The Applicant served a counter notice in July 2019 such that it should only be required to purchase the part of the property required for the proposed design of the Scheme at that time. The Beal family accepted the counter notice in September 2019, resulting in the Applicant agreeing to acquire the main farmhouse, outbuildings and some 42 acres of agricultural land. There have been numerous meetings over the last few years with both the Beal family and their representatives. It is understood that the intention of the Beal family is to construct a replacement residential property and associated farm buildings on retained land to the west of the A1. Valuation discussions have been ongoing although, until</p>

										<p>more recently, little progress had been made in reaching a position agreeable to all parties. In order to try and ease the impact and assist the Beal family to progress the new dwelling the Applicant has agreed to advance an enhanced deposit upon agreement and signing of a contract of sale. It has been agreed that this agreement can be for all or part of the total acquisition requirements whichever can be agreed.</p> <p>Current Position – The Applicant has agreed to assist with planning and architect fees and has arranged for early discussions with NCC planning department. With the recent appointment of an alternative land agent a valuation has been received by the DV for all the land and buildings included within the counter notice. This has been considered in detail by the DV and, following a telephone meeting with the land agent on 28 April 2021, a counter offer has been submitted. It is understood that the land agent will now discuss this offer with the Beal family. Once these matters have been agreed discussions can then move to developing a list of further claim items for review by the DV.</p>
