about designated funds. NH confirmed information has been issued and should CBC have further queries to reach out                                   |
| 08/11/2021 | Email                  | Email from CBC to NH to confirm the representative who will attend the road safety audit  |
| 10/11/2021 | Email                  | Email from NH to CBC to provide the version of the SoCG submitted at D4 and highlighting that this has now been published on the PINS website   |
| 11/11/2021 | Email                  | Email from NH to CBC regarding concerns around air Quality at Sandy, requesting further information on related policies and studies   |
| 14/11/2021 | Email                  | Email from CBC to NH with new availability to discuss F34 report  |
| 16/11/2021 | Email                  | Email from CBC to NH with F34 PXA pdf and comments. NH confirmed receipt and replies with corresponding availability  |
| 17/11/2021 | Email                  | Email from NH to CB and MOLA to arrange F34 meeting. Meeting arranged for 23/11/21  |
| 18/11/2021 | Email                  | Email from NH to CBC with a SoCG plan and principles for deadline 6   |
| 18/11/2021 | Email                  | Email from NH to CBC with signposts to comments on other parties responses, chapter 11 noise and vibration and borrow pits restoration report submitted at D5 and published on the PINS website |
| 19/11/2021 | Email                  | Email from CBC to NH chasing up D&A   |
| 19/11/2021 | Email                  | Email from NH to CBC requesting a meeting to catch up about ongoing noise and vibration issues ahead of the hearing. CBC confirmed date.  |
| 24/11/2021 | Meeting                | Meeting between NH and CBC to discuss ongoing noise and vibration issues  |
| 24/11/2021 | Email                  | Email from NH to CBC to request catch up call prior to planned meeting, time agreed by CBC and NH   |
| 30/11/2021 | Meeting                | Meeting between NH and CBC regarding noise insulation. Meeting minutes were distributed on 9.12.2021.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 30/11/2021 | Email                  | Email from NH to CBC with position on construction impacts and legal agreement fees requested in the meeting  |
| 01/12/2021 | Email                  | Email from NH to CBC and CCC to confirm site visit in the absence of Hannah from CBC as she is unwell   |
| 03/12/2021 | Email                  | Email from NH to CBC requesting a response on an earlier email to address outstanding construction noise impact issues  |
| 06/12/2021 | Email                  | Email from CBC to NH requesting a change in time for proposed SoCG Final check for d6 submission meeting  |
| 06/12/2021 | Email                  | Email from NH to CBC to confirm change in time for proposed SoCG Final check for Deadline 6 submission meeting  |
| 09/12/2021 | Email                  | Email from CBC to NH issuing a draft DCO requirements document.   |
| 09/12/2021 | Email                  | Email from NH to CBC issuing a noise position statement following an action from the issue specific hearings.   |
| 10/12/2021 | Email                  | Email from CBC to NH providing input to the noise position statement.   |
| 10/12/2021 | Email                  | Email from NH to CBC to highlight new Deadline 7  |
| 10/12/2021 | Email                  | Email from CBC to NH to confirm they have noted the update to Deadline 7.   |
| 13/12/2021 | Email                  | Email from NH to CBC outlining SoCG final check for Deadline 6 submission meeting and what will be able to be achieved in the meeting.  |
| 14/12/2021 | Email                  | Email from NH to CBC regarding communication about the A428 DCO and asking to share the A428 social media pages.  |
| 15/12/2021 | Email                  | Email from NH to CBC to confirm who will attend the STRG meeting.   |
| 15/12/2021 | Email                  | Email from NH to CBC to provide the updated version of the SoCG that was submitted at Deadline 6 and informing them of where the next working version of the SoCG would be saved. |
| 16/12/2021 | Email                  | Follow up email from NH to CBC to correct a deadline date in from the previous email  |
| 16/12/2021 | Email                  | Email from CBC to NH to advise they have shared the A428 social media accounts on the CBC page.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 16/12/2021 | Email                  | Email from NH to CBC to propose a time and date for a meeting between NH, NE and CBC to discuss an action point from the hearings relating to bat crossing points.                         |
| 16/12/2021 | Email                  | Email from CBC to NH to advise of suitable time for bat crossing points meeting.   |
| 17/12/2021 | Email                  | Email from NH to CBC thanking them for sharing social media accounts.  |
| 17/12/2021 | Email                  | Email from CBC to NH requesting an invoice address.  |
| 17/12/2021 | Email                  | Email from CBC to NH with invoice.   |
| 20/12/2021 | Email                  | Email from NH to CBC to inquire if there are any SoCG issues they would like included in a request from Cambridgeshire and District to be escalated to STRG.                               |
| 21/12/2021 | Email                  | Email from CBC to NH to confirm who would attend the STRG meeting.   |
| 21/12/2021 | Email                  | Email from CBC to NH to confirm items they want to be included in agenda for the STRG.   |
| 22/11/2021 | Email                  | Email from NH to CBC to confirm attendee and agenda items have been acknowledged.  |
| 22/11/2021 | Email                  | Email from CBC to NH with summary sheets to be discussed at the STRG. Noting there are some staff on leave who have not yet had the chance to add what they need to.                       |
| 22/11/2021 | Email                  | Email from NH to CBC to thank them for providing papers on short notice and requesting if there are any updates from those staff on leave to provide them as early as possible for review. |
| 22/12/2021 | Email                  | Email from CBC to NH to note request.  |
| 24/12/2021 | Email                  | Email from CBC to NH to confirm receipt of final phase machine plans.  |
| 05/01/2022 | Email                  | Email from NH to CBC and others with STRG meeting documents and link.  |
| 06/01/2022 | Email                  | Email from CBC to NH requesting they forward the invite to an additional colleague.  |
| 06/01/2022 | Email                  | Email from NH to CBC to confirm the colleague's position before confirming attendance.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 06/01/2022 | Email                  | Email from NH to CBC to confirm who is best to contact to discuss drainage.   |
| 07/01/2022 | Email                  | Email from NH to CBC forwarding STRG meeting documents and link to additional invited colleague.  |
| 07/01/2022 | Email                  | Email from CBC to NH to confirm attendance to STRG meeting but flagging they would not have time to look at all the documents due to time constraints.  |
| 07/01/2022 | Email                  | Email from NH to CBC to confirm which part of the agenda they should focus on to help with time constraints.  |
| 07/01/2022 | Meeting                | Meeting between NH, Natural England, CBC, BBC and the Cambridgeshire authorities on bat crossing points.  |
| 12/01/2022 | Meeting                | Meeting between NH and CBC on the Joint Noise Position Statement.   |
| 13/01/2022 | Email                  | Email from NH to CBC issuing the minutes from the bat crossing points meeting.  |
| 13/01/2022 | Email                  | Email from NH to CBC thanking them for their quick turn around on the Joint Position Statement, advising them that NH would send around the final draft soon and sharing the results of the Asbestos survey for Brook Cottages. |
| 14/01/2022 | Email                  | Email from NH to CBC issuing the minutes from the meeting on the Joint Noise Position Statement.  |
| 14/01/2022 | Email                  | Email from NH to CBC with comms plan from MOLA.   |
| 14/01/2022 | Email                  | Email from CBC to NH to advise they have no substantive changes to add to the SOCG.   |
| 14/01/2022 | Email                  | Email from NH to CBC thanking them for the update on the SOCG and advising them of the next steps for the SOCG sign off as well as asking who in CBC would need to sign off the final version.                                  |
| 14/01/2022 | Email                  | Email from NH to CBC issuing the minutes from the meeting on the Joint Noise Position Statement.  |
| 17/01/2022 | Email                  | Email from CBC to NH asking if the next 428 Strategic Stakeholder Board meeting is going ahead on 20/01/22.   |
| 18/01/2022 | Meeting                | Meeting between NH and CBC to discuss Sandy Air Quality Management Area (AQMA).   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 19/01/2022 | Email                  | Email from NH to CBC issuing the Joint Noise Position Statement for CBC comment.  |
| 20/01/2022 | Email                  | Email from NH to CBC issuing a draft statement on Baseline Traffic Monitoring.  |
| 21/01/2022 | Email                  | Email from NH to CBC with the Flood Risk Assessment Technical Note submitted at Deadline 6 of the Examination.  |
| 21/01/2022 | Email                  | Email from NH to CBC with an updated SOCG for them to review and update, advising them it needs returning on 01/02/22.  |
| 24/01/2022 | Email                  | Email from CBC to NH with minor amendments to the Joint Noise Position Statement.   |
| 24/01/2022 | Email                  | Email from NH to CBC suggesting deletion of two paragraphs in the Joint Noise Position Statement.   |
| 24/01/2022 | Email                  | Email from CBC to NH suggesting not to delete the two paragraphs within the Joint Noise Position Statement.   |
| 24/01/2022 | Email                  | Email from NH to CBC with timescales for the Joint Noise Position Statement (Deadline 9) and the SOCG (Deadline 10).  |
| 24/01/2022 | Email                  | Email from NH to CBC with the Deadline 9 version of the Joint Noise Position Statement following legal review.  |
| 24/01/2022 | Email                  | Email from CBC to NH confirming agreement to the Joint Noise Position Statement to be submitted at Deadline 9.  |
| 25/01/2022 | Email                  | Email from NH to CBC with one further change to the Deadline 9 version of the Joint Noise Position Statement.   |
| 25/01/2022 | Email                  | Email from CBC to NH confirming agreement to the amendment to the Joint Noise Position Statement to be submitted at Deadline 9.   |
| 25/01/2022 | Email                  | Email from CBC to NH confirming the CBC position with regards to Baseline Traffic Monitoring.   |
| 25/01/2022 | Email                  | Email from NH to CBC and BBC advising them that as their positions on construction baseline monitoring and different it is best to submit separate position statements. |

