Dear Sirs

With regards **3. Request for confirmation from the Environment Agency on the Flood Risk Assessment documents**

We believe there was a referencing error during the Examination. We consider that the most recent version of the FRA Technical Note is dated 15 February 2022 and this is version 2. This is the version that includes floodplain compensation proposals for the construction compound located in Flood Zone 3 (section 12) and is therefore the version that should be listed in Schedule 10 to the dDCO. On this basis, we can confirm that the documents listed in Schedule 10 to the dDCO are those agreed with the applicant.

Kind regards

Neville Benn
