

Agenda Item 3

Annex C

I would like to see the following included â€“

Cumulative Impact â€“ Understandably White Hill Cottage has been specifically mentioned. I would suggest that particular regard is also given to all the other properties in close proximity to the works along Easton Lane and Long Walk.

Flood Risk â€“ I would like to see particular regard given to those properties with a domestic borehole close to the project, particularly Shoulder of Mutton Farm where the borehole is just 50-100m from the proposed infiltration basin.

Traffic and Transport â€“ Bridleway 502 and 520 and Sustrans 23 have been mentioned. I would suggest that consideration is also given to Itchen Valley Footpaths 20, 21, 22, 49, 52 and Restricted Byeway 19.