| Date       | Form of correspondence | Key topics discussed and key outcomes  |
|------------|------------------------|--|
| 25/01/2022 | Email                  | Email from NH to CBC advising them they will receive an invited to collaborate on shared documents, the first being Local Highway Design Standard. NH ask CBC to add comments and review and to let NH know when done so a meeting can be arranged to discuss.                           |
| 26/01/2022 | Email                  | Email from NH to CBC answering query raised regarding Local Highway Design Standard document and suggesting a meeting with the subject matter experts to discuss any other queries.  |
| 26/01/2022 | Email                  | Email from NH to CBC answering query raised regarding Local Highway Design Standard document and suggesting a meeting with the subject matter experts to discuss any other queries.  |
| 26/01/2022 | Email                  | Email from CBC to NH confirming receipt of the noise and mitigation JPS and points raised in email.  |
| 28/01/2022 | Email                  | Email from CBC to NH requesting to be kept posted on news coverage of F44 excavations.   |
| 28/01/2022 | Email                  | Email from NH to CBC outlining potential news coverage and an updated on the podcast.  |
| 28/01/2022 | Email                  | Email from NH to CBC with DCO and legal table extracted from the SOCG for review.  |
| 31/01/2022 | Email                  | Email from NH to CBC asking if they will be able to review and comment on the DCO and Legal table extracted from the SOCG by the following day.  |
| 01/02/2022 | Email                  | Email from NH to CBC advising them of upcoming news coverage of the F44 excavations.   |
| 01/02/2022 | Email                  | Email from CBC to NH advising them that they are still waiting for colleagues comments on the SOCG before they can issue it back. CBC asked NH if it's worthwhile delaying issuing the SOCG until the proposed NH meeting at the end of the week so outstanding issues can be addressed. |
| 01/02/2022 | Email                  | Email from NH to CBC advising they will discuss their proposal to wait to issues the SOCG until the end of the week with their colleague when they return to the office the following day.   |

