Dear Sir/Madam

**DEADLINE 1 – APPLICATION BY HIGHWAYS ENGLAND FOR A DCO FOR THE A1 IN
NORTHUMBERLAND – MORPETH - ELLINGHAM**

I write in regards to the above and Deadline 1.

We have previously notified of you of our desire to be treated as an Interested Party and have the right to speak.

We represent a number of landowners and occupiers along the route from Alnwick to Ellingham as previously advised.

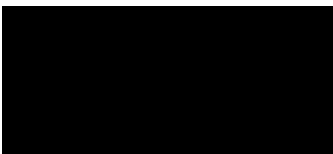

We have been in negotiation with Highways England to resolve issues that have arisen but to date some issues remain unresolved and we therefore ask if we can be included as a participant and/or attend the following on behalf of our clients:

1. Open Floor Hearings
2. Issue Specific Hearings
3. Compulsory Acquisition Hearings
4. Accompanied Site Inspections

We appreciate that this is a late submission but would ask the Inspectorate to consider our inclusion. We have been working with Highways England and their agents to resolve some outstanding matters and it is only come to light very recently that there are issues that currently remain unresolved.

We of course are working to see if these can be resolved, which would mean that our attendance is not required, but we would request that we are included as a participant on behalf of our clients in the interim. We would notify you if we got matters resolved and did not need to be involved any further.

Yours faithfully

Louis Fell MRICS
