20 April 2021

Planning Inspectorate Case Team M54/M6

M54 to M6 Link Road Scheme – Deadline 9

Please find enclosed the following documents from the Applicant which have been requested by the Examining Authority before the close of the Examination:

- Document 1.5 Guide to the Application (version P17 to supersede version P16 submitted on 16 April 2021). Clean and tracked changes versions; and
- Document 8.29 Planning Obligation relating to Whitgreave's Wood.

The enclosed Planning Obligation relating to Whitgreave's Wood has been executed by both the Applicant and the National Trust and completed today.

The Applicant has noted the submissions made at Deadline 9 on behalf of Allow Limited and M6 Diesel as well as the submissions made by Mr D Williams and the Ministry of Defence. Those submissions do not alter the representations previously made by those parties and, in the case of the Ministry of Defence, confirm no safeguarding objections. The Applicant accordingly refers the Examining Authority to the Applicant's previous written submissions in response to the issues raised.

In relation to Cadent Gas, it is noted that the three areas identified in Cadent's Deadline 9 response now mirror those already addressed by the Applicant at Deadline 8. As previously advised, the Applicant is meeting with Cadent Gas today, 20 April, and remains in ongoing dialogue with Cadent Gas. The Applicant will provide a further update should progress be made and the outstanding points be resolved.

Please feel free to contact me if you have any queries.

Yours sincerely

Andrew Kelly