| Date       | Form of correspondence | Key topics discussed and key outcomes   |
|------------|------------------------|---|
| 02/02/2022 | Email                  | Email from NH to CBC advising them to send the SOCG back as soon as it's been reviewed so NH can begin their review advising them that If there are any subsequent updates following the meeting on Friday, these can be sent through separately. |
| 04/02/2022 | Meeting                | Meeting between NH and the LHAs on Construction and Operational Phase monitoring.   |
| 07/02/2022 | Email                  | Email from NH to CBC following up on the previous SOCG email asking when they will be sending it over.  |
| 07/02/2022 | Email                  | Email from CBC to NH agreeing to attend environmental regulator engagement meetings and advising who from the CBC team should attend these meetings.  |
| 09/02/2022 | Email                  | Email from NH to CBC with updated Joint Noise Position Statement for CBC comment.   |
| 09/02/2022 | Email                  | Email from NH to CBC on the Rule 17 Letter received from PINS and in particular questions regarding the High Pressure Pipeline Diversion.   |
| 10/02/2022 | Email                  | Email from CBC to NH with the updated SOCG.   |
| 11/02/2022 | Email                  | Email from CBC to NH with no comments on the updated Joint Position Statement ahead of Deadline 10.   |

- 2.1.2 It is agreed that this is an accurate record of the key engagement and consultation undertaken between (1) National Highways and (2) CBC in relation to the issues addressed in this SoCG.
- 2.1.3 The issues and matters highlighted in Section 3 of this SoCG summarise the key issues that have been identified in relation to a number of key areas of the DCO application.

