

Picture 1 –This is where the road will cross Cowley Lane, straight through the centre of Stockwell Farm, having destroyed 2 small farms on the way.

Picture 2 –This is what it will become with Option 30, with another bridge 700mtrs to the right to reconnect the severed farm

Picture 3 – Shows the junction of Cowley Lane with the existing A417 which Option 12 makes dual carriageway, taking only a small part of the farm's edge and leaving all wildlife undisturbed. Which legacy do we want to leave to our grandchildren ?
