---

Dear Sirs

**Re A417 Missing Link – your ref TR010056 – Mr and Mrs D Field**

Further to your letter dated 5<sup>th</sup> April 2022, please can we request the opportunity to speak at the Compulsory Acquisition Hearing 3. It is anticipated that attendees 'on screen' will be myself and Mr and Mrs Field although the presentation of evidence will be just myself.

The Plots we wish to comment on are in the 1/3 series, but specifically Plot 1/3d.

The title of this email contains two reference numbers on account that I have received two emails on this subject. I assume one reference applies to myself and one to Mr and Mrs Field. I trust this is acceptable; if not please make contact with me either via email or on [REDACTED]

We will provide a written statement of case either by the due date or earlier if we hear from National Highway with our outstanding requests for information on Plot 1/3d and the layby provision.

QUERY – I note from the new Land Plans that Plot 1/3b is now 'white'. Is this an error and should in fact be blue?

I look forward to hearing from you.

Yours sincerely

Bruce Fowler MRICS