### 3 Issues Raised

Table 3-1 – DCO and Legal Matters

| Issue                 | Document Reference                        | National Highways Position   | Central Bedfordshire Council Position   | Status     | Date     |
|-----------------------|---|--|---|------------|----------|
| Draft DCO Definitions | Draft Development Consent Order [APP-025] | <p>The draft DCO (dDCO) definitions are appropriate for the Scheme.</p> <p>The updated dDCO submitted at Deadline 1 included the date of the planning permission referred to within the definition of "advanced works permission".</p> <p>While National Highways does not agree that these elements should be deleted from the definition of "commence" we are proposing to submit an updated pre-commencement plan at Deadline 6. This definition has been subject to change during the course of the Examination. At Deadline 4 National Highways submitted a revised dDCO with a new definition of "pre-commencement works" to clearly identify the works classed as pre-commencement works and therefore captured by the "pre-commencement plan" – this plan (see Schedule 2 requirements) was submitted at Deadline 4 and updated at Deadline 8 (see [REP8-008]) and will be a</p> | <p>CBC has suggested the following amendments:</p> <ul style="list-style-type: none"> <li>• Definition of "advanced works permission" on page 5 – insert date of planning permission as 8th April 2021.</li> <li>• CBC would recommend the following underlined elements are deleted from the definition of "commence" in the draft DCO</li> </ul> <p>"commence" means beginning to carry out any material operation (as defined in section 56(4) of the 1990 Act) forming part of the authorised development other than operations consisting of archaeological investigations and mitigation works, <b>environmental surveys, pre-construction mitigation works, investigations for the purpose of assessing and monitoring ground conditions and levels, remedial work in respect of any contamination or other adverse ground conditions, erection of any</b></p> | Not agreed | 14/02/22 |

| Issue                            | Document Reference                        | National Highways Position  | Central Bedfordshire Council Position  | Status  | Date     |
|----------------------------------|---|---|--|---|----------|
|                                  |   | <p>certified document, and in National Highways' view gives comfort those early works are subject to appropriate controls including in respect to traffic management (see paragraph 3.1.49)</p> | <p>temporary means of enclosure, temporary hard standing, receipt and erection of construction plant and equipment, diversion and laying of underground apparatus and utilities, protection works, demolition (save in relation to Brook Cottages), site clearance, construction compound set up, and the temporary display of site notices or advertisements and "commencement" is to be construed accordingly.</p> <p>It is also the view of CBC that the traffic implications of the 'advance works' need to be addressed, both specifically and under the wider controls of the OCTMP. At present a large number of activities, classed as 'advanced works' with potentially significant traffic implications, are excluded from these controls.</p> |   |          |
| Draft DCO Articles/powers sought | Draft Development Consent Order [APP-025] | The articles and schedules in the dDCO contain those powers required by National Highways to deliver the Scheme. The powers sought are appropriate for the Scheme.                              | See comments elsewhere.  | Agreed, (subject to specific articles set out below). | 10/02/22 |

| Issue                  | Document Reference  | National Highways Position  | Central Bedfordshire Council Position   | Status      | Date     |
|------------------------|---|---|---|-------------|----------|
| Draft DCO Requirements | <p>Draft Development Consent Order [APP-025]</p> <p>First Iteration Environmental Management Plan [APP-234] (see also version 2 submitted to Examination at Deadline 6, version 3 at Deadline 9 [REP9-009] and [TR010044/APP/6.8v4] at Deadline 10)</p> <p>Joint Position Statement with CBC and NH on discussions regarding noise and mitigation measures [REP6-046]</p> | <p>The requirements set out in Part 1 of Schedule 2 of the dDCO are appropriate and provide a suitable framework for securing the necessary and relevant environmental mitigation measures and other environmental control measures.</p> <p>The procedures for discharge requirements as set out in Part 2 of Schedule 2 of the dDCO are appropriate and satisfactorily involve CBC. Refer to rows below.</p> | CBC has requested amendments to the draft DCO requirements (and/or the documents incorporated by reference in Schedule 2) as follows (see CBC representation dated August 2021): - refer to rows below. | Not agreed. | 10/02/22 |

