Subject: Support for Option 30
Date: 02 October 2021 16:10:41

Good afternoon

Please take this email as confirmation of my support for Option 30. This option presents a long term solution with the least impact to the countryside setting and current road usage. It limits noise and visual impact and I do not think anything further needs to be considered.

Under no circumstances do I think Option 12 is a suitable alternative.

Regards
Rebecca Scanlon-Brown