| Transport Assessment - Sandy                    | Transport Assessment Report – Part 1 [APP-241]<br>Transport Assessment – Part 2 [APP-242] | VISSIM model outputs are considered more reliable in this instance and reveal that traffic levels through the town centre of Sandy are not predicted to significantly increase as a result of the Scheme.<br><br>As set out in the Air Quality section of this SoCG, the Saturn model is the appropriate model to use for the environmental (including air quality) work. This is because the air quality assessment covers a large area, where potential changes in traffic may occur. The SATURN model is a strategic transport model that provides national coverage with a more detailed focus on the area | Other comments for discussion and clarification:<br><br>The Strategic model identifies significant increases in traffic movements through the centre of Sandy (in the order of 3,928 vehicle movements within a 12-hour period), as a result of traffic re-routing onto St. Neots Road to avoid southbound congestion at the A1/A603 junction to the west. This is not an unexpected impact based upon the increased levels of north-south flow predicted following the completion of the A428 scheme and known capacity issues already identified at the A1/A603 junction. | Not Agreed |            |

|       |                    | <p>impacted by the Scheme whereas the localised coverage of the VISSIM models that are intended to model specific local junctions would not allow a full evaluation of air quality effects on sensitive receptors over a wider area.</p> | <p>The more detailed VISSIM work (summarised in section 3.18 of the Transport Assessment Annex (APP-243)) however predicts little overall change in the operation of either the A1/A603 junction or changes in flow on St. Neots Road. Whilst it is accepted that VISSIM modelling can be more representative than strategic models when assessing congested networks, the results of the VISSIM model do currently appear counterintuitive, with increased flows on all but one arm of the A1/A603 junction (and an overall net increase of 300 vehicle movements (actual flow) through the junction in the AM peak hour between the 'Do-Minimum' and 'Do-Something' scenarios) resulting in generally improved journey times, and with minimal traffic choosing to route through Sandy to avoid the southbound A1 queues. It is also noted that NH propose that CBC rely upon the Strategic Model flows when considering issues of traffic related air quality within Sandy.</p> |        |      |

|---|--|--|---|---|-------------------|
| <p><b>General</b><br/>Approach to modelling</p> | <p>Chapter 5, Air quality [APP-074]<br/>Chapter 11, Noise and vibration [APP-080]<br/>Chapter 13, Road drainage and the water environment [APP-082]<br/>Combined Modelling and Appraisal Report [APP-252]<br/>Applicant's Comments on Deadline 6 Submissions, response to Rep6-091s [REP8-010]</p> | <p>Modelling of existing and future conditions and changes, and the effects and risks of the Scheme, has been undertaken as part of the Air quality, Noise and vibration and Road drainage and the water environment assessment.</p> <p>National Highways considers that the approaches to modelling are appropriate.</p> <p>The Saturn model is the appropriate model to use for the environmental (including air quality) work. This is because the air quality assessment covers a large area, where potential changes in traffic may occur. The SATURN model is a strategic transport model that provides national coverage with a more detailed focus on the area impacted by the Scheme. The spatial coverage is illustrated in Figure 3.2 of the Combined Modelling and Appraisal Report [APP-252]. The VISSIM models were developed to provide a more detailed assessment of local areas, particularly with respect to assessing the detailed traffic and operational impacts of the Scheme.</p> | <p>CBC is content with the approaches applied to modelling existing and future conditions and changes, and the effects and risks of the Scheme, and that the parameters included/ considered in the modelling are appropriate.</p> <p><u>Matters discussed at an air quality and noise and vibration SOCG meeting with CBC on 23.07.202</u></p> <p>Agreed for air quality and noise and vibration except for air quality modelling at Sandy.</p> <p>For air quality modelling at Sandy, the Saturn model has been used for traffic data, but NH's highways/traffic advisors have advised that the VISSIM model is more accurate for this area that shows significantly greater traffic on the A1 adjacent to Carter Street, Sandy where 7 residential properties are exposed to increased pollution. This air quality assessment should be sensitivity tested using the traffic data from the VISSIM model.</p> | <p>Agreed except for air quality modelling for Sandy AQMA, which is not agreed.</p> | <p>09/12/2021</p> |

|-------|--------------------|--|---------------------------------------|--------|------|
|       |                    | <p>Given the localised coverage of the VISSIM models that are intended to model specific local junctions a full evaluation of air quality effects on sensitive receptors over a wider area using VISSIM models would not be possible. Additionally, the SATURN model includes traffic projections for the AM, inter peak and PM peak time periods. These can be factored to account for the full 24-hr period assessed for air quality. The VISSIM models only consider the AM and PM peak hours, which would be insufficient for the air quality assessment.</p> <p>In order to demonstrate the robustness of the SATURN on the A1 near Sandy, the modelled traffic flows were compared with the nearest available traffic monitoring site on the A1 to the south of Tempsford, just north of Sandy. The table below compares the modelled with the observed flows for the A1 south of the Tempsford Junction. This shows that modelled flows were all within 3% of observed flows across the 3 modelled time periods. This indicates a very good match</p> |                                       |        |      |

|       | <p>Environmental Masterplan [APP-091] [REP9-037]</p> <p>First Iteration EMP [APP-234]</p> <p><u>V4</u><br/>[TR010044/APP/6.8v4]</p> <p>Schedule of mitigation [APP-235]</p> <p>Applicant's response to CBC's Local Impact Report [REP3-009]</p> <p>Applicant's Response to the Relevant Representation [REP1-021]</p> <p>Applicant's response to responses to ExA's 2WQ [REP5-015]</p> | <ul style="list-style-type: none"> <li>The essential mitigation measures set out in the First Iteration EMP [APP-234] [TR010044/APP/6.8v4] are appropriate to avoid, prevent, reduce, manage, control and (where necessary) monitor the adverse effects of the Scheme.</li> </ul> <p>As set out in the Applicant's response to CBC's Local Impact Report [REP3-009], National Highways resources include a dedicated customer team who will work with the local authorities to ensure complaints are managed in a timely and effective manner. They will also provide a direct means of contact with the team and will not rely on meetings as the only means of interaction and collaboration. Frequency of meetings will be agreed in consultation with each local authority. However, we expect customer interaction may fluctuate and have the means to adjust resources according to demand. National Highways is committed to regular and timely communications regarding customer complaints and recognises resource concerns raised by CBC within the Joint position</p> | <p>that, and this should be incorporated into the draft DCO requirements.</p> <p>CBC's experience is that the failure in site dust controls that give rise to complaints tend to be because of poor implementation and management controls. Again, Annex A [APP-234] and the associated tables set out a number of management measures that will be implemented to ensure dust controls are effective and we are encouraged by this.</p> <p>Whilst the measures include a website where residents can report complaints, our experience is that residents prefer to complain to their Local Authority rather than the source of the problem. Therefore, close liaison and contact details for relevant Site Managers or other Senior Officials will need to be clearly established to deal with issues as and when they arise. Table A-3 of the First Iteration Environmental Management Plan [APP-234] says that "<i>Regular liaison would be undertaken with the relevant local authorities, this would include discussing any complaints that had been received.</i>" However</p> |        |      |

|       | <p><b>[REP6-046], [REP9-020] and [TR010044/EXAM/9.86v3]</b></p> <p>9.93 Applicant's Comments on Deadline 6 Submissions <b>[REP8-010]</b></p> | <p>adhered to throughout Scheme construction. The following amendments to Requirement 19 (2) have been proposed following a meeting held with Cambridgeshire authorities on 11 January 2022:</p> <p>(I) deleting 'including but not' from Requirement 19 (2)</p> <p>(ii) sub clauses (k), (m), (n), and (o) would require agreement with the relevant local authority in advance of works described in these sub clauses taking place</p> <p>These proposals are set out in response to REP6-058ai on page 38 of REP8-010. These changes will be reflected in the draft DCO to be submitted at Deadline 10.</p> <p>National Highways does not accept that it is necessary to change the core working hours as set out in Chapter 2, The Scheme <b>[APP-071]</b> of the Environmental Statement, as these time periods are required in order to deliver the Scheme within the overall construction programme. A consequence of a change to the core working hours would be an extension to the construction programme. However, National</p> | <p>1pm on Saturdays and no working on Sundays or Bank Holidays. However, in view of the size and scale of the project, CBC would consider it would be appropriate to allow variation to these hours where particular circumstances required this and appropriate mitigation measures were in place and requests the draft DCO requirements to be updated in this respect. For such a major project, it will be essential to ensure that any noise impacts are robustly controlled in accordance with the provisions of BS5228:2009 Parts 1 &amp; 2 at all times and that this is a requirement of the draft DCO.</p> <p>CBC's concern for this phase of the project relate to the identification of significant adverse daytime and night-time noise impacts on a small number of receptors in our area who will see noise levels as a result of the new road scheme increase by around 9dB. The project team are not proposing any further mitigation beyond the embedded mitigation measures already identified to try and address these significant adverse impacts i.e. therefore the +9dB increase will be present even</p> |        |      |

| Issue | Document Reference | National Highways Position   | Central Bedfordshire Council Position   | Status     | Date         |
|-------|--------------------|--|---|------------|--------------|
|       |                    | <p>Highways is willing to engage in discussions with CBC so that agreements can be sought when working close to sensitive locations, such as residential properties, or where there are specific activities, such as during school exams, where noise from construction could potentially be minimised. Where appropriate, discussions will be held with CBC on these matters during the detailed design stage where mitigation can be discussed in more detail. This engagement will be secured in the next revision to the First Iteration Environmental Management Plan [APP-234] [TR010044/APP/6.8v4].</p> <p>None of the properties specifically identified by CBC are predicted to experience an increase in traffic noise which results in traffic noise levels above the Significant Observed Adverse Effect Level (SOAEL), and thus do not experience significant adverse effects in terms of the policy aims set in Noise Policy Statement for England (NPSE) and National Policy Statement for National Networks (NPSNN).</p> | <p>with the embedded mitigation in place. The report states that noise bunds and barriers have been considered, but these have been discounted either because they are not considered to be effective or on cost grounds. We would contend that these are not the only mitigation measures that could or should be considered.</p> <p>Not agreed with operational effects at receptors R16, R17 and R18. Having reviewed the additional information provided by National Highways, it is clear that receptors at Rectory Farm are likely to see ambient noise levels increase by between 10.8 and 14.5dB (daytime) and by 9.3 to 10.7dB (night-time) on two of the residential facades. In both cases, this is a Major increase under the DMRB assessment methodology and is likely to impact on the amenity and quality of life of residents at this location. Although National Highways have pointed out that LA<sub>max</sub> values are not considered under the DMRB methodology, the reality is that such a substantial increase in ambient noise levels as a result of a single source is likely to have a consequent impact on LA<sub>max</sub>.</p> | Not Agreed | February2022 |

|-------|--------------------|--|--|--------|------|
|       |                    | <p>The predicted traffic noise levels at these properties are fairly low, with isolated properties being generally around the Lowest Observed Adverse Effect Level (LOAEL). Therefore, although these are not significant in terms of policy, NPSNN still requires mitigation to minimise levels to be considered, within the context of sustainable development.</p> <p>National Highways refers CBC to its response to section 10.3 of REP1-055h [REP3-008] which confirms that mitigation measures have been incorporated into the design of the Scheme to minimise adverse operational traffic noise effects due to the Scheme, however, some residual adverse effects will remain. This is acceptable within the context of sustainable development as factors other than solely noise must also be considered. The responses also sets out the noise mitigation measures it has considered to reduce the magnitude of predicted operational noise increases due to the Scheme at residential properties within the CBC area. These include:</p> <ul style="list-style-type: none"> <li>• 1 and 2 The Barns, Little Barford Road</li> </ul> | <p>values from that source (e.g. from a loud motorbike or vehicle pass-by), which are considered to be relevant for night-time sleep disturbance under WHO Community Noise Guidelines (1999) and BS8233:2014. Again, we would contend that this is an adverse impact result for those receptors in particular.</p> <p>CBC requested further details from National Highways on what the actual predicted operational noise levels for the road scheme will be for the project at Receptors R16, 17 &amp; 18 that fall within Central Bedfordshire which were provided on 2 September 2021 (day time levels) and 5 October 2021 (night time levels).</p> |        |      |

|-----------------------------------|---|--|---|------------|------|
| Highways Design General Matters   |   |  |   |            |      |
| Impact on Sustainable Development | <p>General Arrangement Plans <b>[APP-011]</b></p> <p>Streets, Rights of Way and Access Plans <b>[APP-013]</b></p> | <p>East West Rail has now completed their non-statutory consultation. Until East West Rail has determined the route and locations of the proposed stations, it is not appropriate for National Highways to make or coordinate any specific provision for any new infrastructure which may be required as part of the East West Rail scheme.</p> <p>The design of Barford Road is a replacement of the existing infrastructure. The existing infrastructure does not include provision for walkers, cyclists and/or horse-riders and therefore this is not proposed in the design of the Barford Road side road diversion or over bridge.</p> <p>The preliminary design for Barford Road including the bridge crossing has been developed and agreed in</p> | <p>Failing to properly consider and make provision for pedestrian and cyclist access under and over the new A428 in this location will provide a huge barrier to that growth and its ability to come forward as a sustainable (and therefore appropriate) scheme. This is further emphasised by the recent East West Rail (EWR) consultation dated 31st March – 9th June 2021 (Section D, page 212), which proposes a new station either north or south of the A428 in this location.</p> <p>The proposed works to Barford Road have the potential to create a barrier to longer term sustainable movement North and South. Where the new dualled A428 passes under Barford Road, the bridge will enable access across the new dual carriageway for vehicles.</p> <p>Specifically, sufficient additional width is requested on the deck of the Barford Road bridge to accommodate</p> | Not Agreed |      |

| Issue                                   | Document Reference                            | National Highways Position   | Central Bedfordshire Council Position  | Status | Date       |
|---|---|--|--|--------|------------|
|   |   | <p>consultation with CBC as the maintaining highway authority.</p> <p>The proposed structure over the East Coast Main Line includes vehicular access through the side spans for landowners. No provision has been made for pedestrians and cyclists alongside the East Coast Main Line as there are no existing rights of way within the area.</p> <p>Details of the proposals are included within the General Arrangement Plans <b>[APP-011]</b> and the WCH provisions are included within the Streets, Rights of Way and Access Plans <b>[APP-013]</b>.</p> | <p>pedestrian and cycle provision and sufficient retained width is requested passing under the East-Coast Mainline Bridge to enable future pedestrian and cycle provision.</p> <p>The lack of provision is considered to be contrary to the NPPS requirements to provide sustainable infrastructure (para. 4.29) and to improve access by sustainable modes where relevant (5.208).</p>  |        |            |
| Traffic Modelling Output – Barford Road | Transport Assessment Annex <b>[APP-243]</b> . | National Highways has set out all impacts on the wider road network (including Barford Road Roundabout) within the Transport Assessment Annex <b>[APP-243]</b> . Information relating to the Barford Road Roundabout is within section 3.12.   | The diversion route for the Wyboston to Black Cat junction is considerable and the expectation is that traffic travelling between the A1 and the A428 will instead select to route via Barford Road rather than following the diversionary route. As such further consideration should be given to the monitoring of the related diversion and/or the split between diversionary signage for local and longer distance traffic. It is also noted that there are proposals for a haul | Agreed | 09/12/2021 |

| Issue  | Document Reference   | National Highways Position   | Central Bedfordshire Council Position   | Status     | Date |
|--|--|--|---|------------|------|
|  |  |  | road crossing on Barford Road, (para 3.2.3 of the OCTMP [APP-244]). The timing of any closures and any associated diversions should also be considered in the context of the proposed works to Barford Road itself to ensure no conflict between the two. CBC would welcome discussion with NH on mitigation.   |            |      |
| Impact of Construction Phase upon the Highway Network      | Transport Assessment [APP-241] and [APP-242] and the Transport Assessment Annex [APP-243]. | National Highways has provided comprehensive construction traffic flow impacts in the Transport Assessment [APP-241] and [APP-242] and the Transport Assessment Annex [APP-243]. Results from the assessments undertaken have been presented to local councillors, officers and local forums of all the local authorities.<br><br>Further information was provided at Deadline 9 regarding the construction HGVs [REP9-035]. | Matters discussed at a meeting held on 12 August 2021. Whilst the Transport Assessment and subsequently provided construction phase flow plots identify the construction phase effects of the Scheme, CBC are not currently content that construction phase impacts have been addressed. CBC do not consider that the proposals put forward by NH for construction phase monitoring at deadline 9 adequately address the concerns previously raised and discussed, CBCs proposed approach to monitoring and managing construction phase impacts is outlined in the Joint LHA Deadline 6 submission. | Not Agreed |      |
| The Outline Construction Traffic Management Plan [APP-244] | CBC Relevant Representation [RR-016b]  | The Outline Construction Traffic Management Plan (OCTMP) [APP-244] sets out the temporary traffic management processes that will be followed for the safe and  | It is the view of CBC that, whilst the overarching principles of the OCTMP are supported, there are a number of elements of the plan that are not agreed, due to unknown constraints  | Not Agreed |      |
